COMPLETE GUIDE · THE CLUB, SETUP AND EVERY SCREEN

Gym & Fitness Club Management for Odoo 19

Memberships that bill themselves, a front door that checks the contract, a class timetable with a waitlist, personal training and trainer pay. Every screen and every step, shown on a live demo. No Odoo background needed.

START About this guide

A gym sells time: a month of access, a block of classes, ten hours with a trainer. Everything in the system is about knowing who has paid for which time, letting them use it, and billing the next piece before the last one runs out. This guide walks through all of it, one screen at a time. You do not need to have used Odoo before.

Who it is for

The owner or club manager setting the club up, the front desk who checks members in and sells contracts, the trainers who teach classes and personal training, and anyone being shown the system for the first time.

How to read it

Front to back the first time. Each part opens with what you will learn and a short thing to try on the live demo, then walks every field and button, step by step, with a numbered screenshot for each step.

The live demo

Peak Fitness Club, a worked example club called Riverside Fitness with 55 members, four plans, a weekly timetable, three trainers and months of visits, bookings, holds, invoices and personal training already on it.

HOW IT WORKS

The demo club

Address	**gym-demo.way4tech.com**
Sign in	**w4demo** / **Demo2026**
Club	Riverside Fitness (code RS) · four studios · capacity 180
Second demo	**gym.way4tech.com**, the same app with the gym website theme on the front
Runs on	Odoo 19, Community edition, with Invoicing

> The demo is shared and resets from time to time, so treat it as a club to walk around, not your own books. Where a step would change data, the guide says so, so you can try it on your own database.

The demo runs the newest build of the module. Features not yet in the package on the Odoo app store carry a NEW BUILD badge; everything else is in the store package today. Part 16 lists them all.

What is in the guide

PART 1	How a fitness club runs, and how the app sees it	PART 2	Open the demo and find your way
PART 3	Set the club up from zero	PART 4	Members
PART 5	Contracts, billing, holds and renewals	PART 6	The front door: check in and check out
PART 7	The class timetable, bookings and the waitlist	PART 8	Personal training
PART 9	Body measurements and progress	PART 10	Trainers and what they are owed
PART 11	Reports	PART 12	Printed documents and emails
PART 13	On a phone or tablet, and the second demo	PART 14	A fifteen minute walk-through
PART 15	Questions people ask	PART 16	What is new in this build, and the menu map

PART 1 How a fitness club runs, and how the app sees it

Before any screen, the six things the module keeps track of and how they connect. Once these are clear, every menu in the app is just a list of one of them.

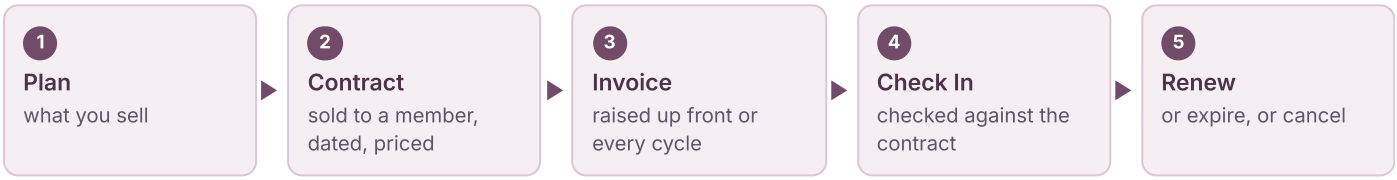

IN THIS PART YOU WILL LEARN

- The member, the contract and the plan, and why they are three records
- What happens at the door when a member scans in
- Classes, bookings and the waitlist
- Personal training as a block of sessions with its own diary
- The jobs the system runs on its own every night

A member is a person, a contract is what they bought

The **member** is the person: their name, photo, member number, health declaration, emergency contact, visits and measurements. The **contract** is what they bought: which plan, from when to when, at what price, how it is billed, and how much of it is still owed. A member keeps one record for life and collects a new contract every time they renew. The **plan** is the template the contract is sold from: Monthly Rolling, Annual Unlimited, a 10 Class Pack.

From the plan to the door

The door checks the contract, not a list

When a member arrives, the front desk presses **Check In** on their record. The system looks at their current contract and either lets them in or says, in a sentence, why not: no contract, on hold, ran out, owes money, used every credit, wrong club, or the club is full. The reason matters. A desk that only ever sees "denied" ends up waving everybody through. A second press the same day checks them out again.

Classes are booked against a capacity

A **recurring slot** says "Spin, Monday 06:30, Studio Spin Room, Marcus". The system writes each slot into the diary a few weeks ahead as individual **classes**. Members are **booked** onto a class until it is full; after that they go on the **waitlist** and are moved up in turn when somebody cancels. A cancellation too close to the start keeps the credit. When the class is over, anyone not marked present is counted as a no-show.

Personal training is a block with its own diary

A **PT package** is a block of sessions sold to one member with one trainer: ten sessions, valid six months. Each **session** is drawn from the block, planned into the trainer's diary, then delivered, missed or cancelled. Only delivered sessions pay the trainer. Classes and personal training sit in one diary per trainer, so nobody is booked onto the spin bike and the gym floor at the same hour.

What runs on its own

Seven scheduled jobs do the routine work: expire and renew contracts, raise the monthly and quarterly invoices, start and end holds, keep the timetable filled ahead, close finished classes, lapse unused PT blocks, and (once you turn it on) email members before their contract ends. They are listed with what each one does in Part 3.

Who does what

ROLE	CAN DO	CANNOT DO
Trainer	See members, the timetable and their own classes and PT sessions; mark attendance; record measurements and PT sessions	Check members in, sell contracts, see medical notes, change plans or settings
Front Desk	Everything a trainer can, plus check in and out, sell contracts and holds, book classes, sell PT packages, edit trainers	See medical notes, see the reporting menu, change configuration
Club Manager	Everything: arrears, at risk, reporting, configuration, medical notes, waiving PT charges, reopening PT blocks	Settings itself also needs the Odoo administrator right

PART 2 Open the demo and find your way

Everything in this guide can be followed on the live demo. It is a real Odoo 19 database with a club already trading.

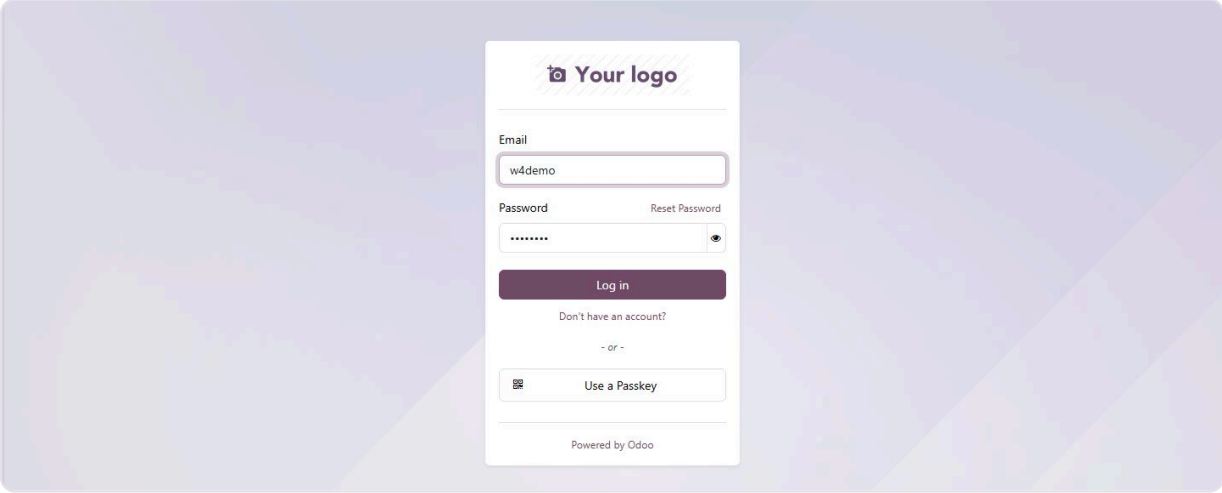

TRY IT YOURSELF ON THE DEMO

1. Open gym-demo.way4tech.com in any browser
2. Sign in with w4demo and Demo2026
3. Click Fitness Club, then Members
4. You are looking at the same screen as step 3 below

1 Go to the club

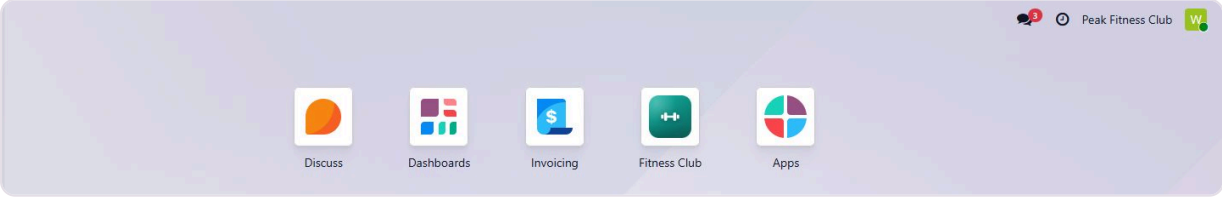

Open **gym-demo.way4tech.com**. The sign-in screen is the standard Odoo one. Sign in with `w4demo` and `Demo2026`.

This demo login is a Club Manager, so it can see every screen in the guide. A real club gives the desk and the trainers narrower roles.

2 Open the Fitness Club app

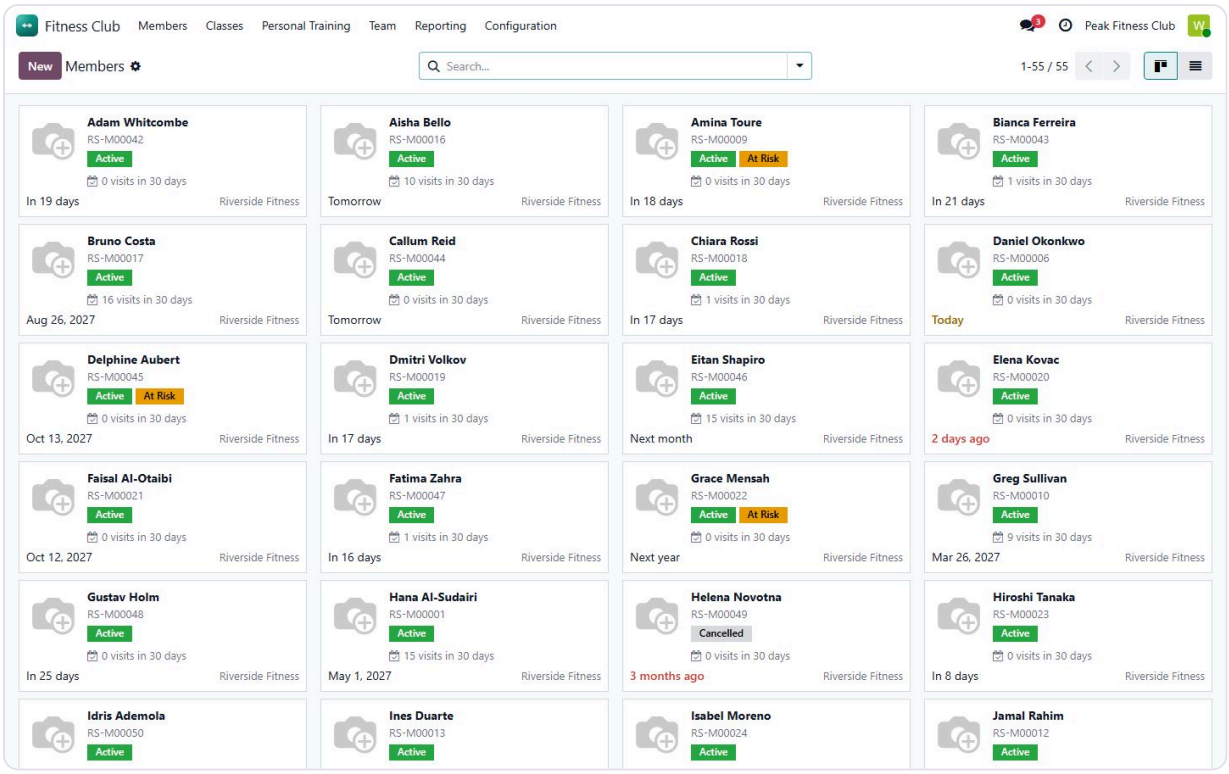

After sign-in you land on the Odoo home screen. **Fitness Club** is the app this guide is about. Invoicing sits next to it, because every contract and PT package is billed through standard Odoo invoices.

3 The menu bar

Inside the app the top bar holds six menus: **Members**, **Classes**, **Personal Training**, **Team**, **Reporting** and **Configuration**. Members opens on a card for every member, with their number, status, risk tag, visits in the last 30 days and when their contract ends.

The full menu map is on the last pages of this guide.

The menus at a glance

Members

Members	Every member: contract, visits, health, progress
Contracts	Every membership sold, its bills and holds
Check In	Every visit, who is inside right now
Arrears	Running contracts with money owed
At Risk	Active members who have stopped coming

Classes

Timetable	The class diary, booked against capacity
Bookings	Every place taken, waited for or missed
Recurring Slots	The weekly timetable the diary is built from

Personal Training

Packages	Blocks of sessions sold to a member
Sessions	The PT diary: planned, delivered, missed
Measurements	Body checks and progress over time

Team

Trainers	Pay basis, what they taught, what they are owed

Reporting

Membership Revenue	Contract value by plan and month
Attendance	Visits by day and club
Class Performance	Attendance and fill rate per class type
Trainer Pay	Personal training delivered, by trainer and month

Configuration

Settings	Reminder, late cancellation, timetable, PT validity
Clubs	Each site: code, hours, capacity, journal
Studios	The rooms classes are held in
Membership Plans	What is sold: term, price, billing, rules
Class Types	Spin, yoga, HIIT: length, credits, drop-in price
Holds	Every freeze, across all contracts

PART 3 Set the club up from zero

This is what a new club does on day one, before it sells anything: install the app, set four rules, and enter the club, its rooms, what it sells and the classes it runs. On the demo this is already done, so read it to understand what each setting means and where it lives.

IN THIS PART YOU WILL LEARN

- What installing the app brings with it
- The four club settings and a sensible value for each
- Clubs, their code, hours, capacity and billing journal
- Studios and why their capacity is the real limit on a class
- Products, then membership plans of four kinds
- Class types, credits and drop-in prices
- Roles for the desk, the trainers and the manager
- The seven scheduled jobs and what each one does

TRY IT YOURSELF ON THE DEMO

1. Open Configuration, then Clubs, and open Riverside Fitness
2. Open Configuration, then Membership Plans, and compare Monthly Rolling with the 10 Class Pack
3. Open Configuration, then Class Types, and open Barbell Strength

3.0 Install the app

In Apps, search for **Gym Management** and install it. It needs four standard modules and installs them for you: Base, Discuss (mail, for the chatter and the emails), Products, and Invoicing (account). It runs on Odoo 19 Community; nothing from Enterprise is needed. A new app called **Fitness Club** appears on the home screen. The administrator who installs it is made a Club Manager.

3.1 The four club settings

Configuration, then **Settings**, opens the standard Odoo settings page on the **Fitness Club** section. Changing settings needs the Odoo administrator right, so on the shared demo this menu is hidden from the demo login. The four values are kept per company.

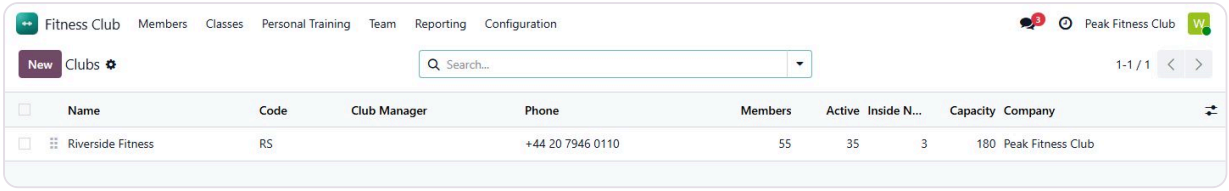

SETTING	DEFAULT	WHAT IT DOES
Renewal Reminder	14 days	How many days before a contract ends the member is emailed about renewing. The reminder job ships switched off; turn it on once your outgoing mail server works.
Late Cancellation	12 hours	Cancel a class booking or a PT session closer than this to the start and the member loses the credit or the session. It is the rule that keeps a full class full.
Timetable Horizon	4 weeks	How far ahead classes are written into the diary from the recurring slots, both by the Generate button and by the nightly job.
Package Validity	6 months	How long a block of personal training stays usable after its start date before unused sessions lapse. The expiry can still be moved by hand on a package.

3.2 The club

Configuration, then **Clubs**. One record per site. A single studio has one; a chain has one per location and members belong to a home club.

1 Open the club list

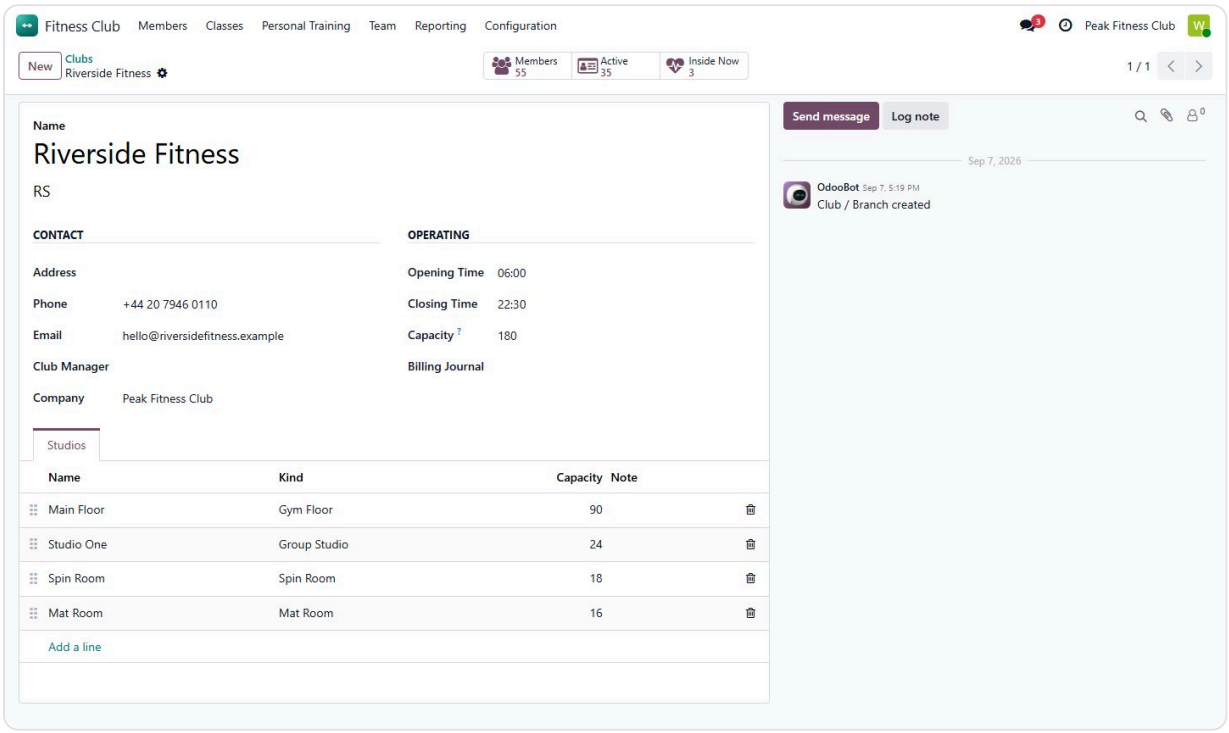

Each line shows the club, its code, manager, phone, how many members call it home, how many contracts are active, how many people are inside right now and its capacity.

2 Open the club

The **code** (RS here) goes in front of every member number and contract number of this club, so RS-M00014 and RS/MB/2026/00073 are both Riverside. Then the address, phone, email and club manager; the opening and closing time; the **capacity**, which is how many people may be inside at once (zero means no limit); and the **billing journal**, the sales journal its invoices go to. The **Studios** tab lists the rooms.

The three buttons across the top open the members, the active contracts and the people inside now. Inside Now is clickable in the new build NEW BUILD.

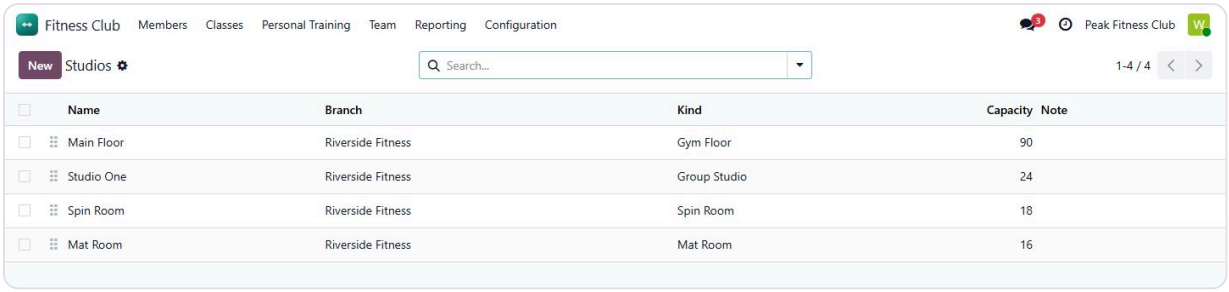

> The code must be unique within the company, and the capacity cannot be negative. Both are checked by the database, so an import cannot slip past them either.

3.3 Studios

3 One line per room

Configuration, then **Studios**. Each studio belongs to a club and has a **kind** (Group Studio, Gym Floor, Pool, Court, Spin Room, Mat Room), a capacity of at least one, and a note. The demo club has the Main Floor (90), Studio One (24), the Spin Room (18) and the Mat Room (16).

The room is the real limit. A class or a recurring slot cannot be set to take more people than its studio holds, and the studio must belong to the same club NEW BUILD.

Name	Branch	Kind	Capacity	Note
Main Floor	Riverside Fitness	Gym Floor	90	
Studio One	Riverside Fitness	Group Studio	24	
Spin Room	Riverside Fitness	Spin Room	18	
Mat Room	Riverside Fitness	Mat Room	16	

3.4 Products first

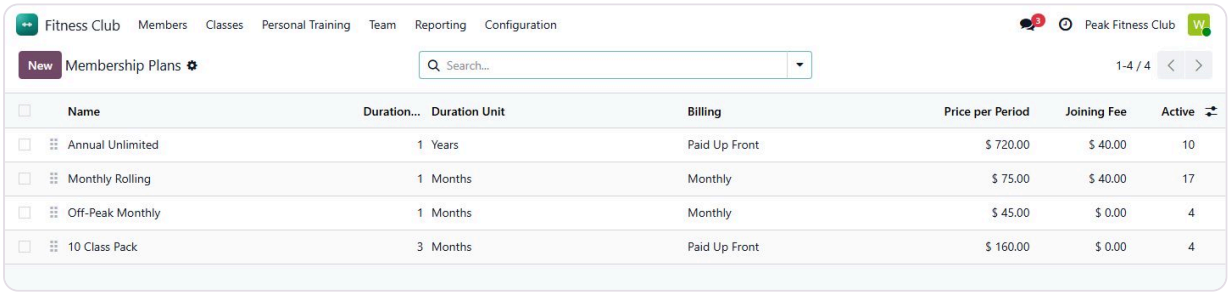

Every plan and every PT package points at an ordinary Odoo **product**, because that is what goes on the invoice: the income account and the tax come from it. Create a service product for each plan ("Monthly Rolling Membership"), one for the joining fee if you charge one, and one for personal training. Set the sales tax on the product; the contract picks up only the taxes that belong to its own company.

3.5 Membership plans

Configuration, then **Membership Plans**. A plan is what the desk sells. It sets the term, the price and how it is billed, what it includes, and the rules that protect the club. The demo has one of each common kind.

4 The plan list

Annual Unlimited at 720 paid up front; Monthly Rolling at 75 a month; Off-Peak Monthly at 45 with eight credits; and a 10 Class Pack at 160. The Active column counts the running contracts on each plan.

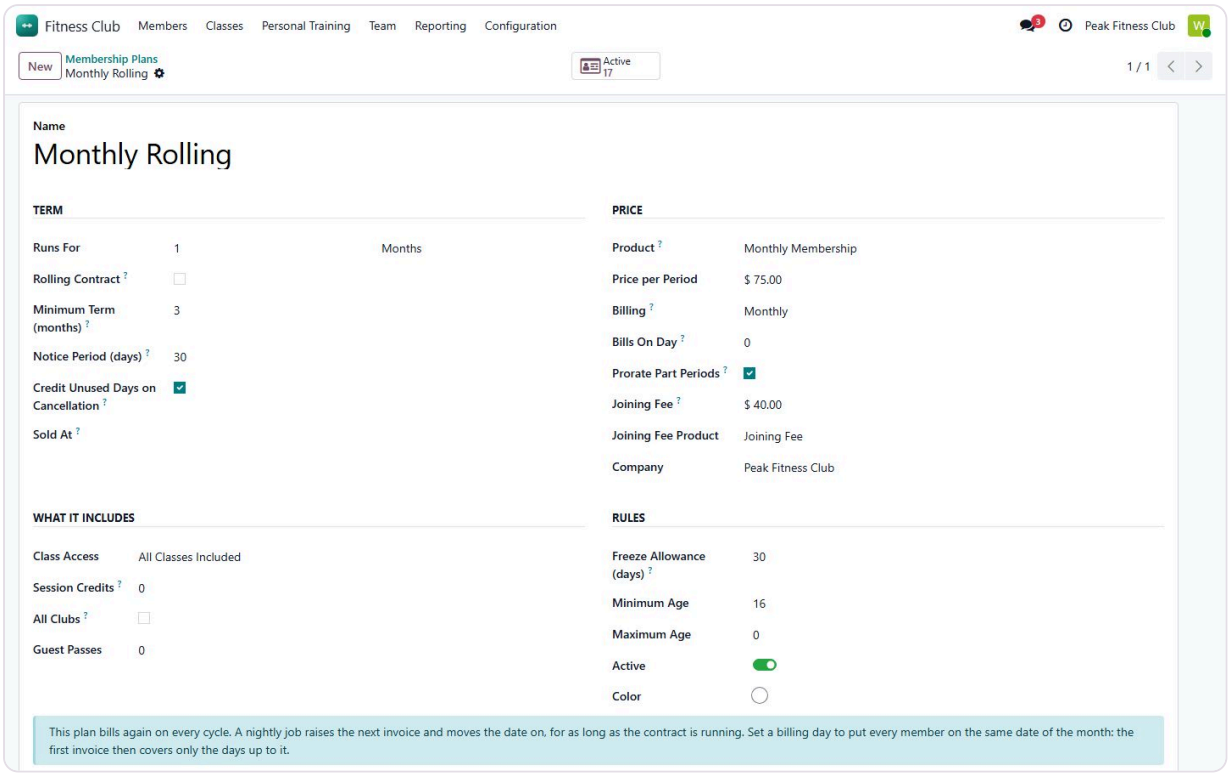

Name	Duration...	Duration Unit	Billing	Price per Period	Joining Fee	Active
Annual Unlimited	1	Years	Paid Up Front	$ 720.00	$ 40.00	10
Monthly Rolling	1	Months	Monthly	$ 75.00	$ 40.00	17
Off-Peak Monthly	1	Months	Monthly	$ 45.00	$ 0.00	4
10 Class Pack	3	Months	Paid Up Front	$ 160.00	$ 0.00	4

5 A monthly plan: the Term and Price groups

Term: the length (1 Month), whether it is a **Rolling Contract** with no end date, the **Minimum Term** in months that stays payable if the member leaves early, the **Notice Period** in days, and **Credit Unused Days on Cancellation** NEW BUILD . **Price**: the product, the price per period, the **Billing** (Paid Up Front, Monthly, Quarterly, Annual), the **Bills On Day** NEW BUILD , **Prorate Part Periods** NEW BUILD , and the joining fee with its own product.

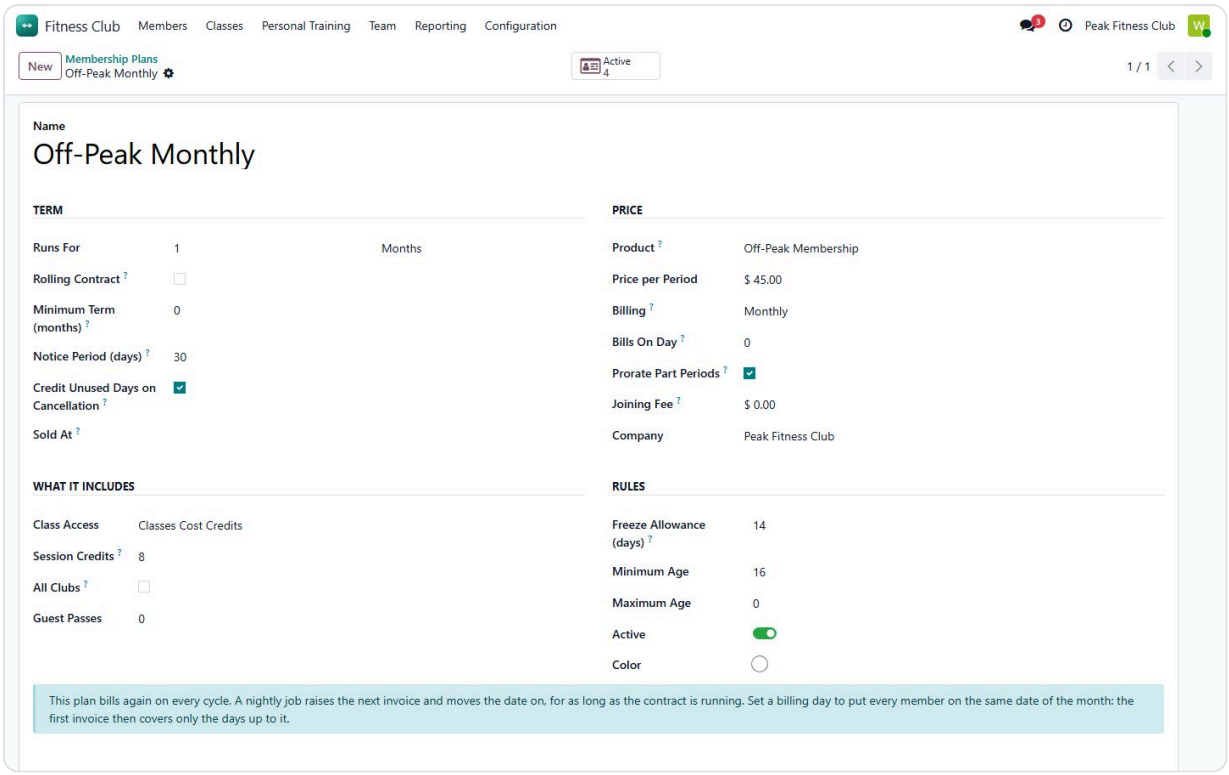

Bills On Day puts every member on the same date of the month. Zero bills on the anniversary of each member's start date instead.

6 A credit plan: What It Includes

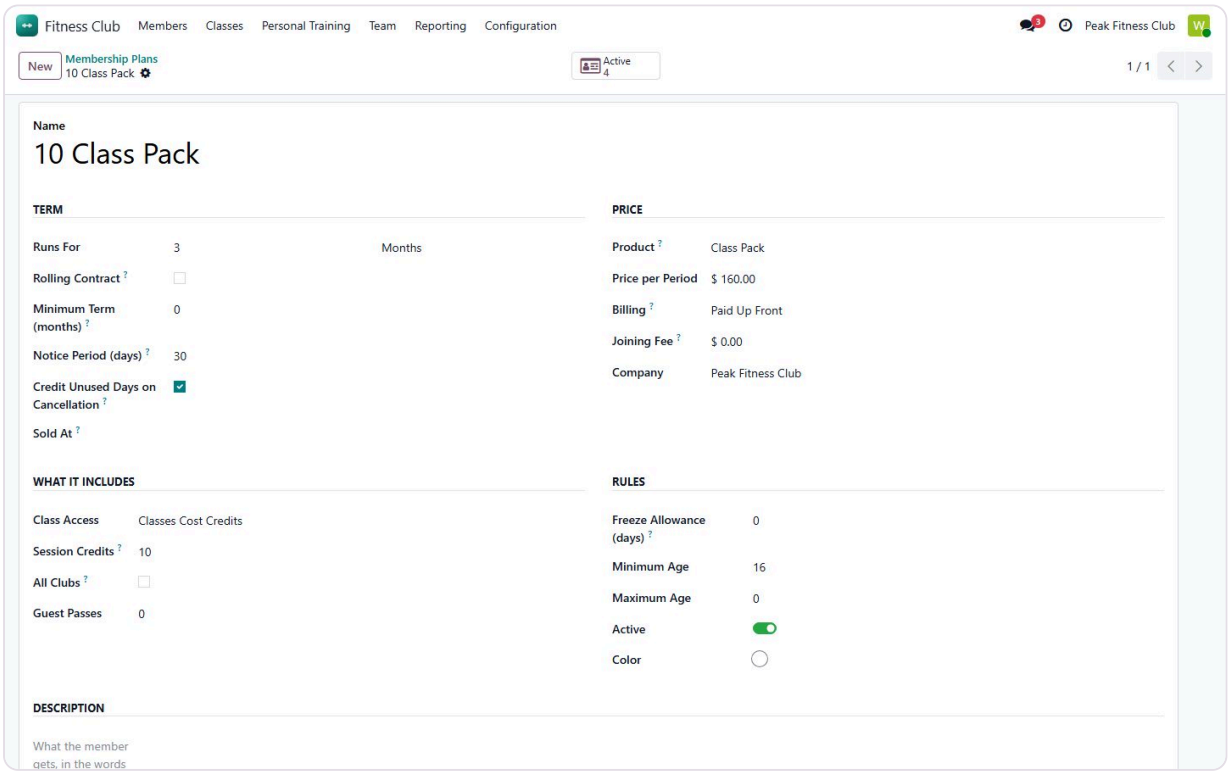

Class Access is No Classes, All Classes Included or Classes Cost Credits. **Session Credits** is how many visits or class credits the contract carries; zero means unlimited. **All Clubs** lets the member train at any club, not only their home club. **Guest Passes** records how many guest passes come with it.

Off-Peak Monthly gives eight credits a month and classes cost credits: a one-credit spin class and a two-credit barbell class use three.

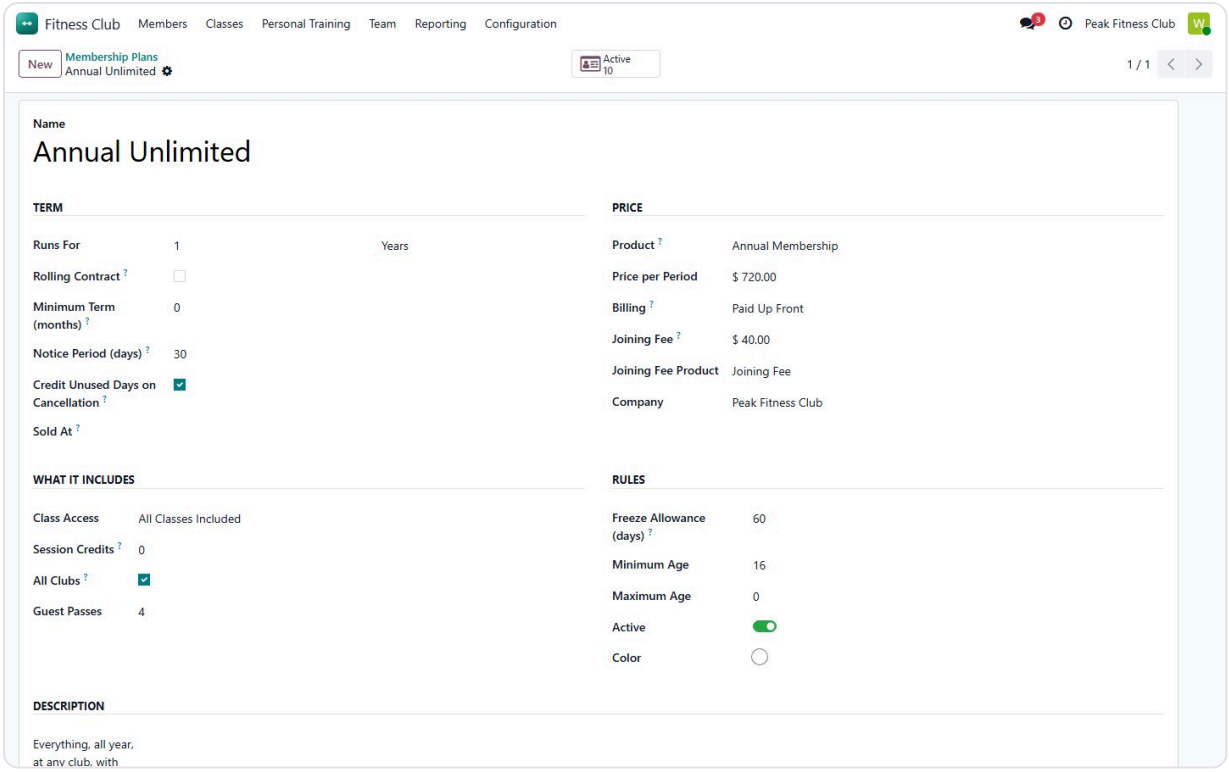

7 A class pack: Rules

Freeze Allowance is the number of hold days allowed across the whole term (zero means no holds, as on the 10 Class Pack). **Minimum Age** and **Maximum Age** stop a contract being sold to someone outside the range, when the member's birthday is known. **Sold At** limits the plan to some clubs; empty means every club.

8 An annual plan paid up front

Annual Unlimited is billed once for the whole year, includes every class, works at every club and allows sixty hold days. The description and colour are for your own reference.

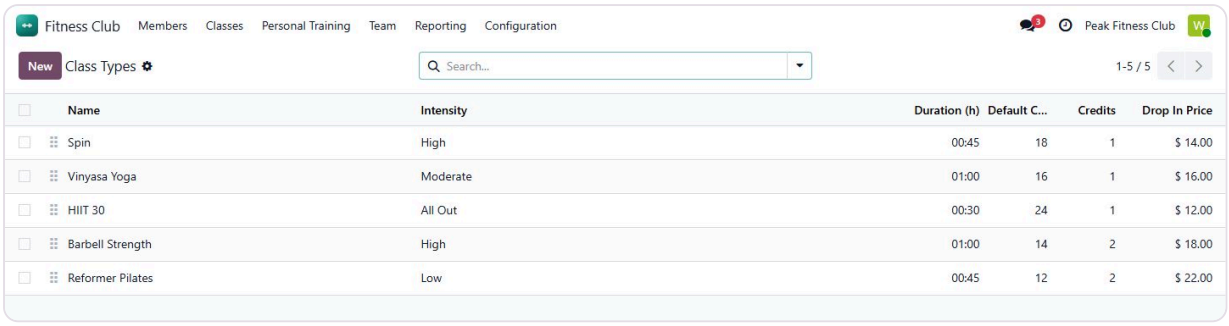

PLAN FIELD	WHAT THE SYSTEM DOES WITH IT
Billing up front	One invoice for the whole term, raised by the Invoice button.
Billing monthly / quarterly / annual	An invoice per cycle, raised by the nightly job on the next invoice date for as long as the contract runs.
Bills On Day NEW BUILD	The first invoice covers only the days up to that day of the month; every invoice after falls on it.
Prorate Part Periods NEW BUILD	A short first or last cycle is charged by the day at the contract's rate per day, rather than a whole period.
Joining fee	Added once, to the first invoice of the contract that is not cancelled.
Minimum term, notice	Days inside them stay payable when the member cancels; see Part 5.
Credit unused days NEW BUILD	On cancellation, days paid for beyond the notice and the minimum term go on a draft credit note.
Freeze allowance	Caps the hold days on one contract; every hold day pushes the end date out.
Min / max age	Checked when the contract is saved.

3.6 Class types

9 The class catalogue

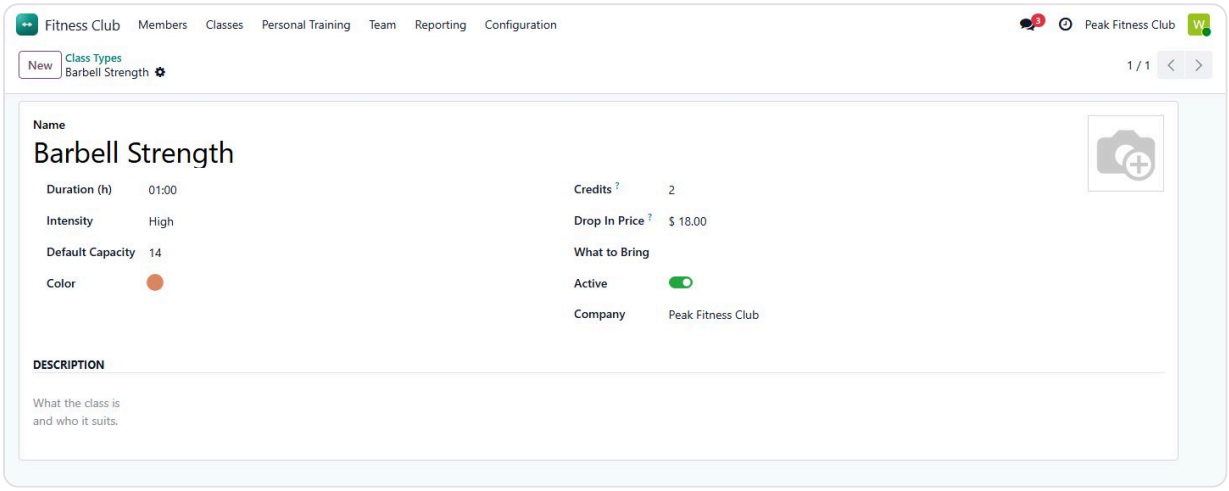

Configuration, then **Class Types**. Each line has its intensity, duration in hours, default capacity, credits and drop-in price.

10 One class type

Name, image and colour (used on the timetable), **Duration** (greater than zero), **Intensity** (Low, Moderate, High, All Out), **Default Capacity**, **Credits** it costs a member on a credit plan, the **Drop-in Price** charged to someone without a membership (zero means members only), **What to Bring**, and a description.

When a class is created from a type, its duration and capacity are filled in from here.

3.7 Trainers

Team, then **Trainers**. Add each instructor with their pay basis before building the timetable, because every slot needs one. Trainers have their own part, Part 10.

3.8 Roles and who sees what

In Settings, Users, open a user and set the **Fitness Club** role: Trainer, Front Desk or Club Manager. Each one includes the one before it.

SCREEN OR ACTION	TRAINER	FRONT DESK	CLUB MANAGER
Members (read)	Yes	Yes	Yes
Create and edit members	No	Yes	Yes
Medical notes	Hidden	Hidden	Yes
Check In, Check Out, Sell a Contract buttons NEW BUILD	Hidden	Yes	Yes
Contracts, holds	No	Create and edit	Full
Timetable	Own classes only	All	All
Bookings	Read, mark attended	Full	Full
PT packages	Read	Create and edit	Full
PT sessions	Own sessions only	All	All
Measurements	Record	Record	Full
Trainers	Read	Edit	Full
Arrears, At Risk, Recurring Slots, Reporting, Configuration	No	No	Yes
Waive a PT charge, reopen a PT block	No	No	Yes

A trainer sees only their own classes and PT sessions when their trainer record is linked to their Odoo user (the **Odoo User** field on the trainer). Every gym record also follows the multi-company rule, so a group with two companies keeps their members apart.

3.9 The scheduled jobs

Seven jobs are installed under Settings, Technical, Scheduled Actions. They are what makes the club run without someone remembering.

JOB	RUNS	WHAT IT DOES
Gym: expire and renew contracts	Daily	Every active contract past its end date is renewed if Auto Renew is ticked, otherwise expired. A renewal that fails is logged on the contract and the contract expires.
Gym: raise recurring membership invoices	Daily	Every active monthly, quarterly or annual contract whose next invoice date has come gets its invoice. A failure is posted on the contract.
Gym: send renewal reminders	Daily, **off**	Emails members whose contract ends in exactly the reminder window (14 days), if they have an email.
Gym: start and end contract holds	Daily	Ends holds whose last day has passed and starts planned holds whose first day has come.
Gym: extend the class timetable	Daily	Writes every recurring slot into the diary up to the timetable horizon.
Gym: close finished classes	Every 2 hours	Closes classes that have ended: booked members not marked present become no-shows.
Gym: lapse unused PT packages	Daily	Marks active PT packages past their expiry date as expired.

> Turn the renewal reminder on only once outgoing mail is set up. It ships switched off so a new club does not email its whole membership on day one.

3.10 Numbering

RECORD	FORMAT	EXAMPLE
Member	Club code, a dash, M and five digits	RS-M00014
Contract	Club code, MB, the year, five digits	RS/MB/2026/00073
PT package	PT, the year, four digits	PT/2026/0003

PART 4 Members

The member record is the one screen the desk lives on. It holds the person, their current contract, their health file, every visit, every measurement and every personal training block, and it carries the two buttons used most: Check In and Sell a Contract.

IN THIS PART YOU WILL LEARN

- Adding a member and how the member number is made
- Finding members with the cards, the list and the filters
- Every field on the member form and what fills it
- The health declaration, emergency contact and consent
- Churn risk, the At Risk list and lifetime value
- Printing the membership card

TRY IT YOURSELF ON THE DEMO

1. Members, then Members, then switch to the list
2. Open the search panel and pick At Risk of Leaving
3. Open Karim Aziz and walk through each tab

4.1 Add a member

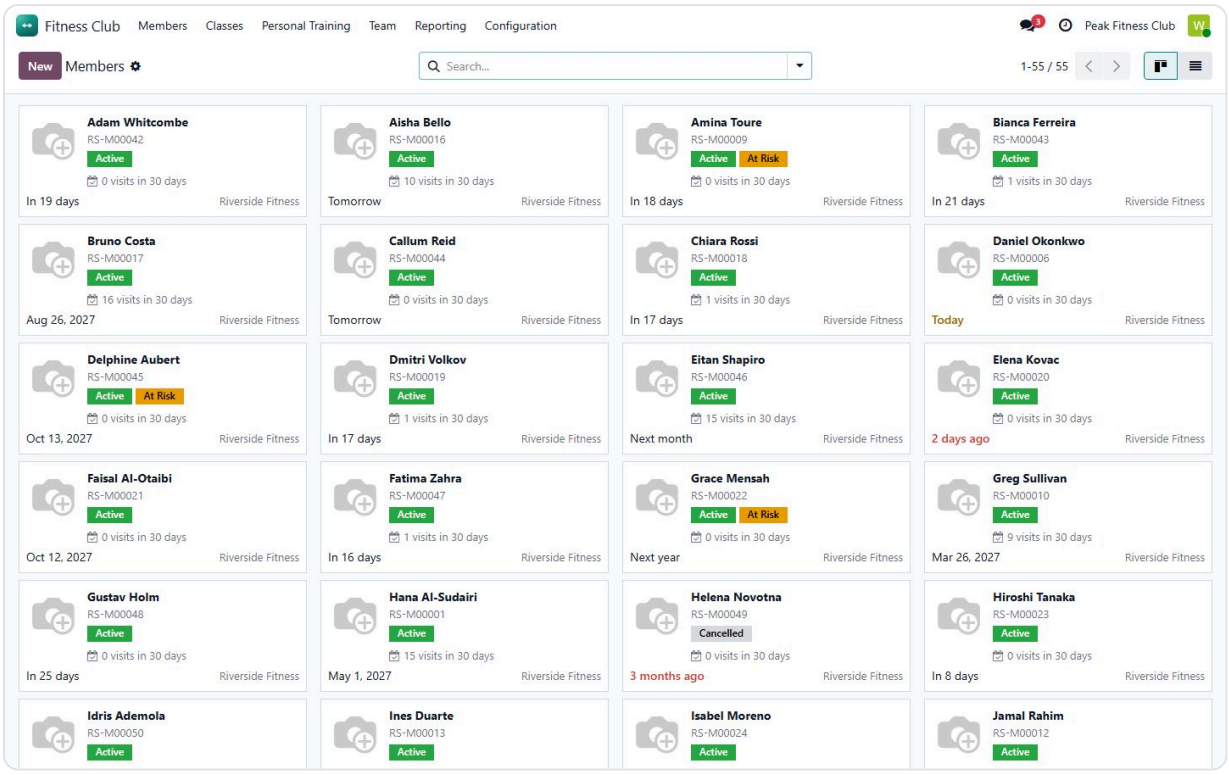

Members, then Members, then **New**. Type the name and pick or create the **Contact**: the Odoo contact who is invoiced for this member's contracts. Phone and email are the contact's own, so changing them here changes them on the contact too. Pick the **Home Club** (the first club of the company is filled in) and the **Join Date** (today). On save the member number is made from the club code and the next number: RS-M00055.

> Phone and email are deliberately not tracked in the chatter, so the record does not keep a running history of somebody's phone number and mail it to every follower.

4.2 Find members

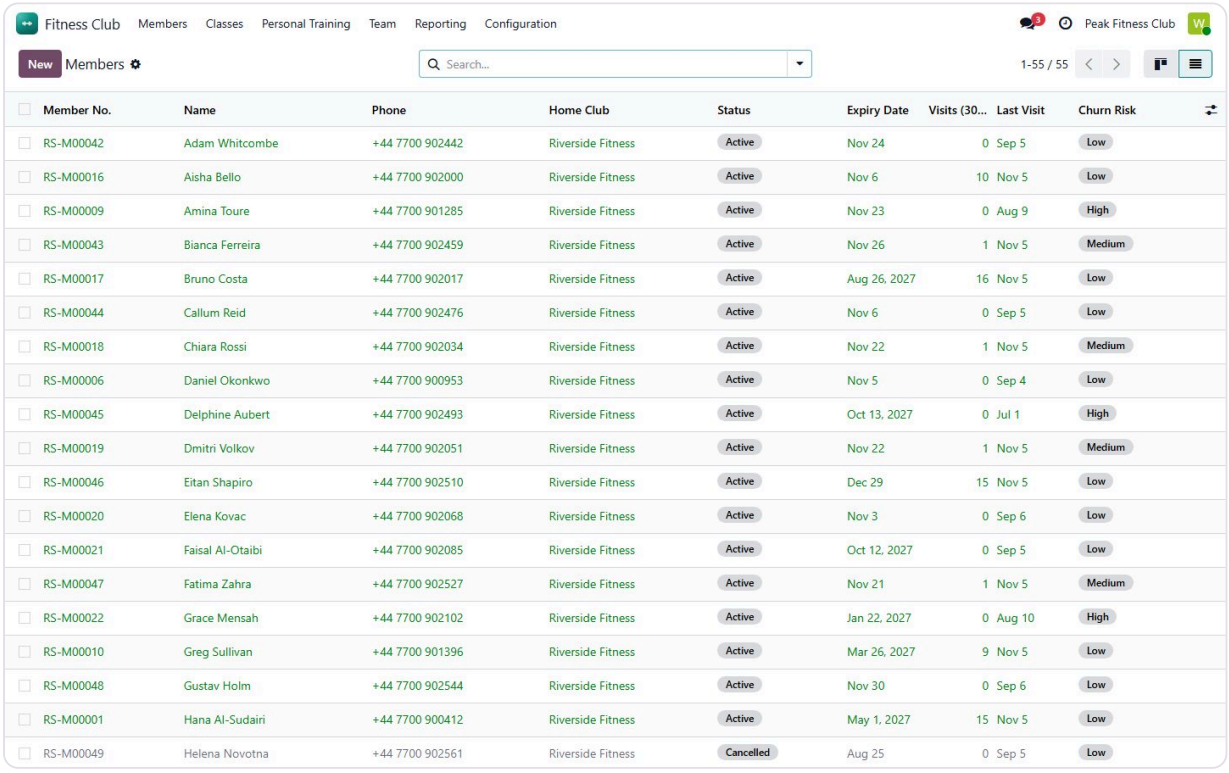

1 The cards

The default view. Each card shows the photo, name, number, a status tag (Active, Frozen, Expired, Cancelled), an **At Risk** tag when churn risk is high, visits in the last 30 days, the contract end date and the home club.

2 The list

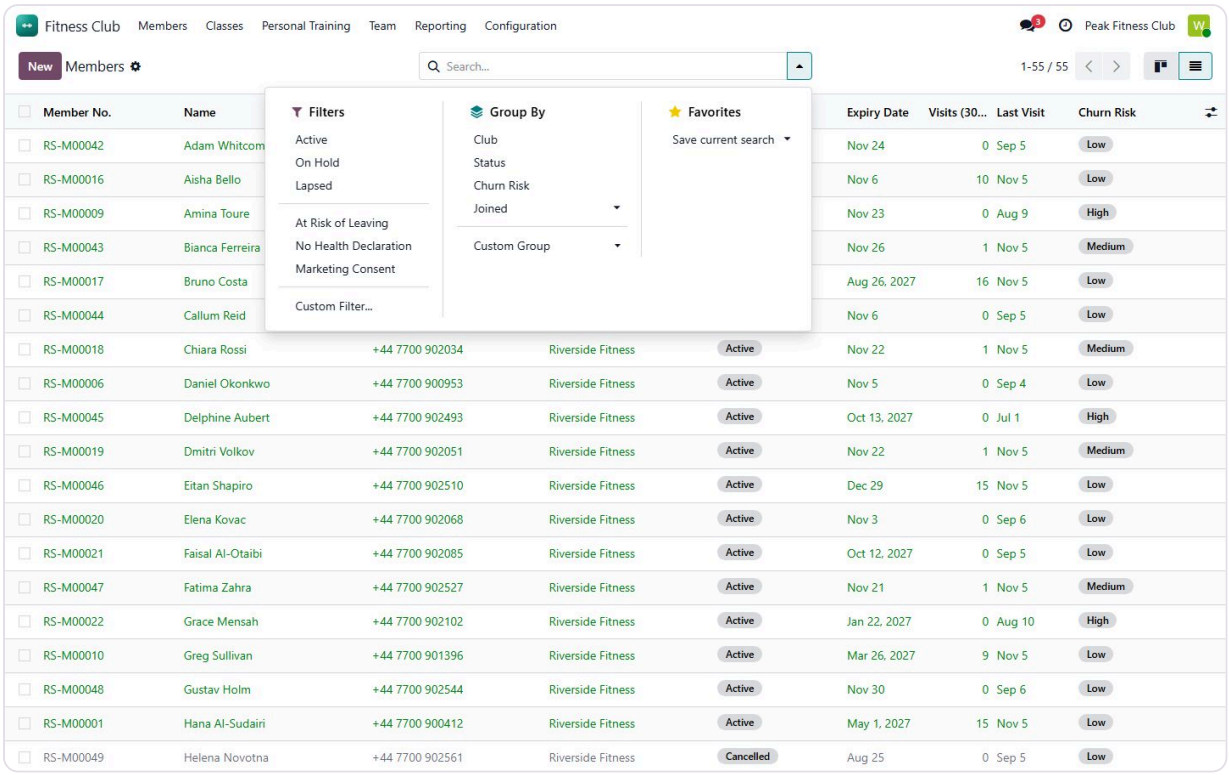

Number, name, phone, email, club, join date, status, expiry, visits in 30 days, last visit, churn risk and the health declaration tick. Active members show in green. Lifetime value is an optional column.

3 The filters

Active, **On Hold**, **Lapsed** (expired), **At Risk of Leaving**, **No Health Declaration** and **Marketing Consent**; group by **Club**, **Status**, **Churn Risk** or **Joined** month.

No Health Declaration is the list to work through before an insurer's audit. Marketing Consent is the only list a campaign should go to.

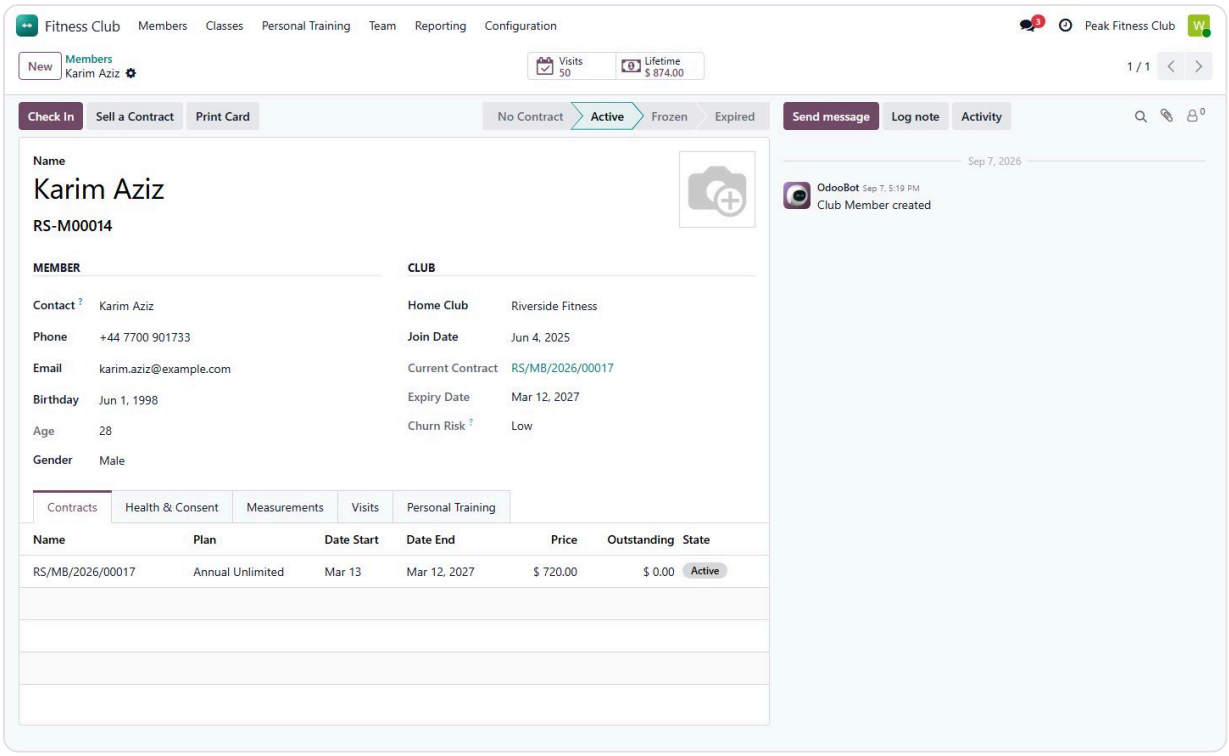

4.3 The member form

4 The top of the form

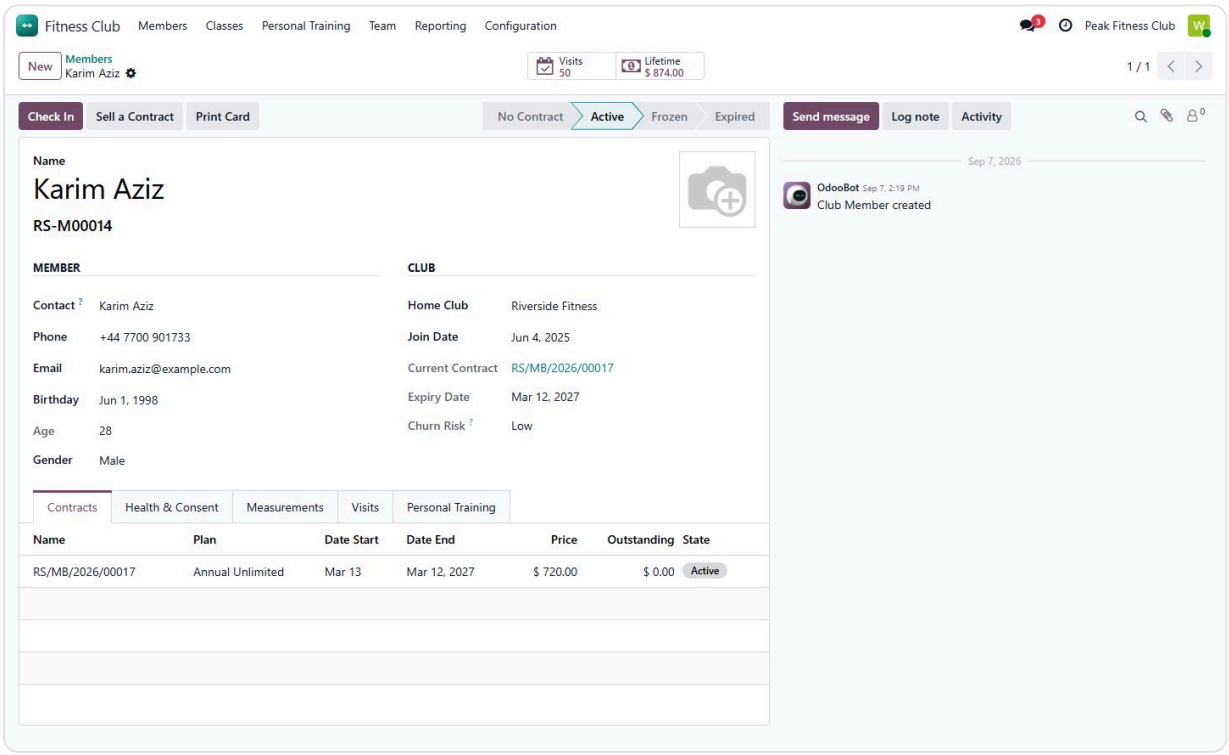

Across the top: **Check In** (or **Check Out** when the member is inside NEW BUILD), **Sell a Contract** and **Print Card**, and the status bar: No Contract, Active, Frozen, Expired. The two buttons on the right count **Visits** and show **Lifetime** value. Below: name, photo, number, contact, phone, email, birthday, age (worked out from the birthday), gender, home club, join date, current contract, its expiry date and the churn risk.

The current contract is the running or frozen one that ends last. With none running it is the most recent one, which is how a lapsed member still shows what they last had.

5 Contracts tab

Every contract this member has had: number, plan, start, end, price, what is still outstanding and the state.

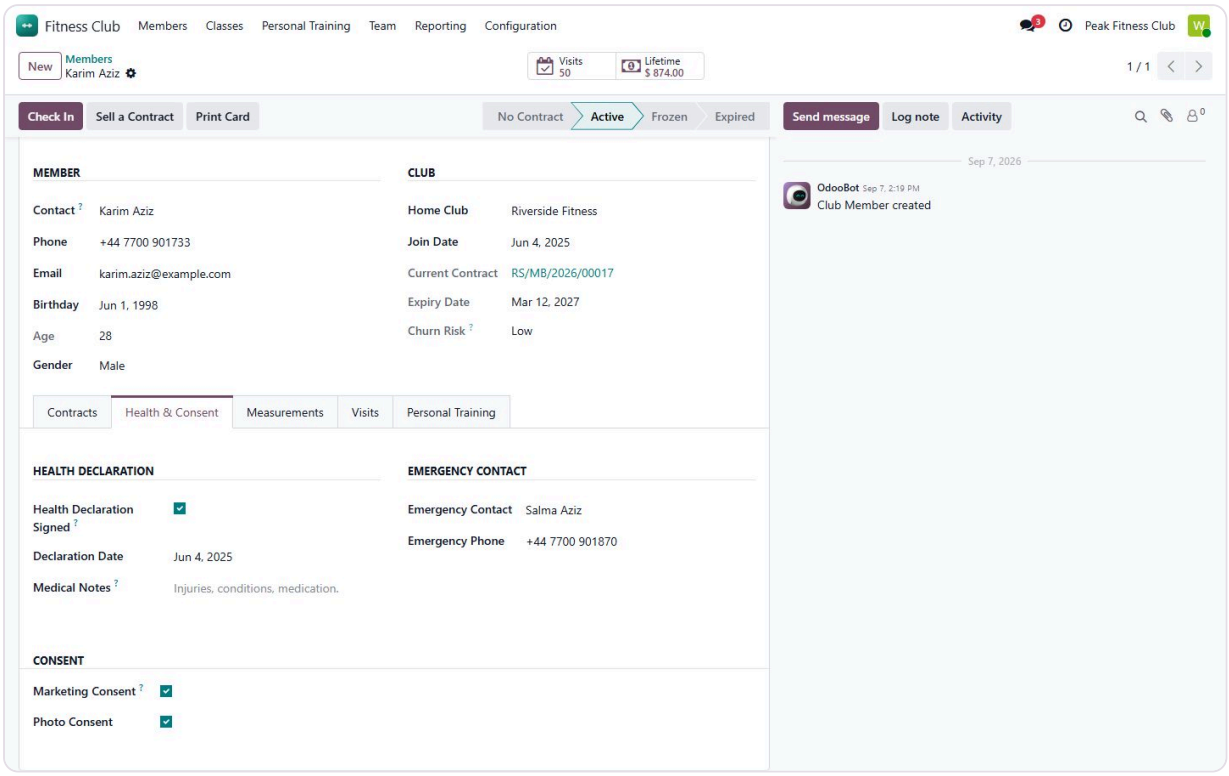

4.4 Health and consent

6 Health & Consent tab

Health Declaration Signed (the pre-exercise questionnaire, often called a PAR-Q) and its **Declaration Date**, which must be filled in once the box is ticked. **Medical Notes** for injuries and conditions a trainer should know. The **Emergency Contact** and phone. **Marketing Consent** and **Photo Consent**, kept as explicit ticks so the club can show consent under GDPR and similar rules.

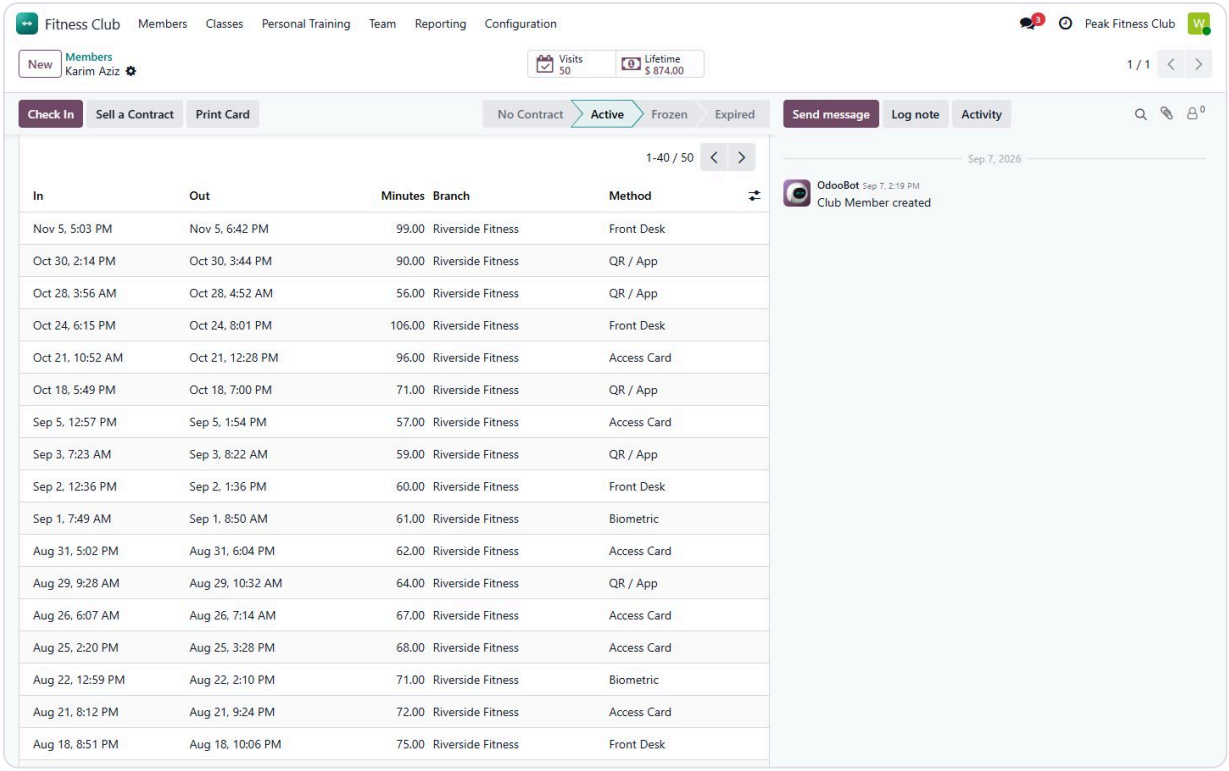

Medical notes are visible to Club Managers only. Door messages never repeat a birthday, phone, emergency contact or medical note, because they are read out at a counter.

4.5 Visits and personal training on the member

7 Visits tab

Every check-in: when they came in, when they left, minutes inside, how they came in, and the class it was for if any.

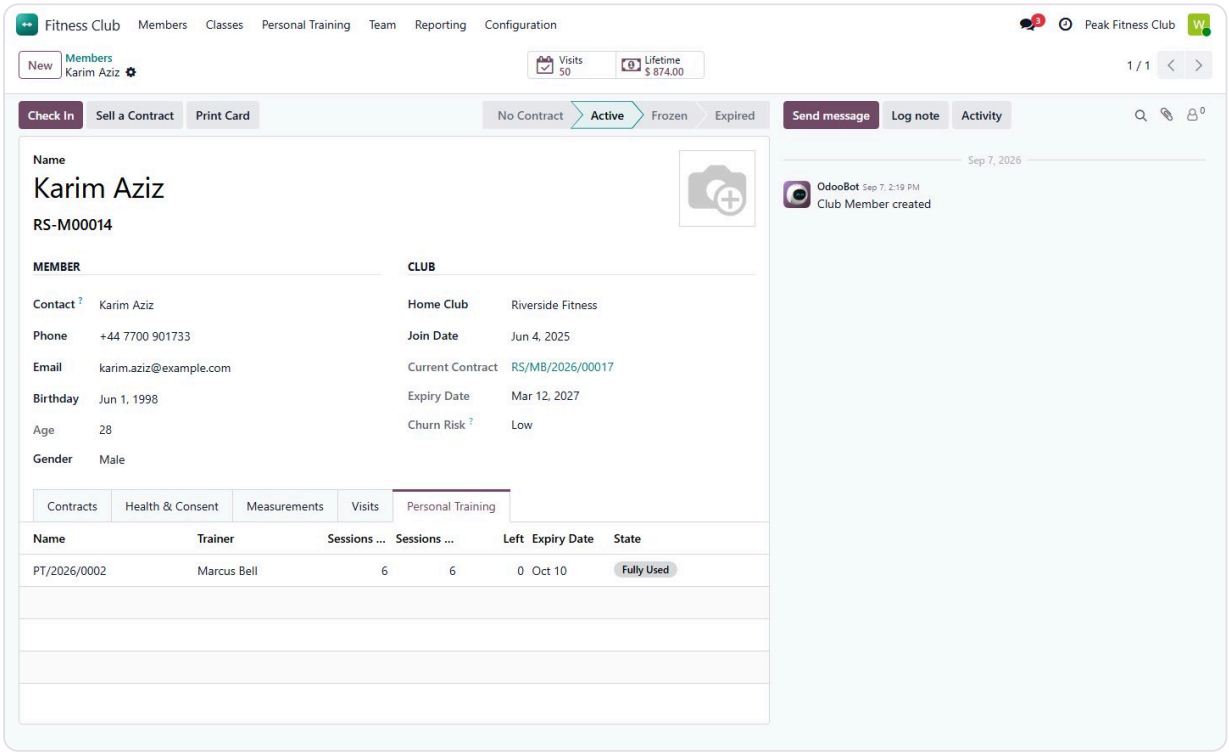

In	Out	Minutes	Branch	Method
Nov 5, 5:03 PM	Nov 5, 6:42 PM	99.00	Riverside Fitness	Front Desk
Oct 30, 2:14 PM	Oct 30, 3:44 PM	90.00	Riverside Fitness	QR / App
Oct 28, 3:56 AM	Oct 28, 4:52 AM	56.00	Riverside Fitness	QR / App
Oct 24, 6:15 PM	Oct 24, 8:01 PM	106.00	Riverside Fitness	Front Desk
Oct 21, 10:52 AM	Oct 21, 12:28 PM	96.00	Riverside Fitness	Access Card
Oct 18, 5:49 PM	Oct 18, 7:00 PM	71.00	Riverside Fitness	QR / App
Sep 5, 12:57 PM	Sep 5, 1:54 PM	57.00	Riverside Fitness	Access Card
Sep 3, 7:23 AM	Sep 3, 8:22 AM	59.00	Riverside Fitness	QR / App
Sep 2, 12:36 PM	Sep 2, 1:36 PM	60.00	Riverside Fitness	Front Desk
Sep 1, 7:49 AM	Sep 1, 8:50 AM	61.00	Riverside Fitness	Biometric
Aug 31, 5:02 PM	Aug 31, 6:04 PM	62.00	Riverside Fitness	Access Card
Aug 29, 9:28 AM	Aug 29, 10:32 AM	64.00	Riverside Fitness	QR / App
Aug 26, 6:07 AM	Aug 26, 7:14 AM	67.00	Riverside Fitness	Access Card
Aug 25, 2:20 PM	Aug 25, 3:28 PM	68.00	Riverside Fitness	Access Card
Aug 22, 12:59 PM	Aug 22, 2:10 PM	71.00	Riverside Fitness	Biometric
Aug 21, 8:12 PM	Aug 21, 9:24 PM	72.00	Riverside Fitness	Access Card
Aug 18, 8:51 PM	Aug 18, 10:06 PM	75.00	Riverside Fitness	Front Desk

8 Personal Training tab

Every PT block the member has bought: number, trainer, sessions in the block, used and left, and the state.

Measurements, the third tab, has its own part: Part 9.

4.6 Activity, value and risk

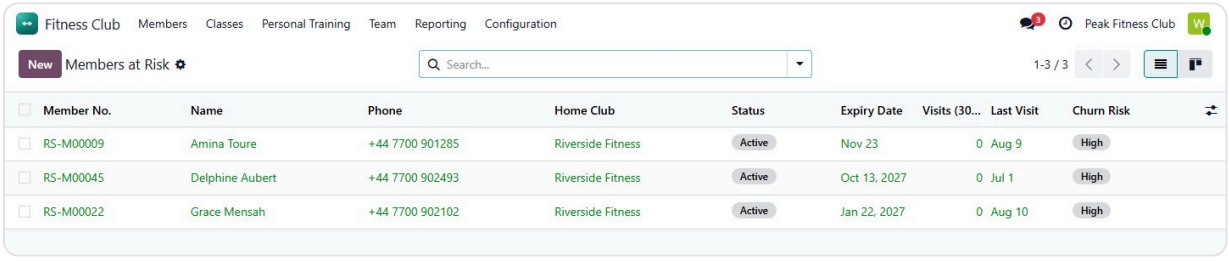

FIELD	HOW IT IS WORKED OUT
Visits	Every visit on file.
Visits (30 days)	Visits in the last thirty days.
Last Visit	The date of the most recent visit.
No Shows	Class bookings closed as no-show.
Lifetime Value	The total of all posted invoices on the member's contracts, credit notes taken off.
Churn Risk	**High** with no visit for more than 21 days, no visit in 30 days, or no visit ever. **Medium** with no visit for more than 10 days or fewer than four in 30 days. **Low** otherwise.
Inside the Club NEW BUILD	Checked in today and not checked out yet. It decides whether the form shows Check In or Check Out.

4.7 The At Risk list

9 Members, then At Risk

Active members whose churn risk is high: paying, but not coming. These are the people worth a call this week, before the contract comes up for renewal and they simply let it go.

Manager only. Sort by Last Visit to start with the longest absent.

4.8 Print the membership card

10 Print Card

A card-sized document (85 by 54 mm) with the club, the member's name and number, the plan and expiry, and a Code128 barcode of the member number. The same barcode can be read by a scanner at the desk into the member search.

It is also in the Print menu of the member list, so a batch of cards can be printed at once.

PART 5 Contracts, billing, holds and renewals

A contract is a plan sold to one member for a period. It is where the money is: what was invoiced, what is still owed, the holds taken, the renewal and the cancellation. This part follows one contract through its whole life.

IN THIS PART YOU WILL LEARN

- Selling a contract and activating it
- Invoicing up front and in cycles, with billing day and part periods
- Changing plan mid term without anyone paying twice
- Holds: starting, ending early and the allowance
- Renewing by hand and automatically
- Cancelling, the notice period, the minimum term and the credit note
- Arrears and the door

TRY IT YOURSELF ON THE DEMO

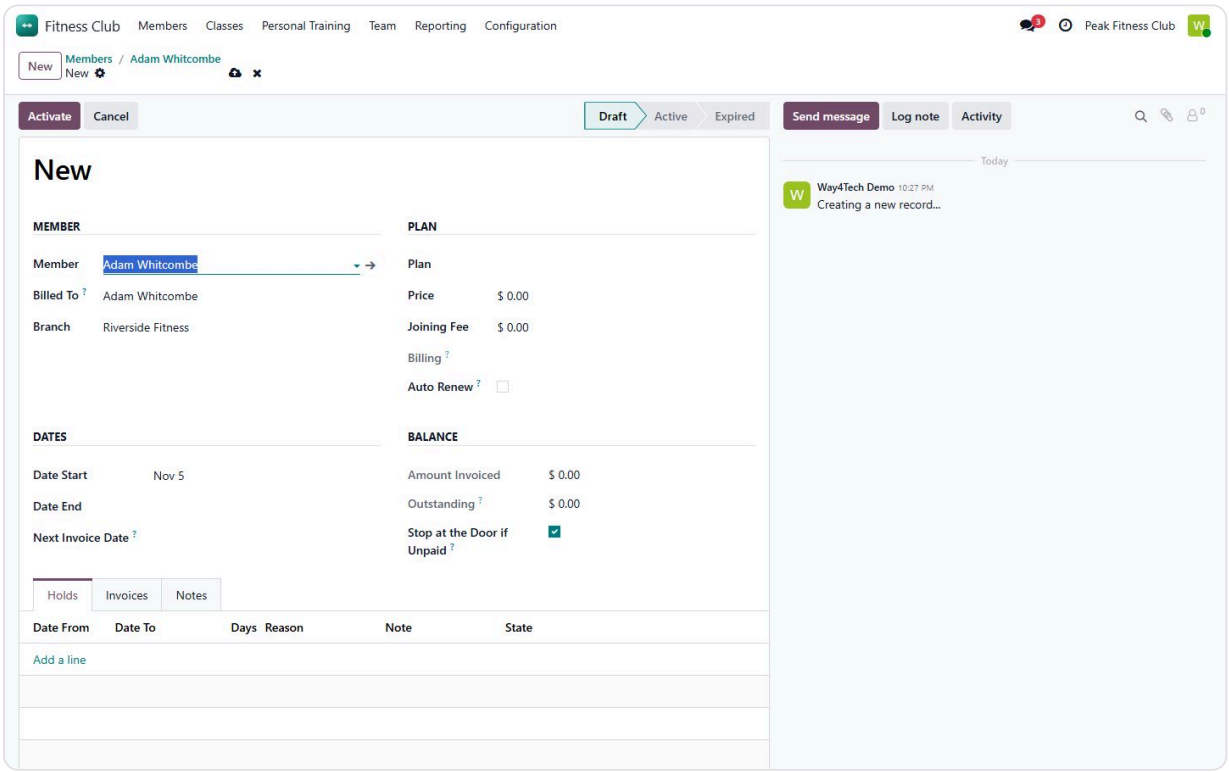

1. Members, then Contracts, open RS/MB/2026/00073 (monthly, in arrears)
2. Open RS/MB/2026/00005 and its Holds tab
3. Open RS/MB/2026/00054 and follow Renewed As
4. Members, then Arrears

5.1 Sell a contract

1 Sell a Contract from the member

On the member press **Sell a Contract**. A new contract opens with the member, the contact billed and the club filled in. Pick the **Plan**: the price and joining fee are copied from it and can be changed for this member. **Date Start** is today. **Date End** is worked out from the plan length (and left empty on a rolling plan). Tick **Auto Renew** to start the next term on its own.

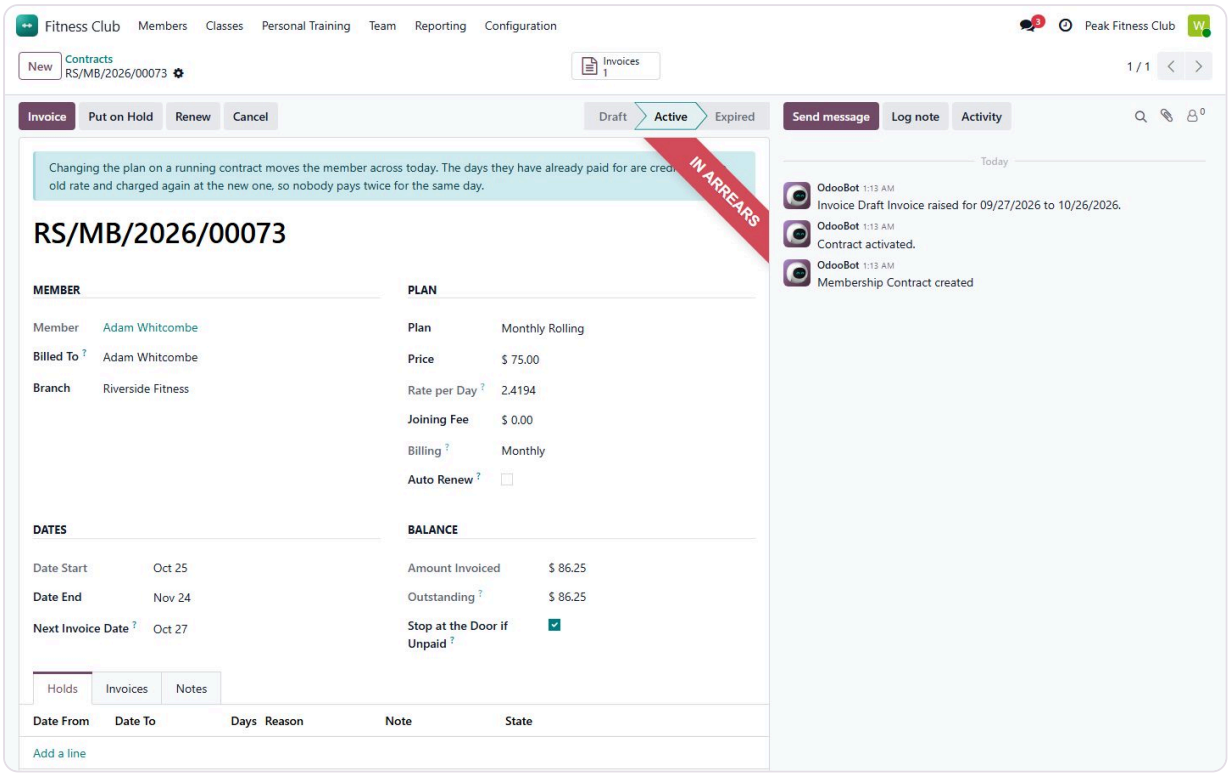

On the demo, look but do not save: press Discard. The number RS/MB/2026/... is given on save.

2 Activate

Activate moves the contract from Draft to Active. A member can only have one running contract, so activating a second one is refused with the number of the first. On a cycle-billed plan the next invoice date is set to the start date. Each step is written in the chatter on the right.

The **Rate per Day** NEW BUILD is the price of one day of the contract to four decimals. Part periods and credits are priced from it and rounded once, so a 27 day part month comes out right.

5.2 The contract form, field by field

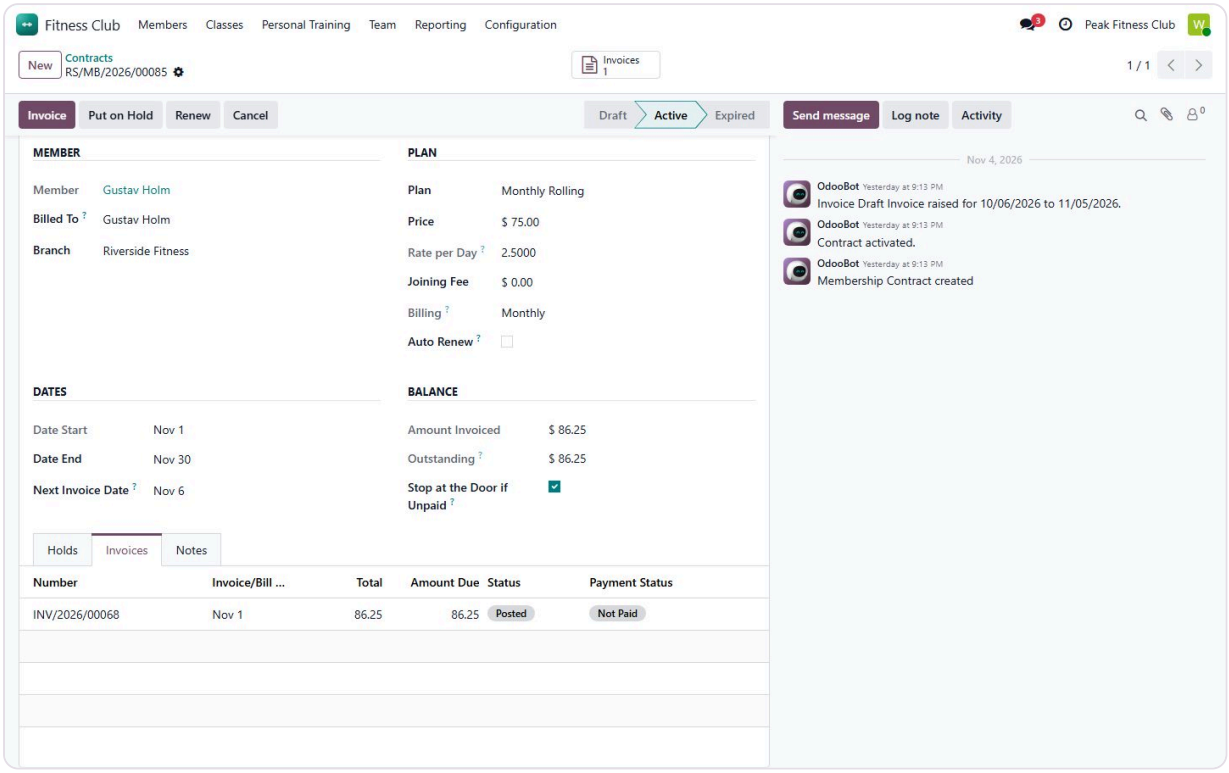

GROUP	FIELDS
Member	Member, Billed To (the contact invoiced, which can be a parent or a company paying for several members), Branch (club)
Plan	Plan, Price, Rate per Day NEW BUILD, Joining Fee, Billing, Auto Renew
Dates	Date Start, Date End, Next Invoice Date, Cancel Date and reason (once cancelled), Renewed As NEW BUILD
Balance	Amount Invoiced, Outstanding, Stop at the Door if Unpaid
Credits	Session Credits, used and left (credit and pack plans)
Tabs	Holds, Invoices, Notes

5.3 Invoice the contract

3 Invoice

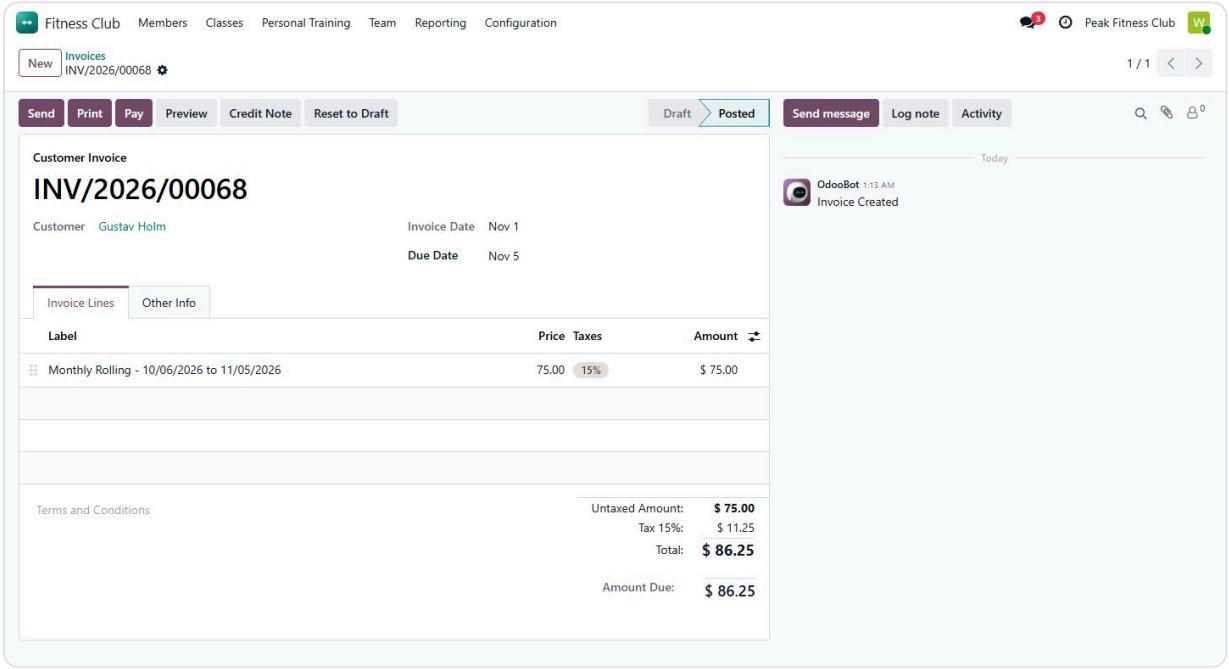

Press **Invoice**. Up front, the invoice covers the whole term. On a monthly, quarterly or annual plan it covers the next period, from the next invoice date, and moves that date on by one cycle. The line names the plan and the dates, the joining fee rides on the first invoice that stands, and the taxes come from the product. The Invoices tab and the Invoices button list everything raised.

From then on the nightly job raises each cycle by itself.

4 The invoice

A normal Odoo customer invoice, in the club's billing journal when one is set. Post it and register the payment as you would any other; the contract's Outstanding follows the payment.

CASE	WHAT THE INVOICE COVERS
Paid up front	The whole term, at the contract price.
Monthly, whole period	One month at the contract price.
Billing day set, joined mid month NEW BUILD	Only the days up to the billing day, at the rate per day, when Prorate is on. Every invoice after that falls on the billing day.
Last cycle cut short by the end date NEW BUILD	The days left, at the rate per day, when Prorate is on.
Same period invoiced twice NEW BUILD	Refused, naming the invoice that already covers it. Cancel that invoice first.
Contract not running	Refused: only an active or frozen contract can be invoiced.

5.4 Change plan mid term NEW BUILD

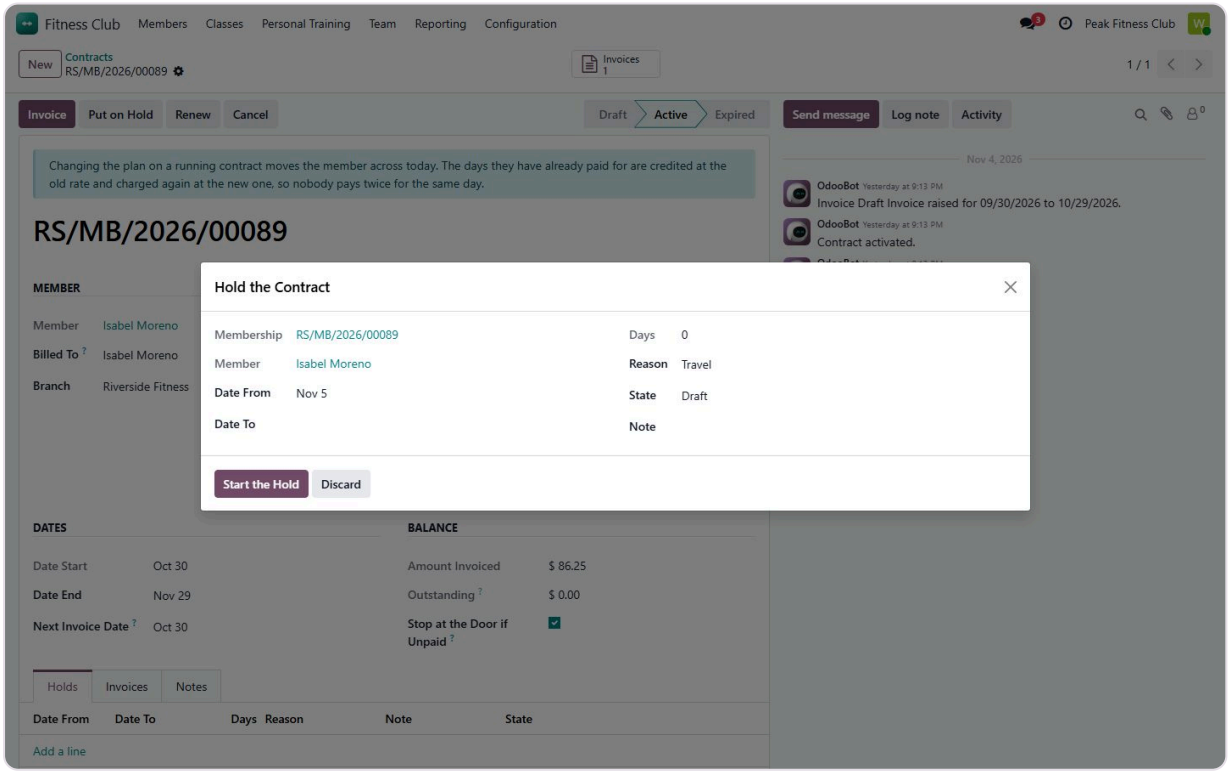

On a running contract the Plan field stays open. Change it and the member moves across today: the days already paid for and not used are credited at the old daily rate, and the same days are charged at the new one. Two draft documents are raised (a credit note and an invoice) and the chatter says how many days were carried over. The term itself does not move; an upgrade is not a new commitment. The blue note at the top of the contract explains this to the desk.

5.5 Put a contract on hold

5 Put on Hold

On an active contract press **Put on Hold**. A small window opens with the contract and member. Enter **Date From**, **Date To**, the **Reason** (Travel, Injury, Medical, Personal, Other) and a note, then **Start the Hold**. The contract turns Frozen.

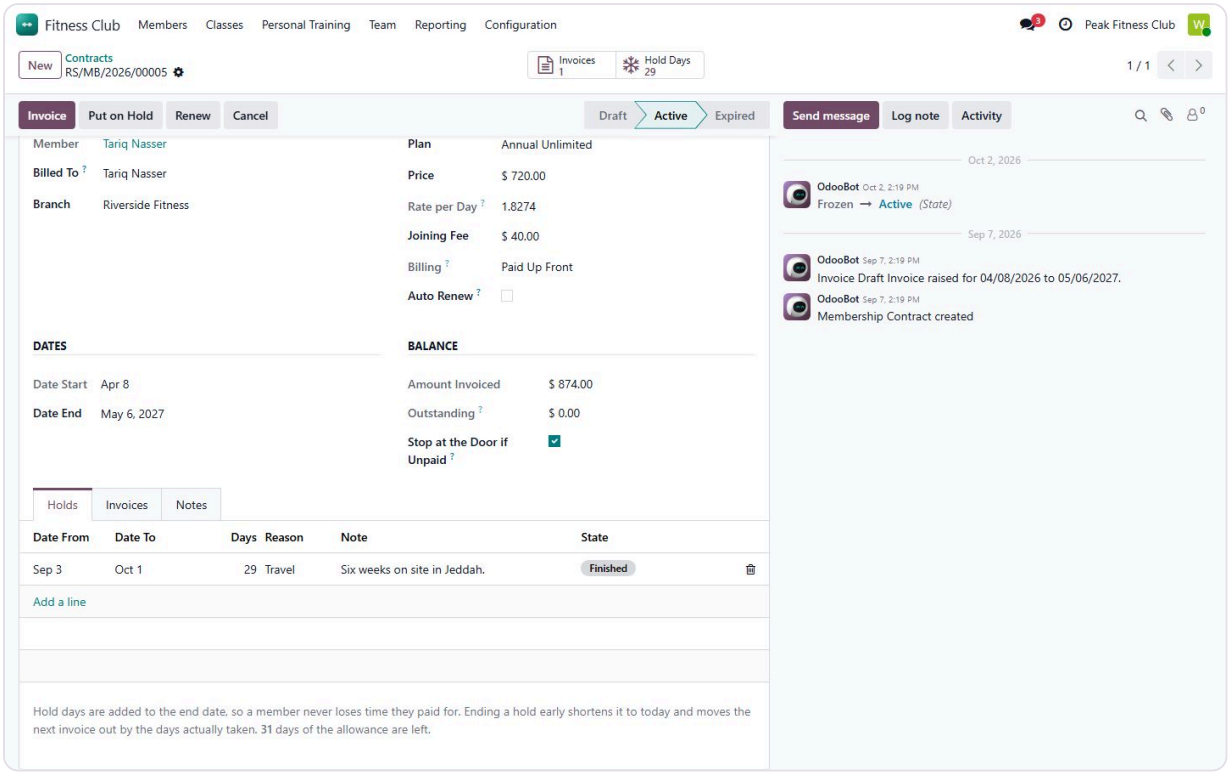

On the demo, close the window with the cross. Holds are refused on a plan with no freeze allowance.

6 The Holds tab

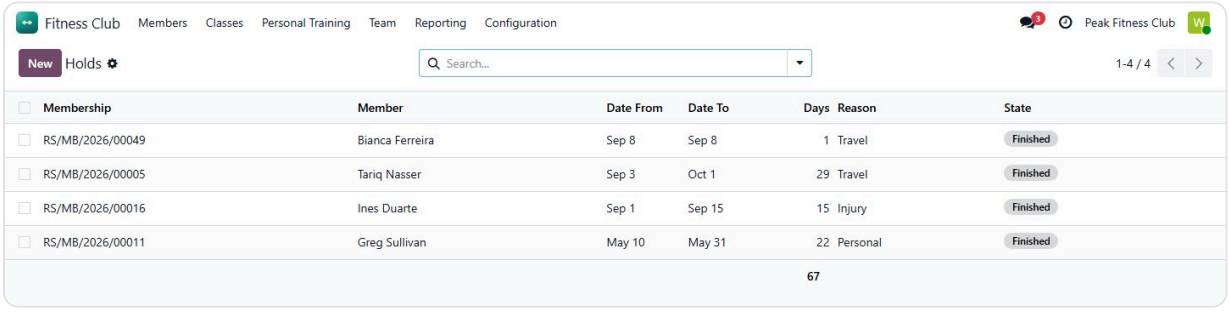

Every hold on the contract with its days, reason and state (Draft, Running, Finished, Cancelled). Every hold day moves the contract end date out, so the member never loses time they paid for. The Hold Days button counts the days used.

Ending a hold early shortens it to today and moves the next invoice out by the days actually taken **NEW BUILD**.

7 Configuration, then Holds

Every hold across all contracts, for the manager.

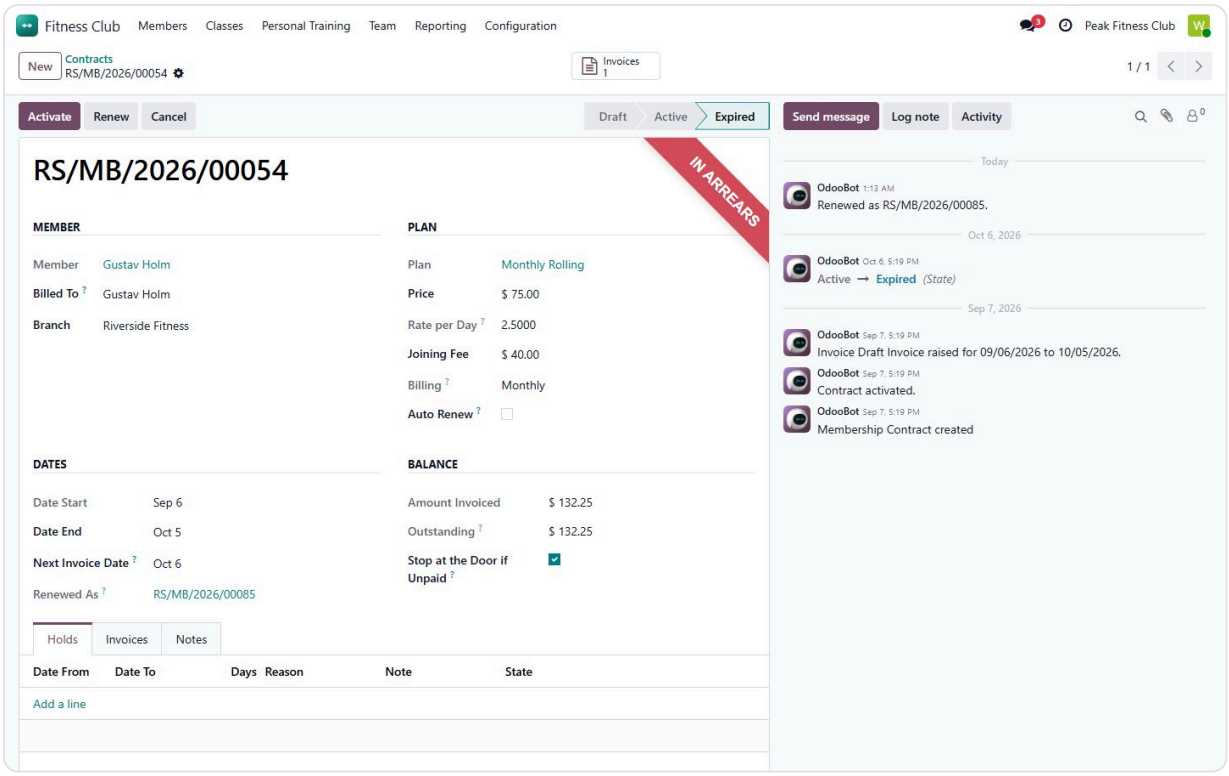

HOLD RULE	WHAT HAPPENS
Allowance	The total of running and finished holds on a contract cannot pass the plan's freeze allowance. The message says how many days that would make.
Overlap NEW BUILD	Two holds over the same days are refused, because they would push the end date out twice.
A hold planned ahead	Left in Draft, it is started by the nightly job on its first day.
End of the hold	The nightly job finishes it the day after its last day and the contract is active again.
Resume	Resume on a frozen contract ends the running hold today.
Hold from an earlier term	Only the days inside the current term count against it.

5.6 Renew

8 Renew

Renew on an active or expired contract creates the next term on the same plan, starting the day after this one ends, with no joining fee and the credits back to zero. The old term is expired and the new one activated. **Renewed As** links the two, and a contract can only be renewed once, so the same period is never sold twice.

With Auto Renew ticked, the nightly job does this the day after the end date. If it cannot, it says why in the chatter and expires the contract.

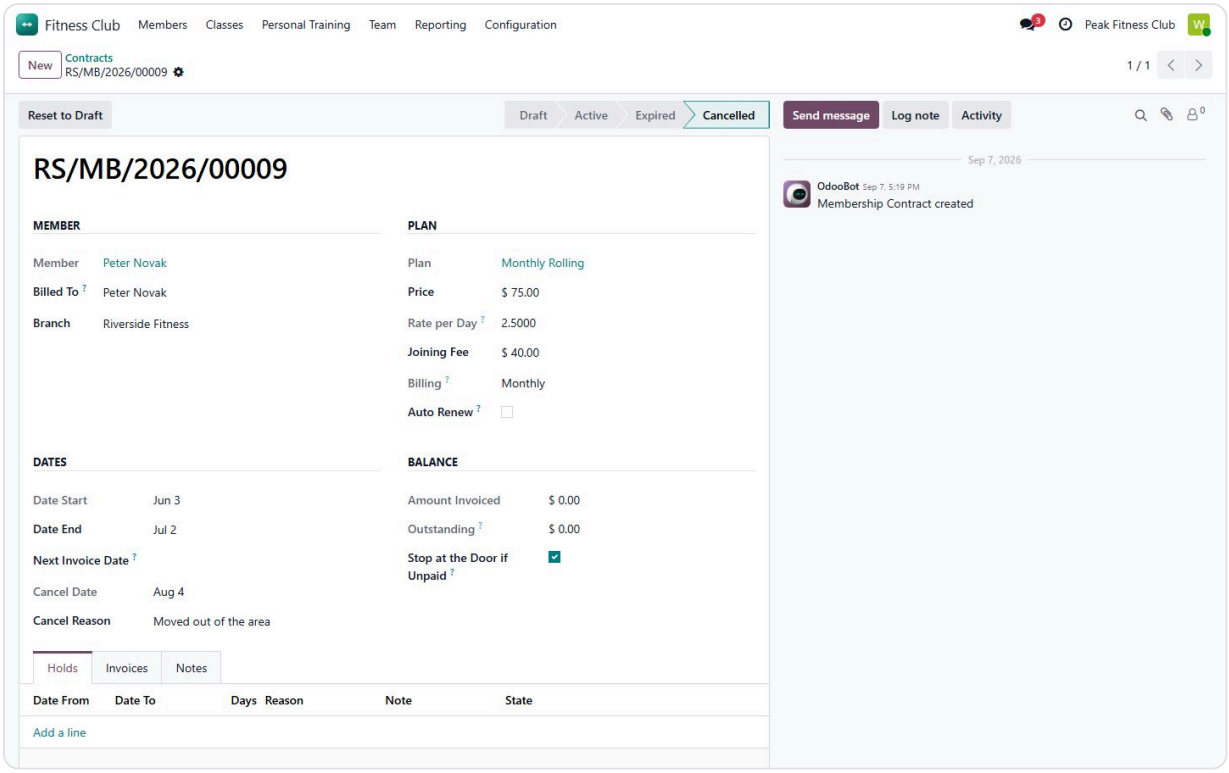

5.7 Cancel

9 Cancel

Cancel asks for confirmation, then stops the contract: the member loses access at the door and the recurring job stops billing it. The cancel date is stamped and a reason can be written.

Reset to Draft puts a cancelled or expired contract back to draft, for a sale entered by mistake.

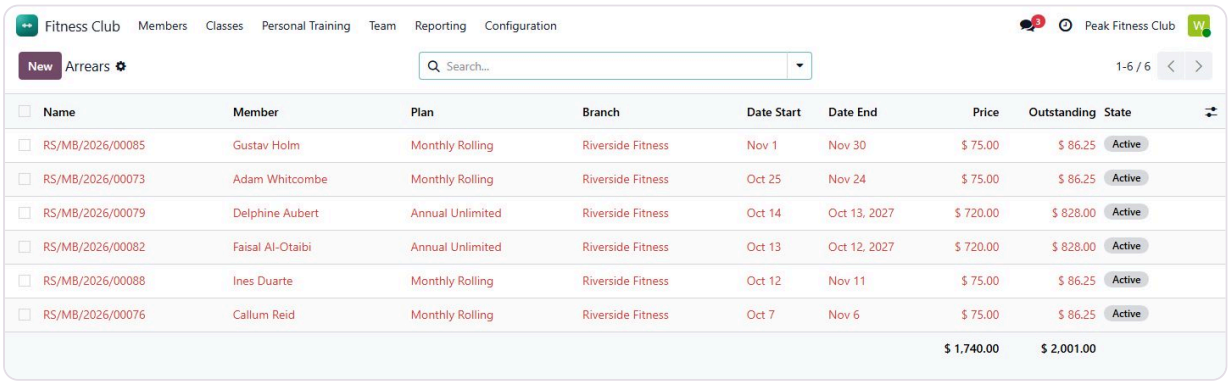

What is credited back NEW BUILD: the member keeps the day they cancel, plus the notice period, plus anything still inside the minimum term. Those days stay payable whether they train or not. Only days already paid for beyond that go onto a **draft credit note** at the rate per day, for the accountant to post. When nothing comes back the chatter says the date the member is paid to and served to. A balance still owed is noted too.

5.8 Arrears

10 Members, then Arrears

Active and frozen contracts with money outstanding on posted invoices. With **Stop at the Door if Unpaid** ticked (the default), these members are refused at check in until they pay, and the desk is told the amount.

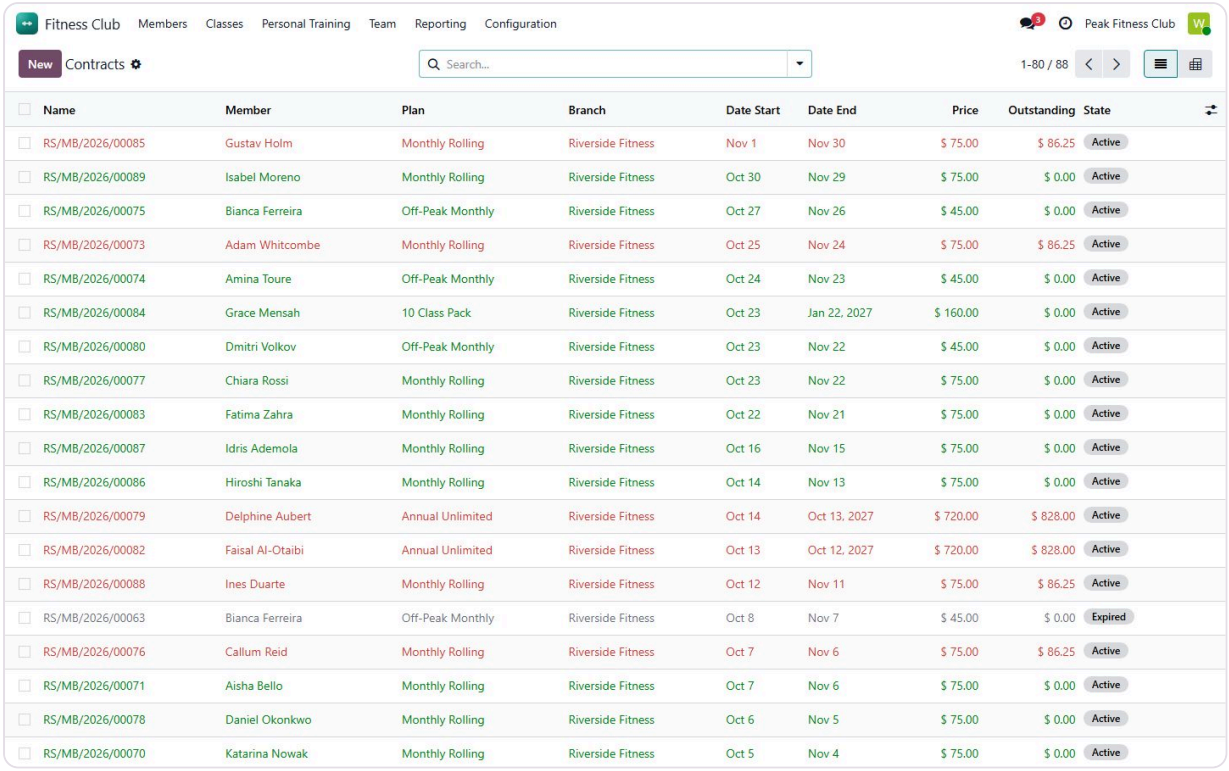

A contract in arrears also carries a red IN ARREARS ribbon.

5.9 The contract list

11 Members, then Contracts

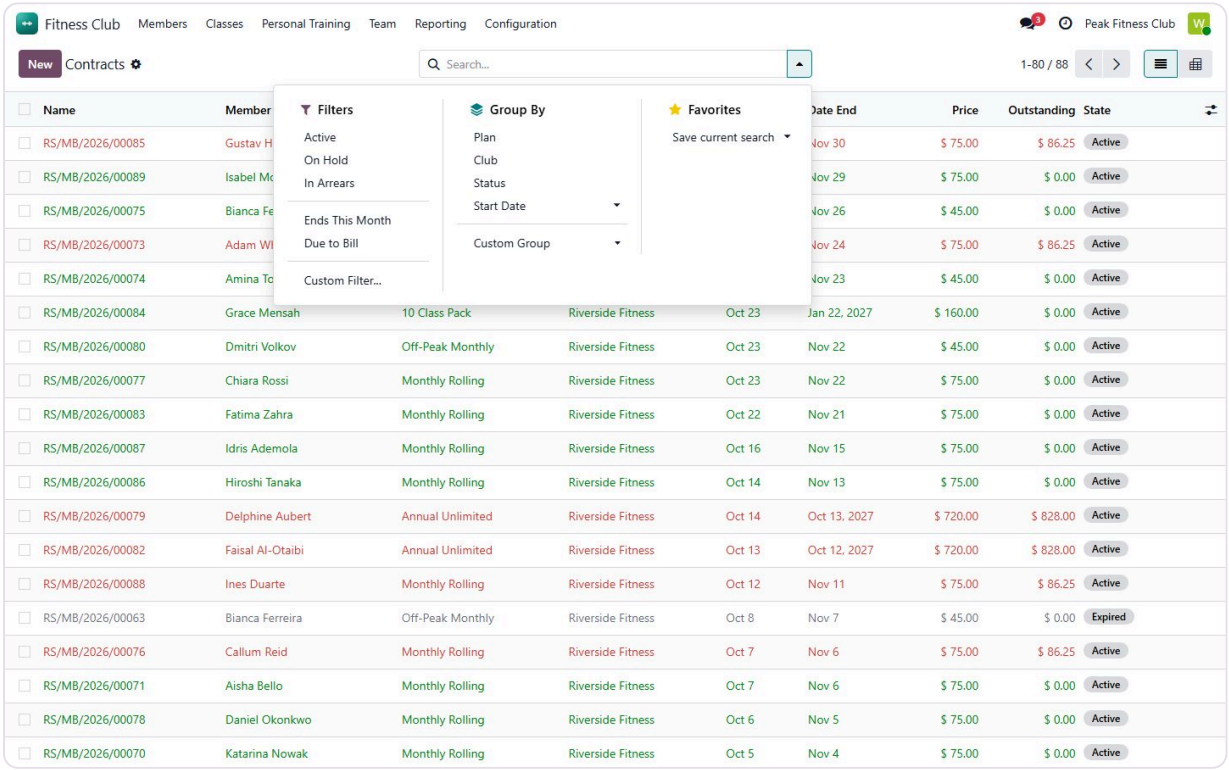

Number, member, plan, club, start, end, price, invoiced, outstanding, next invoice date, auto renew and state.

Name	Member	Plan	Branch	Date Start	Date End	Price	Outstanding	State

Rules checked on every contract: the end date cannot fall before the start date, the price cannot be negative, credits used cannot be negative, and the member's age must sit inside the plan's age limits when a birthday is on file.

PART 6 The front door: check in and check out

Check In is one button on the member. Behind it the system checks the contract, the money, the credits and the room, and either lets the member in or says exactly why not.

IN THIS PART YOU WILL LEARN

- Checking a member in and out
- Every reason the door refuses, and what to do about it
- Who is inside now, and the club capacity
- The visits list and the attendance report

TRY IT YOURSELF ON THE DEMO

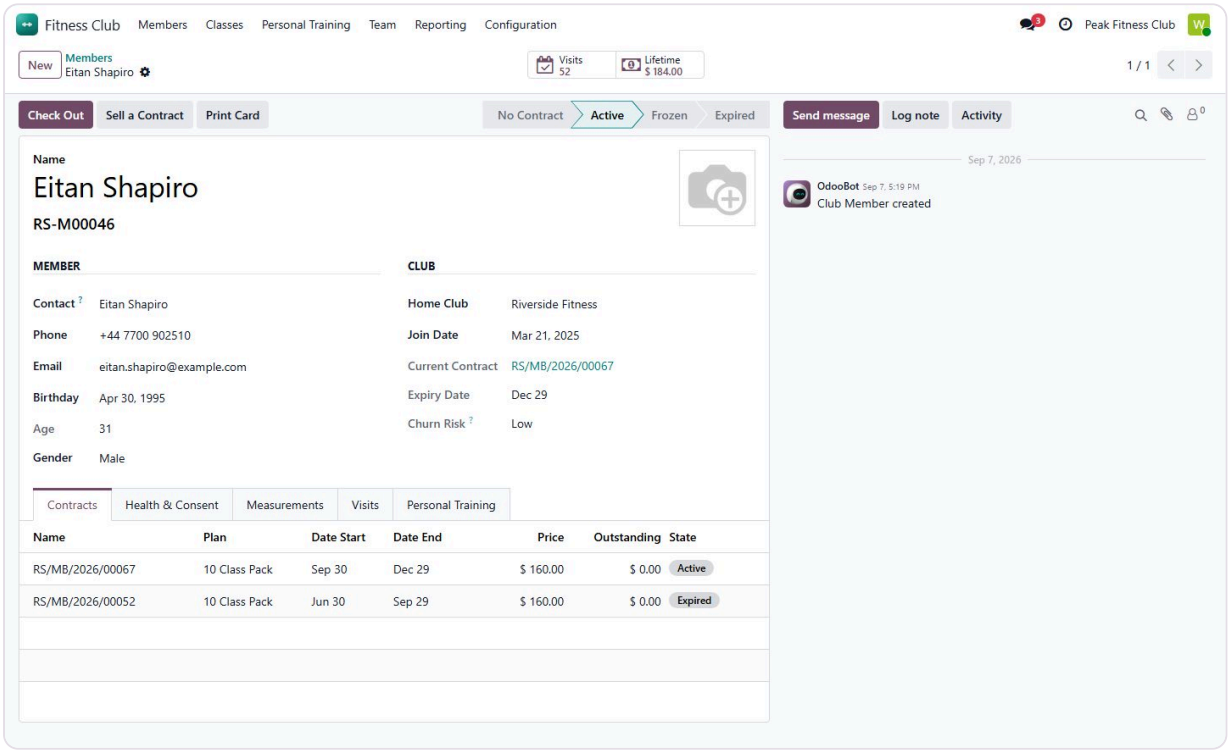

1. Open Eitan Shapiro: he is inside, so the form shows Check Out
2. Members, then Check In, filter Still Inside
3. Reporting, then Attendance

6.1 Check in, check out

1 Check In

Find the member (by name, number or a scanned card) and press **Check In**. A green message says they are in at the club. A member already inside shows **Check Out** instead NEW BUILD; pressing it, or pressing Check In a second time the same day, checks them out and says how many minutes they stayed.

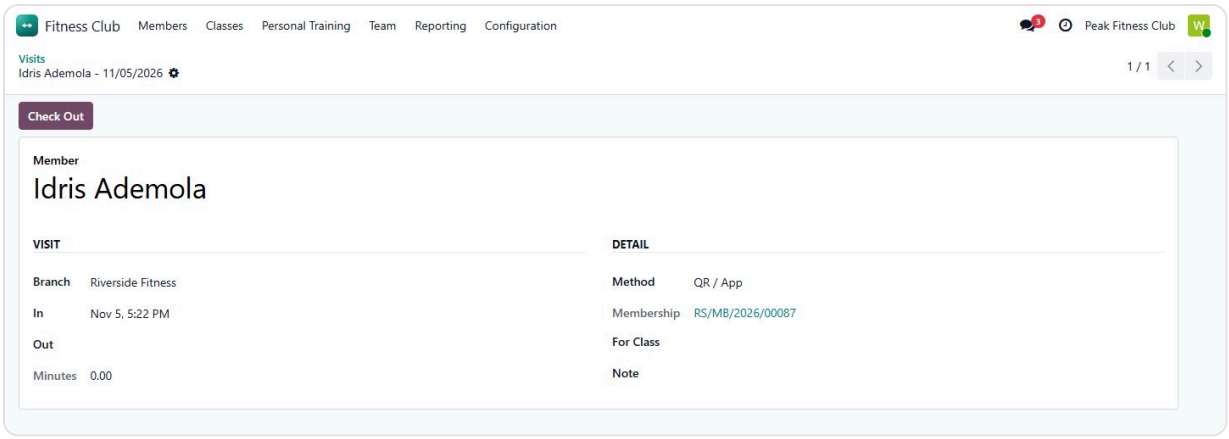

Leaving is checked first, before any rule: nobody is ever held in the building because a contract lapsed while they were on the treadmill.

2 The visit NEW BUILD

Each visit records the member, the club, the contract that let them in, the time in and out, the minutes, the **method** (Front Desk, Access Card, QR / App, Biometric), the class it was for, and a note. An open visit has its own Check Out button.

A visit cannot end before it starts. Visits are created by the door, not typed in, so the list has no New button.

6.2 Why the door says no

THE DESK IS TOLD	WHY	WHAT TO DO
... has no contract	No contract on file	Sell a Contract
... is on a hold until (date)	A hold is running	Resume, or wait
The contract ... has not been activated yet	Still Draft	Activate
The contract ... was cancelled	Cancelled	Sell a new one
The contract ... ran out. Renew it at the desk.	Expired or past its end date	Renew
... does not start until (date)	Sold for later	Wait, or move the start
(Plan) is tied to (club) ... NEW BUILD	Training away from the home club on a single-club plan	Sell an all-clubs plan
... owes (amount). Settle it before training.	Outstanding on posted invoices, Stop at the Door ticked	Take the payment
... has used every session on their package	No credits left	Renew or sell a pack
(Club) is full ... NEW BUILD	Inside now has reached the club capacity	Ask them to wait a few minutes

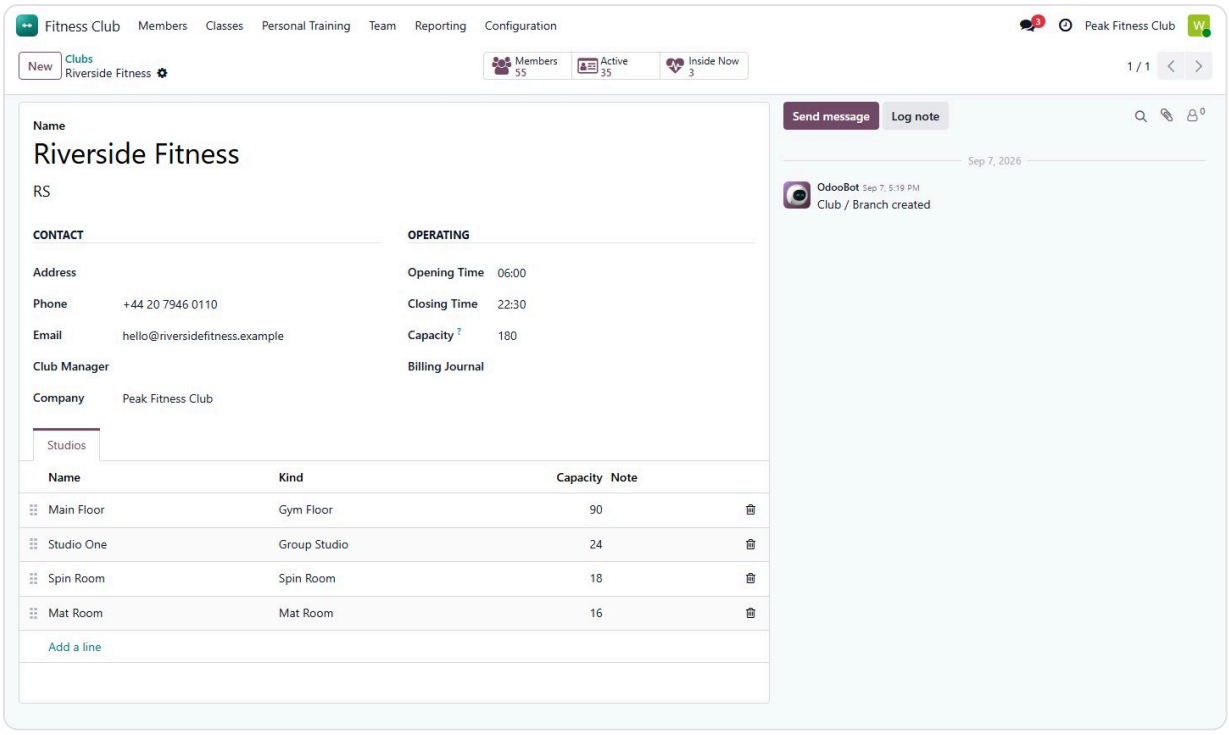

Two cases the door handles quietly NEW BUILD. A member who renewed early this morning has a new contract dated from tomorrow; the term it replaced still covers today, so they are let in on that one. A hold whose last day has passed no longer keeps anyone out, even before the nightly job has put the contract back.

On a credit or pack plan, a visit uses one credit. A member who pops out and comes back the same day is charged once, not once per scan NEW BUILD.

6.3 Who is inside

3 Inside Now NEW BUILD

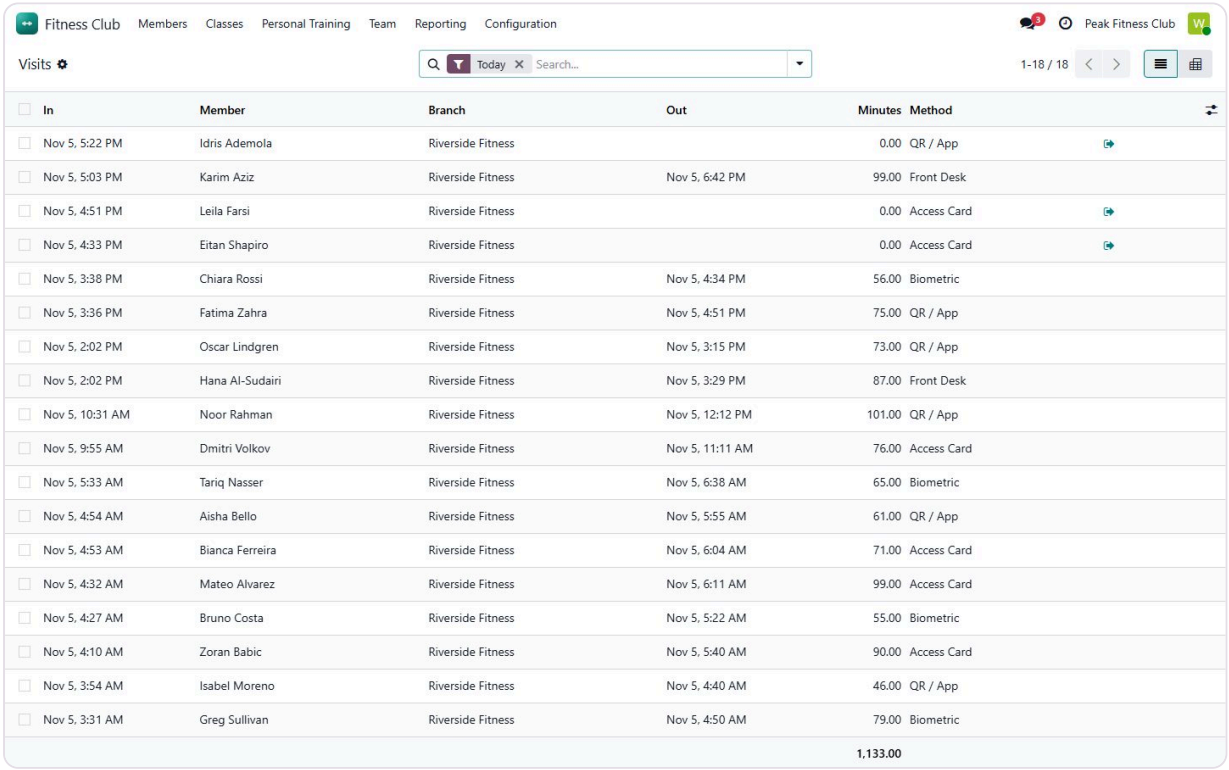

On the club, the **Inside Now** button counts members checked in today and not out yet, and opens the list of them. Once that number reaches the club capacity, the door refuses the next arrival.

6.4 The visits list

4 Members, then Check In

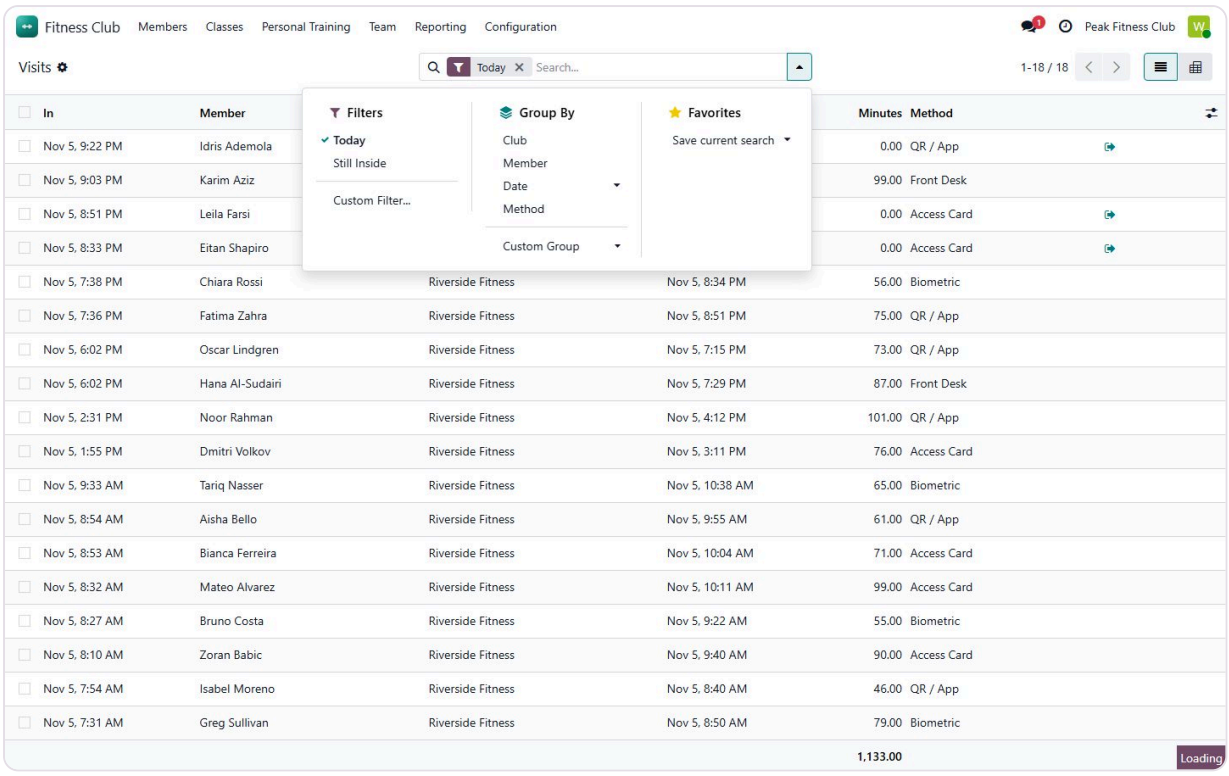

Every visit, newest first: in, member, club, out, minutes, method and class. A visit still open has a check-out button on its line.

In	Member	Branch	Out	Minutes	Method
Nov 5, 5:22 PM	Idris Ademola	Riverside Fitness		0.00	QR / App
Nov 5, 5:03 PM	Karim Aziz	Riverside Fitness	Nov 5, 6:42 PM	99.00	Front Desk

5 Filters

Today and **Still Inside**; group by **Club**, **Member**, **Date** or **Method**.

6 Reporting, then Attendance

Visits counted by day and club, as a pivot you can regroup by member, method or month.

PART 7 The class timetable, bookings and the waitlist

A club runs the same classes every week. You enter the week once as recurring slots; the system writes the actual classes into the diary, takes bookings up to the room's capacity, queues the rest, and closes each class afterwards so no-shows are counted.

IN THIS PART YOU WILL LEARN

- Recurring slots and generating the diary from them
- The timetable in calendar and list form
- Booking a member, and every rule a booking is checked against
- The waitlist and how a free place is handed on
- Cancelling in time and late, and what happens to the credit
- Taking the register, closing a class, cancelling a class

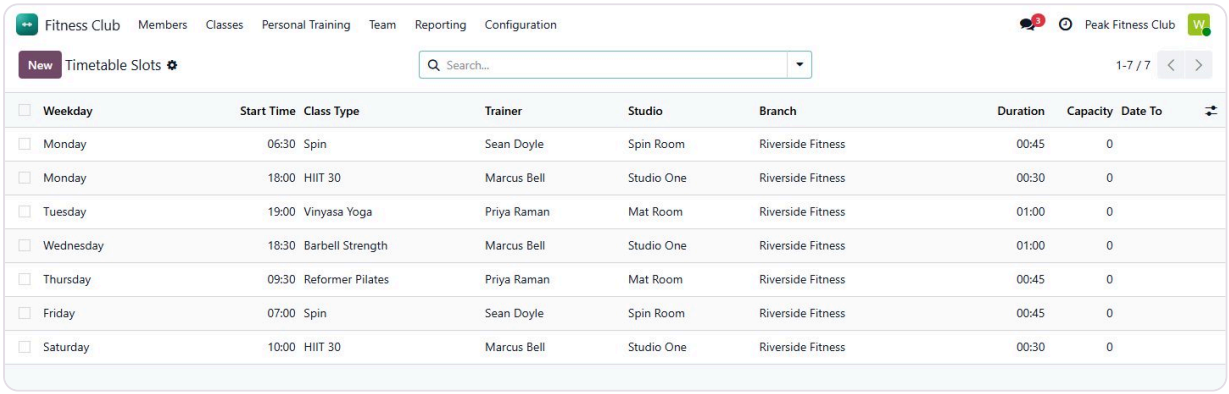

TRY IT YOURSELF ON THE DEMO

1. Classes, then Recurring Slots, open Spin Monday 06:30
2. Classes, then Timetable: the calendar of the week
3. Open HIIT 30 on 5 September and its Register tab
4. Classes, then Bookings, filter No Shows

7.1 Recurring slots

1 Classes, then Recurring Slots

The weekly timetable: weekday, start time, class type, trainer, studio, club, duration, capacity and the last date the slot runs. The list is editable in place. Manager only.

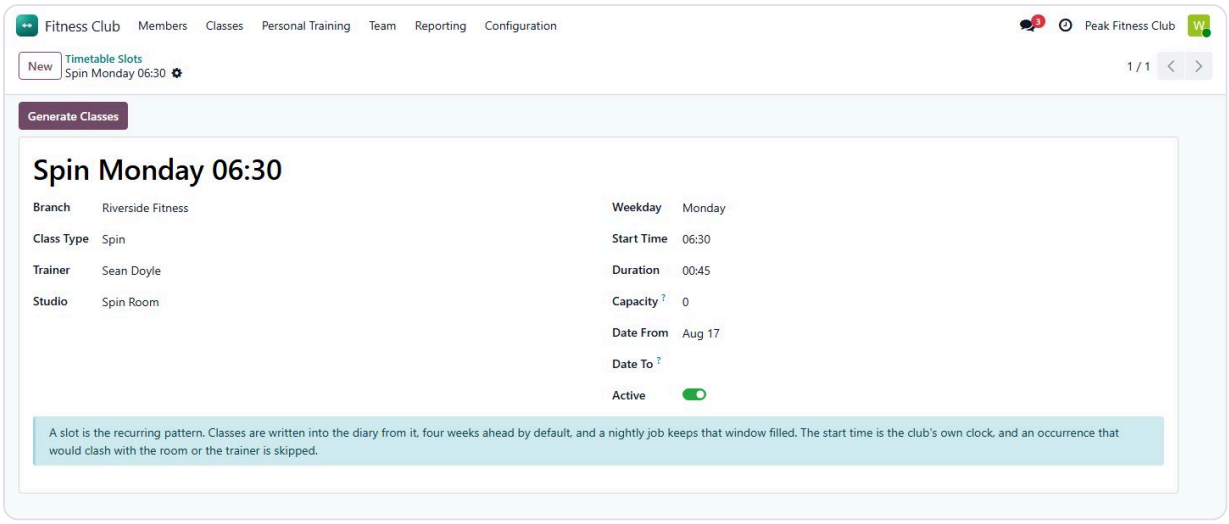

Weekday	Start Time	Class Type	Trainer	Studio	Branch	Duration	Capacity	Date To
Monday	06:30	Spin	Sean Doyle	Spin Room	Riverside Fitness	00:45	0	
Monday	18:00	HIIT 30	Marcus Bell	Studio One	Riverside Fitness	00:30	0	
Tuesday	19:00	Vinyasa Yoga	Priya Raman	Mat Room	Riverside Fitness	01:00	0	
Wednesday	18:30	Barbell Strength	Marcus Bell	Studio One	Riverside Fitness	01:00	0	
Thursday	09:30	Reformer Pilates	Priya Raman	Mat Room	Riverside Fitness	00:45	0	
Friday	07:00	Spin	Sean Doyle	Spin Room	Riverside Fitness	00:45	0	
Saturday	10:00	HIIT 30	Marcus Bell	Studio One	Riverside Fitness	00:30	0	

2 One slot, and Generate

Club, class type, trainer, studio, weekday, start time (24 hour clock), duration, capacity (empty takes the studio's), and the dates the slot runs from and to (empty To means indefinitely). **Generate** writes it into the diary up to the timetable horizon and says how many classes appeared.

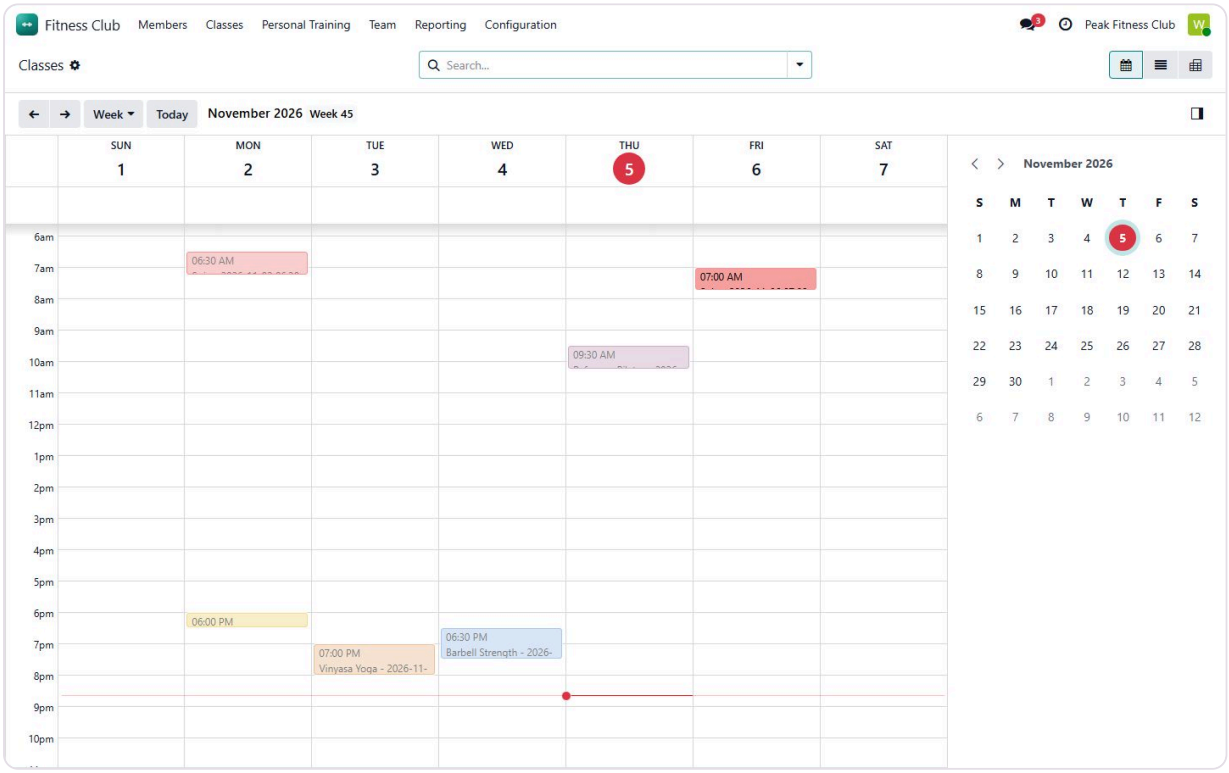

Generate can be pressed as often as you like: a class already in the diary is left alone. The start time is read on the clock of the user who generates (for the nightly job, its user), so set that user's time zone to the club's. An occurrence that would clash with the room or the trainer (classes or personal training) is skipped rather than stopping the run NEW BUILD.

7.2 The timetable

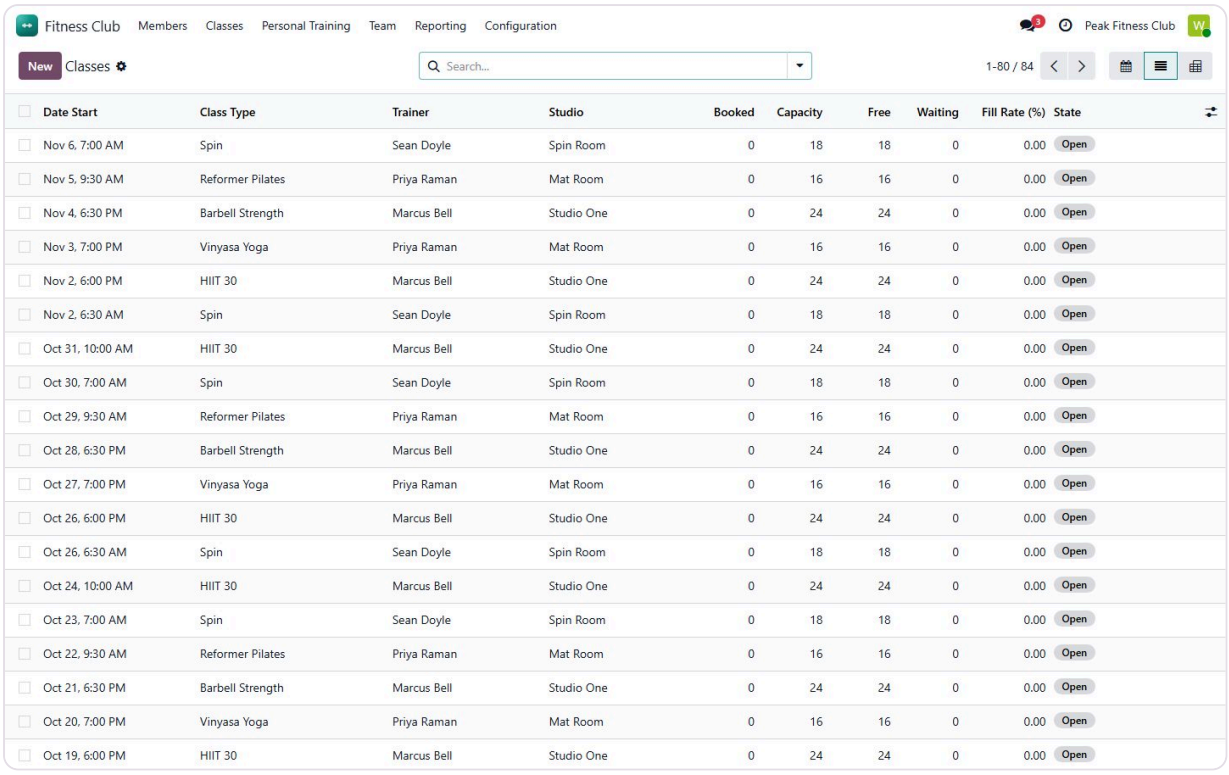

3 Classes, then Timetable

A calendar of classes in the colour of their class type, each showing the trainer, studio and places booked against capacity.

4 The list

Start, class type, trainer, studio, club, booked, capacity, **Free** NEW BUILD, waiting, attended, no-shows, fill rate and state. A full class is amber. Filters: **Upcoming**, **Today**, **Has a Waitlist**, **Full**; group by class type, trainer, studio or date.

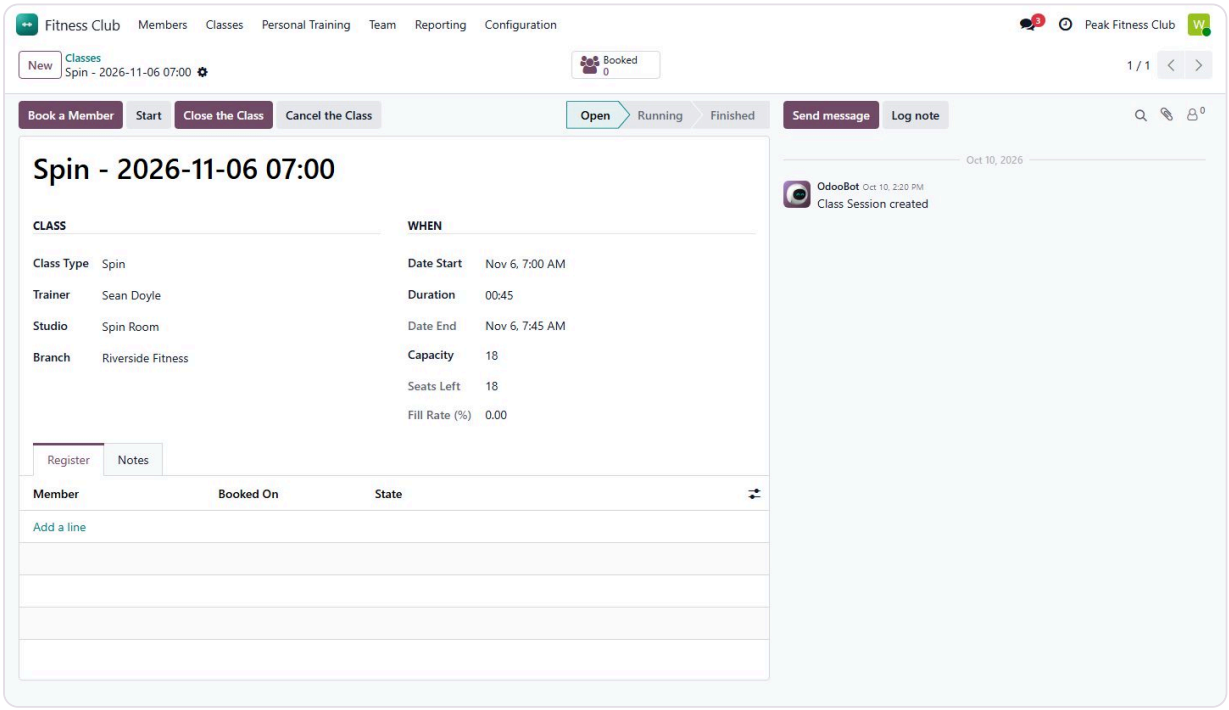

Date Start	Class Type	Trainer	Studio	Booked	Capacity	Free	Waiting	Fill Rate (%)	State
Nov 6, 7:00 AM	Spin	Sean Doyle	Spin Room	0	18	18	0	0.00	Open
Nov 5, 9:30 AM	Reformer Pilates	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Nov 4, 6:30 PM	Barbell Strength	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Nov 3, 7:00 PM	Vinyasa Yoga	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Nov 2, 6:00 PM	HIIT 30	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Nov 2, 6:30 AM	Spin	Sean Doyle	Spin Room	0	18	18	0	0.00	Open

Oct 30, 7:00 AM	Spin	Sean Doyle	Spin Room	0	18	18	0	0.00	Open
Oct 29, 9:30 AM	Reformer Pilates	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Oct 28, 6:30 PM	Barbell Strength	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Oct 27, 7:00 PM	Vinyasa Yoga	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Oct 26, 6:00 PM	HIIT 30	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Oct 26, 6:30 AM	Spin	Sean Doyle	Spin Room	0	18	18	0	0.00	Open
Oct 24, 10:00 AM	HIIT 30	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Oct 23, 7:00 AM	Spin	Sean Doyle	Spin Room	0	18	18	0	0.00	Open
Oct 22, 9:30 AM	Reformer Pilates	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Oct 21, 6:30 PM	Barbell Strength	Marcus Bell	Studio One	0	24	24	0	0.00	Open
Oct 20, 7:00 PM	Vinyasa Yoga	Priya Raman	Mat Room	0	16	16	0	0.00	Open
Oct 19, 6:00 PM	HIIT 30	Marcus Bell	Studio One	0	24	24	0	0.00	Open

7.3 The class form

5 An open class

The header carries **Book a Member**, **Start**, **Close the Class** and **Cancel the Class**, and the state: Open, Full, Running, Finished, Cancelled. Booked and Waiting buttons sit top right. Below: class type, trainer, studio, club, start, duration, end, capacity, free places, fill rate.

When the class is full and people are waiting, an amber note says how many are on the waitlist NEW BUILD.

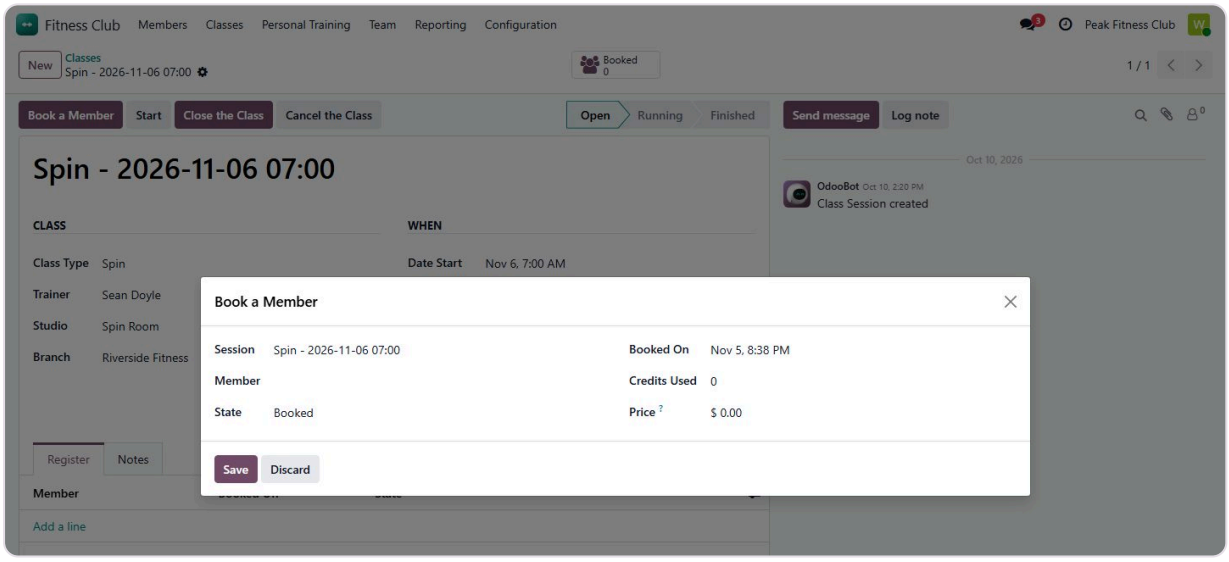

RULE ON A CLASS	WHAT IT STOPS
Trainer clash	The same trainer teaching two classes at once.
Studio clash	Two classes in the same room at once.
Personal training clash NEW BUILD	A class on top of the trainer's PT session.
Studio capacity NEW BUILD	A class set to take more than its room holds, or a studio from another club.
Capacity and duration	A class must hold at least one person and last longer than zero hours.

7.4 Book a member

6 Book a Member

On the class press **Book a Member** and pick the member. If there is a place, the booking is **Booked**; if not, it goes on the **Waitlist**. On a credit plan the credits the class costs are taken now. Someone with no contract pays the class's drop-in price.

On the demo, close the window with the cross.

A booking is refused, with the reason, when:

REFUSAL	WHY
... is closed for booking	The class is finished or cancelled.
... has already started NEW BUILD	Book a later class, or mark the member present on the register.
... is already on (class)	One place per member per class.
... is already booked on (other class) at that hour NEW BUILD	A member cannot hold two overlapping places.
... is on a hold until (date)	Frozen members cannot book.
... has no live contract ... members only	No contract covers the class day, and the class has no drop-in price.
The (plan) plan does not include classes	A gym-floor plan, and no drop-in price.
... is for (club) only	A single-club plan, booking at another club.
... has (n) credits left and this class costs (m) NEW BUILD	Not enough credits on a credit plan.
... is full	Typing a booking straight to Booked on a full class.

> Two desks booking the last place at the same moment cannot both get it: the class row is locked while the seat is counted NEW BUILD. A cancelled booking is history and does not stop the member booking the same class again NEW BUILD.

7.5 Cancellations and the waitlist

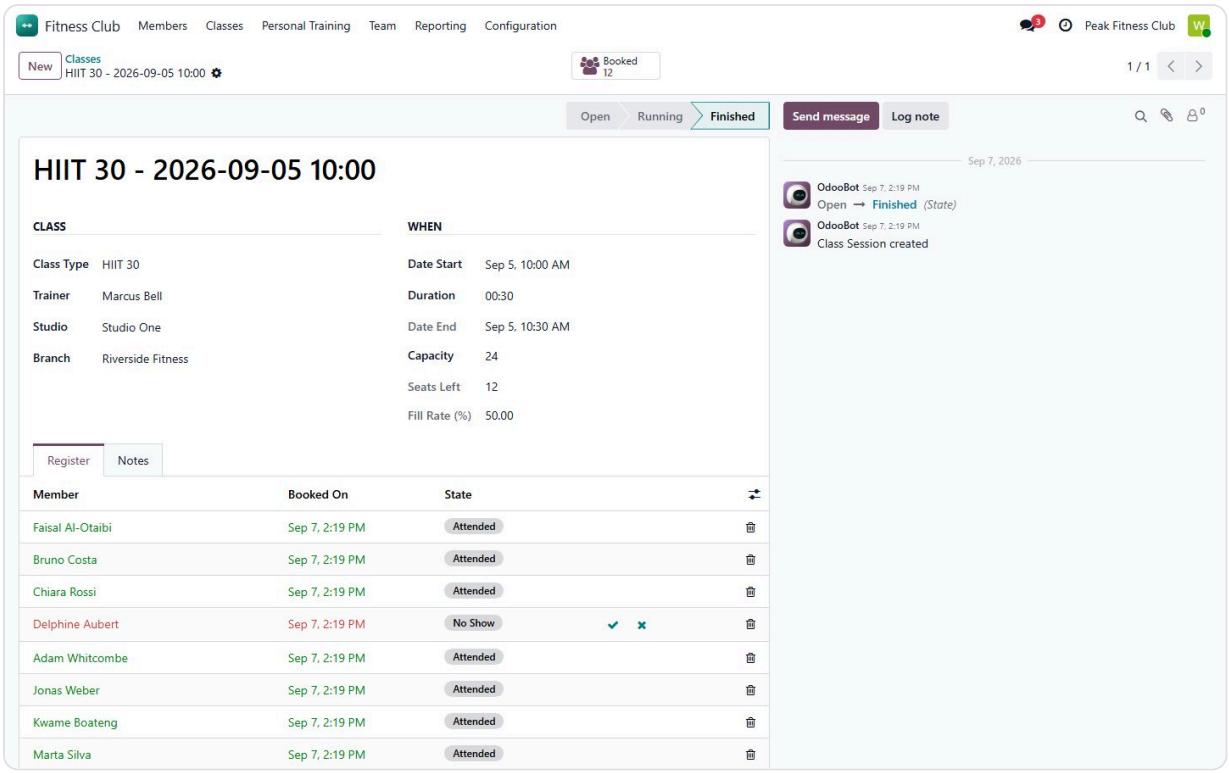

Cancel a booking with the cross on its line in the register. Cancelled before the late-cancellation window (12 hours by default), the credits go back on the contract: **Cancelled in time**. Inside the window the member keeps the place's cost: **Late cancellation, credit kept**. Leaving the waitlist costs nothing.

Every freed place goes to whoever has waited longest. A promotion is a real booking: it takes the seat and its credits. NEW BUILD A waiting member who cannot be promoted (out of credits, or now booked elsewhere at that hour) stays on the list and the next one is offered the place. The promoted member gets a note on their record. **Promote** on a waitlist line does the same by hand.

7.6 Take the register and close the class

7 A finished class

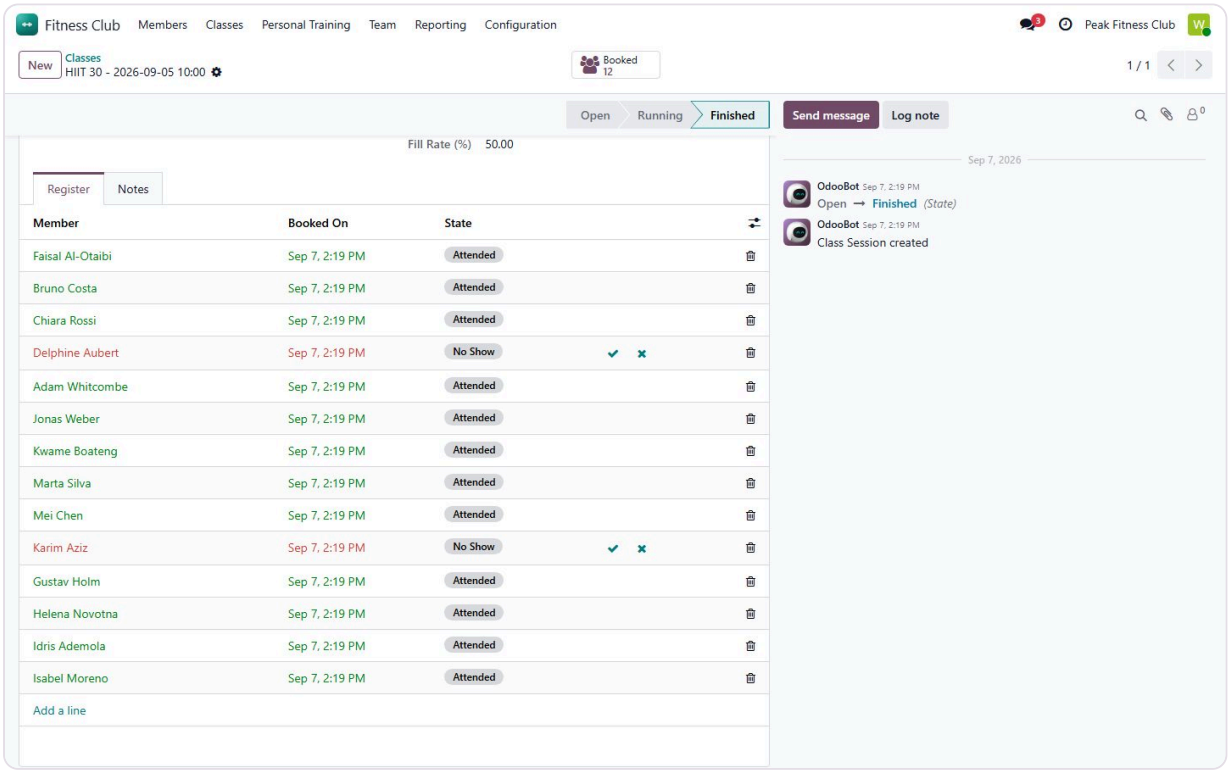

Start marks the class Running. **Close the Class** finishes it: every booked member not marked present becomes a no-show, and anyone still on the waitlist is cancelled. The nightly job closes any class that has ended and was not closed by hand.

8 The Register tab

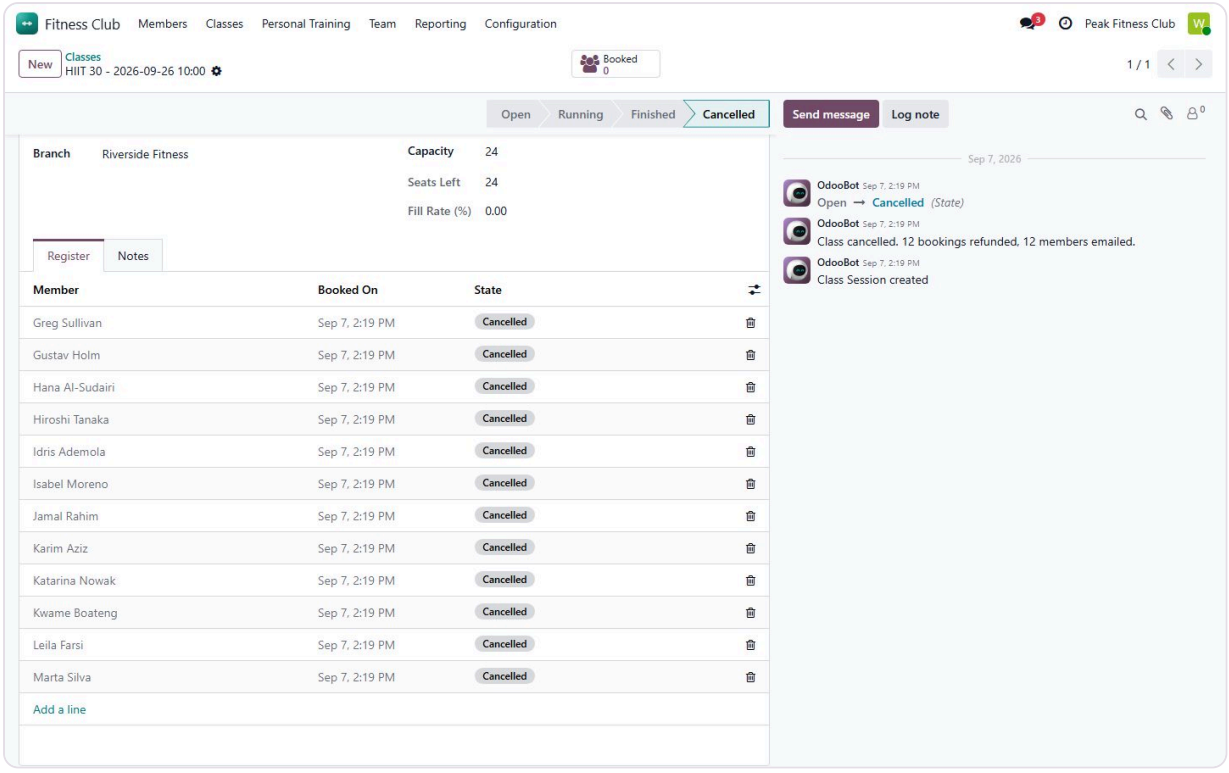

Each booking with member, booked on, credits used and drop-in price, coloured by state NEW BUILD: green attended, amber waitlist, red no-show, grey cancelled. The tick marks a member present and also records a visit for them, linked to the class.

A no-show can still be marked present afterwards, if the register was taken late.

9 Cancel the Class

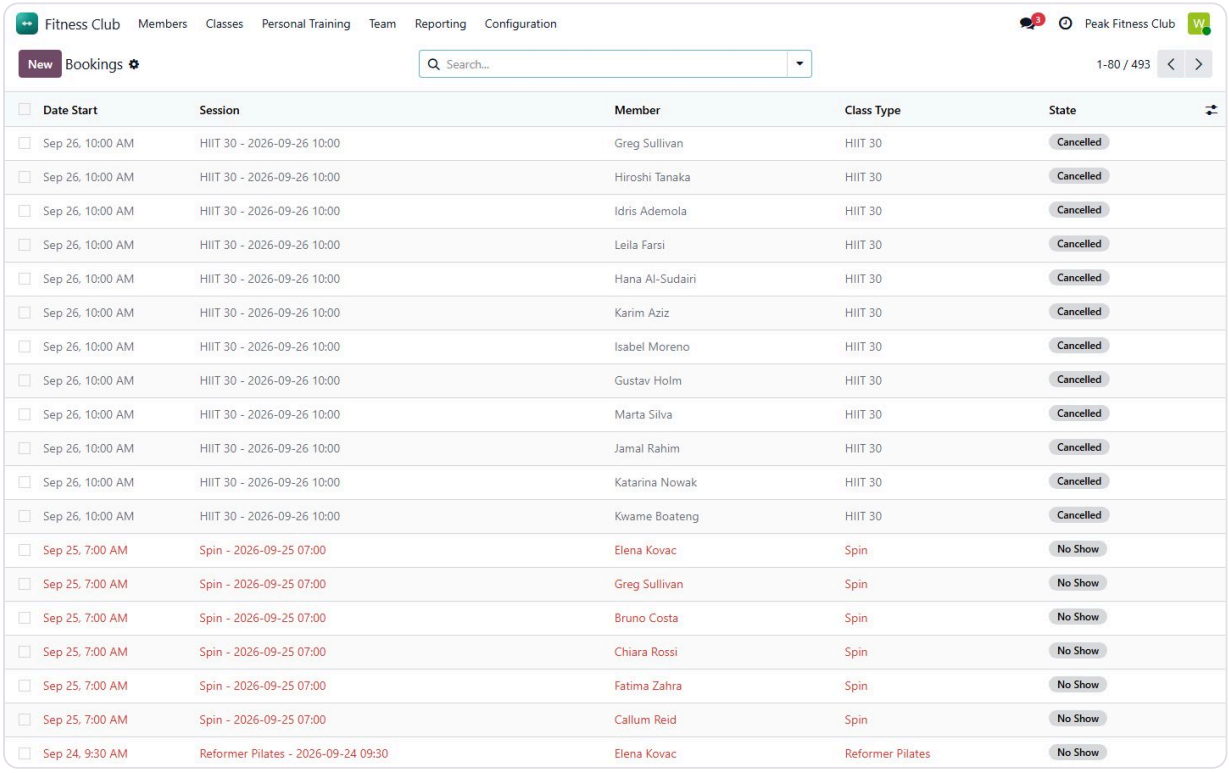

Cancels every booking with a full credit refund (reason: Class cancelled by the club), emails each booked member who has an email the **Class Cancelled** template, and notes in the chatter how many were refunded and told.

7.7 Every booking

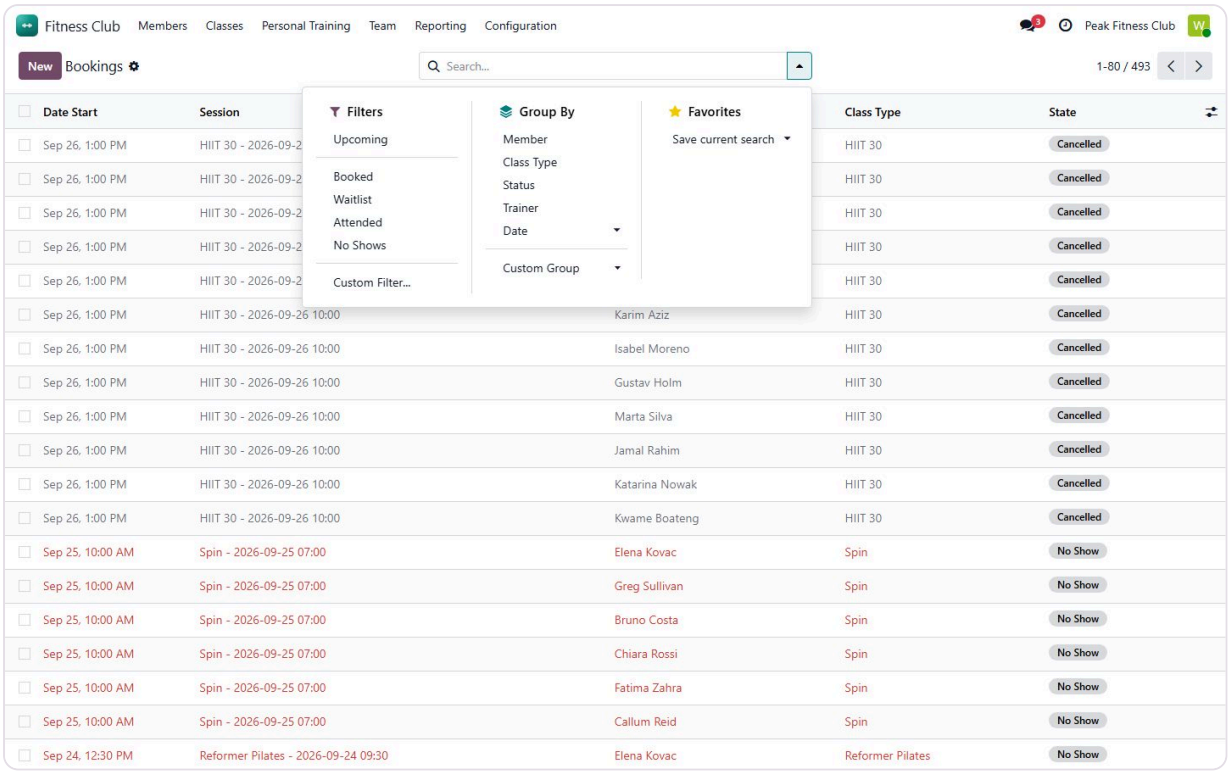

10 Classes, then Bookings

Start, class, member, class type, trainer, booked on, credits used, credits refunded **NEW BUILD**, price and state.

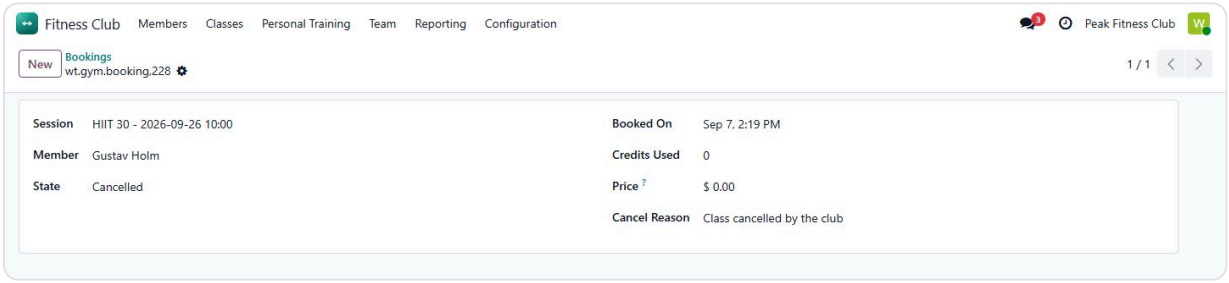

11 Filters

Upcoming NEW BUILD, **Booked**, **Waitlist**, **Attended**, **No Shows**; group by member, class type, status, trainer NEW BUILD or date.

12 One booking

Class, member, state, booked on, credits used, credits refunded NEW BUILD (the flag that stops a second cancellation crediting twice), price and the cancel reason.

PART 8 Personal training

Personal training is sold as a block of sessions with one trainer and an expiry date. Each session is drawn from the block, and only a delivered session pays the trainer.

IN THIS PART YOU WILL LEARN

- Selling, confirming and invoicing a PT package
- Booking sessions into the trainer's diary
- Delivered, no show, cancelled and late cancellation
- Waiving a charge and reopening a block
- Expiry, and how the block counts what is left

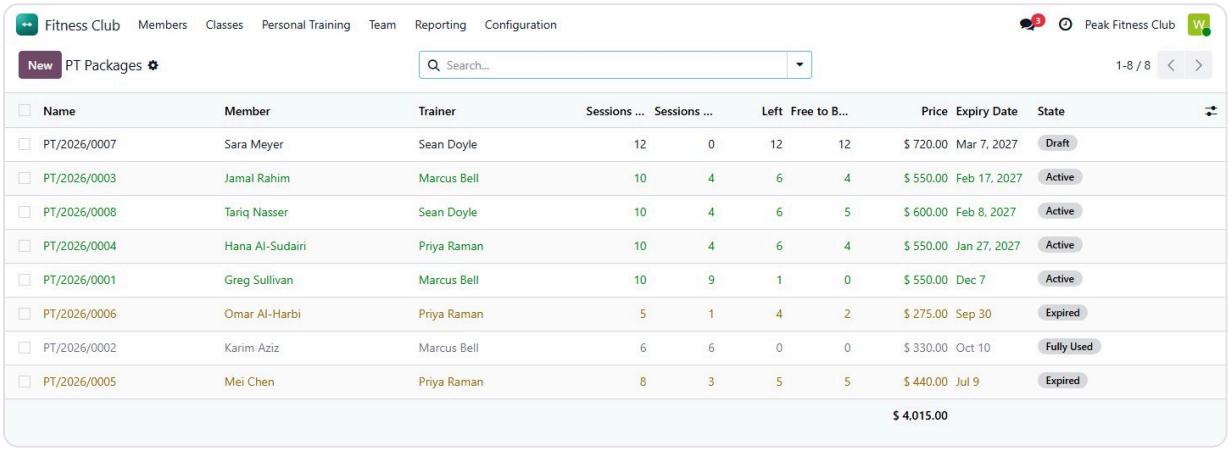

TRY IT YOURSELF ON THE DEMO

1. Personal Training, then Packages, open PT/2026/0003
2. Open its Sessions tab: one of each state
3. Personal Training, then Sessions: the PT diary

8.1 Sell a package

1 Personal Training, then Packages

Number, member, trainer, club, sessions, used, left, free to book NEW BUILD, price, trainer cost and margin NEW BUILD (optional columns), expiry and state. Active is green, expired amber.

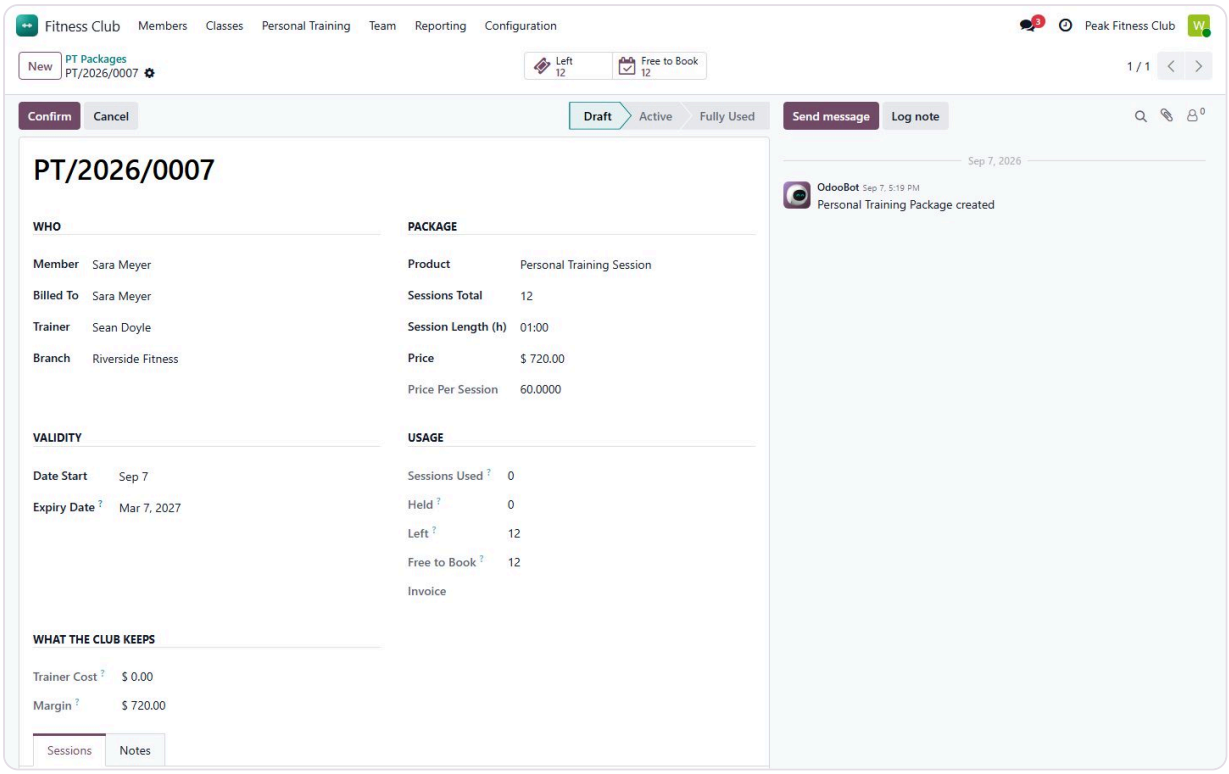

Name	Member	Trainer	Sessions ...	Sessions ...	Left	Free to B...	Price	Expiry Date	State
PT/2026/0007	Sara Meyer	Sean Doyle	12	0	12	12	$ 720.00	Mar 7, 2027	Draft
PT/2026/0003	Jamal Rahim	Marcus Bell	10	4	6	4	$ 550.00	Feb 17, 2027	Active
PT/2026/0008	Tariq Nasser	Sean Doyle	10	4	6	5	$ 600.00	Feb 8, 2027	Active
PT/2026/0004	Hana Al-Sudairi	Priya Raman	10	4	6	4	$ 550.00	Jan 27, 2027	Active
PT/2026/0001	Greg Sullivan	Marcus Bell	10	9	1	0	$ 550.00	Dec 7	Active
PT/2026/0006	Omar Al-Harbi	Priya Raman	5	1	4	2	$ 275.00	Sep 30	Expired
PT/2026/0002	Karim Aziz	Marcus Bell	6	6	0	0	$ 330.00	Oct 10	Fully Used
PT/2026/0005	Mei Chen	Priya Raman	8	3	5	5	$ 440.00	Jul 9	Expired
							$ 4,015.00		

2 A new package, in Draft

Member (the contact billed and the club follow from it), trainer, product, number of sessions, session length, price, start date. The **expiry date** is the start plus the package validity setting (6 months), and can be changed. The price per session is worked out. **Confirm** makes it Active.

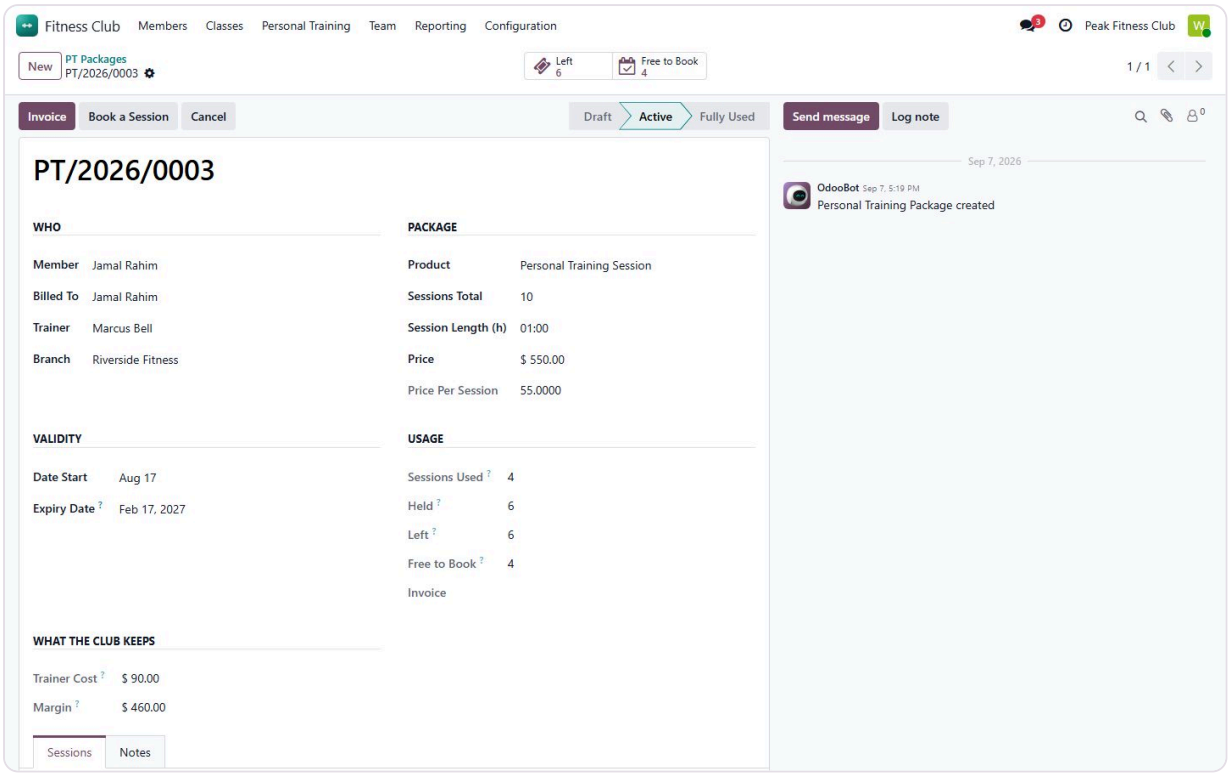

Numbered PT/2026/0007 on save.

3 An active package

Invoice raises one invoice line for the block at the agreed price. **Book a Session** opens the diary entry. The buttons show sessions **Left** and **Free to Book** NEW BUILD. The Usage group shows used, held (used plus already in the diary) NEW BUILD and free to book; **What the Club Keeps** NEW BUILD shows the trainer cost so far and the margin.

The invoice is one line for the block as sold, so it always matches the price the member agreed, even when it does not divide evenly.

8.2 How a session is counted

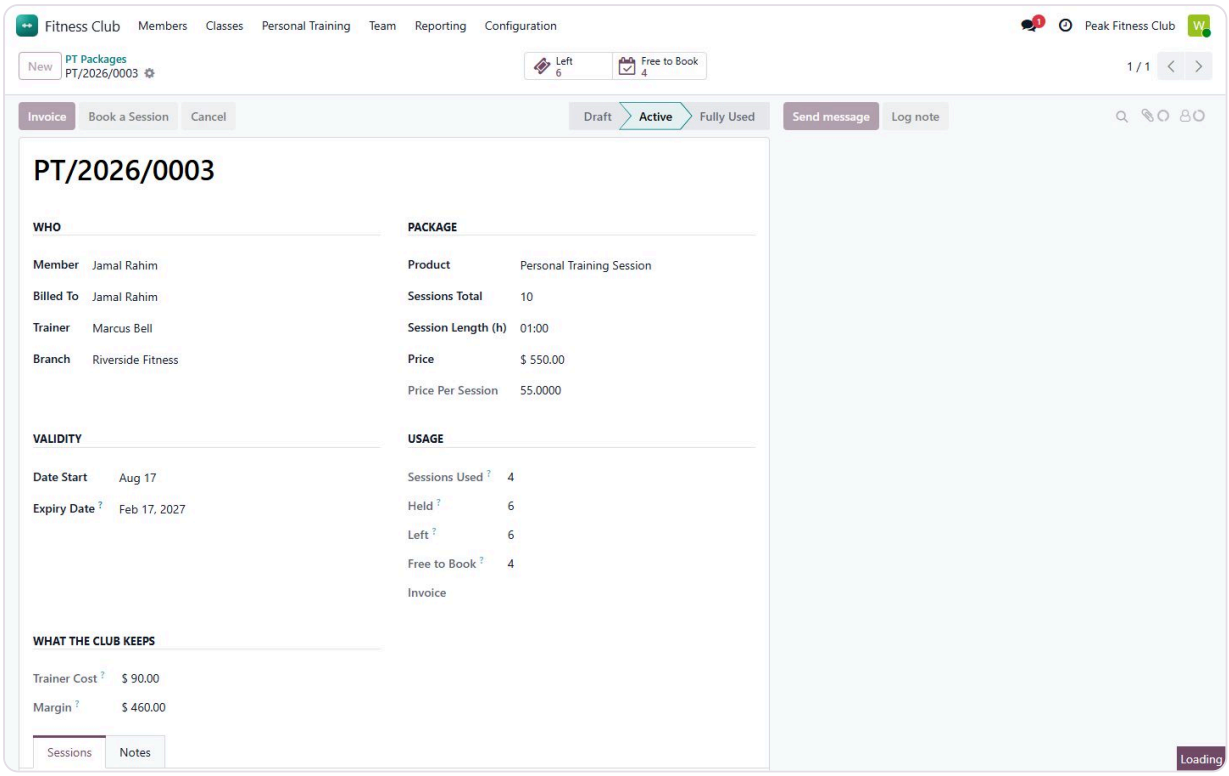

STATE	OUT OF THE BLOCK?	TRAINER PAID?
Planned	Held: cannot be booked twice	No
Delivered	Yes	Yes, at the rate in force that day
No Show	Yes	No
Late Cancellation NEW BUILD	Yes	No
Cancelled (in good time)	No, back in the block	No

8.3 Book and deliver sessions

4 Book a Session

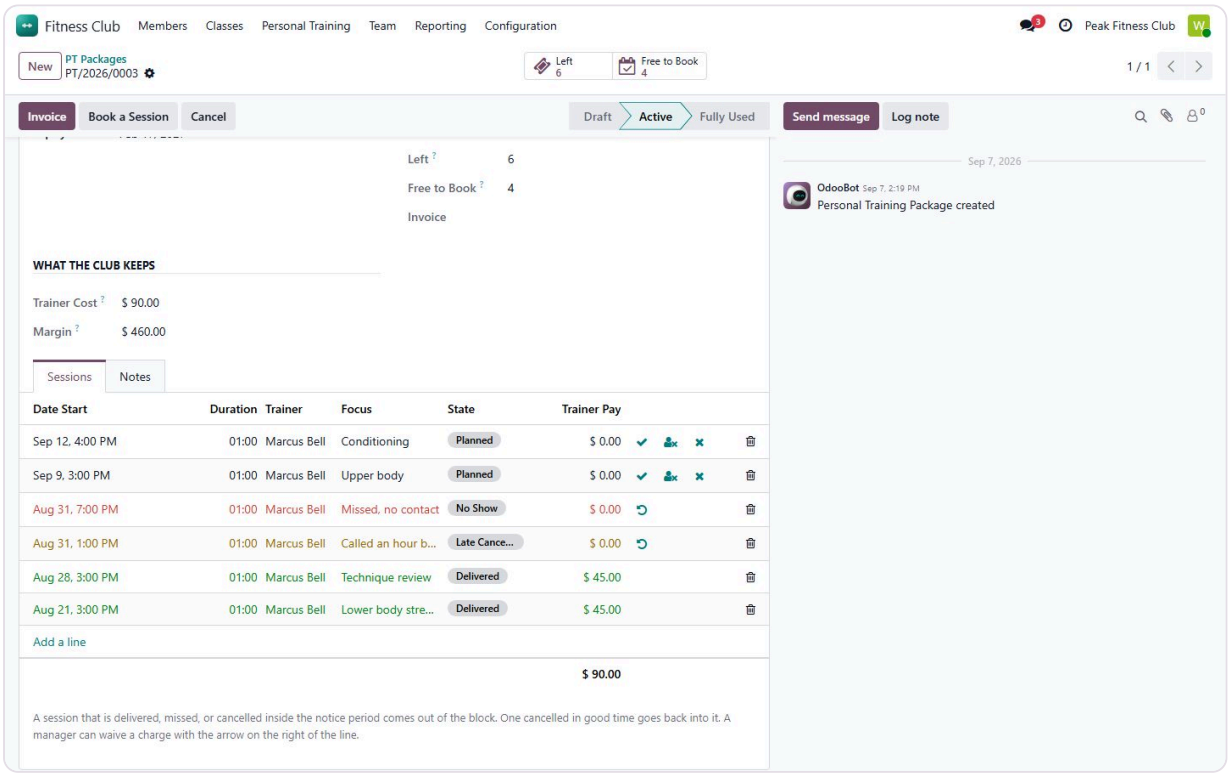

From the package, **Book a Session** opens a session with the package, member, trainer and length filled in. Pick the date and time and the focus.

Refused when the package is not active, every session is used or already booked, the date is past the expiry, or the trainer is already teaching or training someone at that hour. On the demo, close the window with the cross.

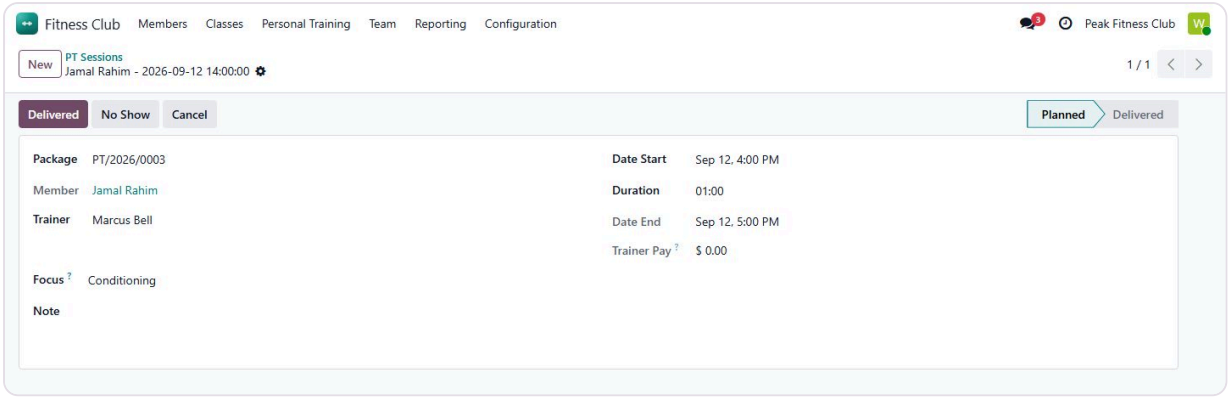

5 The Sessions tab

Every session drawn from the block, coloured by state NEW BUILD. Each line has Delivered, No Show and Cancel NEW BUILD, and, for a manager, the undo arrow that waives a charge NEW BUILD.

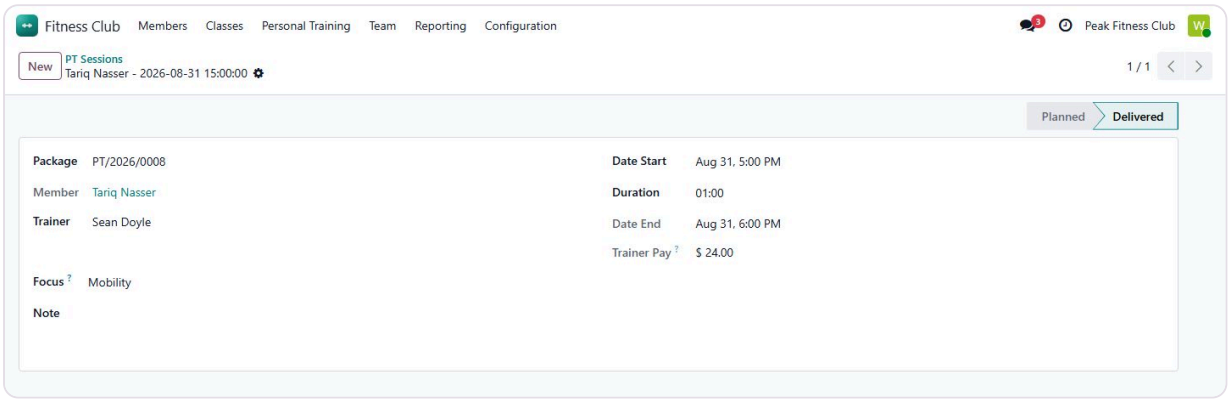

6 A planned session

Delivered, **No Show** and **Cancel** in the header. Delivered needs an active package that has not passed its expiry.

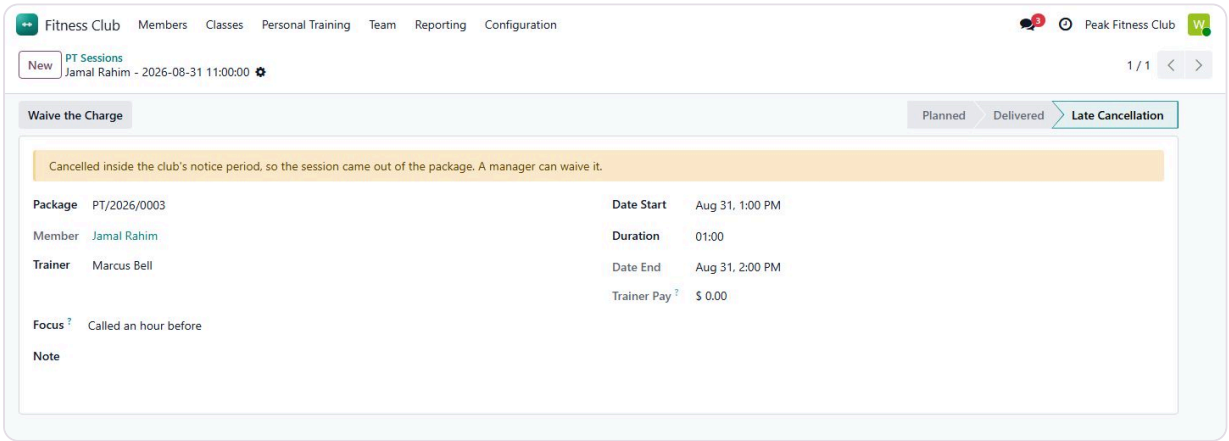

7 A delivered session

The trainer's pay for this session is fixed at delivery from their pay basis that day, and marked **Pay Agreed** NEW BUILD, so a later rate change does not rewrite a month already paid.

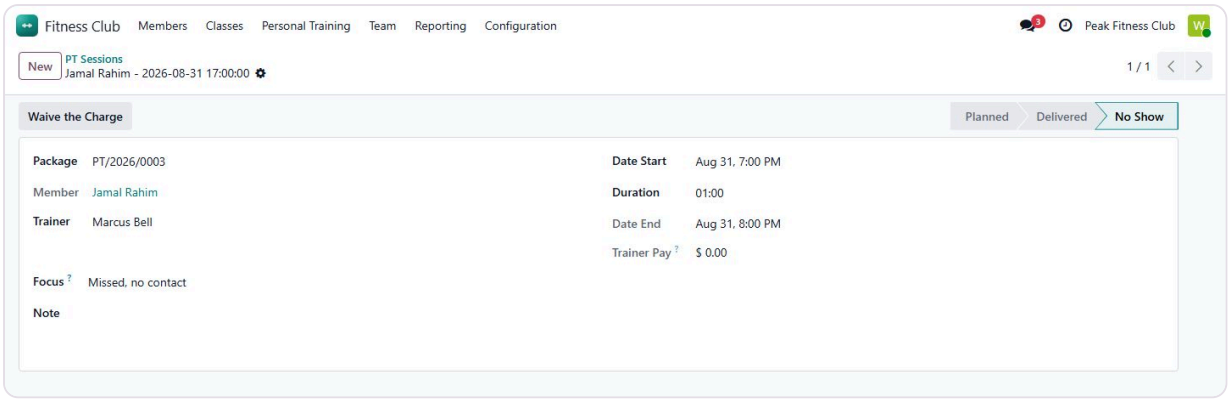

8 A late cancellation NEW BUILD

Cancel inside the late-cancellation window (12 hours) and the session is closed as a late cancellation: it comes out of the block and pays nobody. An amber note explains it.

9 A no show, and Waive the Charge

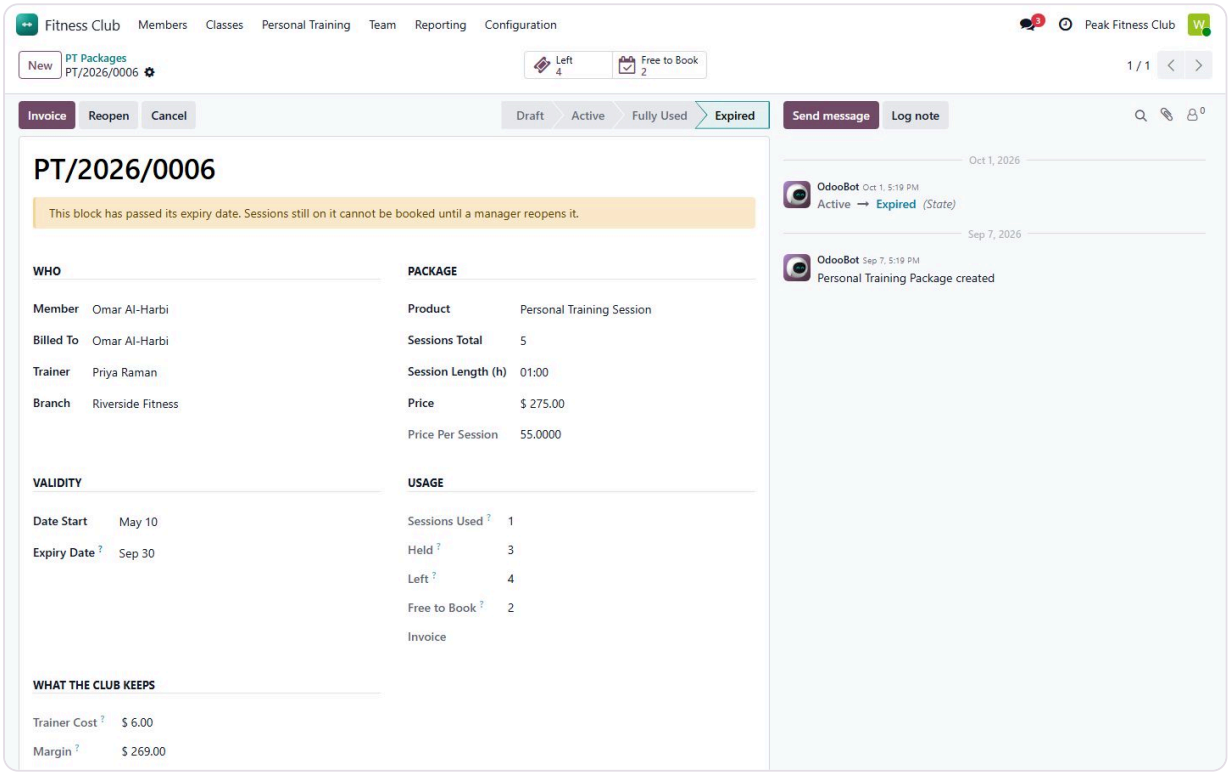

No Show only applies to a planned session. A manager can press **Waive the Charge** NEW BUILD on a no show or late cancellation: it becomes Cancelled and the session goes back into the block.

8.4 Expiry and reopening

10 An expired block

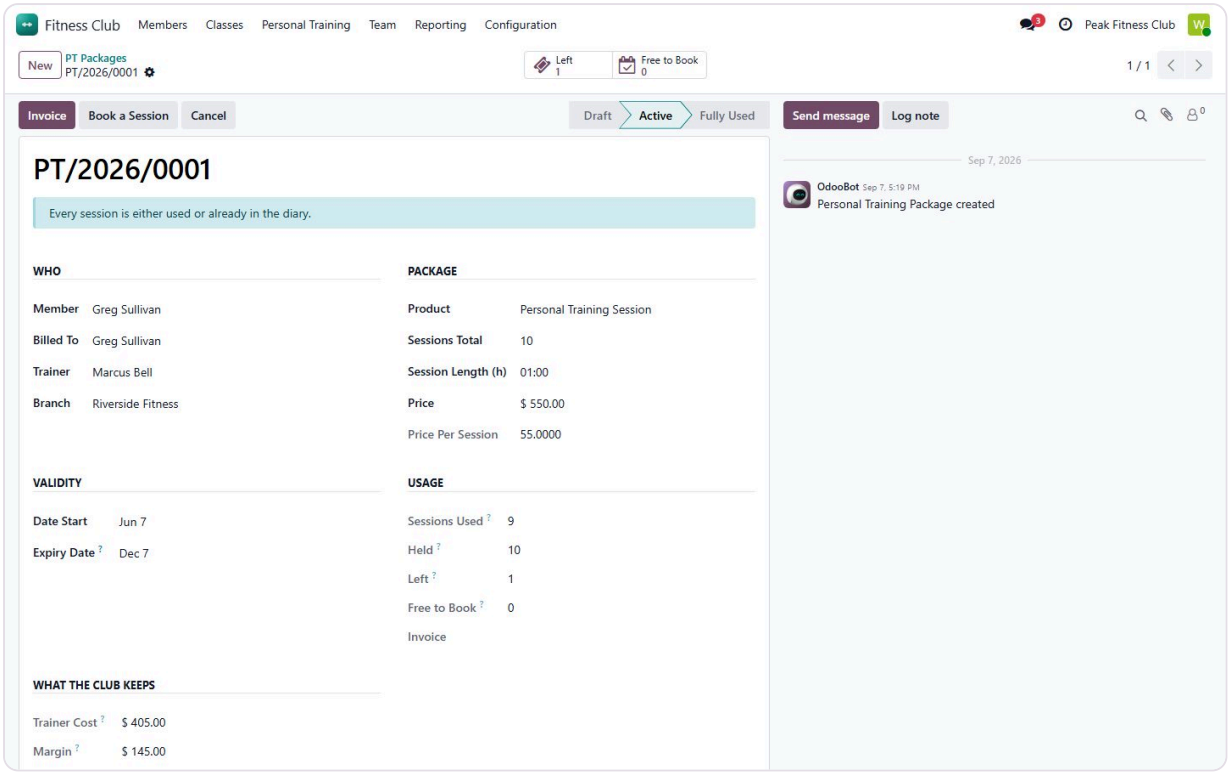

The nightly job lapses active packages past their expiry. An amber note says sessions left cannot be booked until a manager reopens it. **Reopen** NEW BUILD puts an expired or cancelled block back to Active (or Fully Used), once the expiry date has been moved forward.

11 Fully booked

When every session is used or already in the diary, a blue note says so NEW BUILD. When the last one is used the block turns Fully Used; if one is cancelled or waived it goes back to Active NEW BUILD.

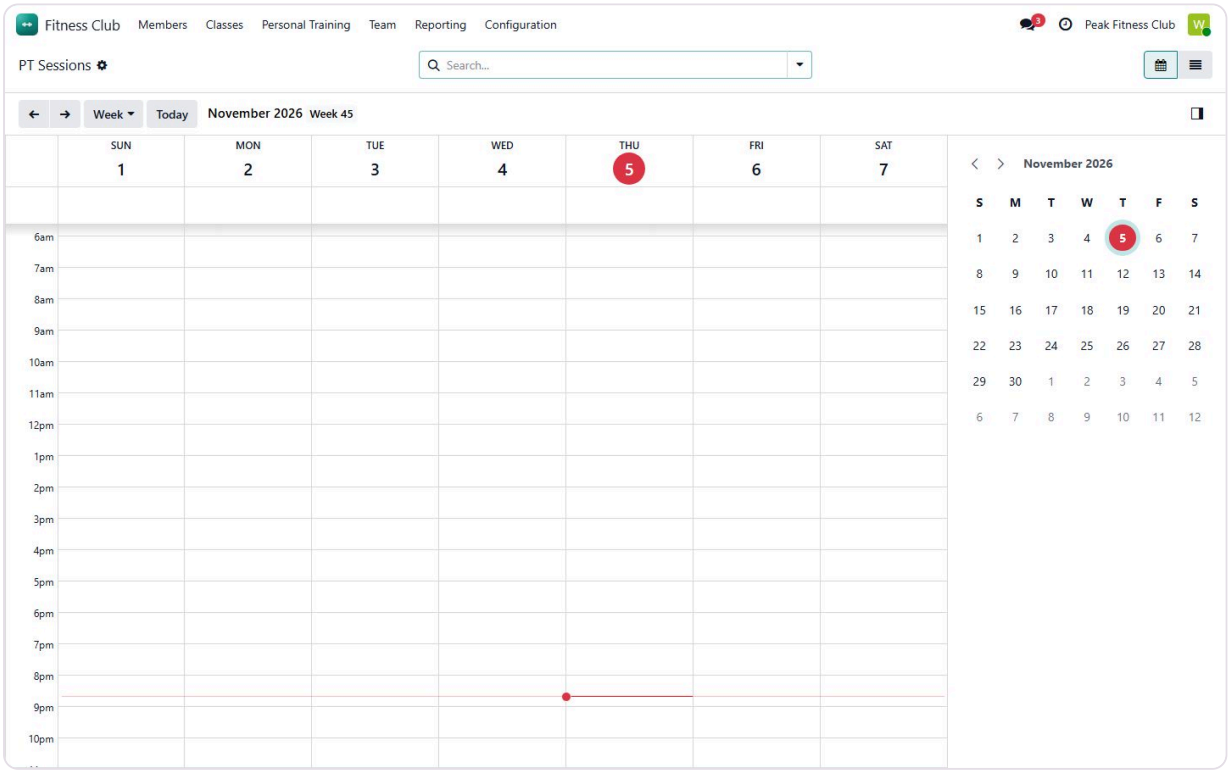

Cancel on a package cancels it and every session still planned.

8.5 The PT diary

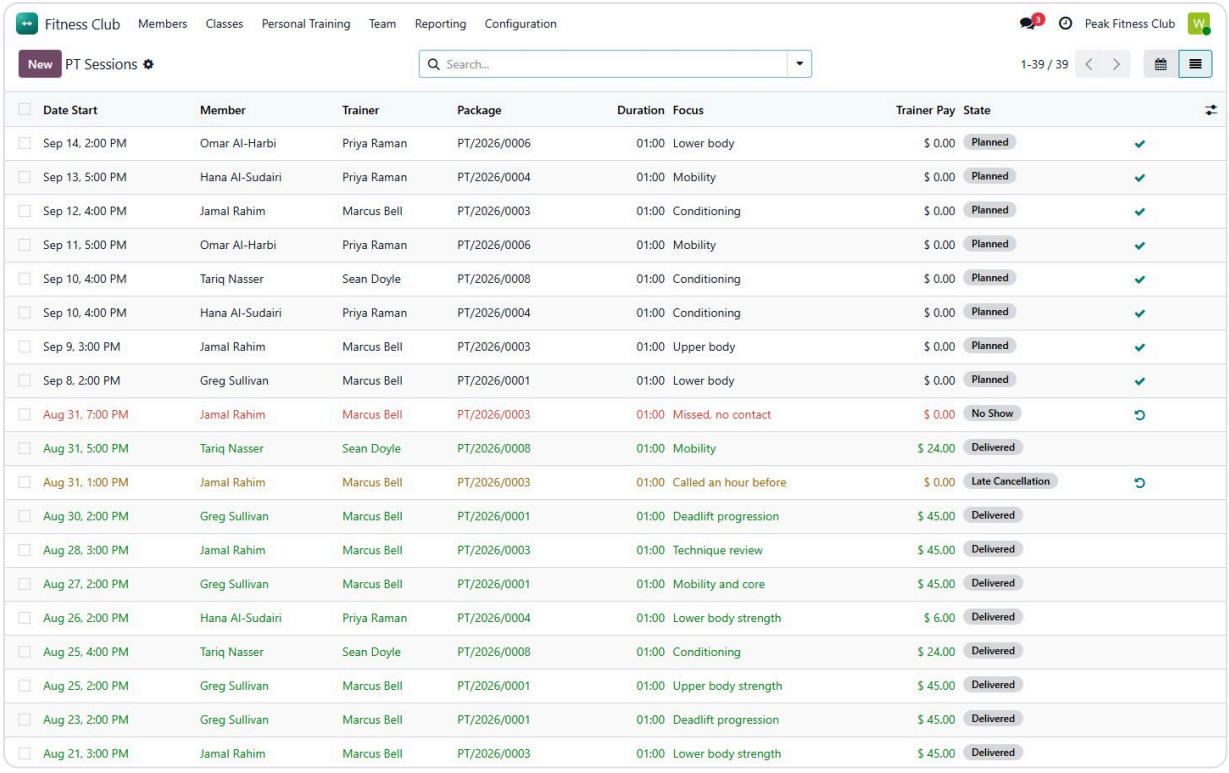

12 Personal Training, then Sessions

The diary: a calendar of sessions by member, trainer and focus.

13 The list

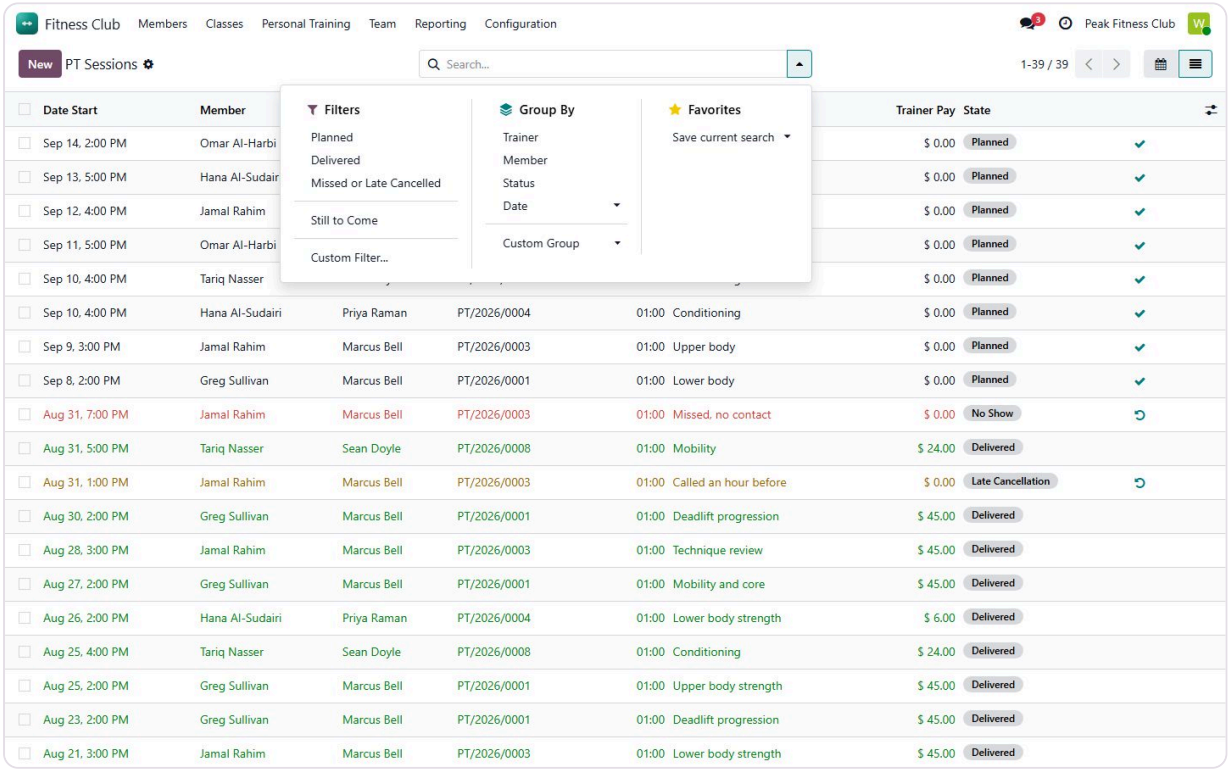

Start, member, trainer, package, length, focus, trainer pay and state.

Date Start	Member	Trainer	Package	Duration	Focus	Trainer Pay	State
Sep 14, 2:00 PM	Omar Al-Harbi	Priya Raman	PT/2026/0006	01:00	Lower body	$ 0.00	Planned
Sep 13, 5:00 PM	Hana Al-Sudairi	Priya Raman	PT/2026/0004	01:00	Mobility	$ 0.00	Planned
Sep 12, 4:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Conditioning	$ 0.00	Planned
Sep 11, 5:00 PM	Omar Al-Harbi	Priya Raman	PT/2026/0006	01:00	Mobility	$ 0.00	Planned
Sep 10, 4:00 PM	Tariq Nasser	Sean Doyle	PT/2026/0008	01:00	Conditioning	$ 0.00	Planned
Sep 10, 4:00 PM	Hana Al-Sudairi	Priya Raman	PT/2026/0004	01:00	Conditioning	$ 0.00	Planned
Sep 9, 3:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Upper body	$ 0.00	Planned
Sep 8, 2:00 PM	Greg Sullivan	Marcus Bell	PT/2026/0001	01:00	Lower body	$ 0.00	Planned
Aug 31, 7:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Missed, no contact	$ 0.00	No Show
Aug 31, 5:00 PM	Tariq Nasser	Sean Doyle	PT/2026/0008	01:00	Mobility	$ 24.00	Delivered
Aug 31, 1:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Called an hour before	$ 0.00	Late Cancellation
Aug 30, 2:00 PM	Greg Sullivan	Marcus Bell	PT/2026/0001	01:00	Deadlift progression	$ 45.00	Delivered
Aug 28, 3:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Technique review	$ 45.00	Delivered
Aug 27, 2:00 PM	Greg Sullivan	Marcus Bell	PT/2026/0001	01:00	Mobility and core	$ 45.00	Delivered
Aug 26, 2:00 PM	Hana Al-Sudairi	Priya Raman	PT/2026/0004	01:00	Lower body strength	$ 6.00	Delivered
Aug 25, 4:00 PM	Tariq Nasser	Sean Doyle	PT/2026/0008	01:00	Conditioning	$ 24.00	Delivered
Aug 25, 2:00 PM	Greg Sullivan	Marcus Bell	PT/2026/0001	01:00	Upper body strength	$ 45.00	Delivered
Aug 23, 2:00 PM	Greg Sullivan	Marcus Bell	PT/2026/0001	01:00	Deadlift progression	$ 45.00	Delivered
Aug 21, 3:00 PM	Jamal Rahim	Marcus Bell	PT/2026/0003	01:00	Lower body strength	$ 45.00	Delivered

14 Filters

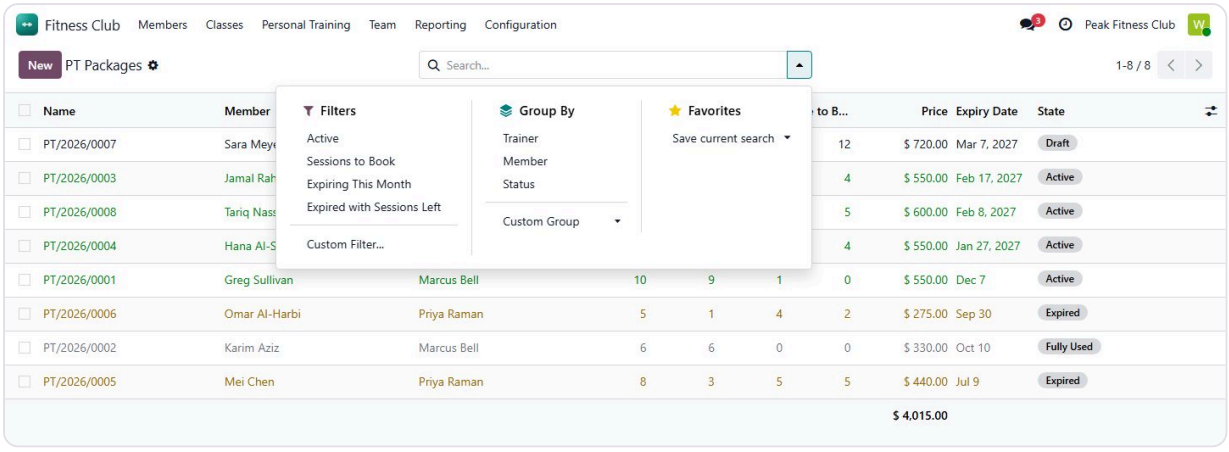

Planned, **Delivered**, **Missed or Late Cancelled** NEW BUILD, **Still to Come** NEW BUILD; group by trainer, member, status NEW BUILD or date.

15 Package filters

Active, **Sessions to Book** NEW BUILD, **Expiring This Month**, **Expired with Sessions Left** NEW BUILD; group by trainer, member or status.

Expired with Sessions Left is a sales list: members who paid and did not finish.

PART 9 Body measurements and progress

One measurement is a row of numbers. What a member wants to see is the difference between two of them, and that difference is what sells the next block of training.

IN THIS PART YOU WILL LEARN

- Recording a measurement and what BMI is worked from
- Progress against the last check and against the first
- The progress graph

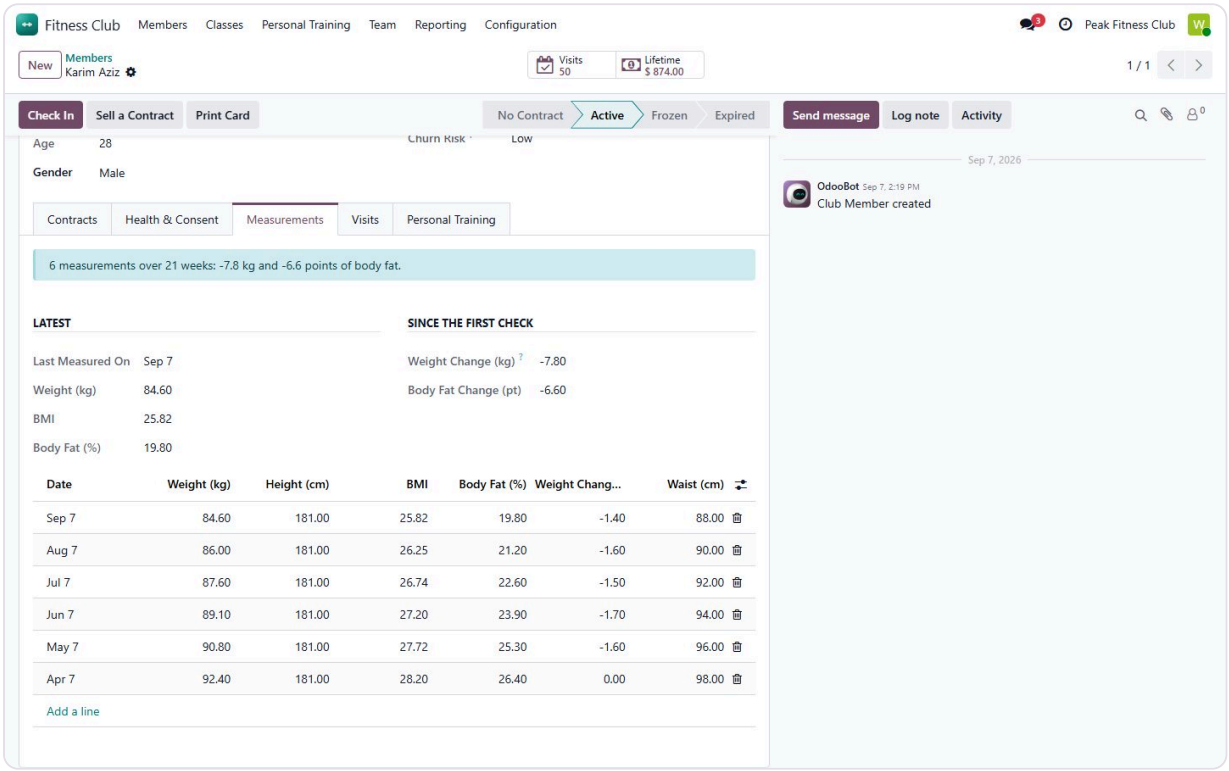

TRY IT YOURSELF ON THE DEMO

1. Open Karim Aziz, then Measurements
2. Personal Training, then Measurements, then the graph

1 Measurements on the member NEW BUILD

A summary line (six measurements over 21 weeks, the change in weight and body fat), the latest weight, BMI and body fat, and the change since the first check. Below it, every check, editable in place.

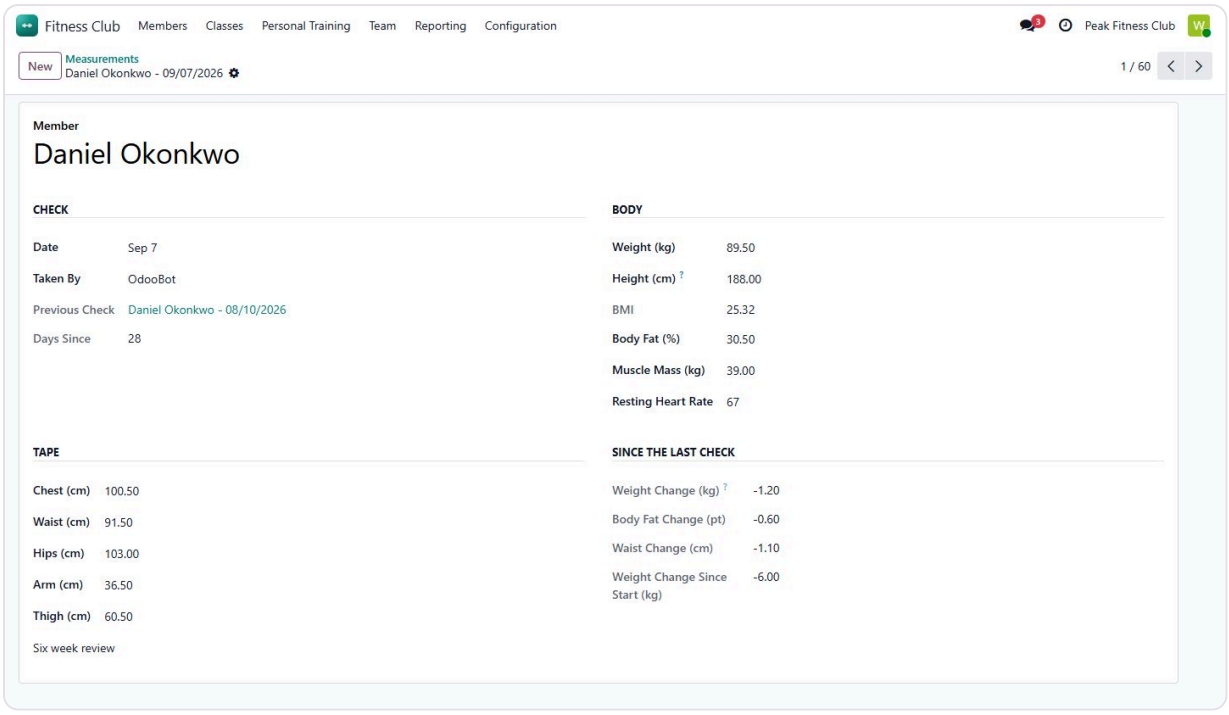

A member with one check is told a second is what turns a number into progress. A member with none shows nothing to compare.

2 One measurement NEW BUILD

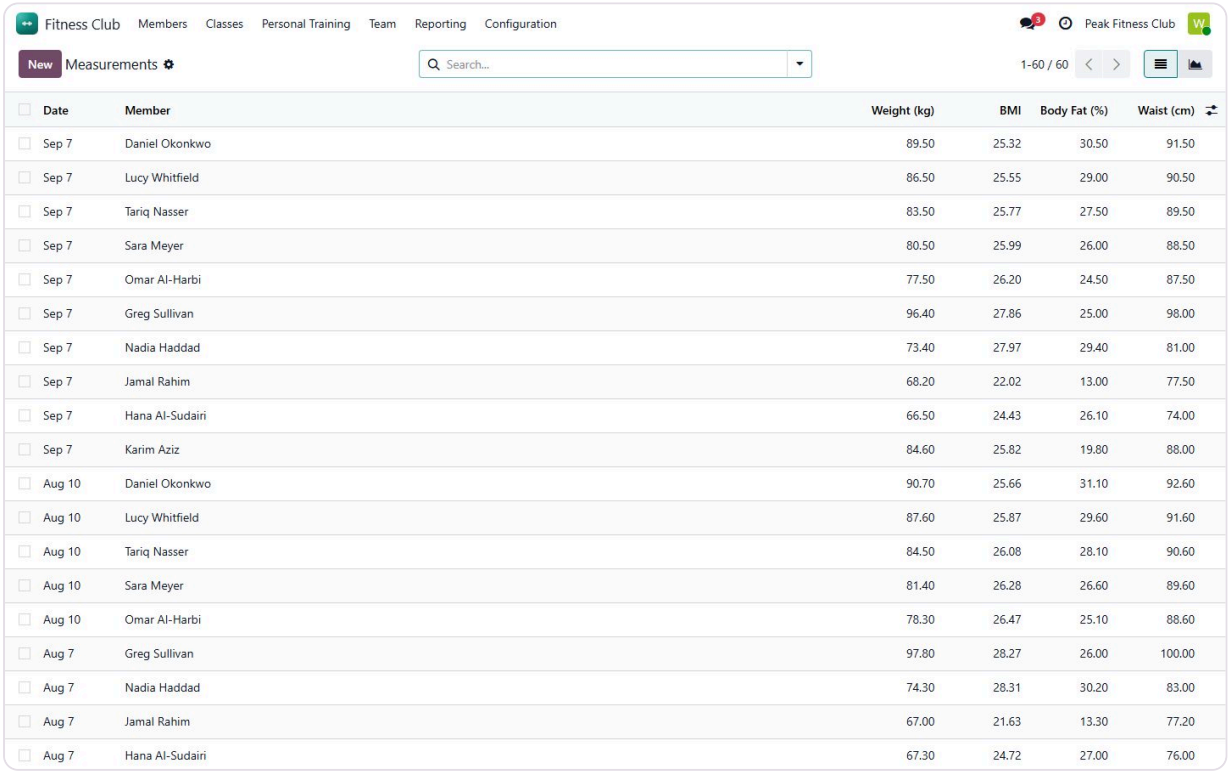

Check: member, date, taken by, the previous check and the days since it. **Body**: weight, height, BMI, body fat %, muscle mass, resting heart rate. **Tape**: chest, waist, hips, arm, thigh. **Since the Last Check**: weight, body fat and waist change, and the weight change since the start.

BMI is worked out from weight and height. Height is carried forward from the last check when left empty, so BMI stays right NEW BUILD.

3 Personal Training, then Measurements

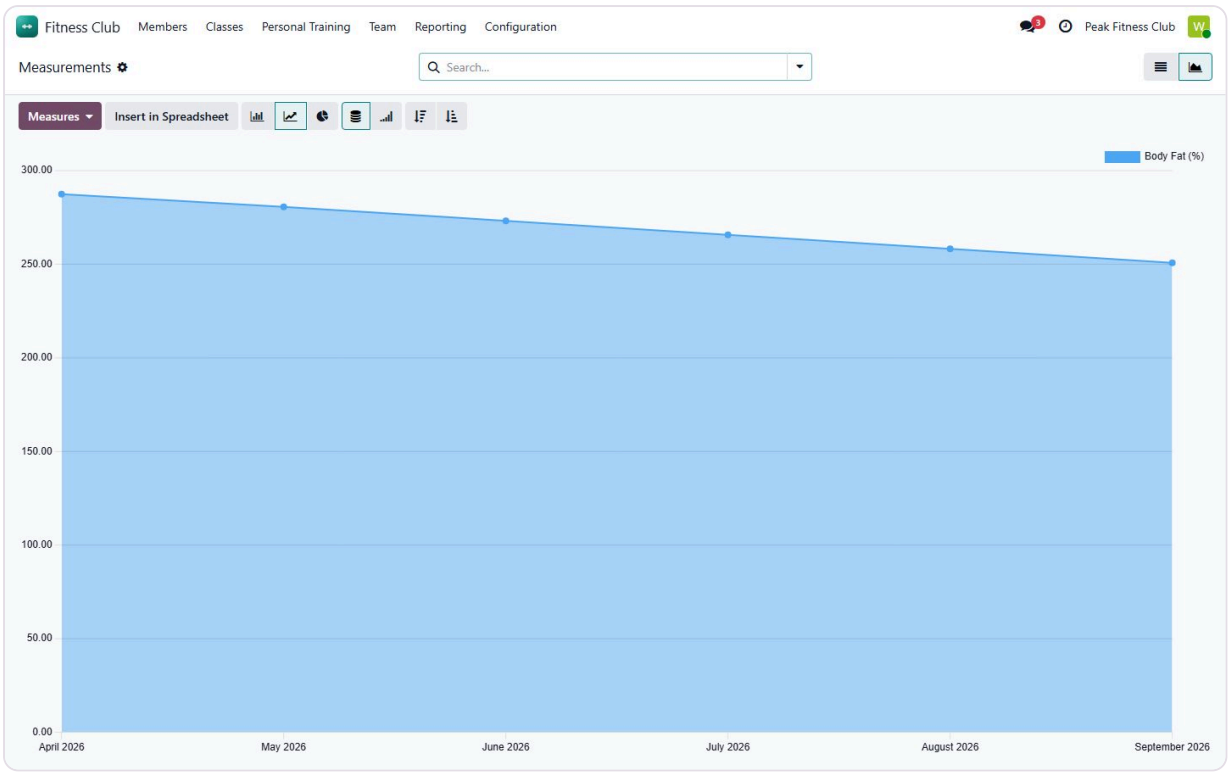

Every check: date, member, weight, BMI, body fat, muscle mass, waist, taken by. Filters **This Month** and **This Year**; group by member, date or taken by.

Date	Member	Weight (kg)	BMI	Body Fat (%)	Waist (cm)
Sep 7	Daniel Okonkwo	89.50	25.32	30.50	91.50
Sep 7	Lucy Whitfield	86.50	25.55	29.00	90.50
Sep 7	Tariq Nasser	83.50	25.77	27.50	89.50
Sep 7	Sara Meyer	80.50	25.99	26.00	88.50
Sep 7	Omar Al-Harbi	77.50	26.20	24.50	87.50
Sep 7	Greg Sullivan	96.40	27.86	25.00	98.00
Sep 7	Nadia Haddad	73.40	27.97	29.40	81.00
Sep 7	Jamal Rahim	68.20	22.02	13.00	77.50
Sep 7	Hana Al-Sudairi	66.50	24.43	26.10	74.00
Sep 7	Karim Aziz	84.60	25.82	19.80	88.00
Aug 10	Daniel Okonkwo	90.70	25.66	31.10	92.60
Aug 10	Lucy Whitfield	87.60	25.87	29.60	91.60
Aug 10	Tariq Nasser	84.50	26.08	28.10	90.60
Aug 10	Sara Meyer	81.40	26.28	26.60	89.60
Aug 10	Omar Al-Harbi	78.30	26.47	25.10	88.60
Aug 7	Greg Sullivan	97.80	28.27	26.00	100.00
Aug 7	Nadia Haddad	74.30	28.31	30.20	83.00
Aug 7	Jamal Rahim	67.00	21.63	13.30	77.20
Aug 7	Hana Al-Sudairi	67.30	24.72	27.00	76.00

4 The progress graph

Weight and body fat over time, for one member or the whole club.

Checked on every measurement NEW BUILD: no negative figures, body fat between 0 and 100, and muscle mass not more than the member weighs.

PART 10 Trainers and what they are owed

A trainer is paid for the classes they taught and the personal training they delivered. The trainer record keeps the basis, and works out the month as it goes.

IN THIS PART YOU WILL LEARN

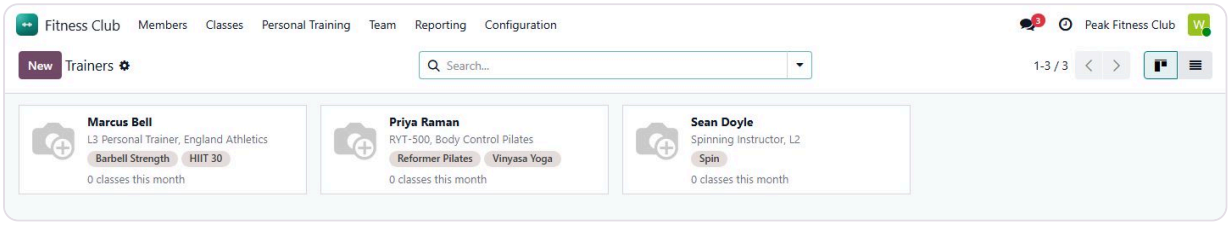

- The four pay bases and how each is worked out
- This month's classes, attendees, PT and the amount owed
- Insurance and qualifications
- One diary for classes and personal training

TRY IT YOURSELF ON THE DEMO

1. Team, then Trainers, open Sean Doyle (percentage) and Marcus Bell (per class)
2. Reporting, then Trainer Pay

1 Team, then Trainers

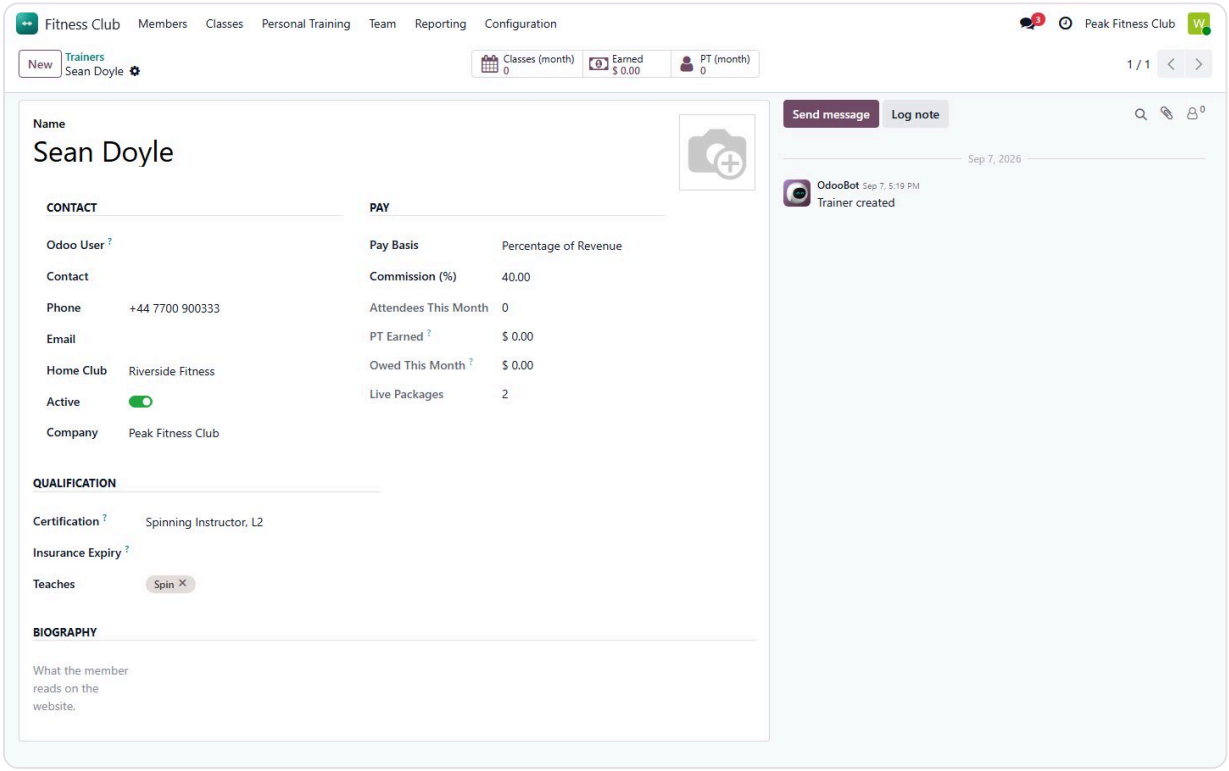

A card per trainer with photo, qualification, what they teach and classes this month. The list view adds phone, club, pay basis, rate, attendees, earned, insurance expiry and, in the new build NEW BUILD, PT sessions, PT earned and the total owed.

2 The trainer form

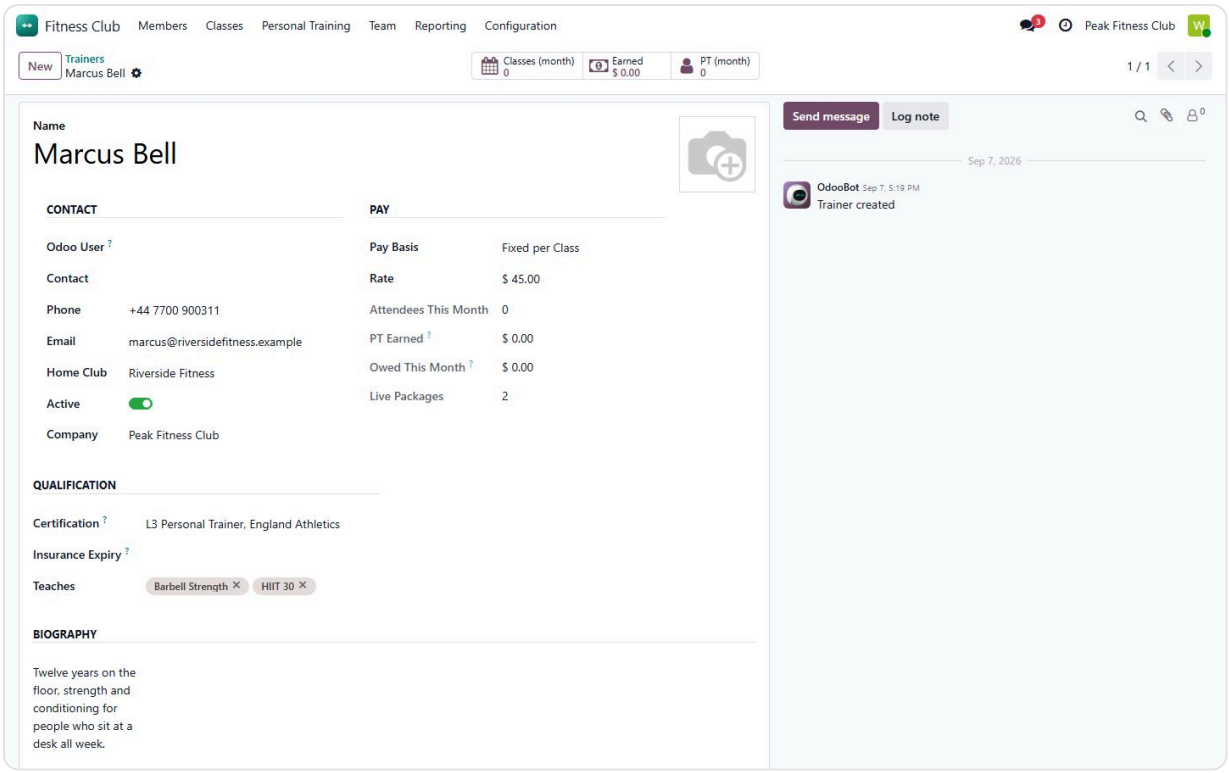

Contact: Odoo user (which limits their own diary), contact, phone, email, home club. **Pay**: basis, rate, commission %, and this month's attendees, PT earned NEW BUILD, owed this month NEW BUILD and live packages NEW BUILD. **Qualification**: certification, insurance expiry, what they teach. **Biography**.

When the insurance expiry has passed, an amber banner says most clubs will not roster the trainer until it is renewed NEW BUILD.

3 Buttons

Classes this month opens their classes; **Earned** shows class pay; **PT (month)** NEW BUILD opens their PT diary.

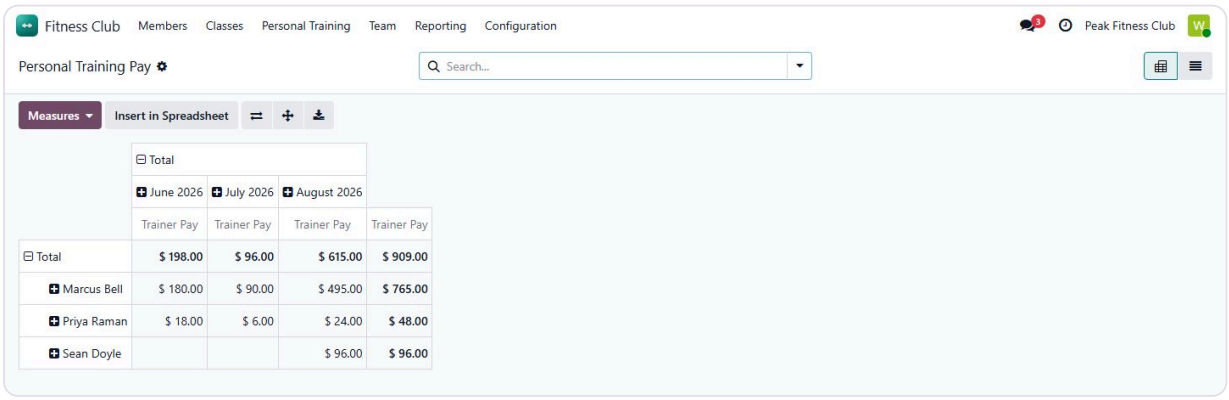

PAY BASIS	CLASSES	PERSONAL TRAINING
Fixed per Class	Rate times classes finished this month	Rate per session delivered
Per Attendee	Rate times members attended	Rate per session (one member in the room)
Percentage of Revenue	Commission % of the classes' drop-in revenue	Commission % of the package price per session
Salaried	Nothing extra	Nothing extra

> Commission must be between 0 and 100. On the percentage basis a class earns only from drop-in fees, because members on an inclusive plan add no revenue to a single class.

One diary NEW BUILD: a trainer cannot be put on two classes, two PT sessions, or a class and a PT session at the same hour. Each refusal names what they are already doing.

4 Reporting, then Trainer Pay

Delivered personal training priced at the basis in force on the day, by trainer and month (titled Personal Training Pay NEW BUILD). Selling a package pays nobody; only delivery does.

PART 11 Reports

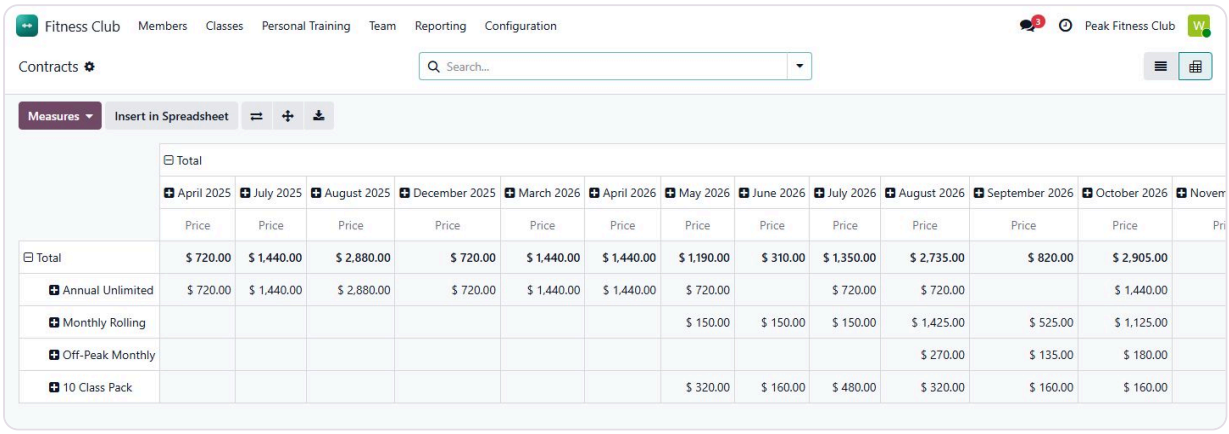

Everything the manager reads at the end of the week sits under Reporting, plus the two working lists under Members. Each report is an Odoo pivot: drag a row or column to regroup, click a figure to see the records behind it, and download it to a spreadsheet.

IN THIS PART YOU WILL LEARN

- Membership revenue by plan and month
- Attendance, class performance and trainer pay
- The arrears and at-risk lists as daily work

1 Membership Revenue

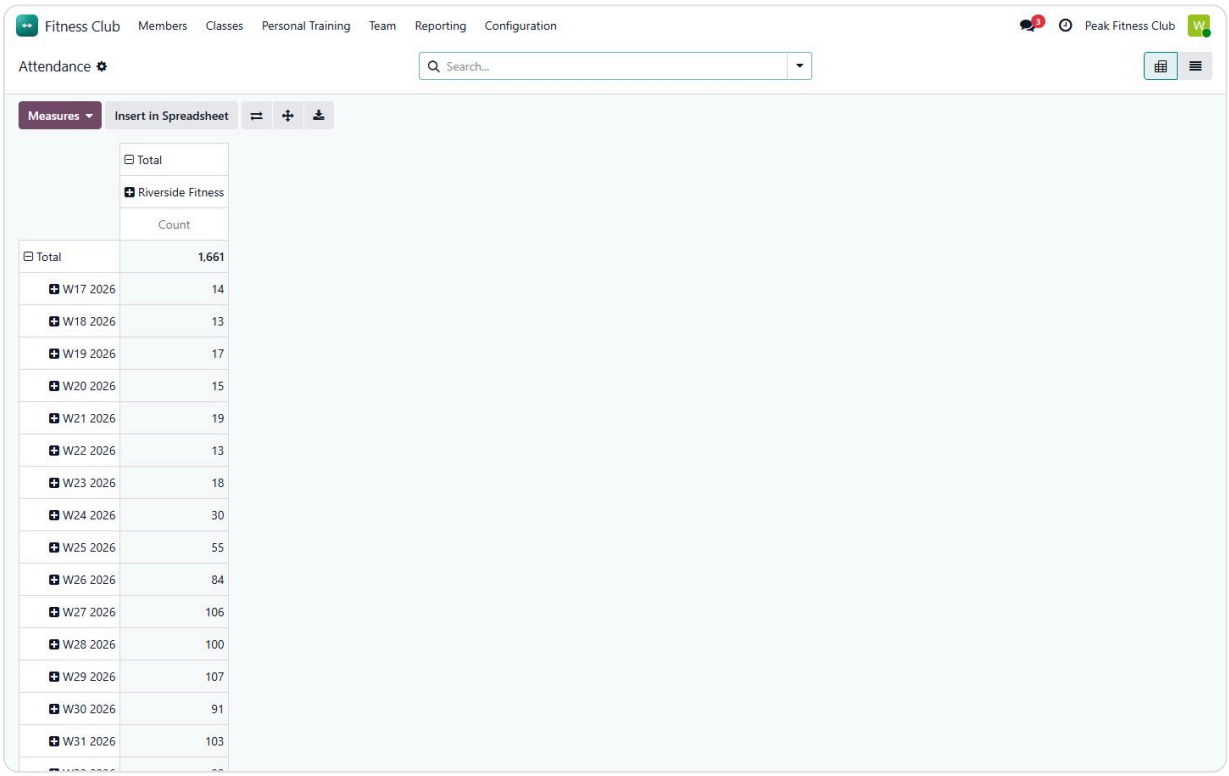

Contract value (price) by plan and start month. Open it from Reporting, or switch the Contracts list to the pivot.

	Total	April 2025	July 2025	August 2025	December 2025	March 2026	April 2026	May 2026	June 2026	July 2026	August 2026	September 2026	October 2026
		Price	Price	Price	Price	Price	Price	Price	Price	Price	Price	Price	Price
Total	$ 720.00	$ 1,440.00	$ 2,880.00	$ 720.00	$ 1,440.00	$ 1,440.00	$ 1,190.00	$ 310.00	$ 1,350.00	$ 2,735.00	$ 820.00	$ 2,905.00	
Annual Unlimited	$ 720.00	$ 1,440.00	$ 2,880.00	$ 720.00	$ 1,440.00	$ 1,440.00	$ 720.00		$ 720.00	$ 720.00		$ 1,440.00	
Monthly Rolling							$ 150.00	$ 150.00	$ 150.00	$ 1,425.00	$ 525.00	$ 1,125.00	
Off-Peak Monthly										$ 270.00	$ 135.00	$ 180.00	
10 Class Pack							$ 320.00	$ 160.00	$ 480.00	$ 320.00	$ 160.00	$ 160.00	

2 Attendance

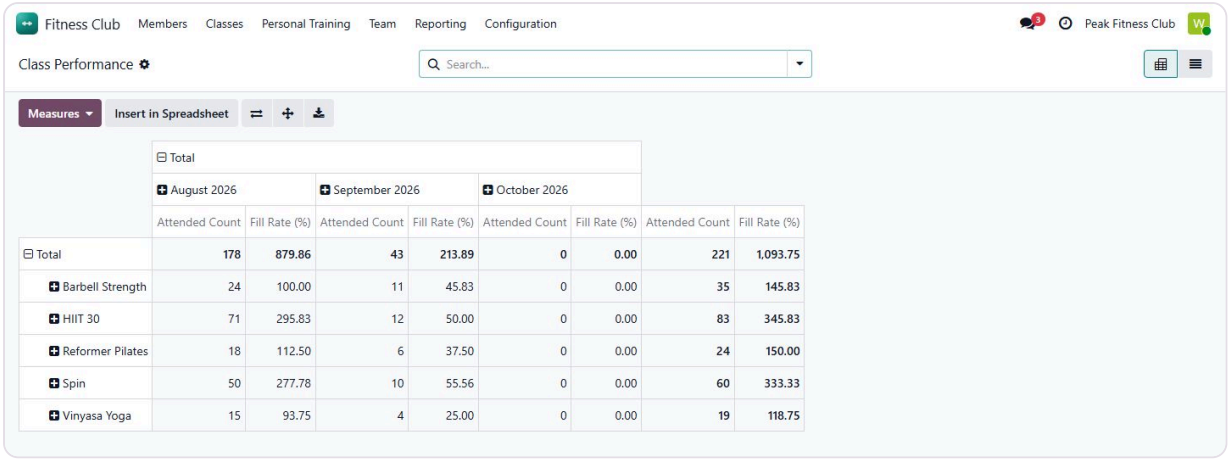

Visits by day and club. Regroup by method to see how members come in, or by member to find the regulars.

	Total
	Riverside Fitness
	Count
Total	1,661
W17 2026	14
W18 2026	13
W19 2026	17
W20 2026	15
W21 2026	19
W22 2026	13
W23 2026	18
W24 2026	30
W25 2026	55
W26 2026	84
W27 2026	106
W28 2026	100
W29 2026	107
W30 2026	91
W31 2026	103

3 Class Performance

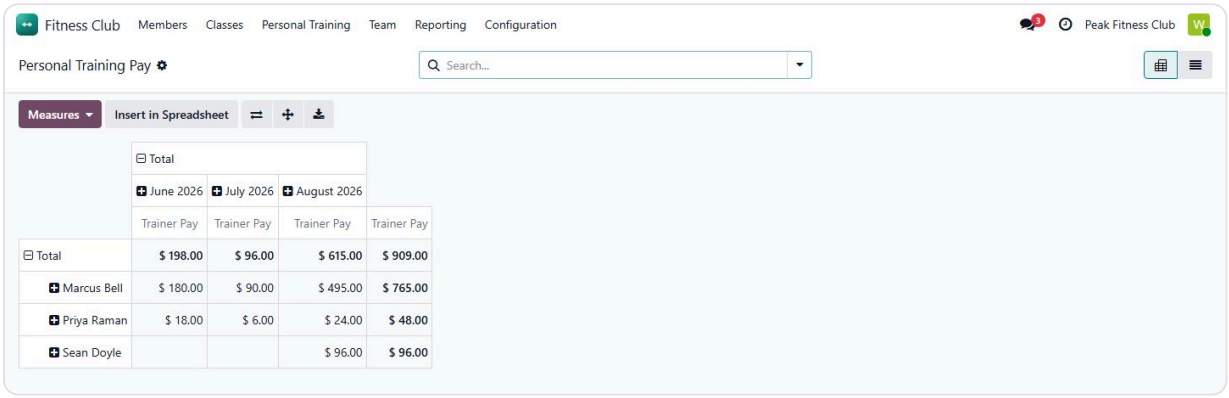

Finished classes only: attendance and average fill rate by class type and month. The class that runs half empty every week is the one to move or drop.

	Total		August 2026		September 2026		October 2026	
	Attended Count	Fill Rate (%)	Attended Count	Fill Rate (%)	Attended Count	Fill Rate (%)	Attended Count	Fill Rate (%)
Total	178	879.86	43	213.89	0	0.00	221	1,093.75
Barbell Strength	24	100.00	11	45.83	0	0.00	35	145.83
HIIT 30	71	295.83	12	50.00	0	0.00	83	345.83
Reformer Pilates	18	112.50	6	37.50	0	0.00	24	150.00
Spin	50	277.78	10	55.56	0	0.00	60	333.33
Vinyasa Yoga	15	93.75	4	25.00	0	0.00	19	118.75

4 Trainer Pay

Delivered PT sessions by trainer and month, at the pay fixed on the day. Class pay is on each trainer's record.

	Total	June 2026	July 2026	August 2026
	Trainer Pay	Trainer Pay	Trainer Pay	Trainer Pay
Total	$ 198.00	$ 96.00	$ 615.00	$ 909.00
Marcus Bell	$ 180.00	$ 90.00	$ 495.00	$ 765.00
Priya Raman	$ 18.00	$ 6.00	$ 24.00	$ 48.00
Sean Doyle			$ 96.00	$ 96.00

LIST	WHERE	WHAT IT IS FOR
Arrears	Members, Arrears	Running contracts with money owed; the calls to make and the members the door will stop.
At Risk	Members, At Risk	Active members who stopped coming; the retention calls.
Due to Bill	Contracts, filter	Cycle contracts whose next invoice date has come.
Ends This Month	Contracts, filter	Renewals to chase.
No Health Declaration	Members, filter	Forms still to collect.
Expired with Sessions Left	PT Packages, filter	Members to win back for a new block.

PART 12 Printed documents and emails

Three documents and two emails leave the system. The card and the agreement are the module's own; the invoice is standard Odoo.

DOCUMENT	PRINTED FROM	WHAT IS ON IT
Membership Card	A member: Print Card, or Print in the list	Club, name, member number, plan, expiry (or Rolling membership), Code128 barcode. 85 × 54 mm.
Membership Agreement	A contract: Print	Member, club, plan, start, end, price, joining fee, minimum term, notice period, hold allowance, sessions included, what is included
Invoice	The contract's invoices	The standard Odoo customer invoice

The membership card, with the barcode the desk scans.

The membership agreement for a monthly contract.

The invoice for one monthly period, raised from the contract.

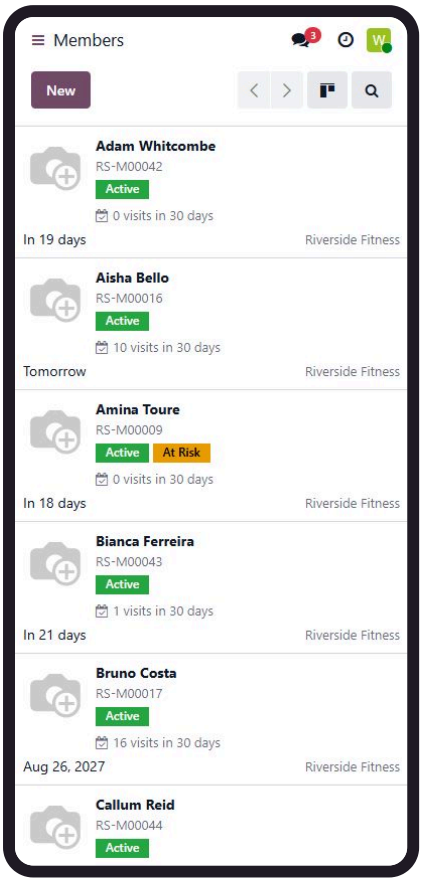

The two emails

TEMPLATE	SENT WHEN	WHAT IT SAYS
Gym: Membership Expiring	By the renewal reminder job, the set number of days before a contract ends (the job is off until you turn it on)	Subject: Your membership at (club) ends soon. Names the plan and the end date and asks the member to renew at the desk or by reply.
Gym: Class Cancelled	When Cancel the Class is pressed, to every booked or waiting member with an email	Subject: (class) on (date and time) is cancelled. Their credit has been put back.

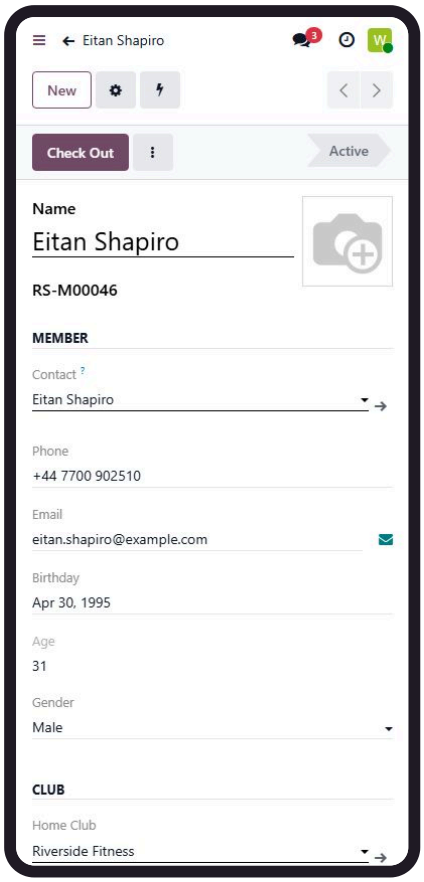

Both templates can be edited under Settings, Technical, Email Templates. Emails are queued rather than sent at once, so a slow mail server never holds up the desk.

PART 13 On a phone or tablet, and the second demo

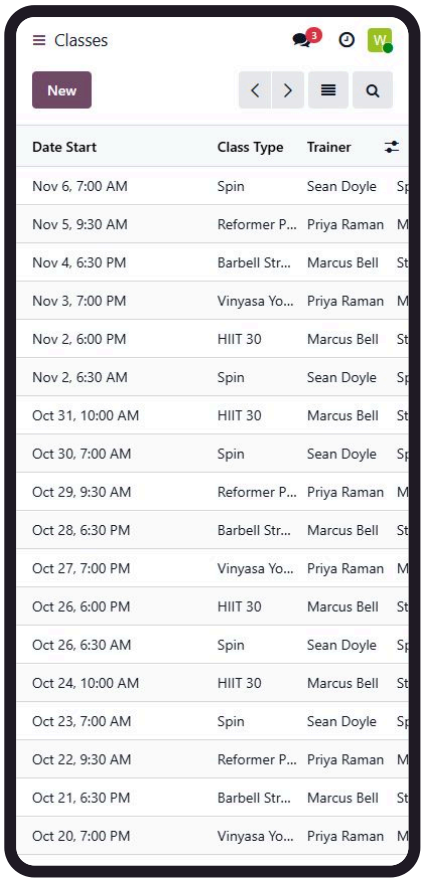

The front desk often works from a tablet on the counter, and a trainer from a phone on the gym floor. The app is the standard Odoo web client, so every screen in this guide also works on a small screen, with nothing to install.

Members on a phone: the same cards, one per row.

A member on a phone, with Check Out at the top.

The class list on a phone.

gym.way4tech.com

The second demo, **gym.way4tech.com**, runs the same Gym Management app and the same demo club behind a public website built with a separate module, the Gym and Fitness Website Theme. Sign in with the same w4demo login to reach the app. The theme adds a home page, About, Services, Membership and Contact pages and nine drag-and-drop blocks (hero, classes, features, gallery, trainers, testimonials, FAQ, join call to action, contact). It is a design only: prices and classes on the website are typed in the website builder, and members cannot buy a membership or book a class there.

PART 14 A fifteen minute walk-through

If you have the demo open and fifteen minutes, this is the path that shows the whole club. It is also the order to show a club owner in.

#	DO THIS	AND NOTICE
1	Members, then Members	*Status, risk tag, visits and expiry on every card.*
2	Open Eitan Shapiro	*He is inside, so the form offers Check Out.*
3	Open Karim Aziz, Measurements tab	*Progress in one line: weight and body fat since the first check.*
4	Members, then Arrears, open a contract	*The IN ARREARS ribbon, the outstanding amount, Stop at the Door ticked.*
5	On that contract, the chatter	*Every invoice raised, for which dates.*
6	Open RS/MB/2026/00005, Holds tab	*A 29 day travel hold pushed the end date out.*
7	Configuration, then Membership Plans	*Four kinds of plan: annual, monthly with minimum term, credits, a class pack.*
8	Classes, then Timetable	*The week generated from seven recurring slots.*
9	Open a finished class, Register tab	*Attended green, no-shows red.*
10	Personal Training, open PT/2026/0003	*Delivered, planned, no show and late cancellation on one block, and the margin.*
11	Team, then Trainers, open Sean Doyle	*Percentage pay, PT earned and owed this month.*
12	Members, then At Risk	*Paying members who have stopped coming.*

PART 15 Questions people ask

The questions club owners ask on a first demo, answered from what the module does.

QUESTION	ANSWER
Does it need Odoo Enterprise?	No. It runs on Odoo 19 Community with Invoicing, and depends only on Base, Discuss, Products and Invoicing. It also installs on Enterprise.
Can members book classes or buy a membership online?	Not with this module. There is no member portal or booking page; the desk books classes and sells contracts. The website theme is a design only.
Does it drive turnstiles, card readers or biometric devices?	No. A visit records how the member came in as a label, and the check runs from the Check In button. A scanner that types the member number into the search works out of the box; a reader integration is a separate project.
Does it take card payments or direct debits?	It raises standard Odoo invoices. Collecting them uses whatever Odoo payment setup you have.
Can one person pay for a family?	Yes, by setting Billed To on each contract to the same contact. There is no family group record as such.
Several clubs?	Yes. Each club has its own code, capacity and journal; a plan can be sold at some clubs and can allow training at all of them.
What happens when a member pays late?	With Stop at the Door ticked the door refuses them with the amount owed, and they are on the Arrears list until it is paid.
Can a member freeze?	Yes, within the plan's hold allowance, and every hold day moves the end date out.
Are guest passes tracked?	The number of guest passes is recorded on the plan. Using a guest pass is not counted by the system.
How is a trainer paid?	Per class, per attendee, a percentage of revenue, or salaried. Personal training pays on delivery only.

PART 16 What is new in this build, and the menu map

Every feature marked NEW BUILD in this guide, in one list. They run on the demo today and come to the app store package with the next update.

AREA	NEW IN THIS BUILD
Front door	Check Out button on the member; the visit form; Inside Now opens who is inside; refusal when the club is full or the member is at the wrong club; early renewal and finished holds let the member in; a credit plan charged once a day; leaving checked before any rule
Plans and billing	Bills On Day, Prorate Part Periods, Credit Unused Days on Cancellation; the rate per day; refusal to bill a period twice; joining fee on the first invoice that stands
Contracts	Change plan mid term with a prorated credit and charge; Renewed As link and no double renewal; the cancellation credit note worked from notice and minimum term
Holds	No overlapping holds; ending early shortens the hold and moves the next invoice out
Classes	Timetable written on the local clock rather than UTC; clashes skipped when generating; class capacity limited by the studio; Free column; full class note; coloured register; credits refunded flag; same-hour clash and already-started checks; waitlist promotion that respects credits; rebooking after a cancellation; Upcoming filter and trainer grouping
Personal training	Held and Free to Book counts; trainer cost and margin; Late Cancellation state; Waive the Charge; Reopen; pay fixed at delivery; Cancel and Waive on each session line; new filters
Trainers	PT sessions, PT earned, owed this month and live packages; insurance expired banner; one diary across classes and PT
Measurements	Measurement form with changes since the last and first check; progress summary on the member; height carried forward; value checks
Roles	Check In, Check Out and Sell a Contract hidden from trainers

The menu map

Members

Members	Every member: contract, visits, health, progress
Contracts	Every membership sold, its bills and holds
Check In	Every visit, who is inside right now
Arrears	Running contracts with money owed
At Risk	Active members who have stopped coming

Classes

Timetable	The class diary, booked against capacity
Bookings	Every place taken, waited for or missed
Recurring Slots	The weekly timetable the diary is built from

Personal Training

Packages	Blocks of sessions sold to a member
Sessions	The PT diary: planned, delivered, missed
Measurements	Body checks and progress over time

Team

Trainers	Pay basis, what they taught, what they are owed

Reporting

Membership Revenue	Contract value by plan and month
Attendance	Visits by day and club
Class Performance	Attendance and fill rate per class type
Trainer Pay	Personal training delivered, by trainer and month

Configuration

Settings	Reminder, late cancellation, timetable, PT validity
Clubs	Each site: code, hours, capacity, journal
Studios	The rooms classes are held in
Membership Plans	What is sold: term, price, billing, rules
Class Types	Spin, yoga, HIIT: length, credits, drop-in price
Holds	Every freeze, across all contracts

Want this for your club?

We set it up with your clubs, studios and plans, load your members and their contracts, connect your invoicing and payments, build the weekly timetable and train the front desk and the trainers. The same module runs a single studio or several clubs sharing one membership base.

way4tech.com · info@way4tech.com
