COMPLETE GUIDE · BACK OFFICE, TILL, SPA AND LOYALTY

Salon and Spa Management for Odoo 19

Bookings without double booking, stylist commission, rooms and chairs, an online booking page, a till that knows the day, a spa layer with rooms, couples and intake forms, and loyalty, packages and gift cards. Every screen and every step. No Odoo background needed.

BASE | POS SALON | SPA POS | LOYALTY

START

About this guide

A salon sells time in a chair. Everything in this suite comes back to that: who is booked with whom, in which chair, for how long, and what they pay. This guide walks every screen of the four modules, from an empty database to a day at the till.

Who it is for

The owner setting the salon or spa up, the front desk who books and takes money, stylists and therapists, and anyone being shown the suite for the first time.

How to read it

Parts 1 to 11 are the base module every salon needs. Parts 12, 13 and 14 are the till, the spa layer and the loyalty add-on. Each part carries the badge of the module it needs.

The demo salon

Bloom & Blade Salon, Dubai: eleven services, six stylists, eight rooms and chairs and a few hundred appointments at every stage. The spa screens use the spa module's own demo, Serenity Day Spa.

HOW IT WORKS

The live demo

Back office	**salon.way4tech.com**, then Sign in
Sign in	**w4demo** / **Demo2026**
Booking page	**salon.way4tech.com/salon**, no sign in needed
Runs	WT Salon Management and the salon website theme, Odoo 19

The public demo runs the base module. The till, spa and loyalty screens in Parts 12 to 14 were taken on a full installation of all four modules with their own demo data, the same Bloom & Blade salon plus Serenity Day Spa. Ask us for a walkthrough of those on a live system.

The demo is shared and resets from time to time. Look at every screen, but do not confirm, invoice or cancel appointments, and do not submit the booking form: the next visitor would see it.

PART 16 A 15 minute demo script

PART 17 Questions people ask, and the limits

PART 18 Menu map

PART 1 The four modules and how they fit

One base module runs the back office. Three add-ons sit on top of it, each sold on its own, so a salon starts with what it uses.

IN THIS PART YOU WILL LEARN

- What each of the four modules adds
- Which one each screen in this guide needs
- The life of an appointment, stage by stage

MODULE	BADGE	NEEDS	ADDS
WT Salon Management	BASE	Odoo 19 (installs Sales, Invoicing, Inventory, Manufacturing, Employees, Portal, Website)	Services, stylists, rooms, appointments, double booking guard, recurring visits, advances, commission, targets, customer file, booking page, receipts, dashboard and reports, setup wizard
POS Salon	POS SALON	Base and Point of Sale	The Salon board inside the till: book, walk in, load a visit onto the order, tips, salon receipt, quick rebook, refunds
Spa POS	SPA POS	Base and POS Salon	A spa till that opens on the room board, cleaning time, couples bookings, day-spa itineraries, intake forms, advance at booking, therapist reviews, a Spa app
Salon Loyalty (WT Enterprise Salon)	LOYALTY	Base	Points and tiers, packages, memberships, gift cards, deposits, reviews, waitlist, photos, consent, customer notes, KPI dashboard, money held reports, automatic messages

The life of an appointment

Stages, as the base module ships them

1. **New** — Booked, not yet confirmed
2. **Confirmed** — A sale order is created behind it
3. **In Progress** — Start Service pressed
4. **Done** — Sale order confirmed, stock consumed
5. **Invoiced** — Invoice raised, commission worked out
6. **Cancelled** — Called off; kanban Blocked marks a no-show

Stages are records under Configuration, Appointment Stages, so a salon can rename them, add one, or attach an email to send when a visit reaches it.

Three kinds of salon user

ROLE	SEES AND DOES
Stylist	Their own appointments only. Updates them, but cannot create one or hand one to a colleague.
Receptionist	Every appointment, series and break. Books, confirms, finishes and invoices without needing the Sales or Inventory apps.
Manager	Everything, including configuration, rooms, commission rules, sales targets and reports.

PART 2 Open the demo and sign in BASE

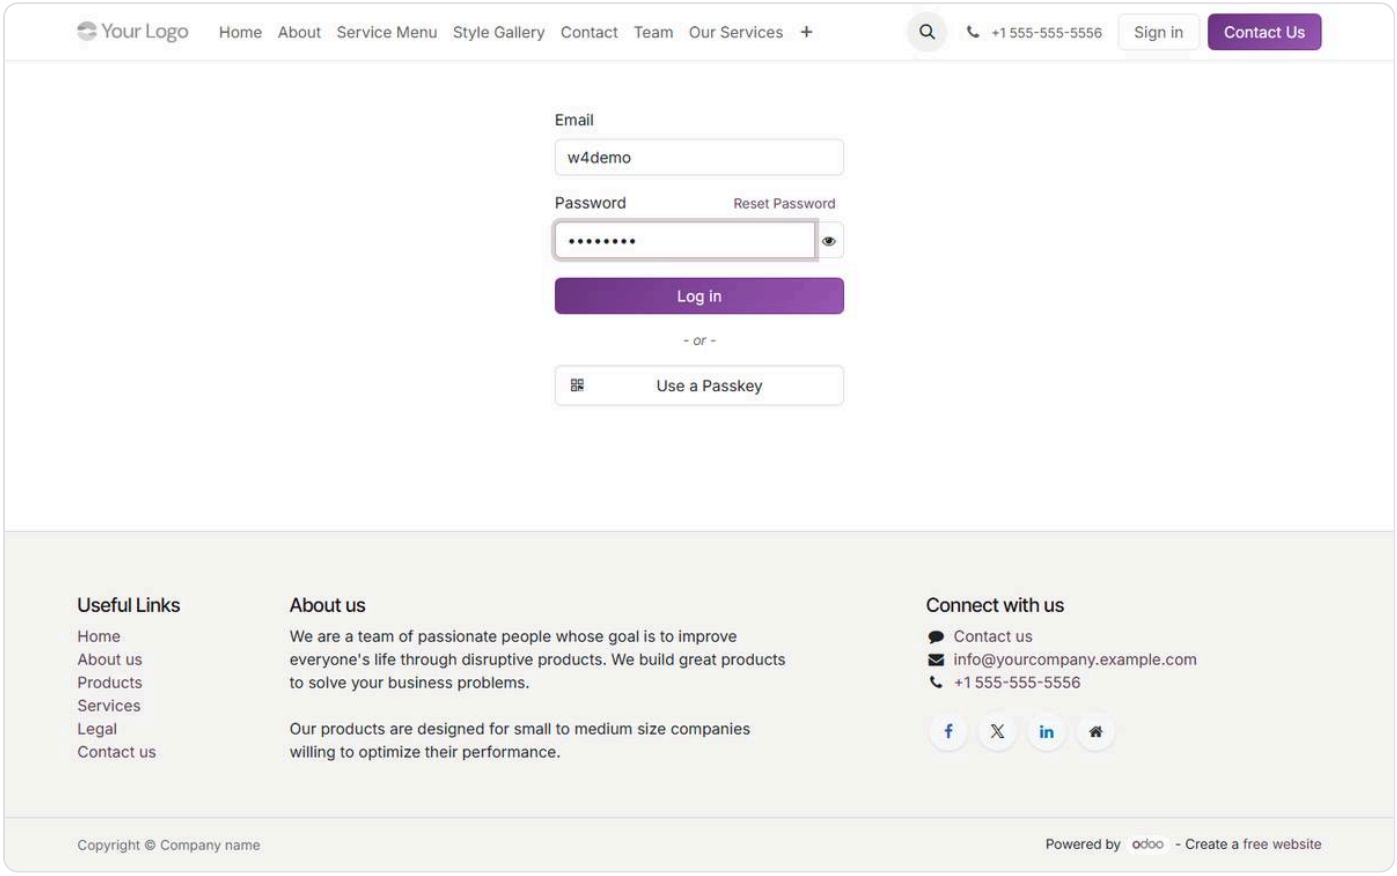

Everything in Parts 2 to 11 can be followed on salon.way4tech.com.

TRY IT YOURSELF ON THE DEMO

1. Open salon.way4tech.com/web/login and sign in with w4demo / Demo2026
2. Click Salon in the app menu: it opens on Today
3. Open salon.way4tech.com/salon in a private window to see the booking page

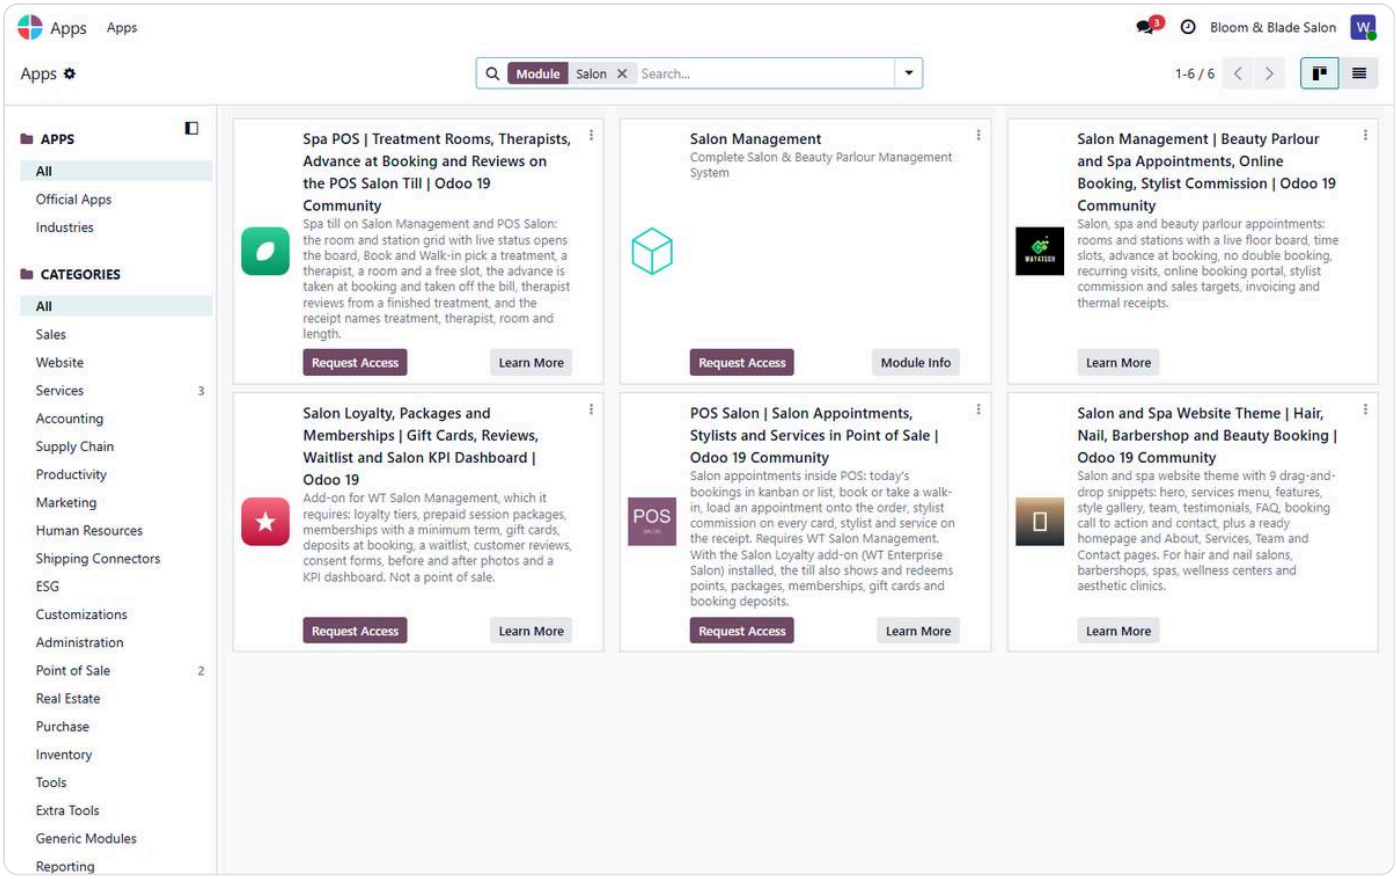

1 Sign in

User `w4demo`, password `Demo2026`. The demo login is a salon Manager, so it sees every Salon menu.

2 The modules in Apps

Search Apps for Salon. **WT Salon Management** is the base; POS Salon, Spa POS and the Salon Loyalty add-on install on top of it when you need them.

The menus

Salon: the day BASE

Today	Today's appointments, the app opens here
Calendar	The week, coloured by stylist
Appointments	All Appointments, Kanban Board, Floor, Recurring Series
Customers	Every customer with their salon history
Rooms	The floor board: every room and chair, live

Salon: catalogue and staff BASE

Services	Services, Categories, Retail Products
Staff	Breaks and Blocked Times, Commission Rules and Earnings, Sales Targets

Salon: reports and setup BASE

Reports	Dashboard, Appointment Analysis, Room Usage, Commission Earnings
Configuration	Setup Wizard, Settings, Rooms and Stations, Stages, Categories, Retail Brands

Salon: added by Loyalty LOYALTY

KPI Dashboard	Collected, booked, occupancy, ratings, money held
Loyalty	Program Setup, Customer Cards, Points Transactions
Packages	Package Templates, Customer Packages
Memberships	Membership Plans, Customer Subscriptions
Gift Cards, Reviews, Waitlist, My Day	One menu each
Analytics	Service Duration, actual against booked
Reports	Loyalty Points, Packages, Gift Card Liability, Deposits Held
Configuration	Consent Form Templates, Customer Notes

Point of Sale POS SALON

Till: Salon button	The board of the day inside the till
Point of Sale settings	Salon Mode and Stylist Tips per till
Orders	Salon Service and Stylist columns, Salon Loyalty tab

Spa SPA POS

Bookings, All Bookings	The spa side of the salon diary
Room Board, Treatments, Therapists	Rooms live, the spa catalogue, therapists with ratings
Couples and Itineraries, Intake Forms, Reviews	One menu each
Configuration	Spa Tills, Treatment Categories, Intake Questions, Rooms, Commission, Brands

Website BASE

/salon	Services by category with price and duration
/salon/book	The booking form
/my/salon-appointments	The customer's own bookings (portal)

PART 3 Set the salon up from zero BASE

A new salon goes from an empty database to taking bookings in five steps of one wizard, then a few settings.

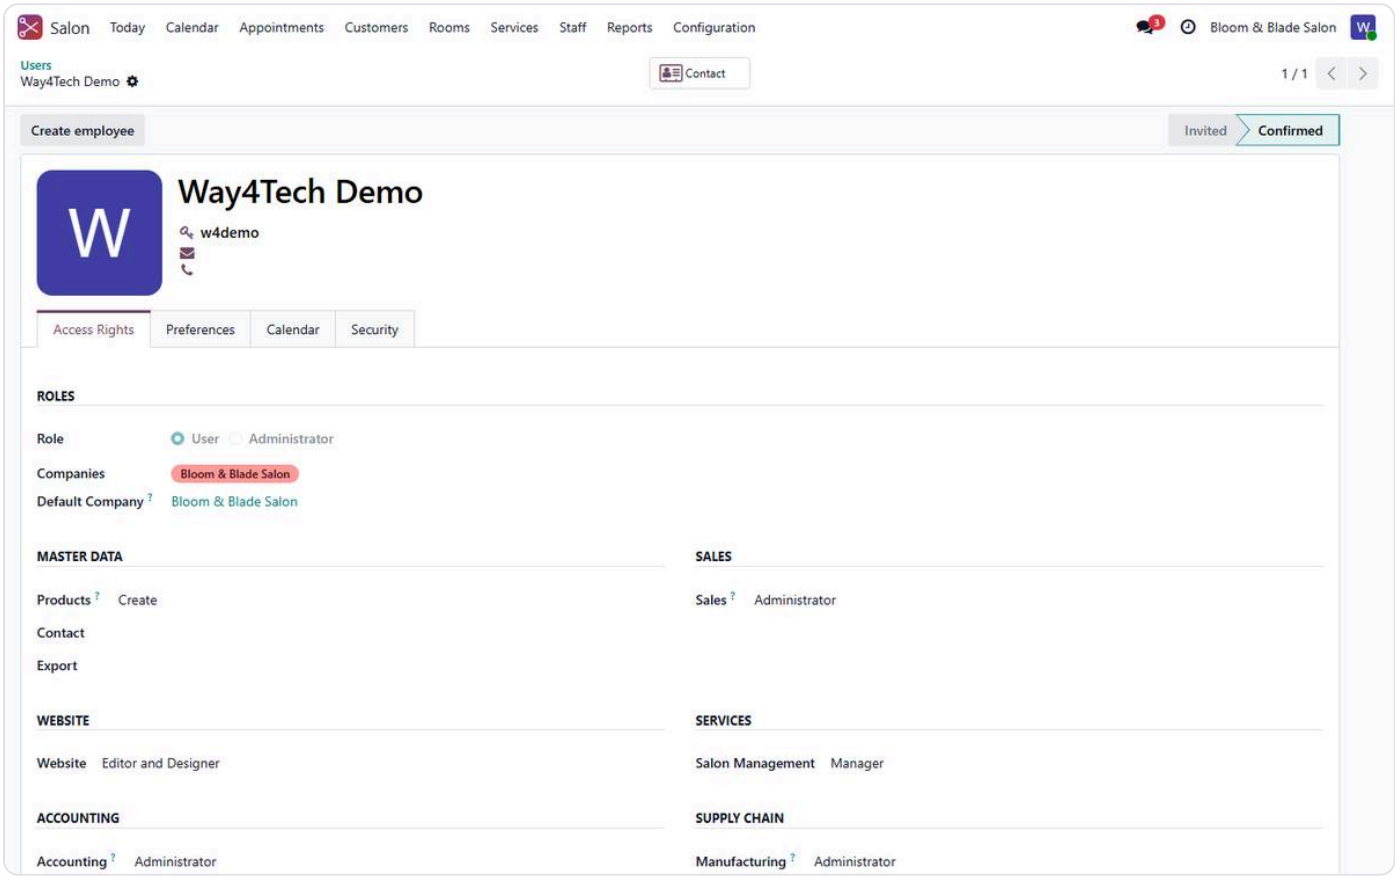

IN THIS PART YOU WILL LEARN

- Giving each person a salon role
- The five step setup wizard and the region presets
- The salon settings: time zone, hours and slot interval

1 Give each person a role

Settings, Users, open the person, Access Rights. Under **Salon Management** pick Stylist, Receptionist or Manager (Part 1 says what each can do).

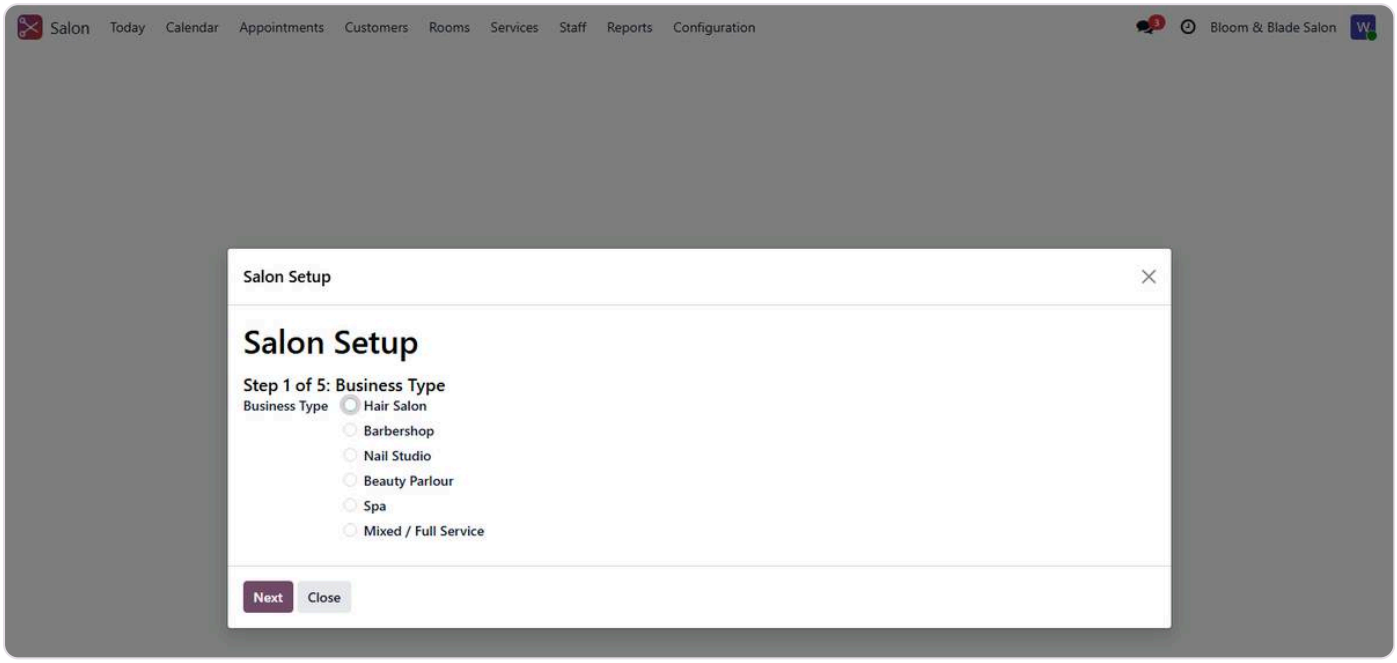

A stylist who should book walk-ins at the till needs Receptionist, not Stylist.

2 The setup wizard

Salon, Configuration, **Setup Wizard**. It also opens by itself the first time the Administrator signs in. Five steps: **Business Type** (hair salon, barbershop, nail studio, beauty parlour, spa or mixed), **Region**, **Hours and Closed Days**, **Staff** (each stylist with a colour and a commission rule) and **Services** (a starter list for the business type, each with a category, duration and price).

Each step is applied when you press Next. The wizard matches by name, so running it again never creates a second tax, stylist or service. With Point of Sale installed, Finish also creates a till in Salon Mode.

Region presets

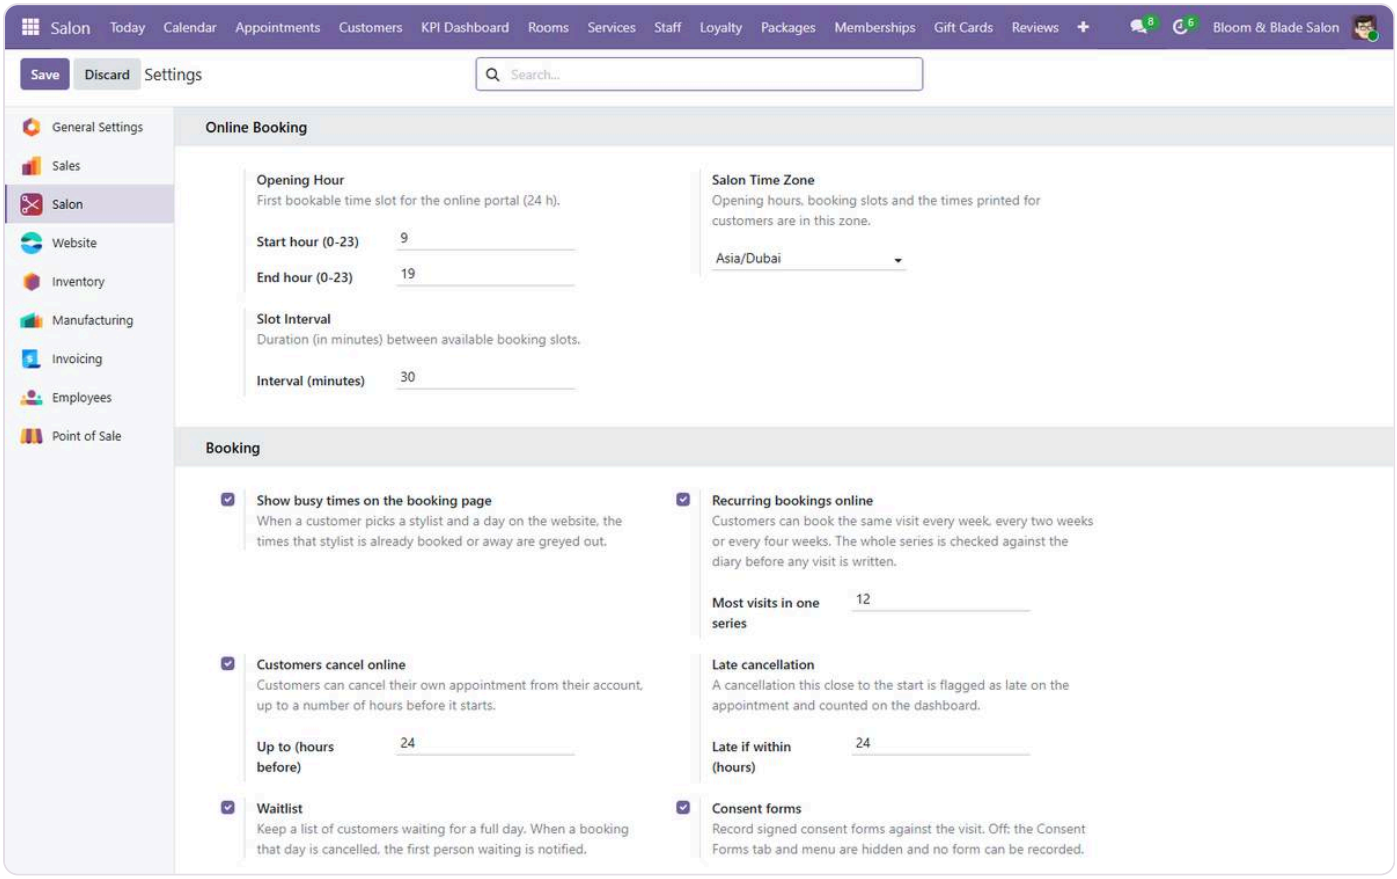

REGION	SALES TAX	DEPOSIT	CLOSED DAY	SECTIONS	TIPS
Gulf (GCC)	VAT 5 %	20 %	Friday	Ladies and Gents	Off
South Asia	Sales Tax / GST 15 %	10 %	Sunday	None	Off
UK / EU	VAT 20 %	25 %	Sunday	None	Off
North America	No rate assumed	None	None	None	On
Other	Nothing set	None	None	None	Off

A preset only fills in defaults you can change. It does not file taxes, charge a no-show fee or enforce a cancellation window. The wizard says on screen which tax it reused from your chart of accounts or had to create.

3 Salon settings

Salon, Configuration, **Settings**. **Salon Time Zone** is the clock the diary, the opening hours and every time shown to a customer use; empty means the company's. **Booking Start Hour**, **Booking End Hour** and **Slot Interval (minutes)** decide which times the booking page offers. Closed weekdays come from the wizard.

Settings need the Administrator role, so the public demo login cannot open them; this screen is from a full installation.

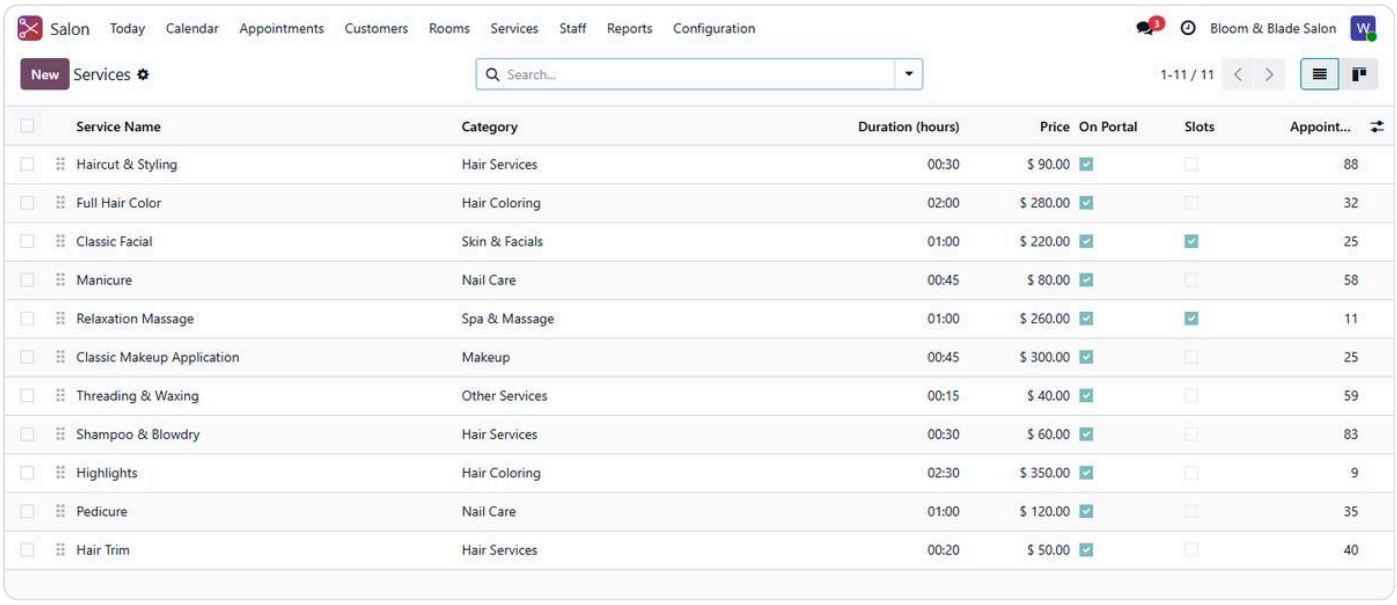

PART 4 Services, categories and retail BASE

A service is what the customer books. Its price, length, the stylists and rooms that can do it, and any stock it uses are all on one form.

1 The service list

Salon, Services, **Services**: name, category, price, duration, published on the booking page and the number of appointments, also as cards.

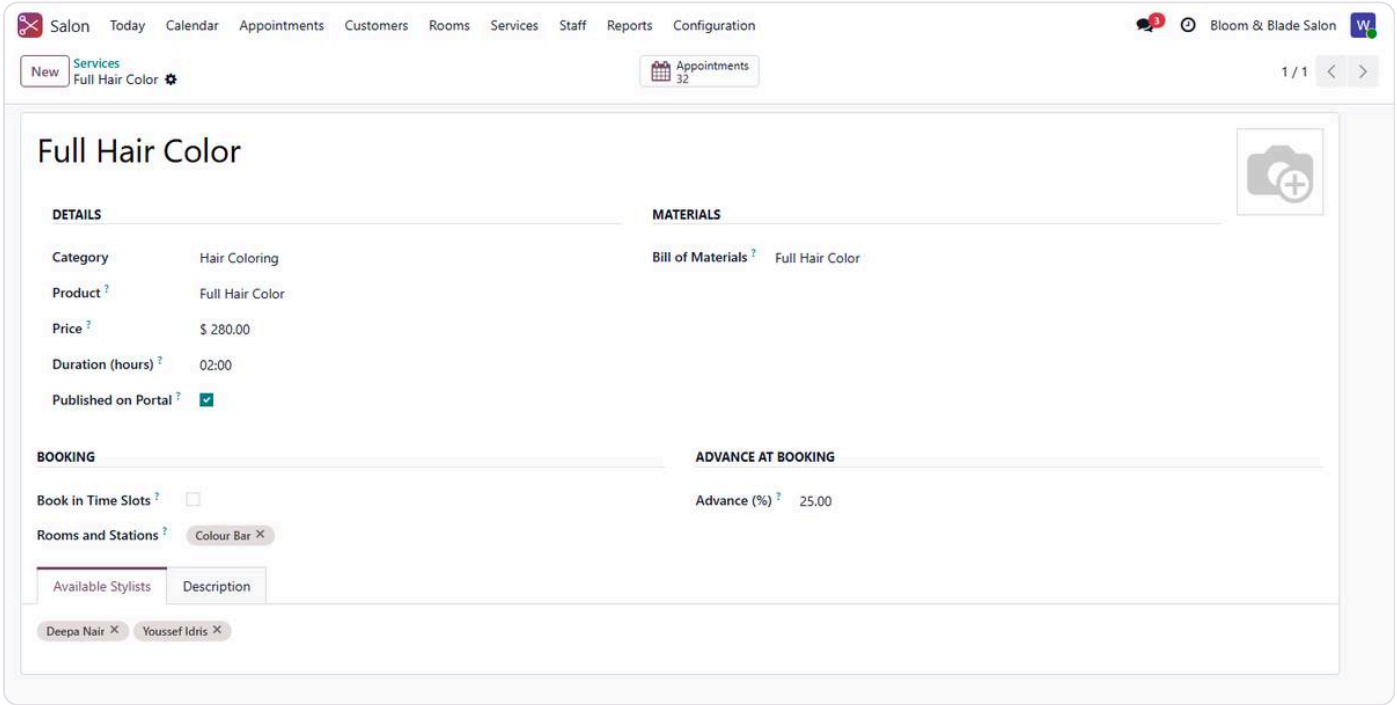

Service Name	Category	Duration (hours)	Price	On Portal	Slots	Appoint...
Haircut & Styling	Hair Services	00:30	$ 90.00	☑	☐	88
Full Hair Color	Hair Coloring	02:00	$ 280.00	☑	☐	32
Classic Facial	Skin & Facials	01:00	$ 220.00	☑	☑	25
Manicure	Nail Care	00:45	$ 80.00	☑	☐	58
Relaxation Massage	Spa & Massage	01:00	$ 260.00	☑	☑	11
Classic Makeup Application	Makeup	00:45	$ 300.00	☑	☐	25
Threading & Waxing	Other Services	00:15	$ 40.00	☑	☐	59
Shampoo & Blowdry	Hair Services	00:30	$ 60.00	☑	☐	83
Highlights	Hair Coloring	02:30	$ 350.00	☑	☐	9
Pedicure	Nail Care	01:00	$ 120.00	☑	☐	35
Hair Trim	Hair Services	00:20	$ 50.00	☑	☐	40

2 A service

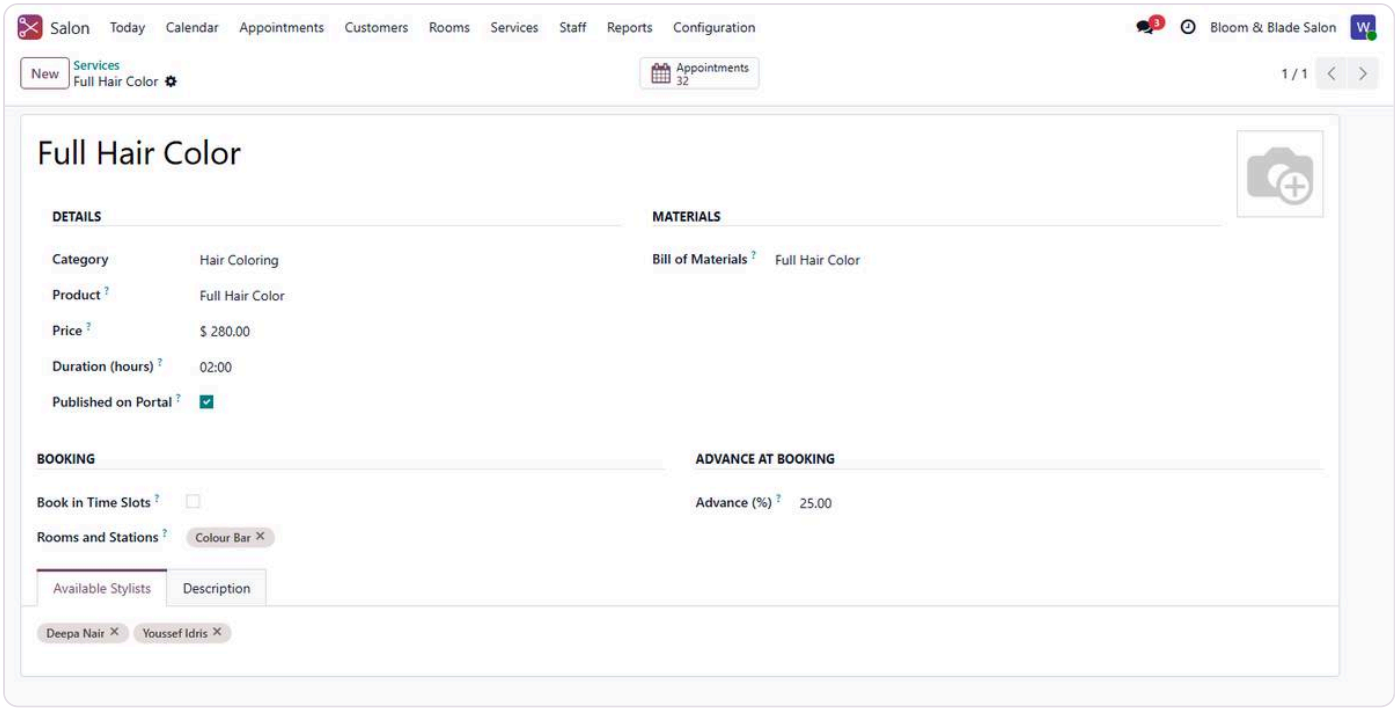

Service Name, **Category**, **Product** (used on the sale order and invoice; the price is the product's sale price), **Price**, **Duration (hours)** and **Published on Portal**. **Bill of Materials**: the colour, wax or product the service uses, deducted from stock when the visit is marked done. **Rooms and Stations** where it can be given. **Advance (%)** or **Advance (fixed)** due at booking.

Twenty minutes is stored as 0.3333 hours so several short services still add up to whole minutes. A service with both a percentage and a fixed advance is refused.

3 Available Stylists

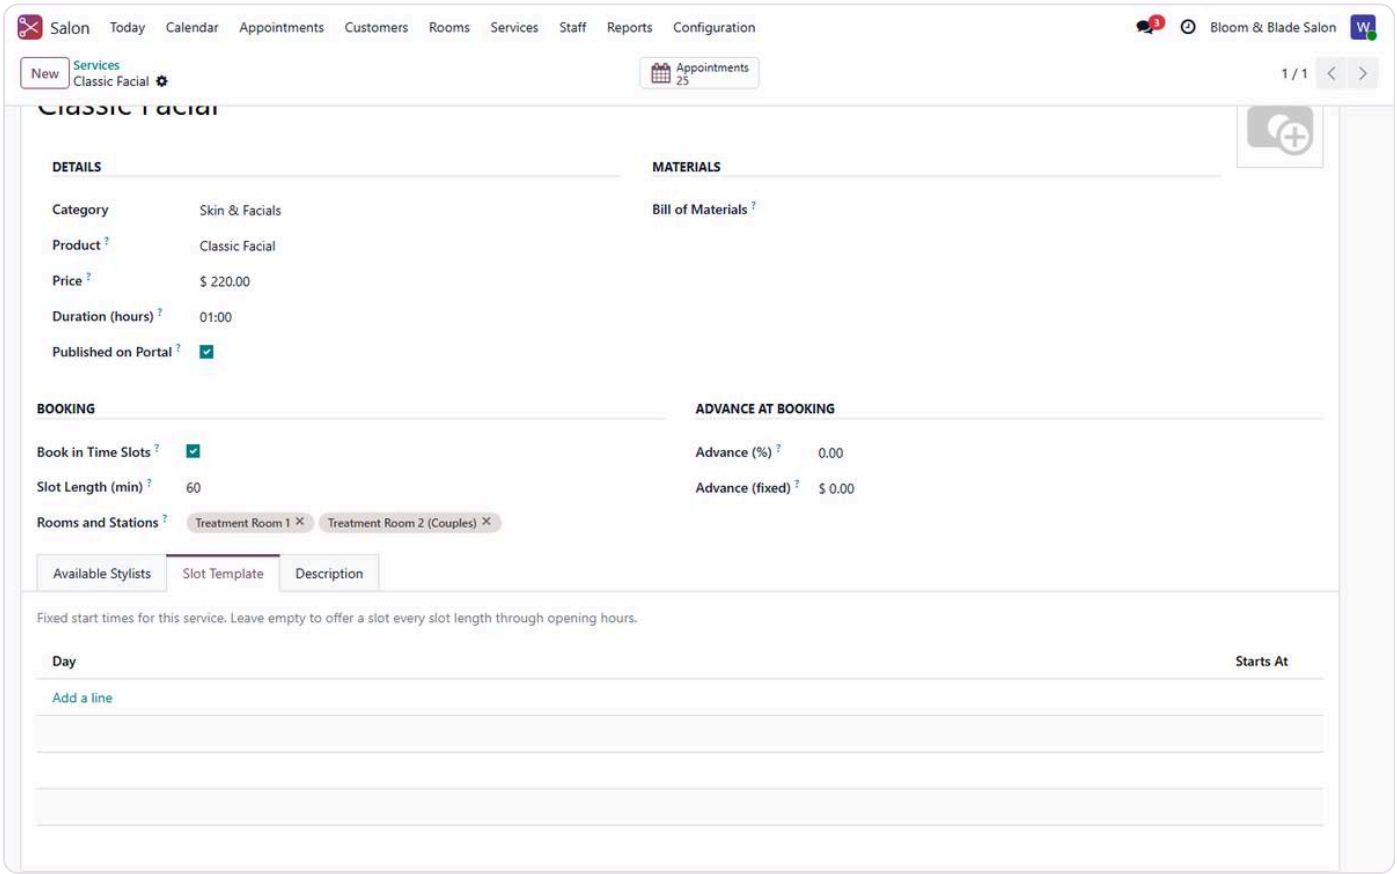

The stylists the booking screens suggest for this service. Empty means anyone. It is a suggestion, not a lock: any stylist can still be picked by hand.

4 Time slots

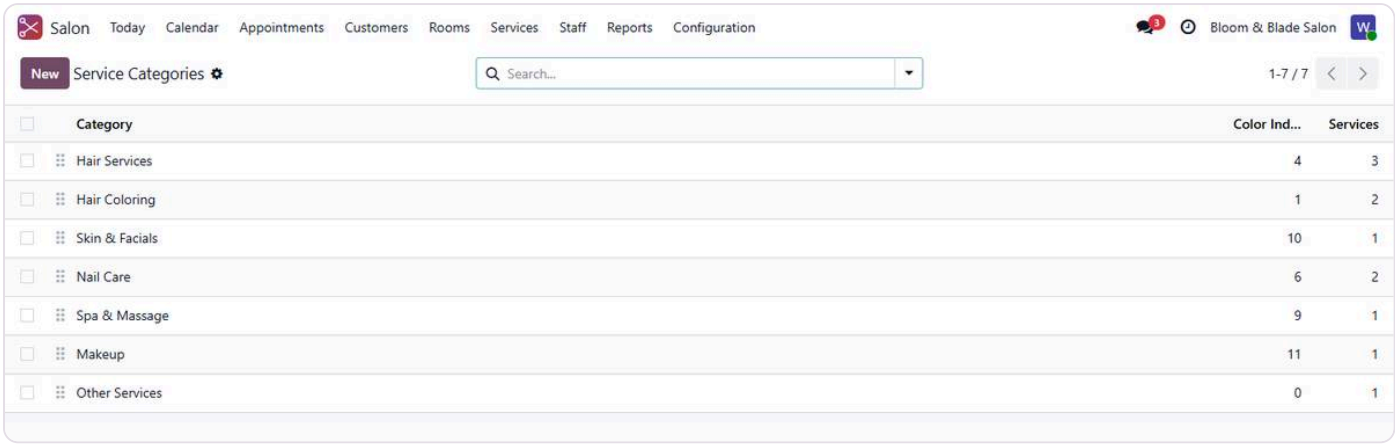

Tick **Book in Time Slots** and the service is offered only at free slots, on the booking page and at the till. Leave the **Slot Template** empty for a slot every **Slot Length** minutes through opening hours, or add fixed starts per weekday, the way a treatment room turns over at 10:00, 12:00 and 14:00.

A slot is free when a qualified stylist is inside their working hours with no break or booking over it and, if the service names rooms, one of them has space.

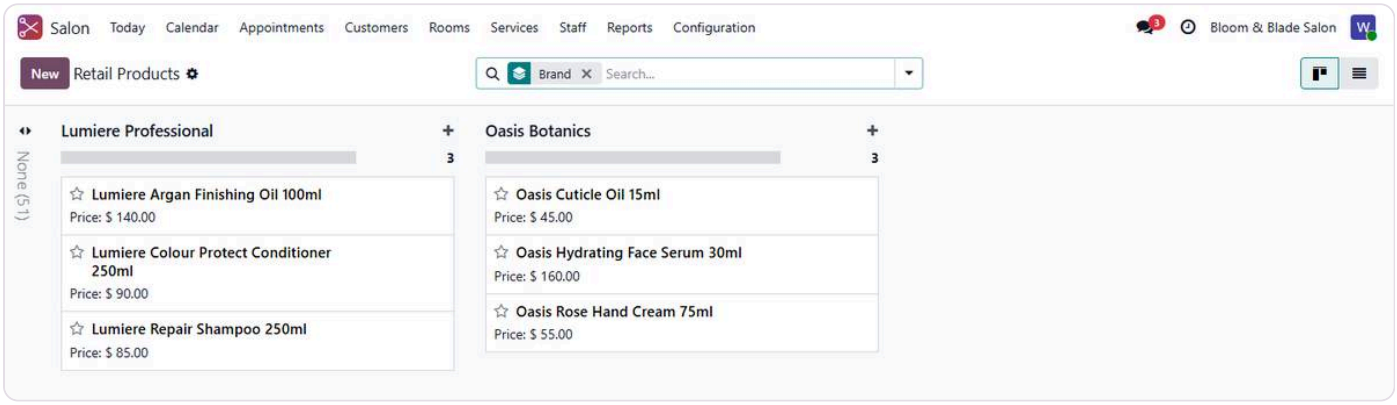

5 Service categories

Salon, Services, **Categories**: hair, colour, skin and facials, nails, spa and massage, makeup and other, each with a colour and a count of services.

6 Retail products

Salon, Services, **Retail Products**: the products sold over the counter, grouped by brand.

7 Retail brands

Salon, Configuration, **Retail Brands**: name, logo, website and the product count. Set the Brand on each retail product.

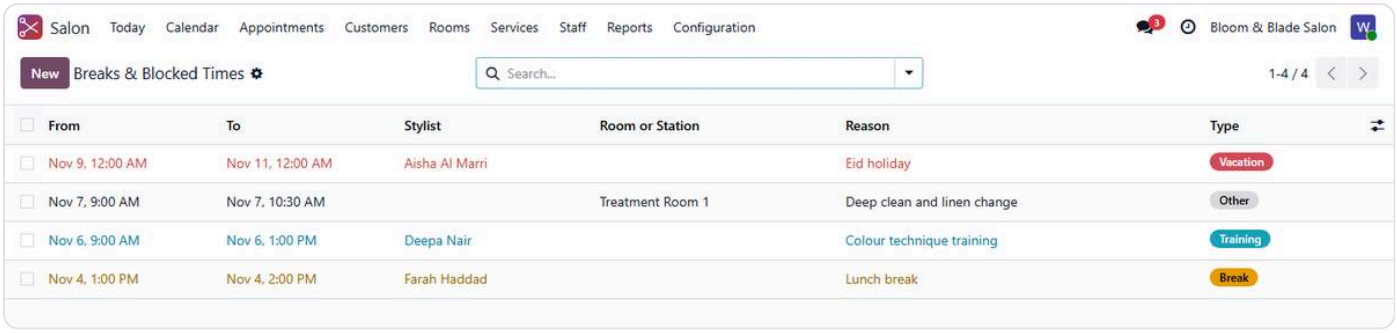

PART 5 Stylists, time off, rooms and chairs BASE

A stylist is an ordinary Odoo employee. Time off and rooms are what stop a booking landing where it cannot be served.

Add stylists under **Employees** the normal way, with their working hours. The colour on the employee is the one they wear on the calendar and the board.

1 Breaks and blocked times

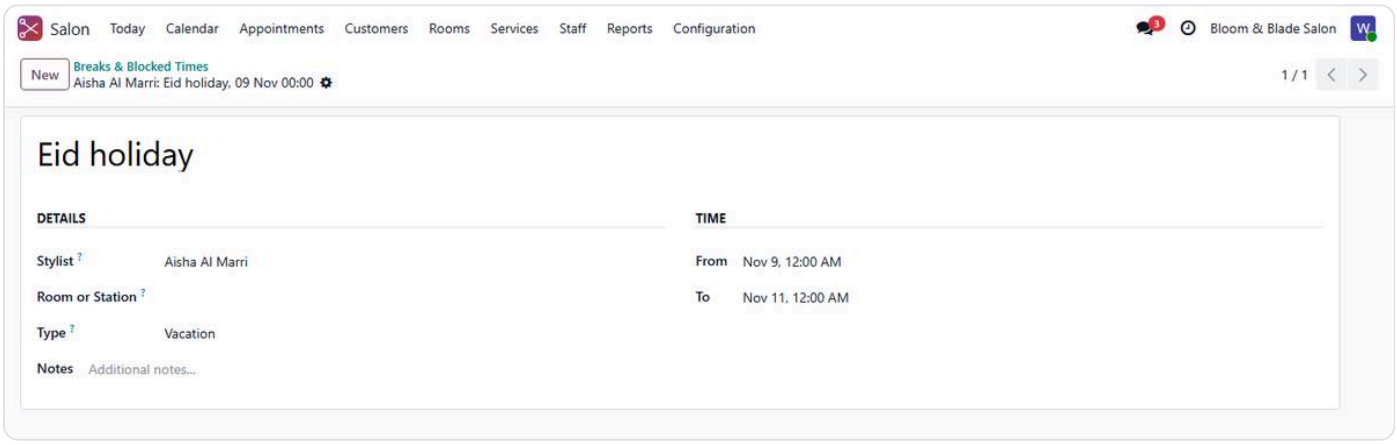

Salon, Staff, **Breaks & Blocked Times**: who or which room, why and when.

2 A blocked time

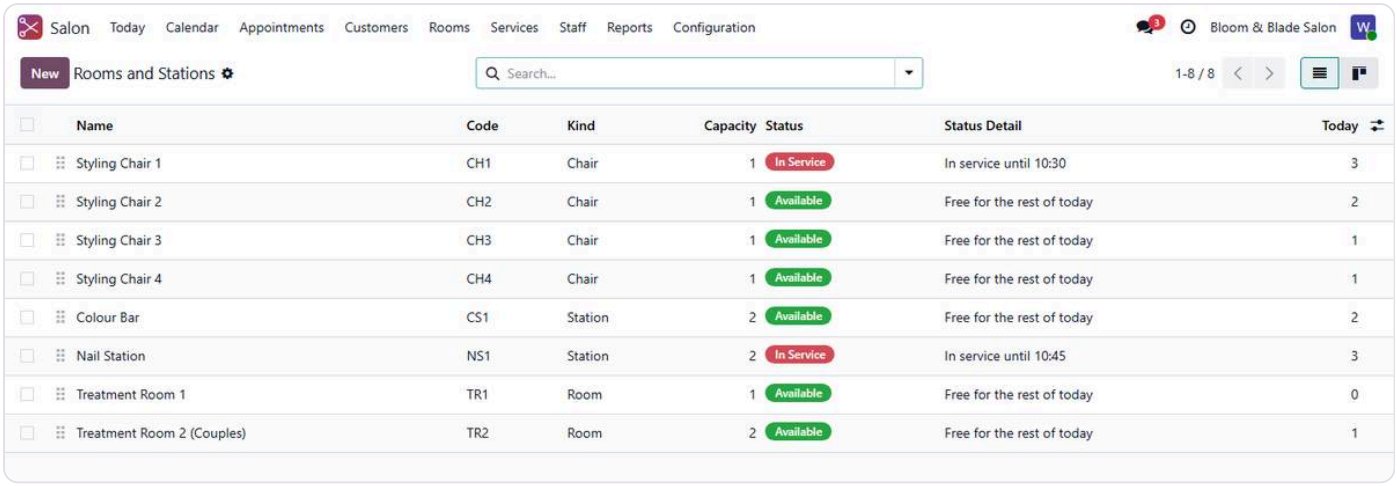

Reason, **Stylist**, **Room or Station** (a stylist, a room or both), **Type** (break, vacation, training or other) and **From** / **To**. The booking page never offers a slot inside one.

Two blocks for the same stylist or room that overlap are refused: extend the first instead.

3 Rooms and stations

Salon, Configuration, **Rooms and Stations**: name, a short code, kind (room, chair, station or other), capacity and today's status.

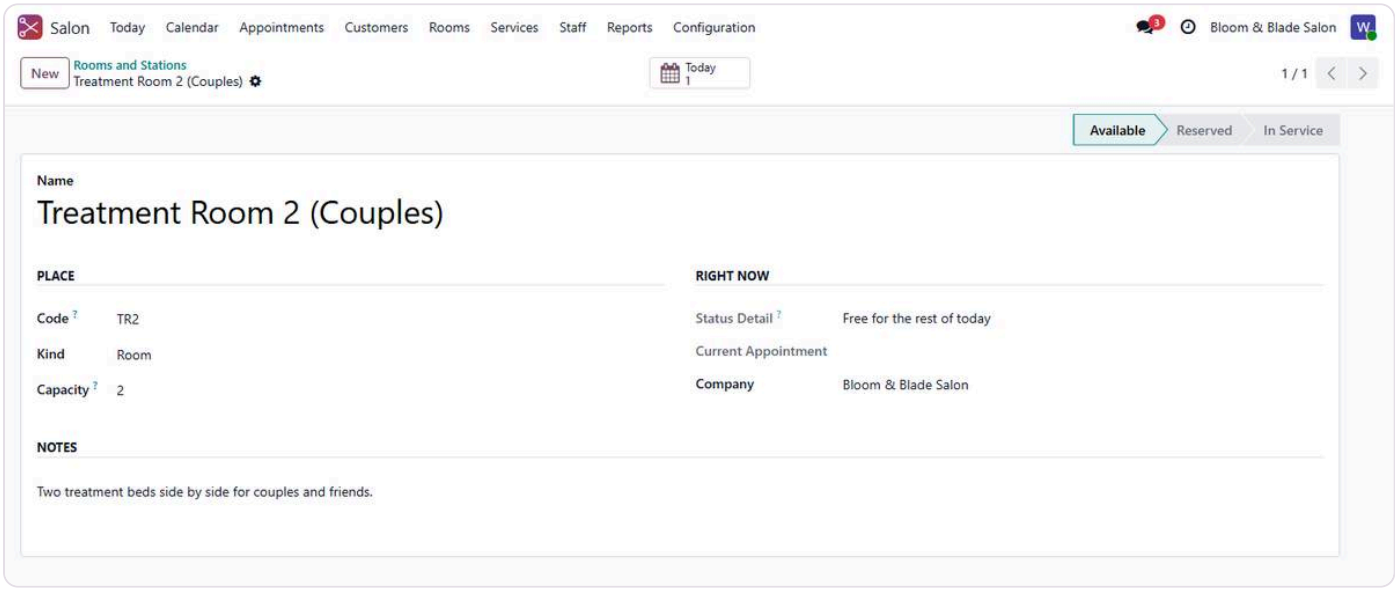

Name	Code	Kind	Capacity	Status	Status Detail	Today
Styling Chair 1	CH1	Chair	1	In Service	In service until 10:30	3
Styling Chair 2	CH2	Chair	1	Available	Free for the rest of today	2
Styling Chair 3	CH3	Chair	1	Available	Free for the rest of today	1
Styling Chair 4	CH4	Chair	1	Available	Free for the rest of today	1
Colour Bar	CS1	Station	2	Available	Free for the rest of today	2
Nail Station	NS1	Station	2	In Service	In service until 10:45	3
Treatment Room 1	TR1	Room	1	Available	Free for the rest of today	0
Treatment Room 2 (Couples)	TR2	Room	2	Available	Free for the rest of today	1

4 A room

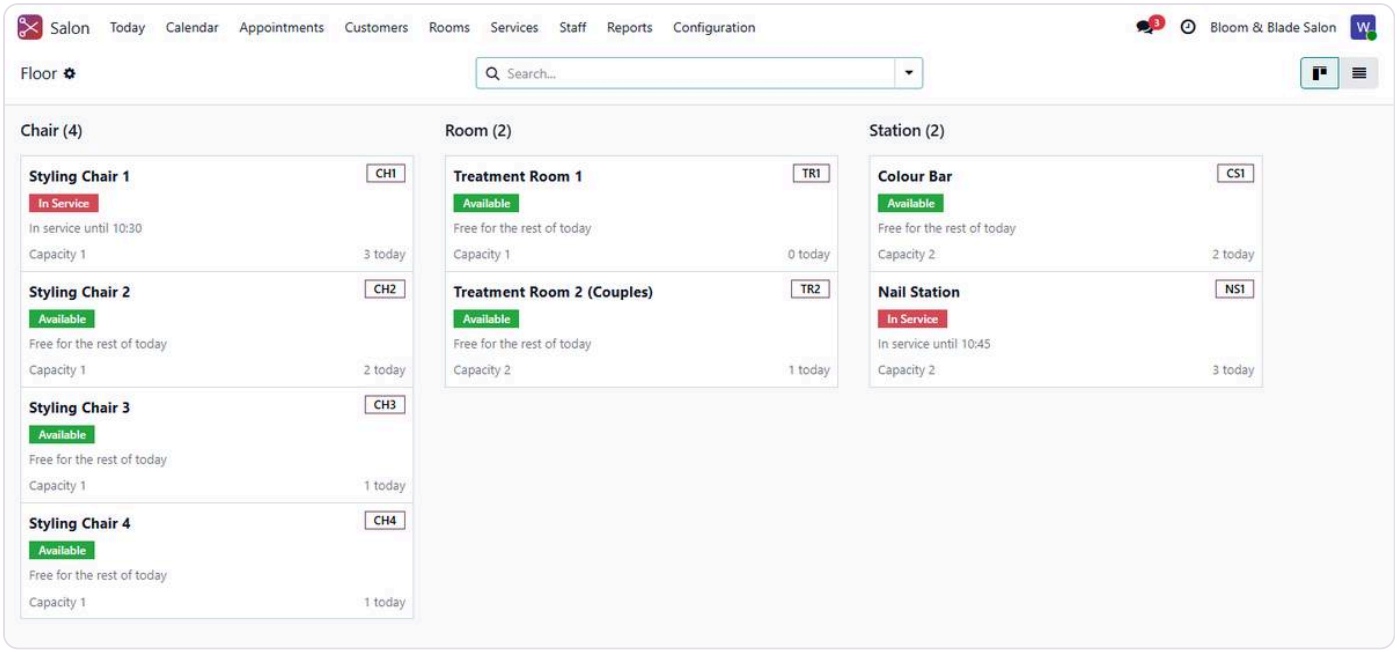

Capacity is how many clients it takes at once: a styling chair is 1, a couples room is 2. The form shows its status now, when it frees up or is next booked, and the appointment it is serving.

Capacity must be at least 1.

5 The floor board

Salon, **Rooms**: every place grouped by kind with its status, worked out from the diary each time it opens. Available, Reserved (a booking still to come today, with its time) or In Service (with the time it frees up). A stylist sees the board but not whose client is in a room.

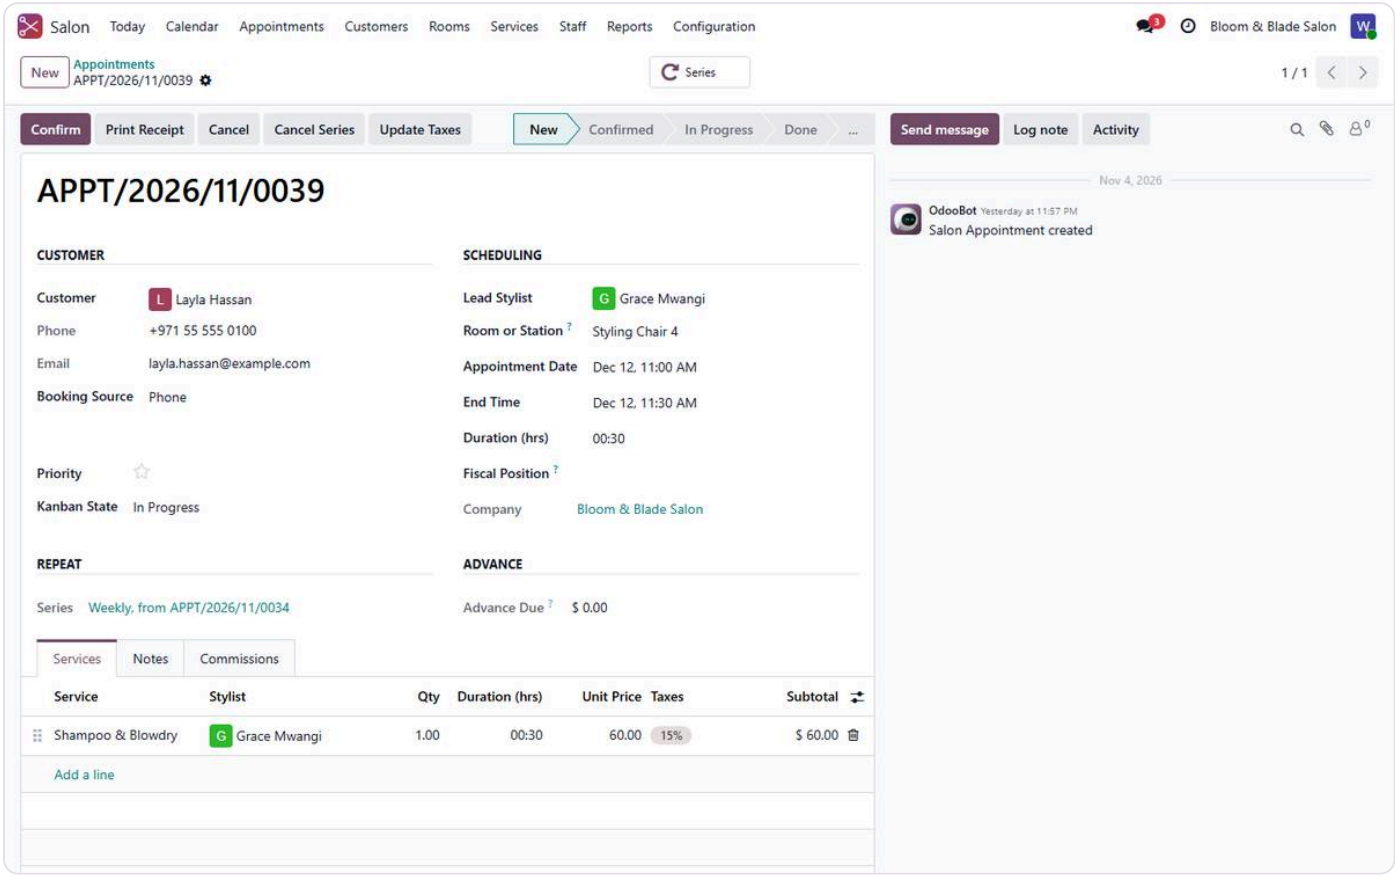

PART 6 Taking a booking BASE

Front desk, phone or walk-in: one appointment form, checked against every other booking before it saves.

1 A new appointment

Salon, Appointments, All Appointments, **New**. **Customer** (phone and email follow), **Lead Stylist**, **Room or Station**, **Appointment Date**; **End Time** and **Duration** come from the services. **Booking Source**: walk-in, phone, online portal or staff. On the **Services** tab one line per service, each with its own stylist, quantity, price, discount and taxes. Notes takes the special requests.

HOW IT WORKS

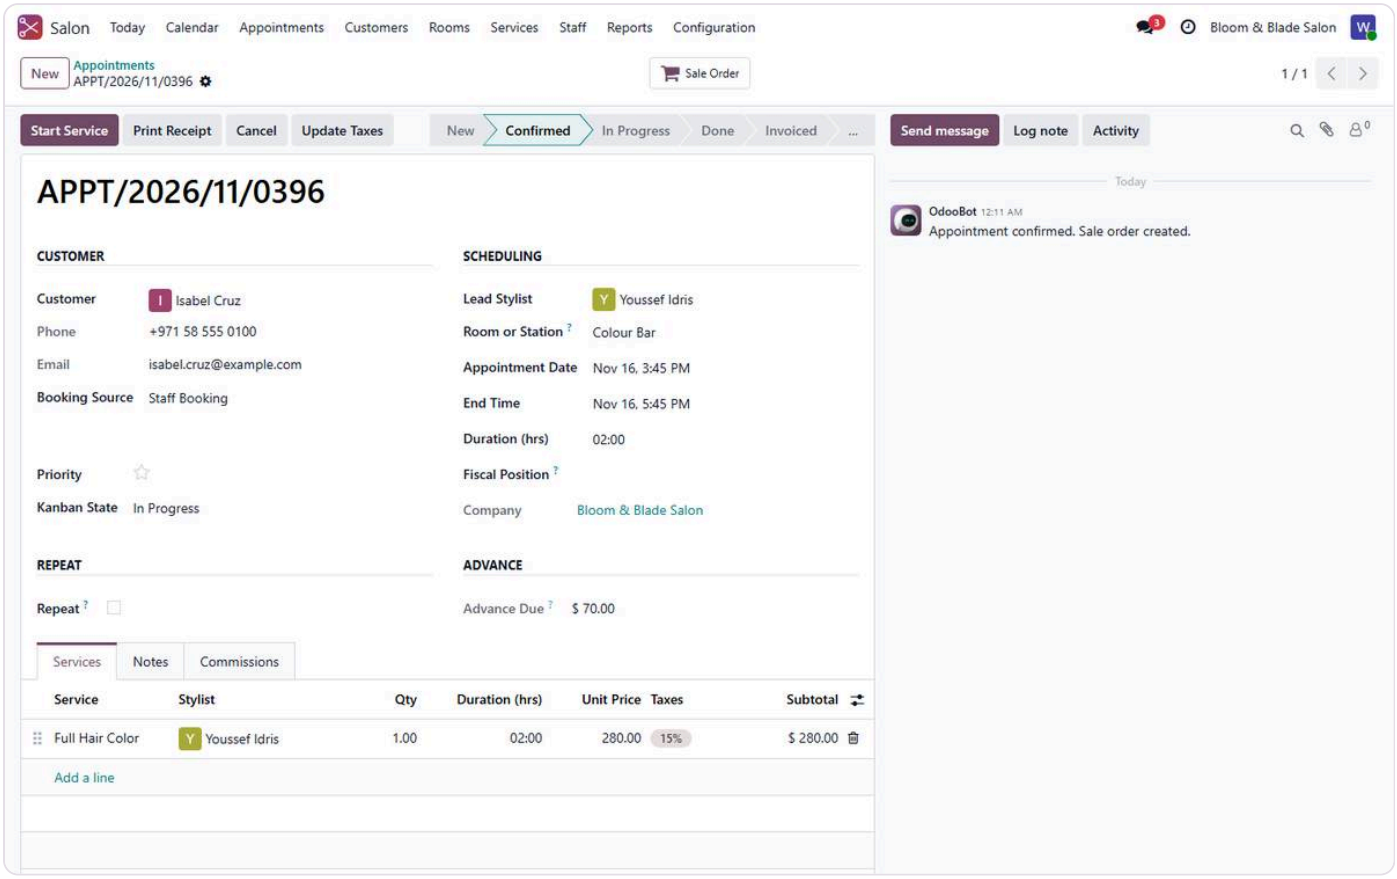

The double booking guard

On every save, wherever the booking came from, a stylist cannot be booked twice at the same time and a room cannot take more clients than its capacity. The message names the booking in the way: "Aisha Al Marri is already booked from 26 Sep 10:00 to 26 Sep 10:30 on APPT/2026/09/0012. Pick another time or another stylist." A visit that ends at 11:00 and one that starts at 11:00 do not clash.

2 An advance due at booking

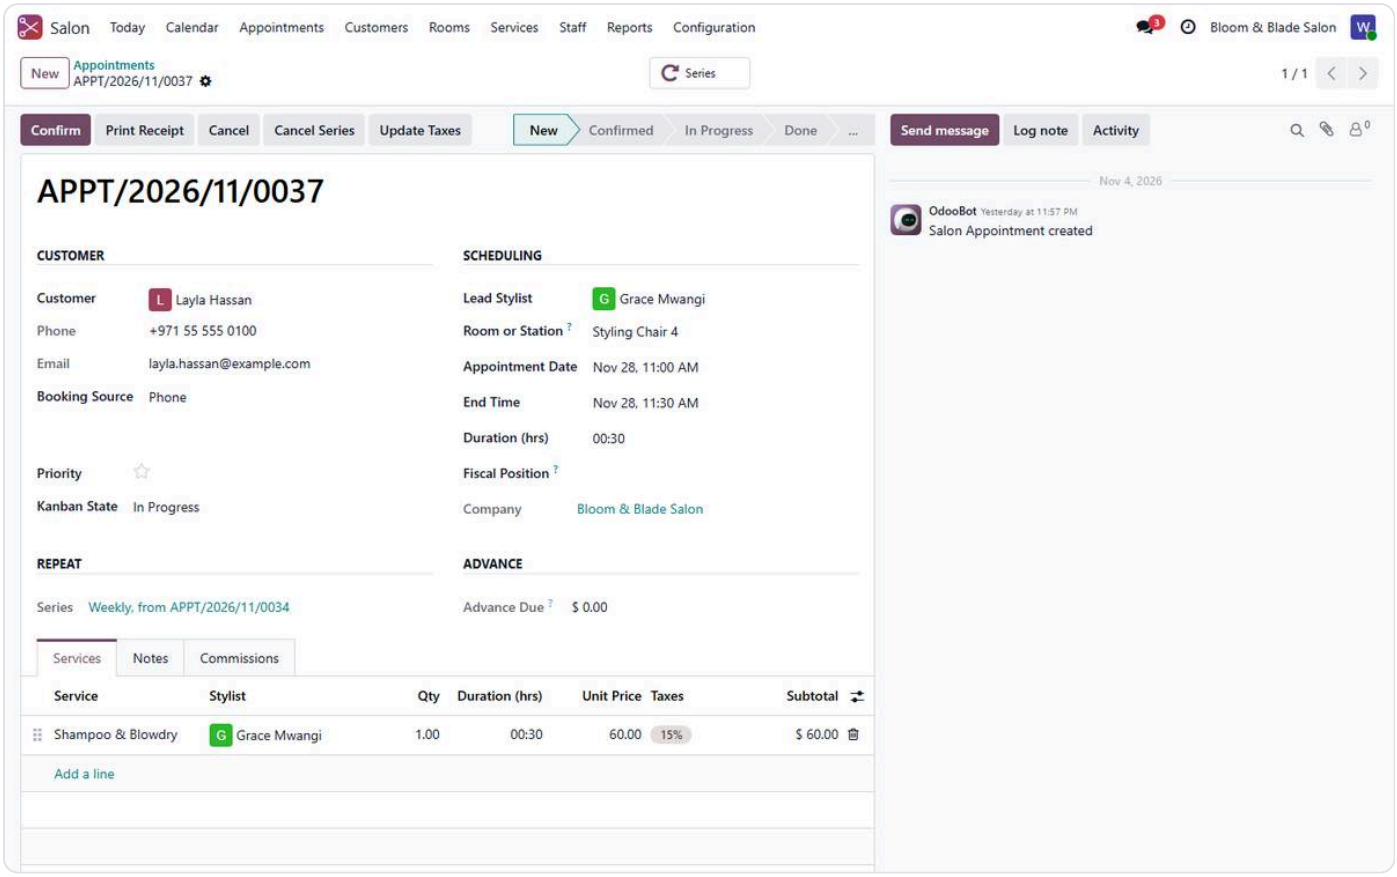

When a service carries an advance, the appointment shows **Advance Due**: each line's percentage after discount, or the fixed amount per unit, added up and never above the total. It is recorded when the booking is priced, so changing the service later does not change what past bookings owe.

The base module records the advance. Taking the money is the till's or the Loyalty add-on's job.

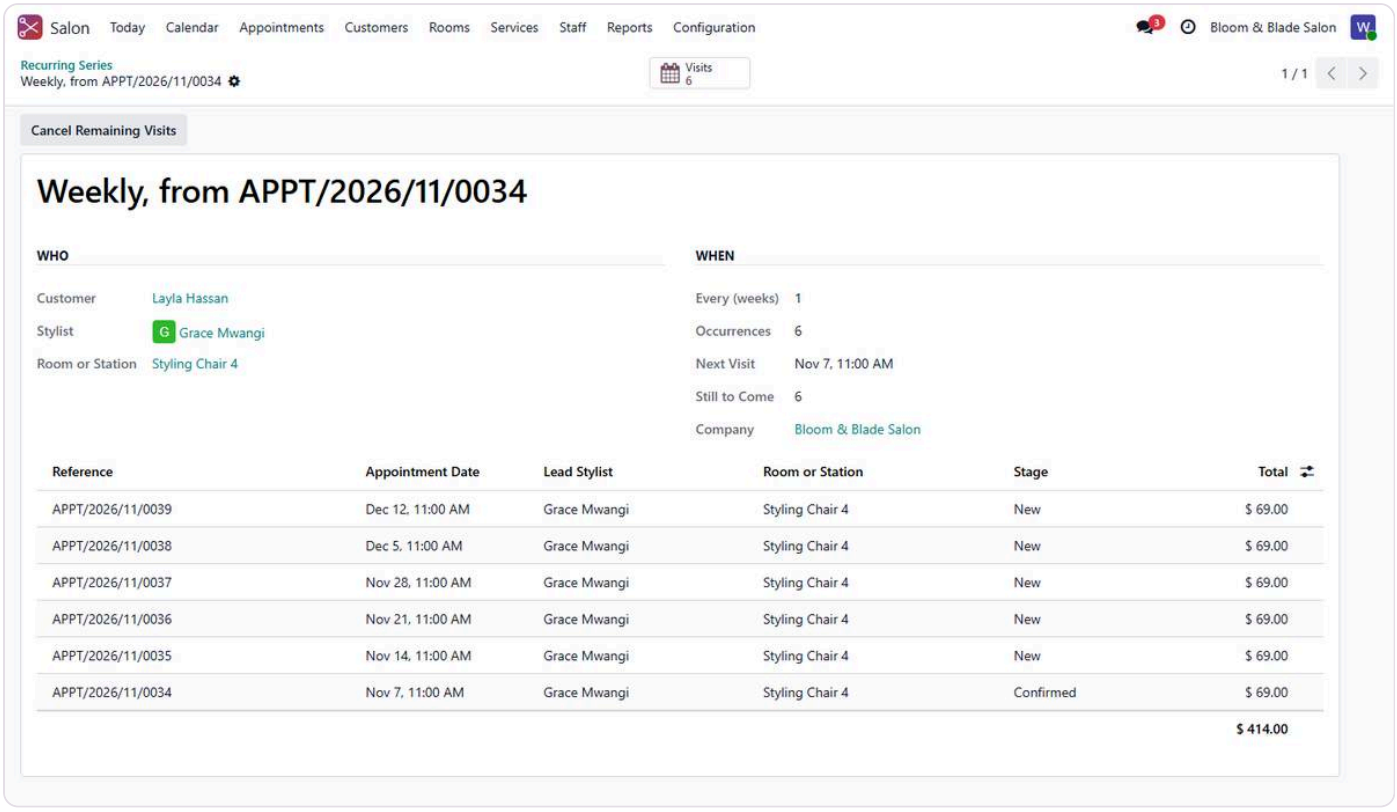

3 Recurring visits

Tick **Repeat**, set **Every (weeks)** (1 to 52) and **Occurrences** (2 to 52), then Confirm. The later visits are booked at the same time with the same stylist, room, services and prices, and wait for their own confirmation. If one visit would clash, nothing is booked and the message names the visit in the way.

4 The series

The **Series** button, or Salon, Appointments, **Recurring Series**: the customer, stylist, room, interval, next visit, how many are still to come and every visit. **Cancel Remaining** cancels every visit not yet happened; **Cancel Series** on a visit cancels it and every later one. Visits already done or invoiced are never cancelled with the series.

PART 7 The day: from confirmed to invoiced BASE

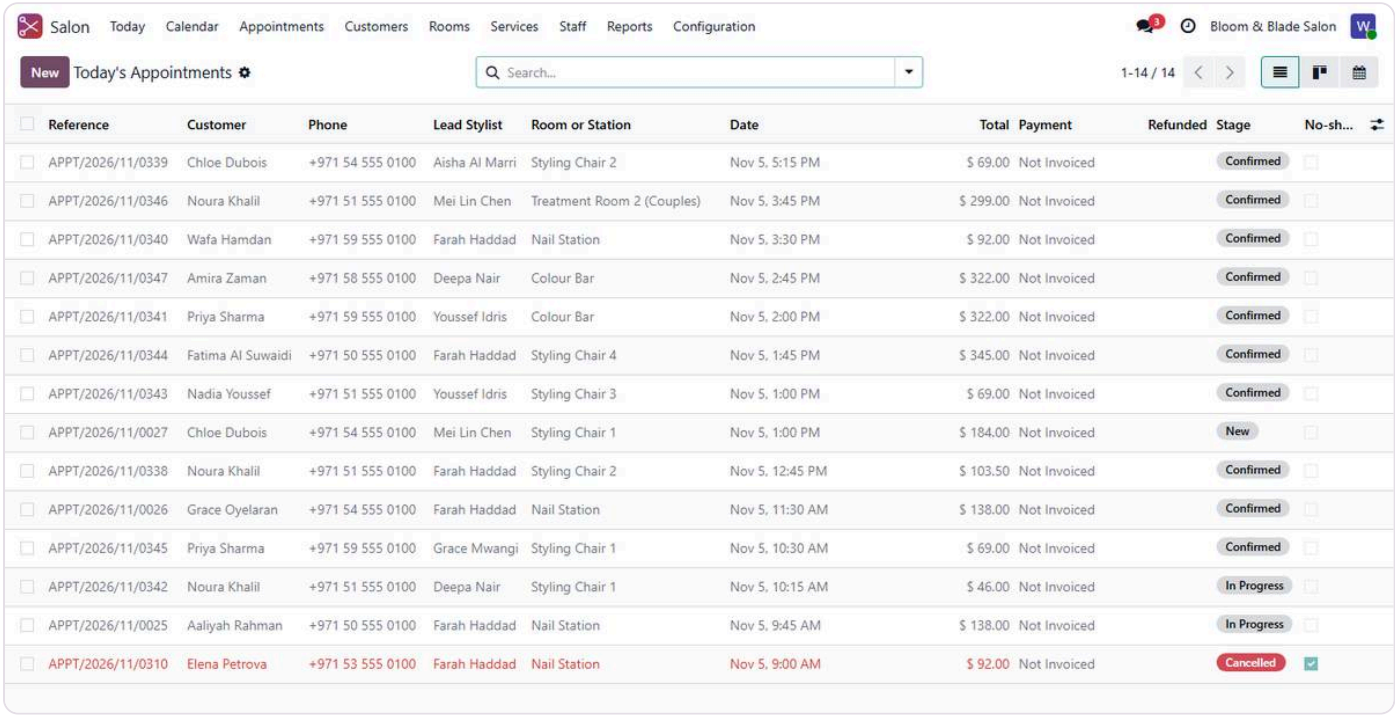

The front desk works the day on Today, the calendar or the board, and moves each visit on with the buttons at the top of its form.

IN THIS PART YOU WILL LEARN

- Today, Calendar, Kanban and the list
- Every stage button and what it does behind the scenes
- Invoicing, the receipt, a cancellation and a no-show

1 Today

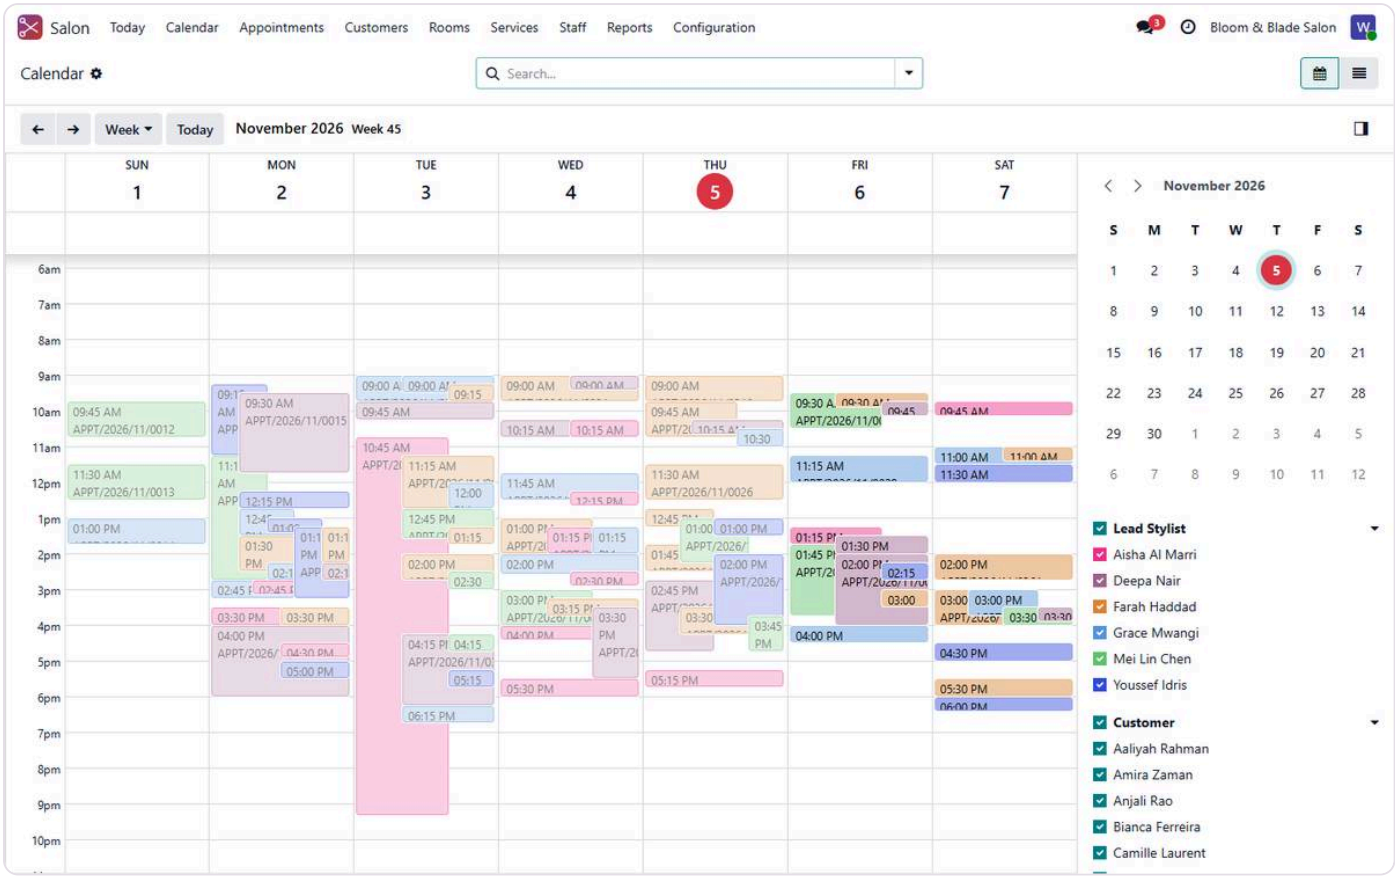

The app opens here: today's appointments with time, customer, stylist, room, service, total and stage.

Reference	Customer	Phone	Lead Stylist	Room or Station	Date	Total	Payment	Refunded	Stage	No-sh...
APPT/2026/11/0339	Chloe Dubois	+971 54 555 0100	Aisha Al Marri	Styling Chair 2	Nov 5, 5:15 PM	$ 69.00	Not Invoiced		Confirmed	
APPT/2026/11/0346	Noura Khalil	+971 51 555 0100	Mei Lin Chen	Treatment Room 2 (Couples)	Nov 5, 3:45 PM	$ 299.00	Not Invoiced		Confirmed	
APPT/2026/11/0340	Wafa Hamdan	+971 59 555 0100	Farah Haddad	Nail Station	Nov 5, 3:30 PM	$ 92.00	Not Invoiced		Confirmed	
APPT/2026/11/0347	Amira Zaman	+971 58 555 0100	Deepa Nair	Colour Bar	Nov 5, 2:45 PM	$ 322.00	Not Invoiced		Confirmed	
APPT/2026/11/0341	Priya Sharma	+971 59 555 0100	Youssef Idris	Colour Bar	Nov 5, 2:00 PM	$ 322.00	Not Invoiced		Confirmed	
APPT/2026/11/0344	Fatima Al Suwaidi	+971 50 555 0100	Farah Haddad	Styling Chair 4	Nov 5, 1:45 PM	$ 345.00	Not Invoiced		Confirmed	
APPT/2026/11/0343	Nadia Youssef	+971 51 555 0100	Youssef Idris	Styling Chair 3	Nov 5, 1:00 PM	$ 69.00	Not Invoiced		Confirmed	
APPT/2026/11/0027	Chloe Dubois	+971 54 555 0100	Mei Lin Chen	Styling Chair 1	Nov 5, 1:00 PM	$ 184.00	Not Invoiced		New	
APPT/2026/11/0338	Noura Khalil	+971 51 555 0100	Farah Haddad	Styling Chair 2	Nov 5, 12:45 PM	$ 103.50	Not Invoiced		Confirmed	
APPT/2026/11/0026	Grace Oyelaran	+971 54 555 0100	Farah Haddad	Nail Station	Nov 5, 11:30 AM	$ 138.00	Not Invoiced		Confirmed	
APPT/2026/11/0345	Priya Sharma	+971 59 555 0100	Grace Mwangi	Styling Chair 1	Nov 5, 10:30 AM	$ 69.00	Not Invoiced		Confirmed	
APPT/2026/11/0342	Noura Khalil	+971 51 555 0100	Deepa Nair	Styling Chair 1	Nov 5, 10:15 AM	$ 46.00	Not Invoiced		In Progress	
APPT/2026/11/0025	Aaliyah Rahman	+971 50 555 0100	Farah Haddad	Nail Station	Nov 5, 9:45 AM	$ 138.00	Not Invoiced		In Progress	
APPT/2026/11/0310	Elena Petrova	+971 53 555 0100	Farah Haddad	Nail Station	Nov 5, 9:00 AM	$ 92.00	Not Invoiced		Cancelled	

2 The calendar

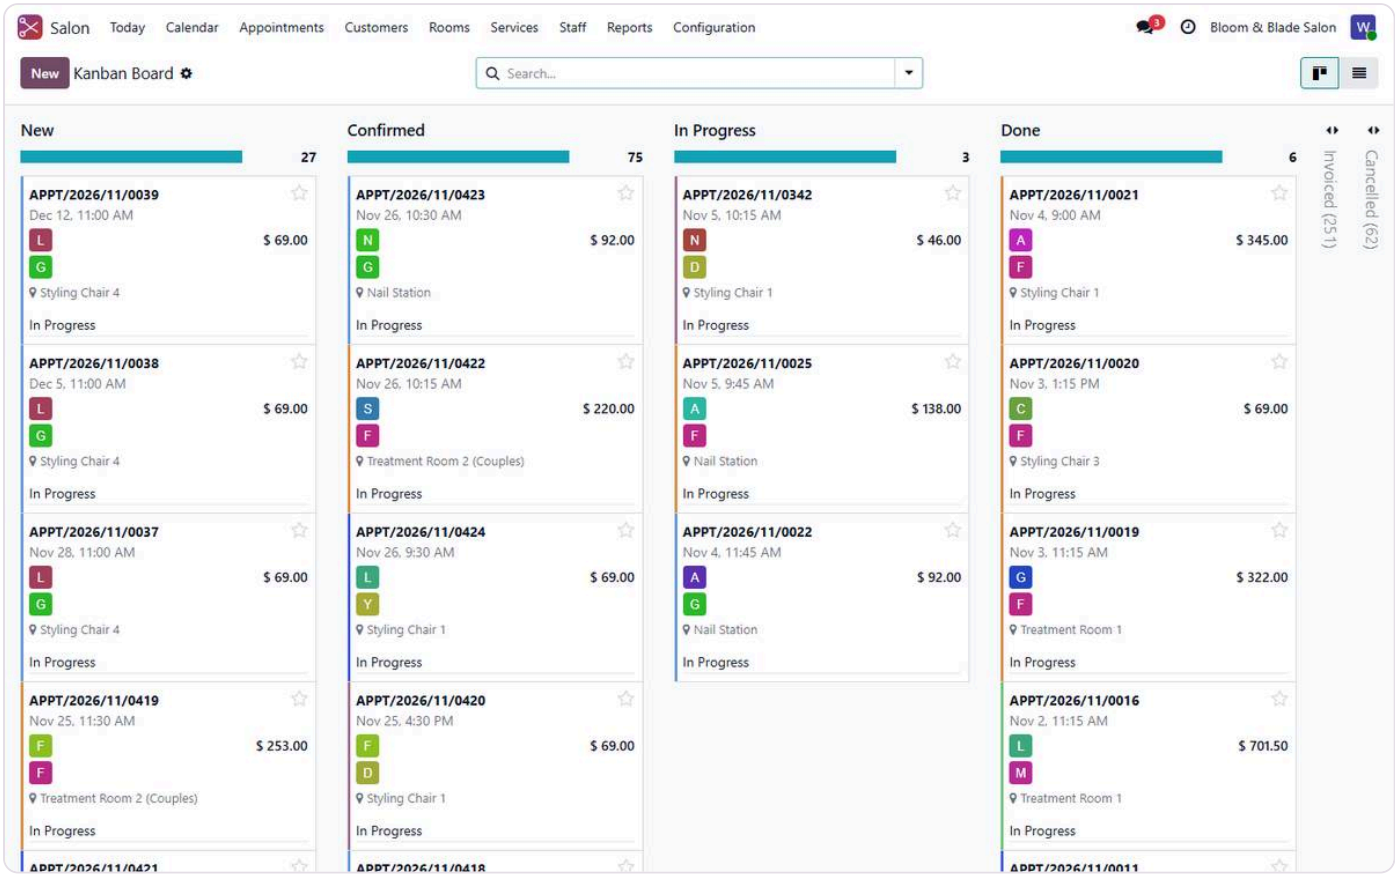

Salon, **Calendar**: the week, coloured by stylist, with customers, rooms and stylists as filters on the side. Click an empty slot to book, an appointment to open it.

3 The kanban board

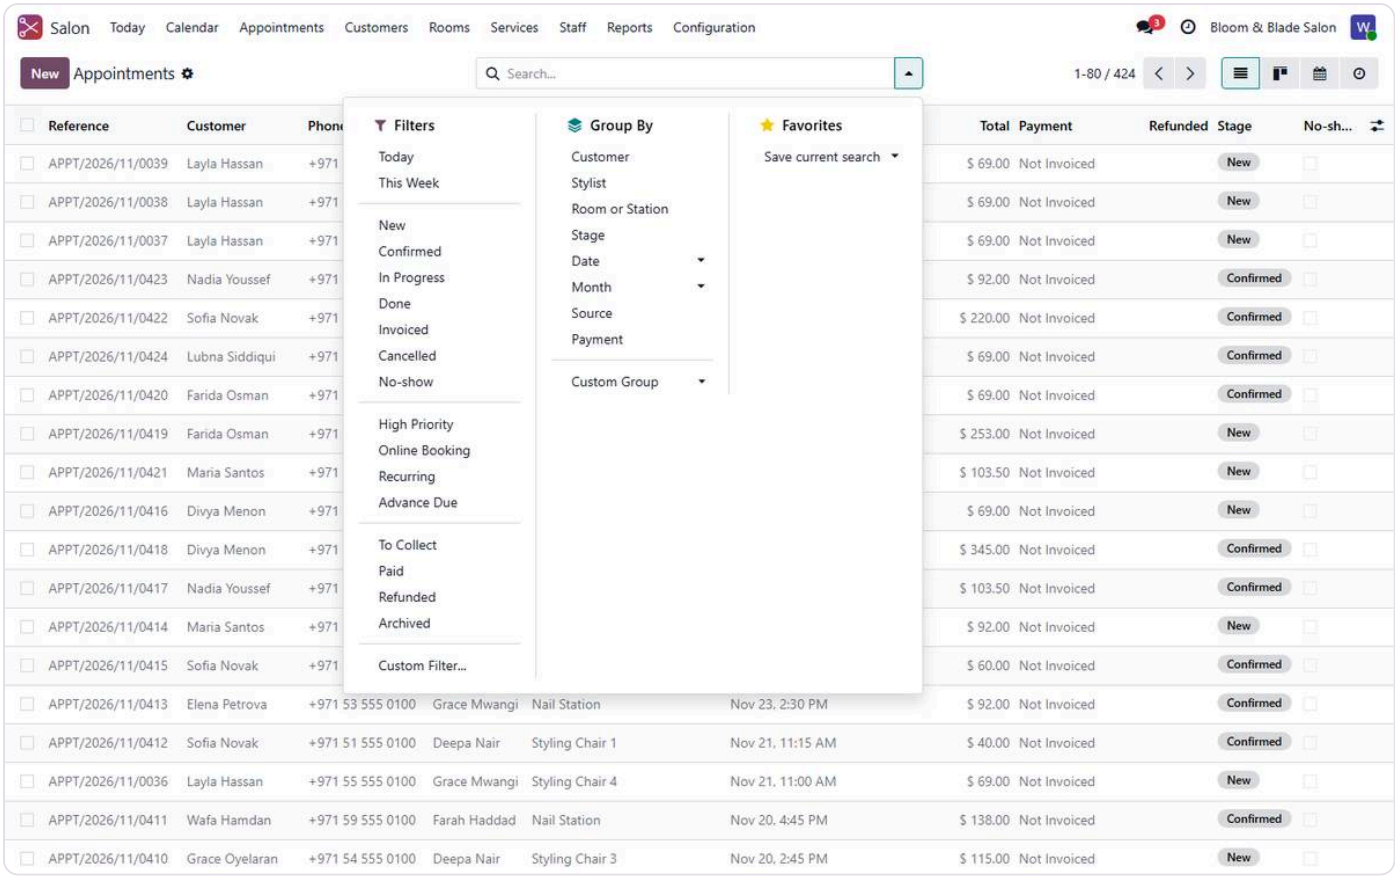

Salon, Appointments, **Kanban Board**: a column per stage, Invoiced and Cancelled folded on the right, the stylist's colour as a stripe. Dragging a card and pressing a button move the same stage.

The New column header text is very faint on this build; see the bug list at the end of the guide.

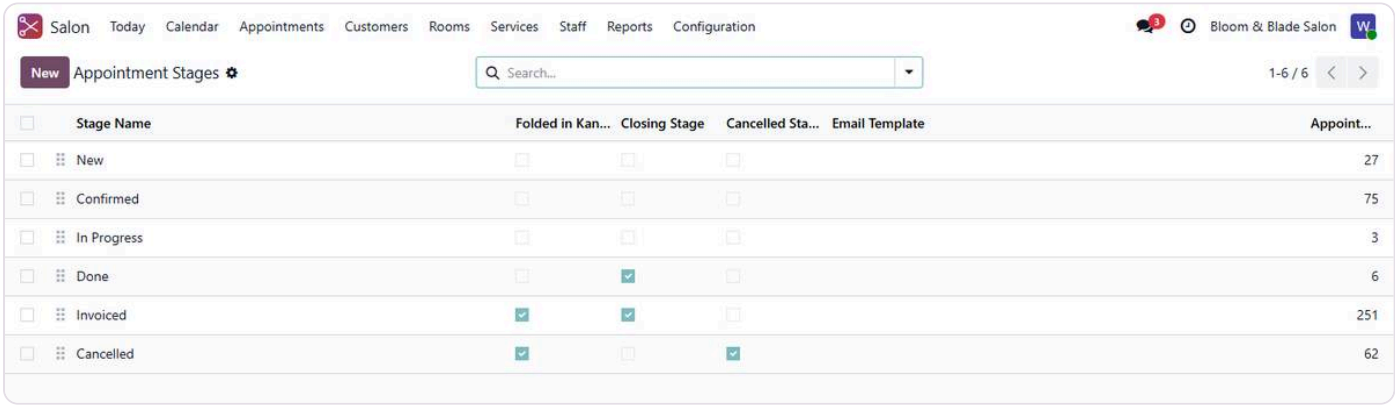

4 Filters

Search by customer, stylist, service or reference. Filters include today, this week, stages, no-shows, recurring and payment state; group by stylist, stage, room, source or date.

5 Appointment stages

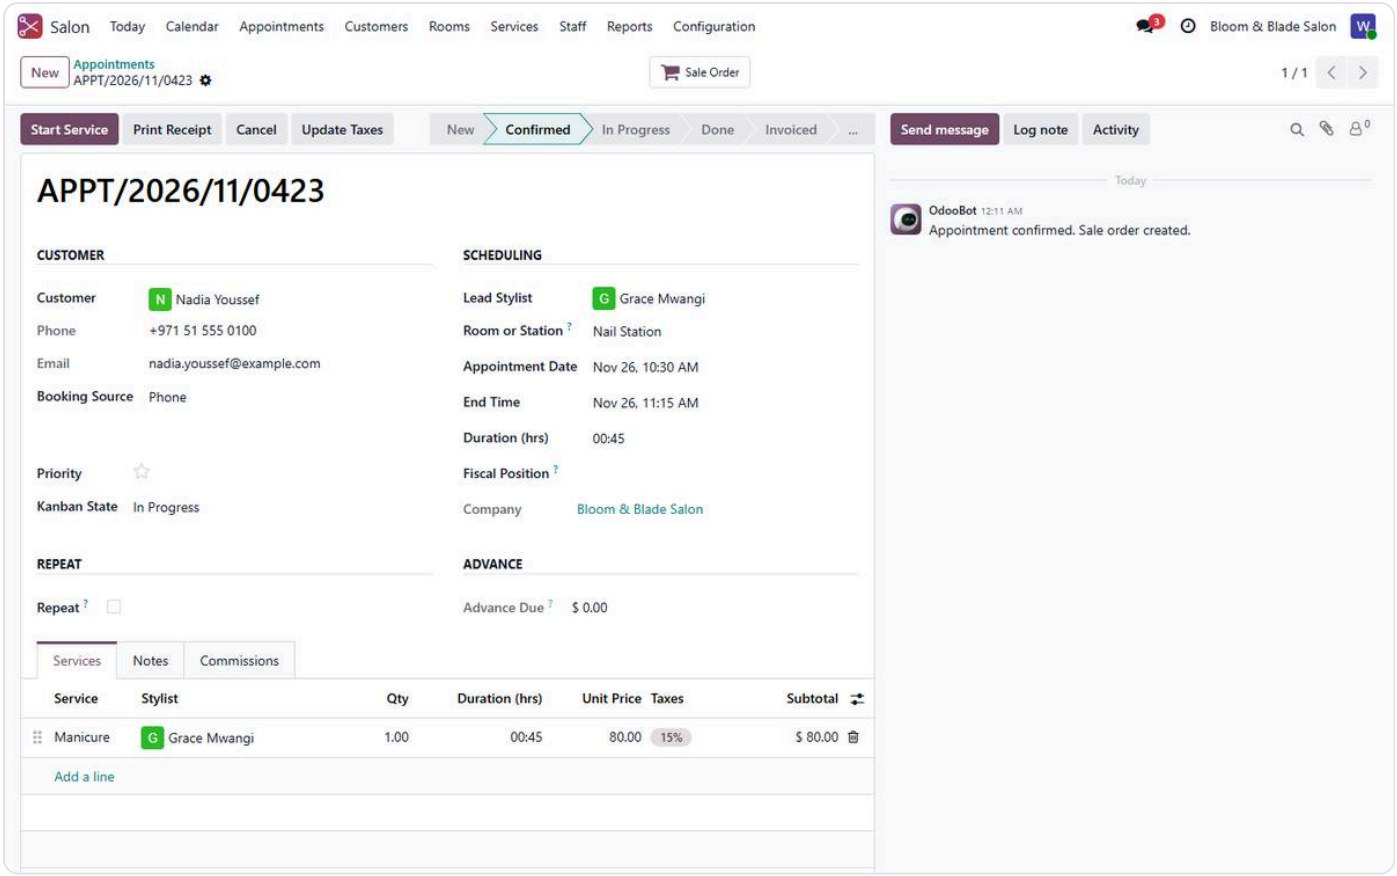

Salon, Configuration, **Appointment Stages**: rename or reorder the pipeline, mark closing and cancelled stages, set the kanban legends and an email template to send on arrival.

One visit, stage by stage

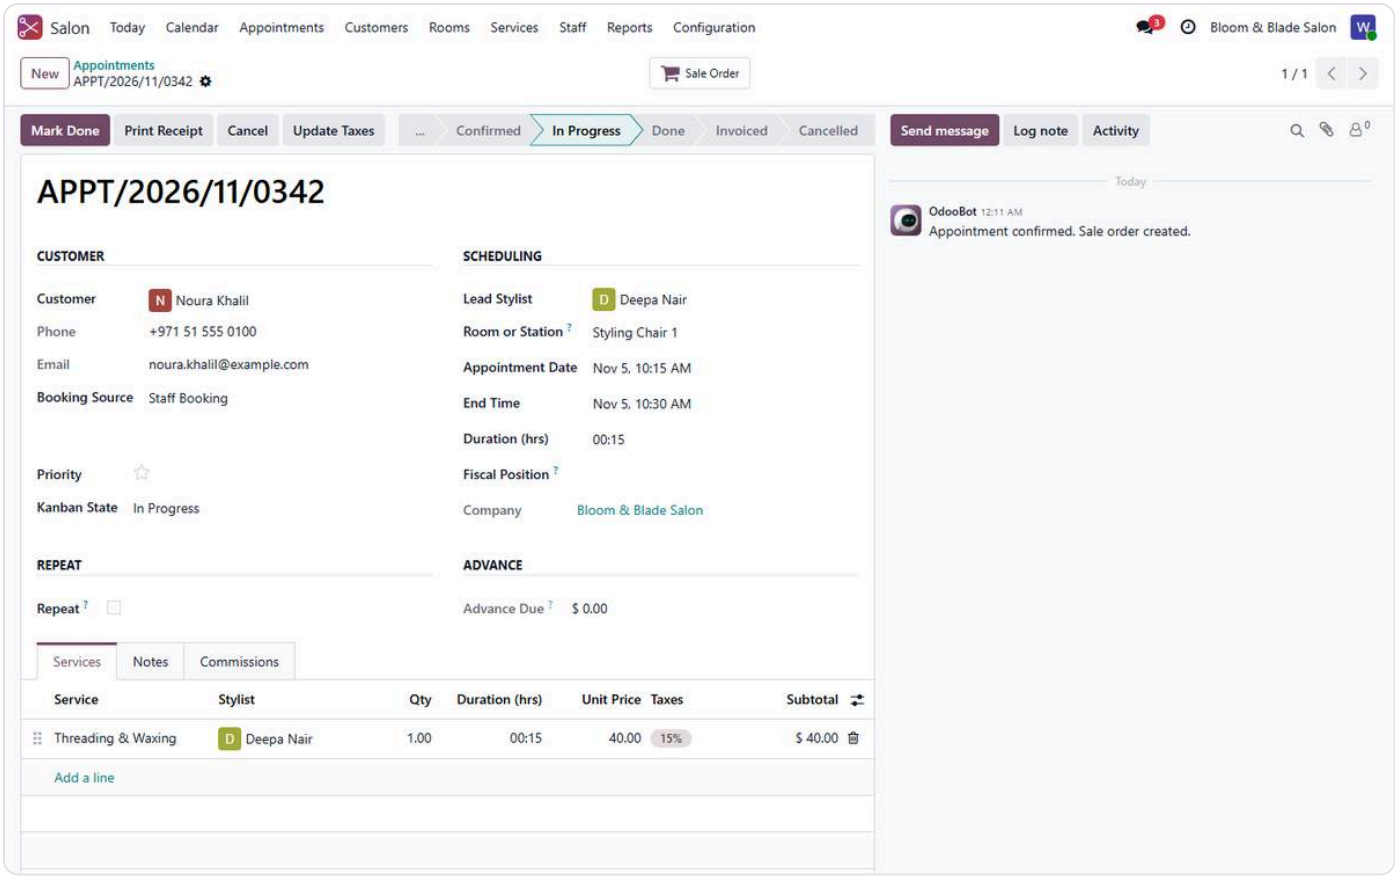

6 Confirmed

Confirm moves a New visit to Confirmed and creates a sale order behind it, so sales figures count it from here. The header now offers **Start Service**, **Print Receipt** and **Cancel**; the **Sale Order** button opens the order.

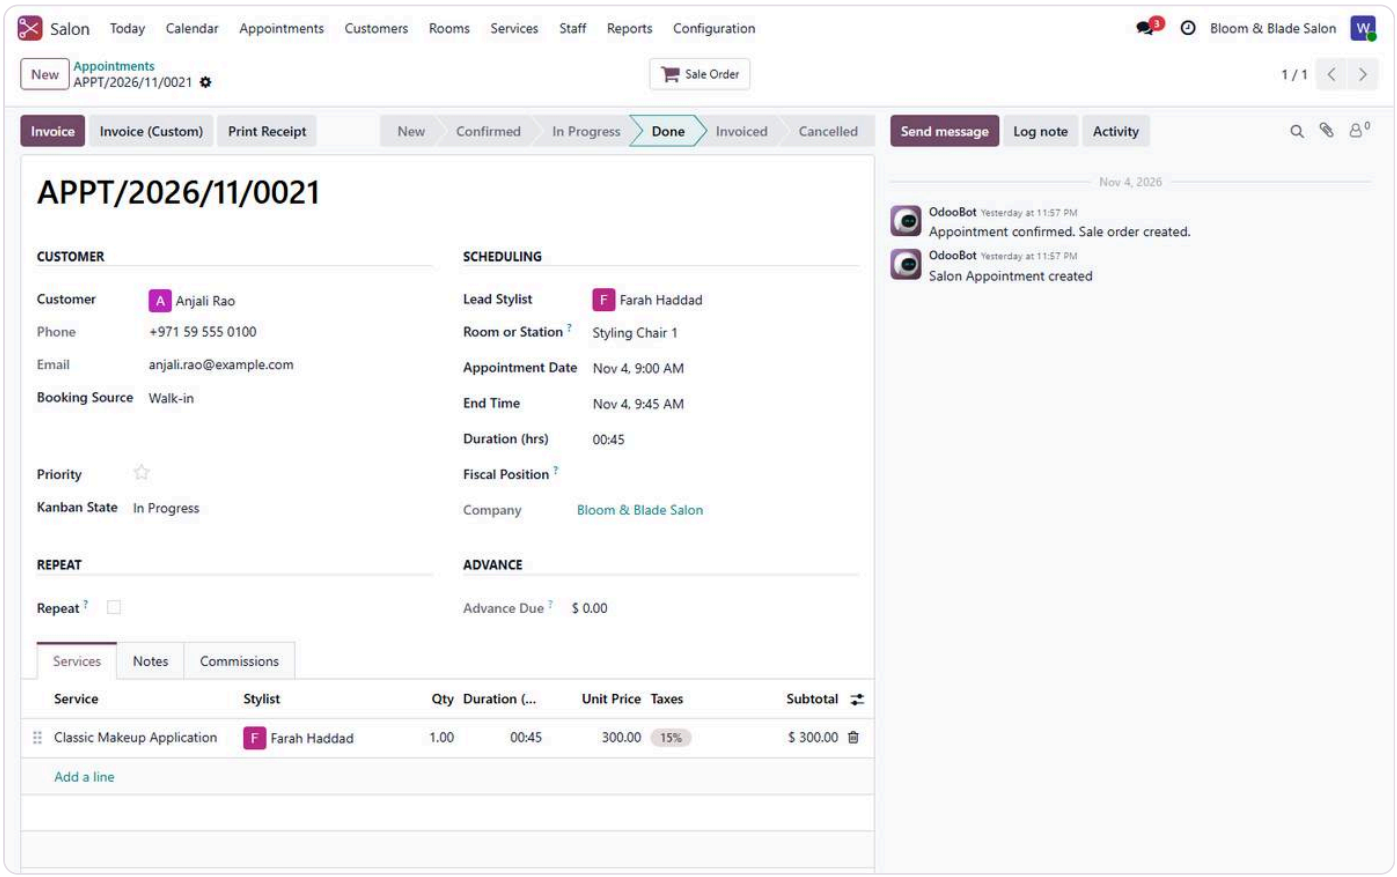

7 In Progress

Start Service when the customer sits down. **Mark Done** when the work is finished.

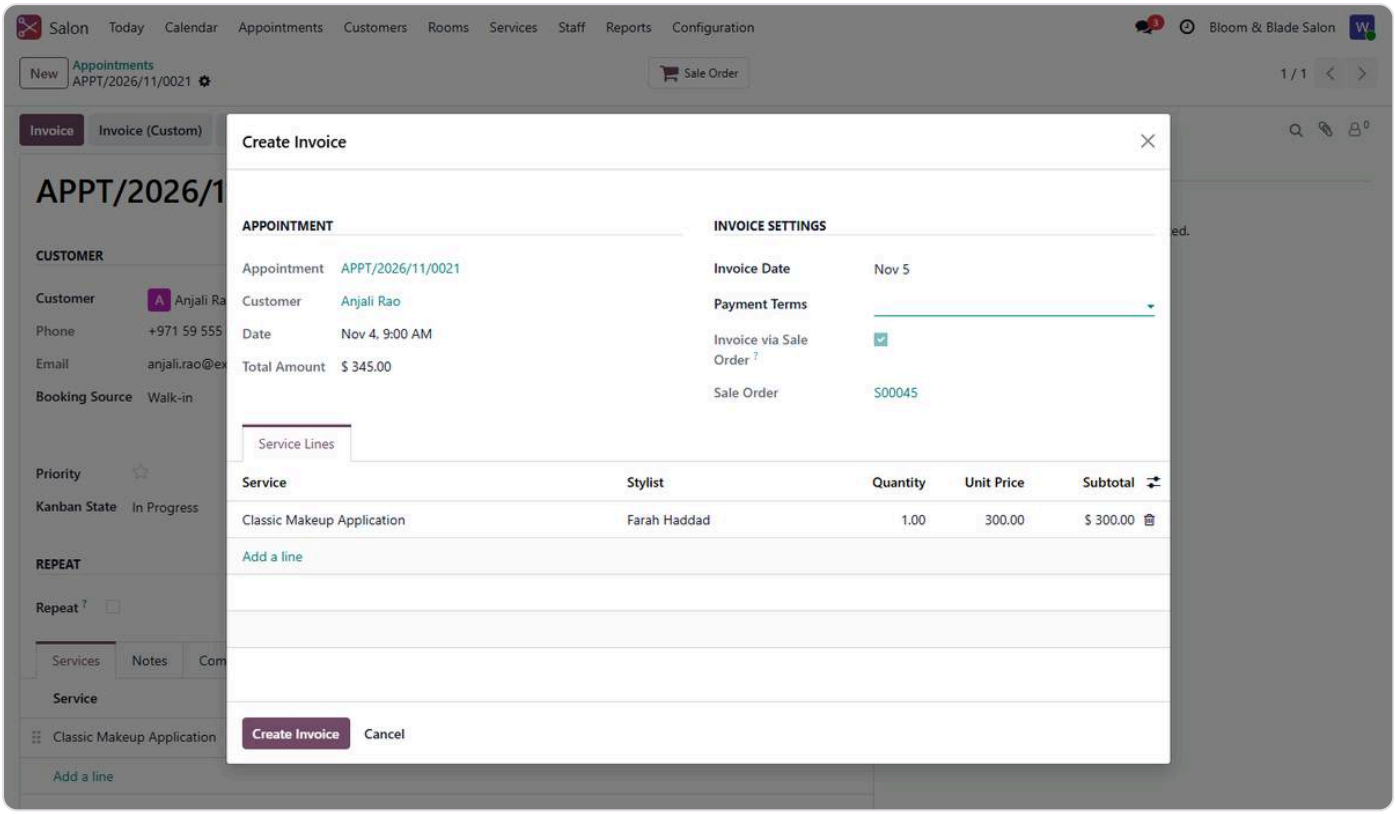

8 Done

Marking Done confirms the sale order if it is still a draft and, for any service with a Bill of Materials, deducts the components from stock as a real transfer. The header offers **Invoice** and **Invoice (Custom)**.

9 Invoice (Custom)

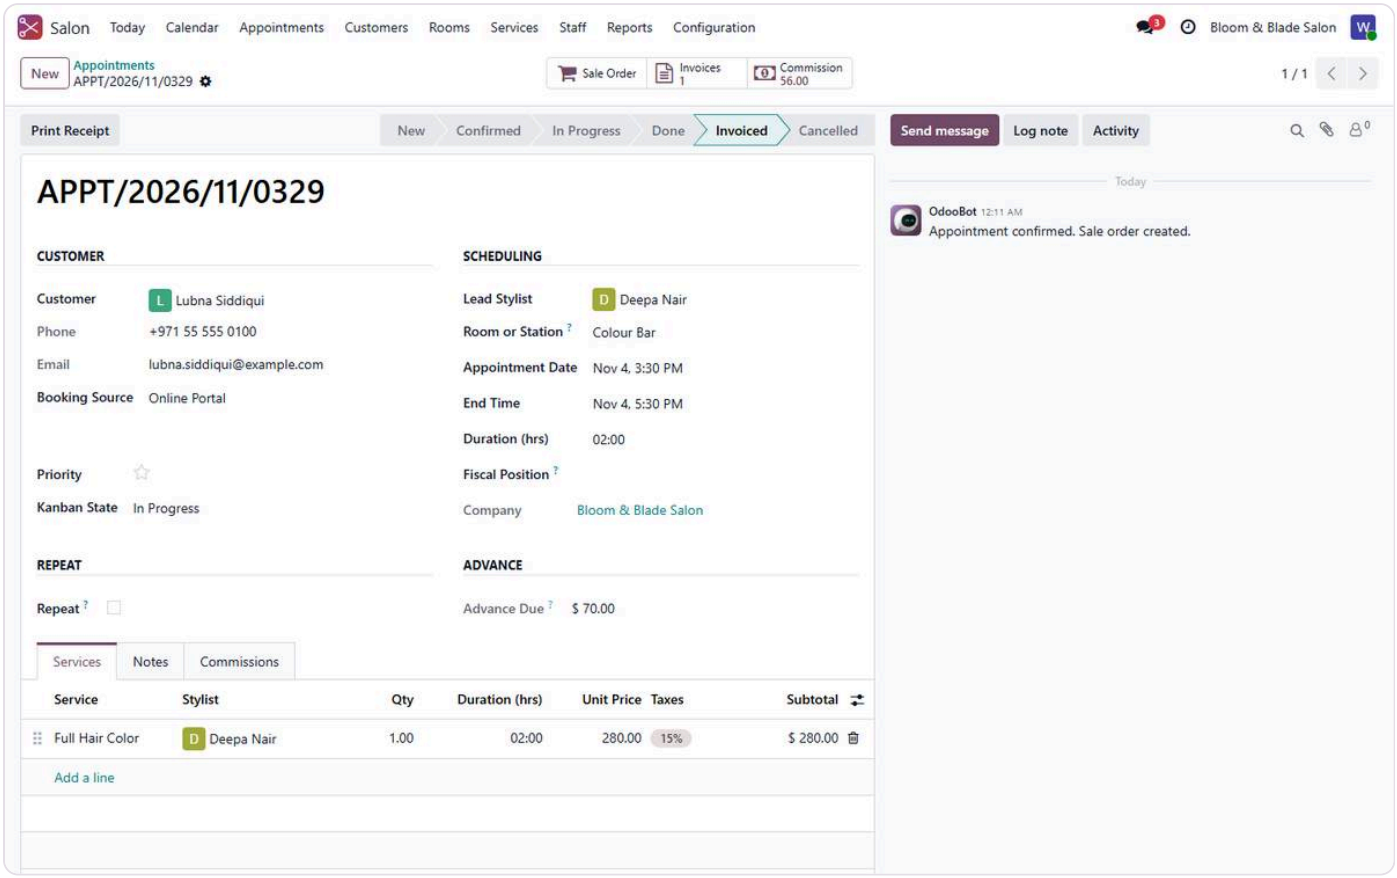

The wizard shows the lines with stylist, quantity, price, discount and taxes, and lets you set the invoice date, payment terms and whether to invoice through the sale order. **Invoice** does the same in one click from the service lines. Close with Discard on the demo.

10 Invoiced

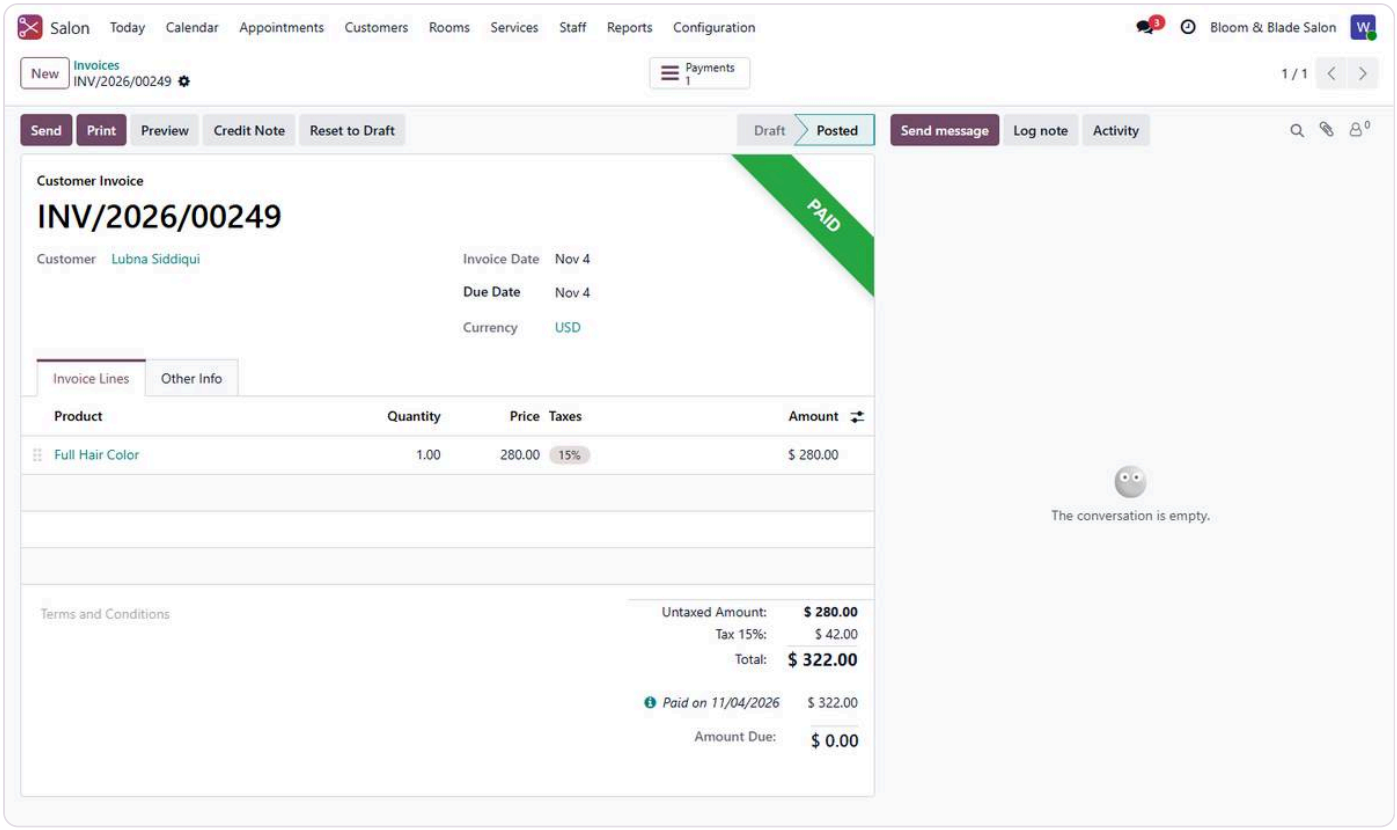

The visit moves to Invoiced, the **Invoices** button opens the invoice, the payment state follows it (not invoiced, not paid, partly paid, paid or refunded) and the commission lines are worked out at the same moment.

Update Taxes re-maps line taxes through the customer's fiscal position; it is refused once invoiced, because a posted invoice is corrected with a credit note.

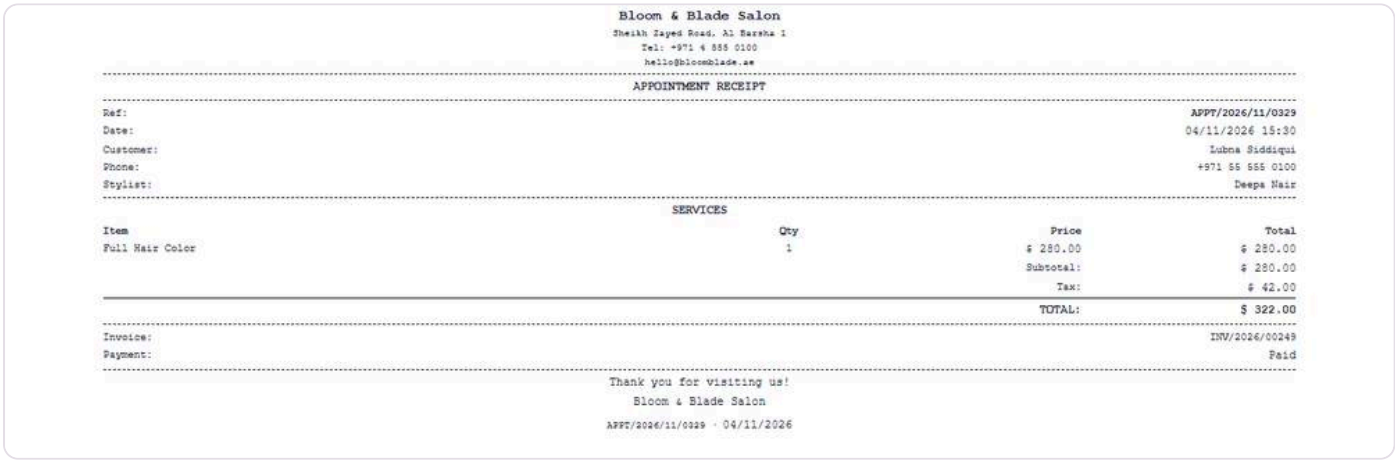

11 The invoice

A normal Odoo customer invoice with per line discount and tax, posted and paid as usual.

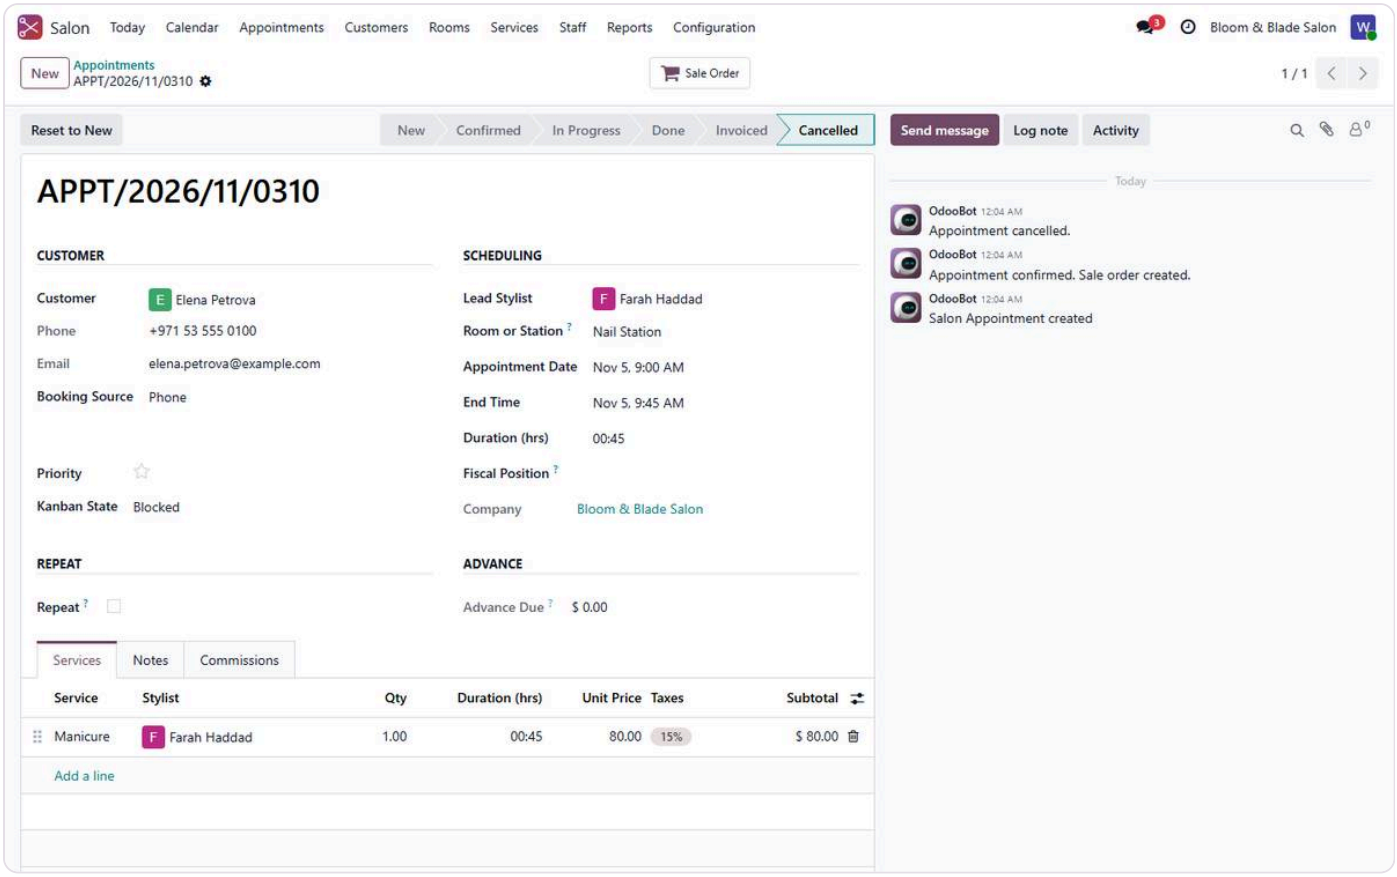

12 Print Receipt

An 80mm thermal receipt: the salon's name and address, the reference, customer and stylist, every service with its price, subtotal, tax and total and, once invoiced, the invoice number and whether it is paid.

13 Cancelled, and a no-show

Cancel moves the visit to Cancelled and cancels a draft sale order with it; nothing is deleted, and **Reset to New** reopens it. A no-show is a cancelled visit whose kanban state is left on **Blocked**: it carries a No-show badge, appears under the No-show filter and is counted on the dashboard.

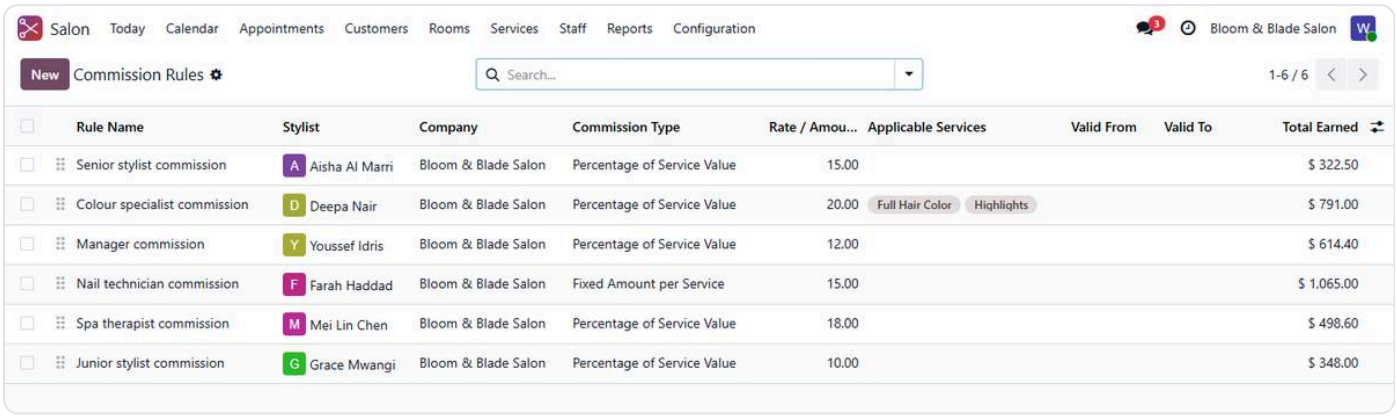

PART 8 Commission and sales targets BASE

Nobody types commission by hand. It is worked out from rules the moment a visit is invoiced, and targets count themselves.

1 Commission rules

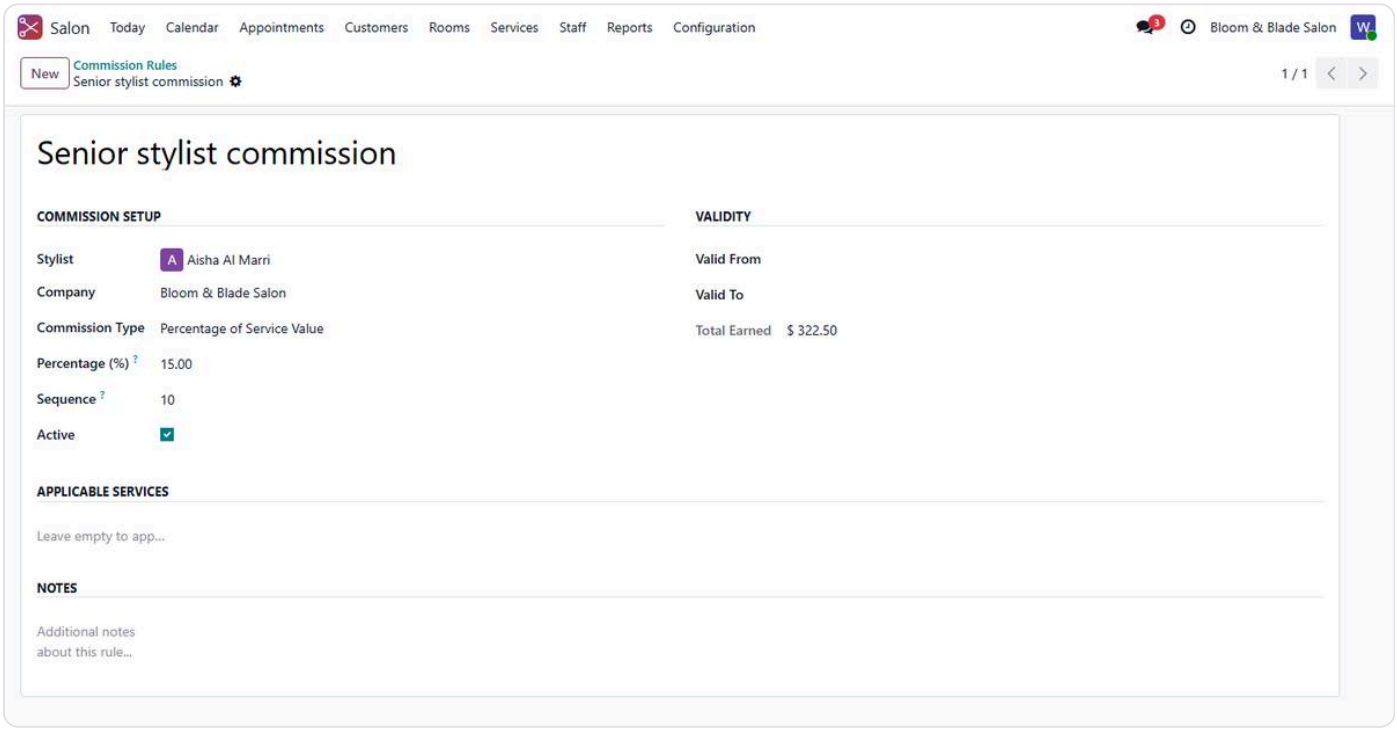

Salon, Staff, **Commission Rules**: one or more per stylist.

Rule Name	Stylist	Company	Commission Type	Rate / Amou...	Applicable Services	Valid From	Valid To	Total Earned
Senior stylist commission	Aisha Al Marri	Bloom & Blade Salon	Percentage of Service Value	15.00				$ 322.50
Colour specialist commission	Deepa Nair	Bloom & Blade Salon	Percentage of Service Value	20.00	Full Hair Color, Highlights			$ 791.00
Manager commission	Youssef Idris	Bloom & Blade Salon	Percentage of Service Value	12.00				$ 614.40
Nail technician commission	Farah Haddad	Bloom & Blade Salon	Fixed Amount per Service	15.00				$ 1.065.00
Spa therapist commission	Mei Lin Chen	Bloom & Blade Salon	Percentage of Service Value	18.00				$ 498.60
Junior stylist commission	Grace Mwangi	Bloom & Blade Salon	Percentage of Service Value	10.00				$ 348.00

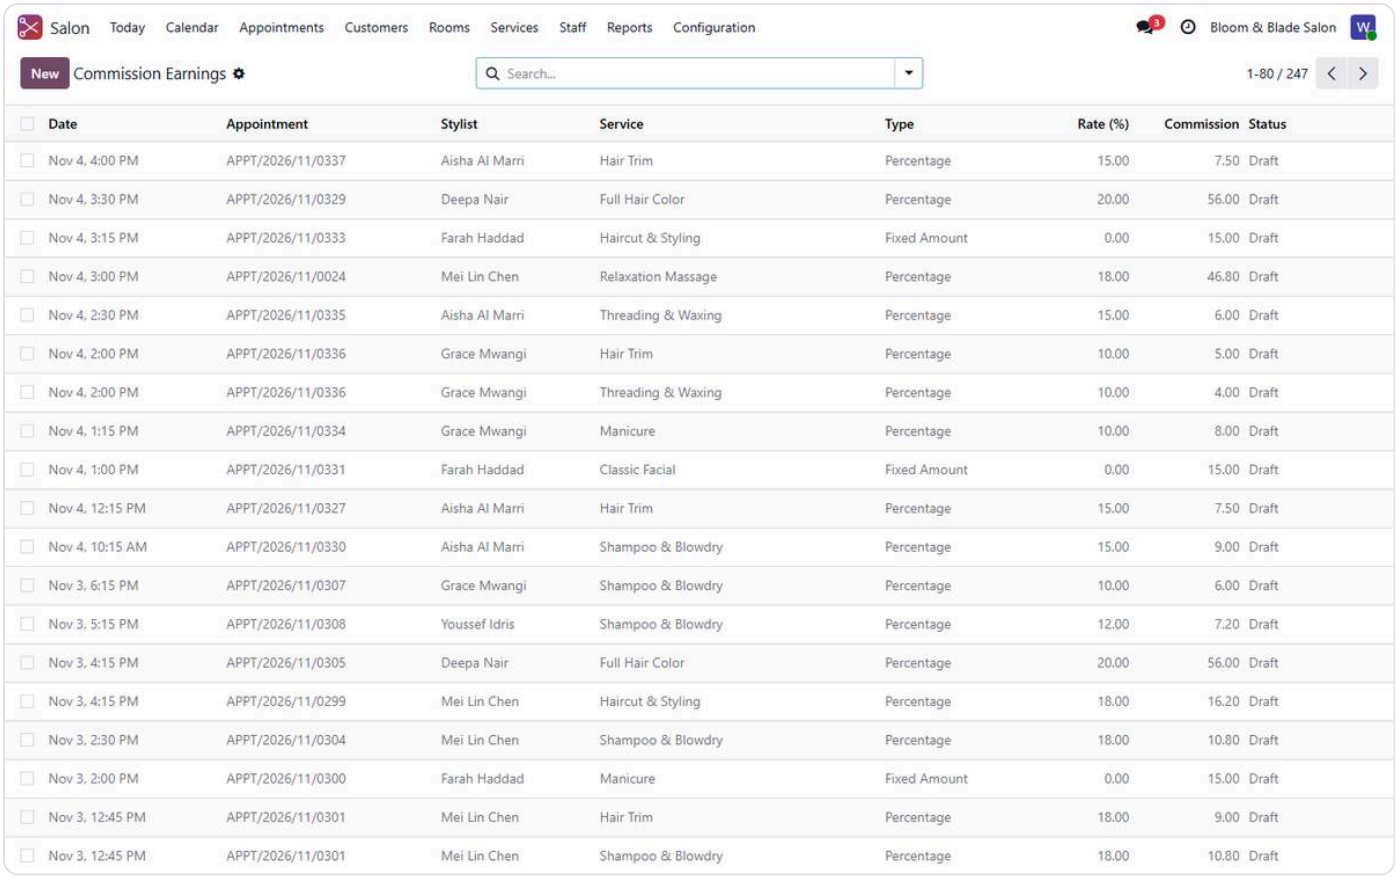

2 A rule

Commission Type: a percentage of the service value or a fixed amount per service. **Rate / Amount**. **Applicable Services**: empty for every service, or a few for a different rate. **Valid From / To**. **Sequence**: when two rules fit, the lower one wins, so give a service rule a lower sequence than the general one.

3 Commission earnings

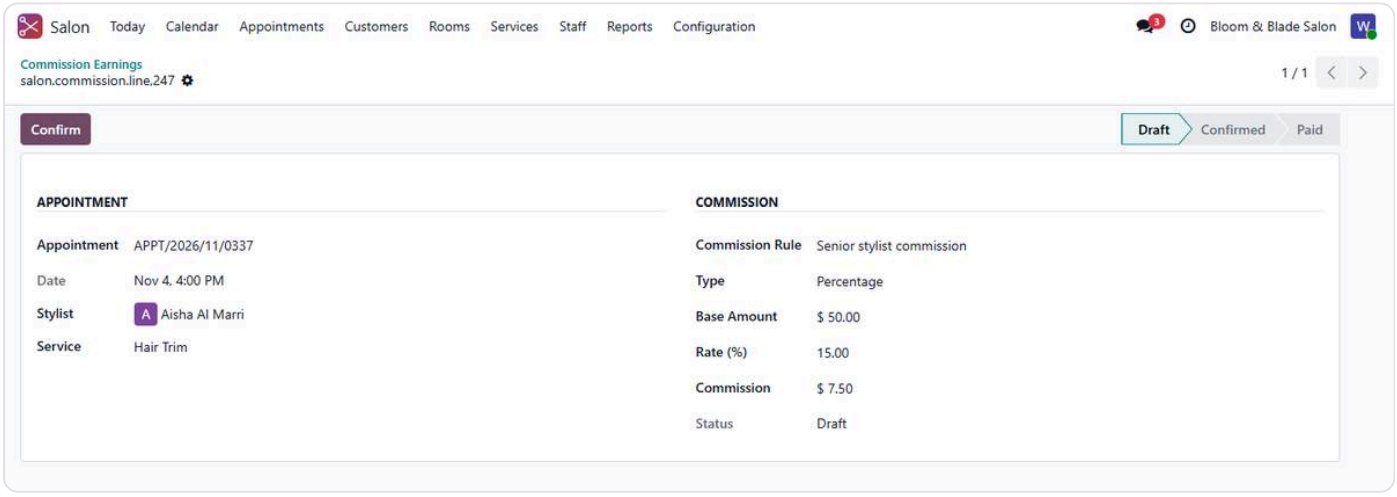

Salon, Staff, **Commission Earnings**: one line per invoiced service line, with the stylist, service, base, rate, commission and status.

Date	Appointment	Stylist	Service	Type	Rate (%)	Commission	Status
Nov 4, 4:00 PM	APPT/2026/11/0337	Aisha Al Marri	Hair Trim	Percentage	15.00	7.50	Draft
Nov 4, 3:30 PM	APPT/2026/11/0329	Deepa Nair	Full Hair Color	Percentage	20.00	56.00	Draft
Nov 4, 3:15 PM	APPT/2026/11/0333	Farah Haddad	Haircut & Styling	Fixed Amount	0.00	15.00	Draft
Nov 4, 3:00 PM	APPT/2026/11/0024	Mei Lin Chen	Relaxation Massage	Percentage	18.00	46.80	Draft
Nov 4, 2:30 PM	APPT/2026/11/0335	Aisha Al Marri	Threading & Waxing	Percentage	15.00	6.00	Draft
Nov 4, 2:00 PM	APPT/2026/11/0336	Grace Mwangi	Hair Trim	Percentage	10.00	5.00	Draft
Nov 4, 2:00 PM	APPT/2026/11/0336	Grace Mwangi	Threading & Waxing	Percentage	10.00	4.00	Draft
Nov 4, 1:15 PM	APPT/2026/11/0334	Grace Mwangi	Manicure	Percentage	10.00	8.00	Draft
Nov 4, 1:00 PM	APPT/2026/11/0331	Farah Haddad	Classic Facial	Fixed Amount	0.00	15.00	Draft
Nov 4, 12:15 PM	APPT/2026/11/0327	Aisha Al Marri	Hair Trim	Percentage	15.00	7.50	Draft
Nov 4, 10:15 AM	APPT/2026/11/0330	Aisha Al Marri	Shampoo & Blowdry	Percentage	15.00	9.00	Draft
Nov 3, 6:15 PM	APPT/2026/11/0307	Grace Mwangi	Shampoo & Blowdry	Percentage	10.00	6.00	Draft
Nov 3, 5:15 PM	APPT/2026/11/0308	Youssef Idris	Shampoo & Blowdry	Percentage	12.00	7.20	Draft
Nov 3, 4:15 PM	APPT/2026/11/0305	Deepa Nair	Full Hair Color	Percentage	20.00	56.00	Draft
Nov 3, 4:15 PM	APPT/2026/11/0299	Mei Lin Chen	Haircut & Styling	Percentage	18.00	16.20	Draft
Nov 3, 2:30 PM	APPT/2026/11/0304	Mei Lin Chen	Shampoo & Blowdry	Percentage	18.00	10.80	Draft
Nov 3, 2:00 PM	APPT/2026/11/0300	Farah Haddad	Manicure	Fixed Amount	0.00	15.00	Draft
Nov 3, 12:45 PM	APPT/2026/11/0301	Mei Lin Chen	Hair Trim	Percentage	18.00	9.00	Draft
Nov 3, 12:45 PM	APPT/2026/11/0301	Mei Lin Chen	Shampoo & Blowdry	Percentage	18.00	10.80	Draft

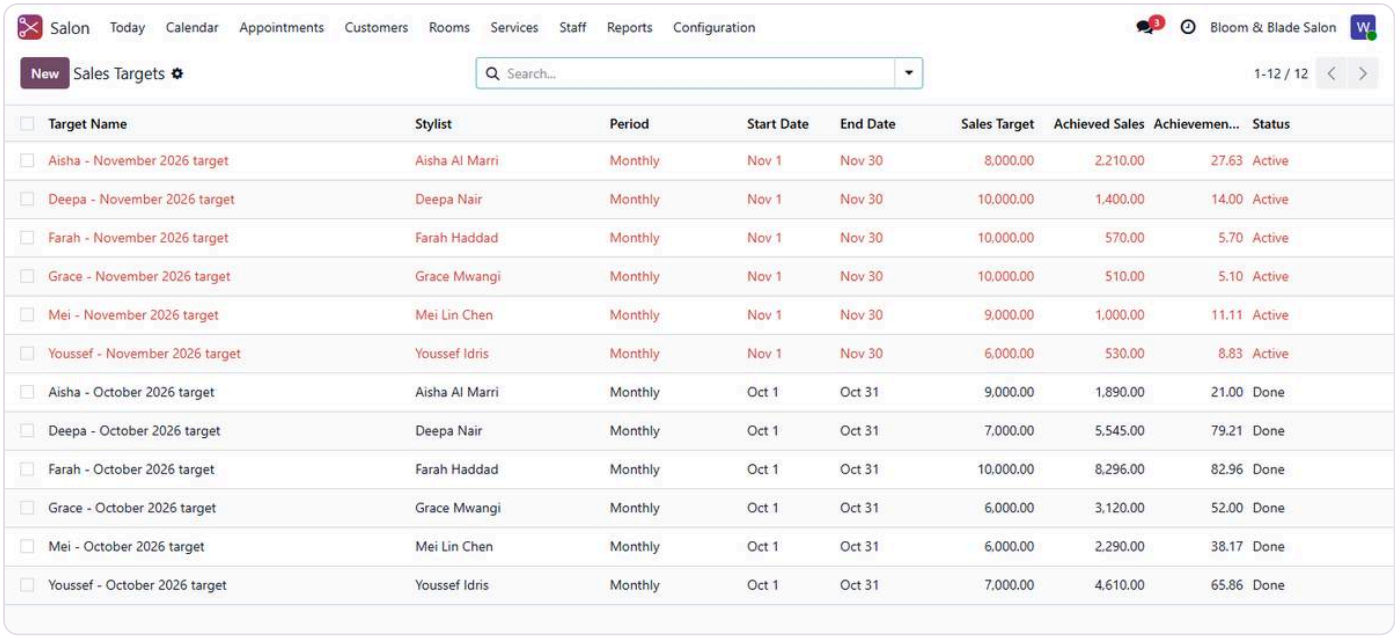

4 An earning

Draft, then **Confirm** once checked, then **Mark as Paid** once paid. A paid line is never put back to draft. A refund at the till writes a refund adjustment line.

5 Sales targets

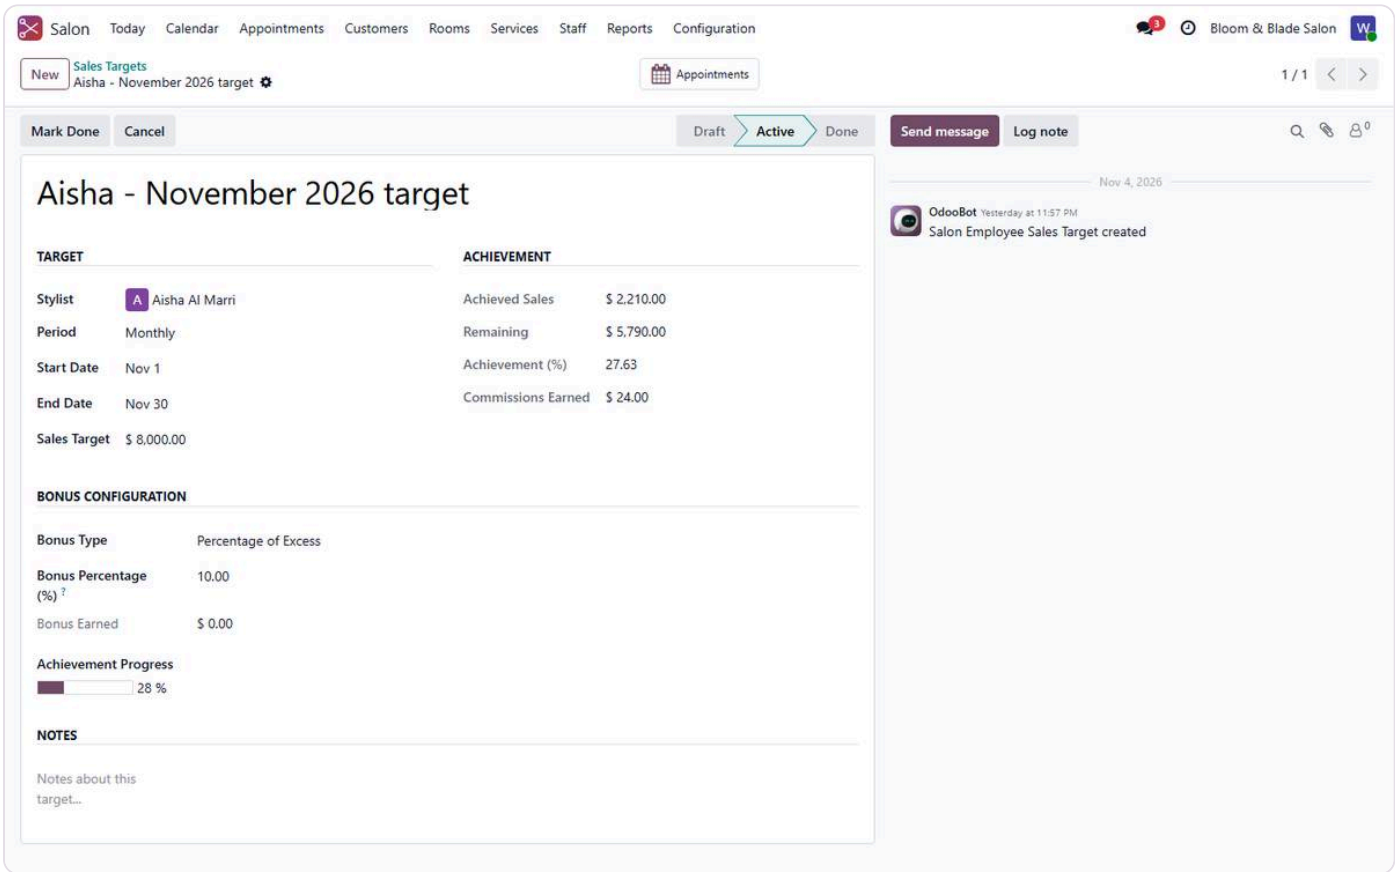

Salon, Staff, **Sales Targets**: stylist, period, target, achieved, achievement and status.

Target Name	Stylist	Period	Start Date	End Date	Sales Target	Achieved Sales	Achievemen...	Status
Aisha - November 2026 target	Aisha Al Marri	Monthly	Nov 1	Nov 30	8,000.00	2,210.00	27.63	Active
Deepa - November 2026 target	Deepa Nair	Monthly	Nov 1	Nov 30	10,000.00	1,400.00	14.00	Active
Farah - November 2026 target	Farah Haddad	Monthly	Nov 1	Nov 30	10,000.00	570.00	5.70	Active
Grace - November 2026 target	Grace Mwangi	Monthly	Nov 1	Nov 30	10,000.00	510.00	5.10	Active
Mei - November 2026 target	Mei Lin Chen	Monthly	Nov 1	Nov 30	9,000.00	1,000.00	11.11	Active
Youssef - November 2026 target	Youssef Idris	Monthly	Nov 1	Nov 30	6,000.00	530.00	8.83	Active
Aisha - October 2026 target	Aisha Al Marri	Monthly	Oct 1	Oct 31	9,000.00	1,890.00	21.00	Done
Deepa - October 2026 target	Deepa Nair	Monthly	Oct 1	Oct 31	7,000.00	5,545.00	79.21	Done
Farah - October 2026 target	Farah Haddad	Monthly	Oct 1	Oct 31	10,000.00	8,296.00	82.96	Done
Grace - October 2026 target	Grace Mwangi	Monthly	Oct 1	Oct 31	6,000.00	3,120.00	52.00	Done

Youssef - October 2026 target	Youssef Idris	Monthly	Oct 1	Oct 31	7,000.00	4,610.00	65.86	Done

6 A target

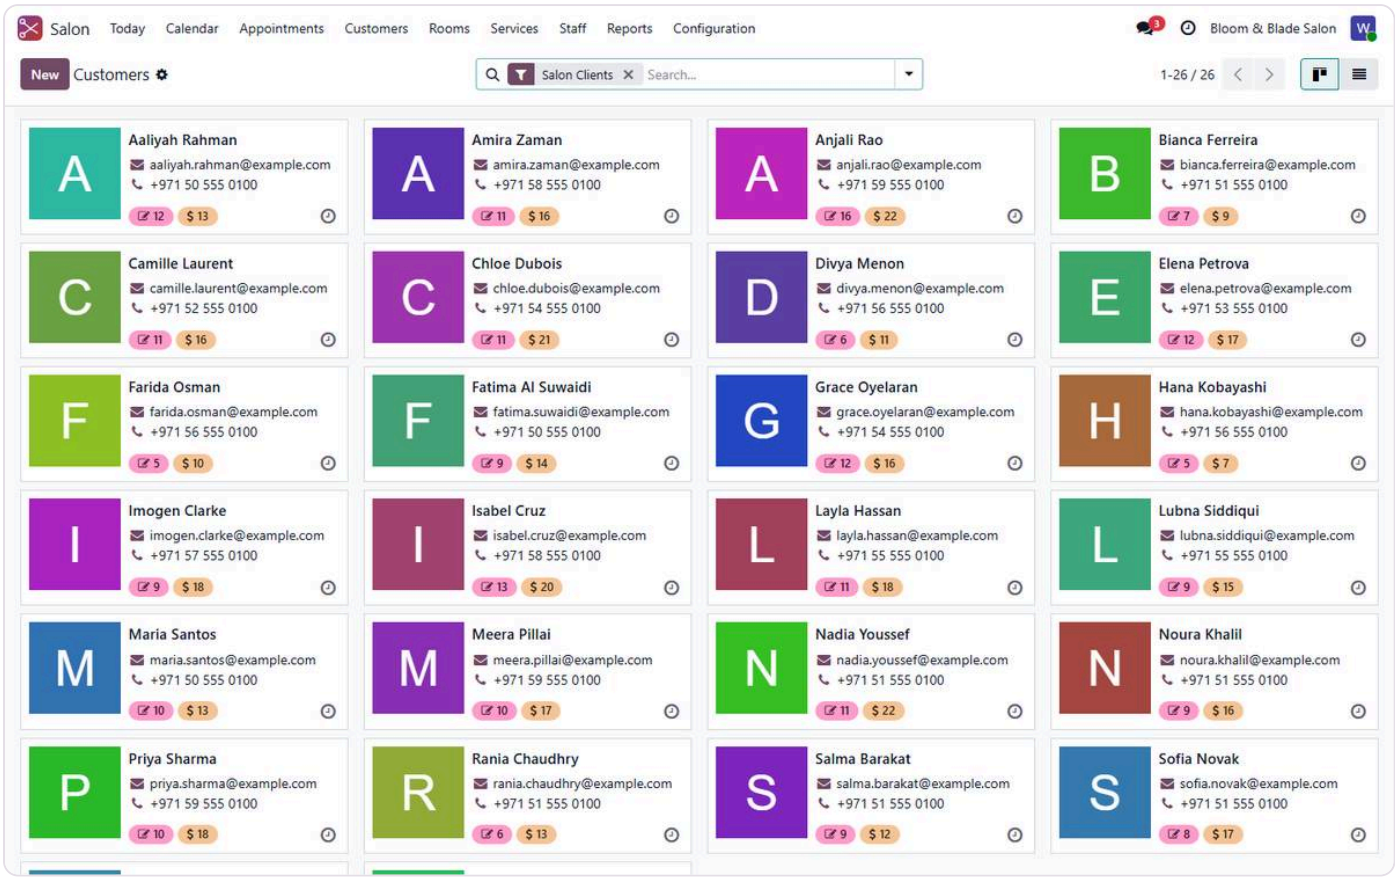

Pick a stylist, a period (monthly, quarterly, yearly or custom) and the **Sales Target**, and optionally a **Bonus Type**: a percentage of the amount over target or a fixed bonus. **Achieved Sales**, **Remaining**, **Achievement (%)**, **Bonus Earned** and commissions are computed from invoiced visits, untaxed. Buttons: Activate, Done, Cancel, Reset.

PART 9 The customer file BASE

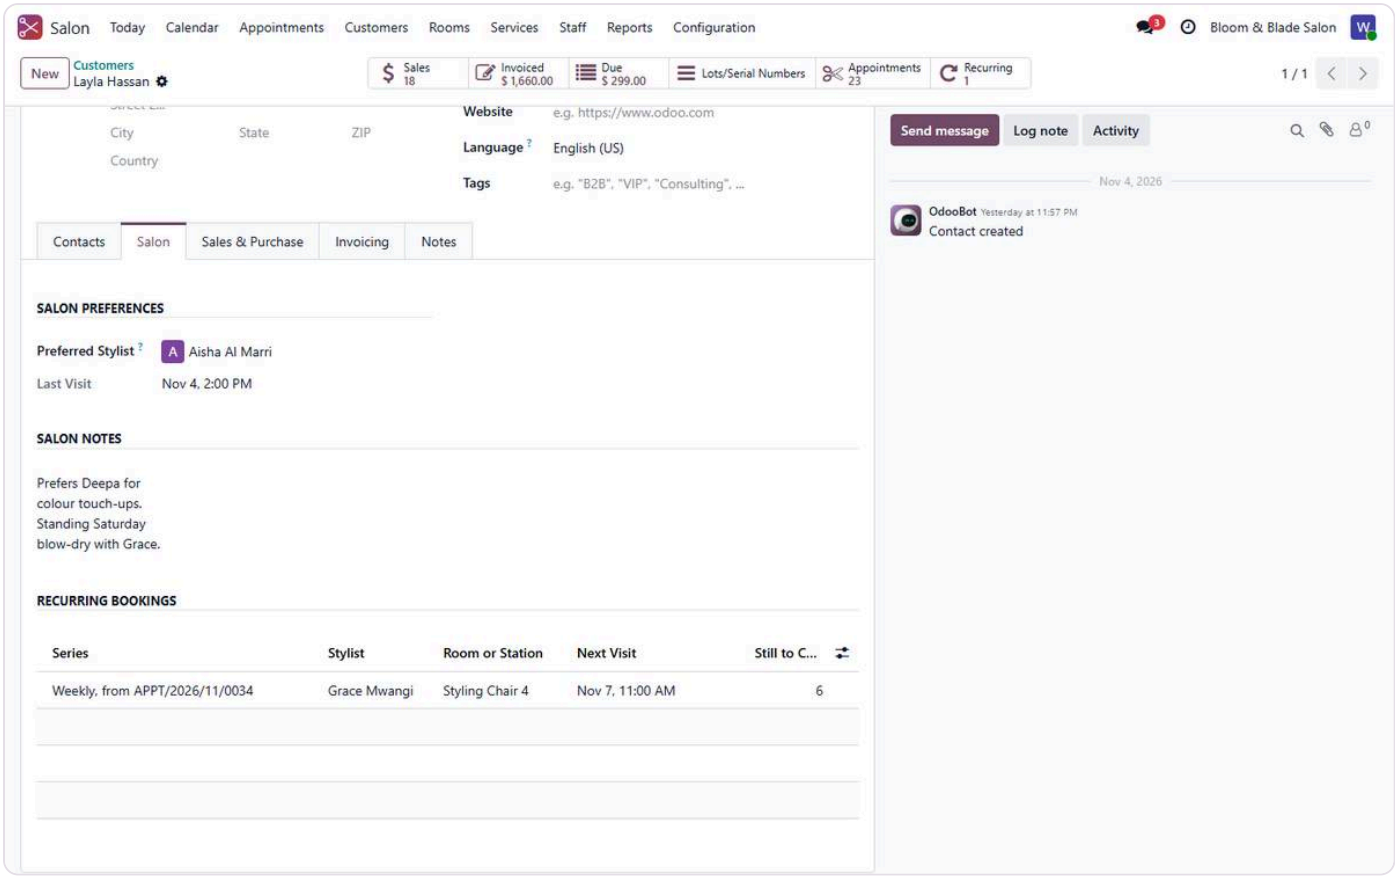

1 Customers

Salon, **Customers**: every customer, as cards or a list.

2 The Salon tab

On any contact: **Preferred Stylist**, **Salon Notes** for allergies and preferences, **Last Visit** (from their latest closed visit) and their recurring series. The **Appointments** and **Series** buttons open the full history.

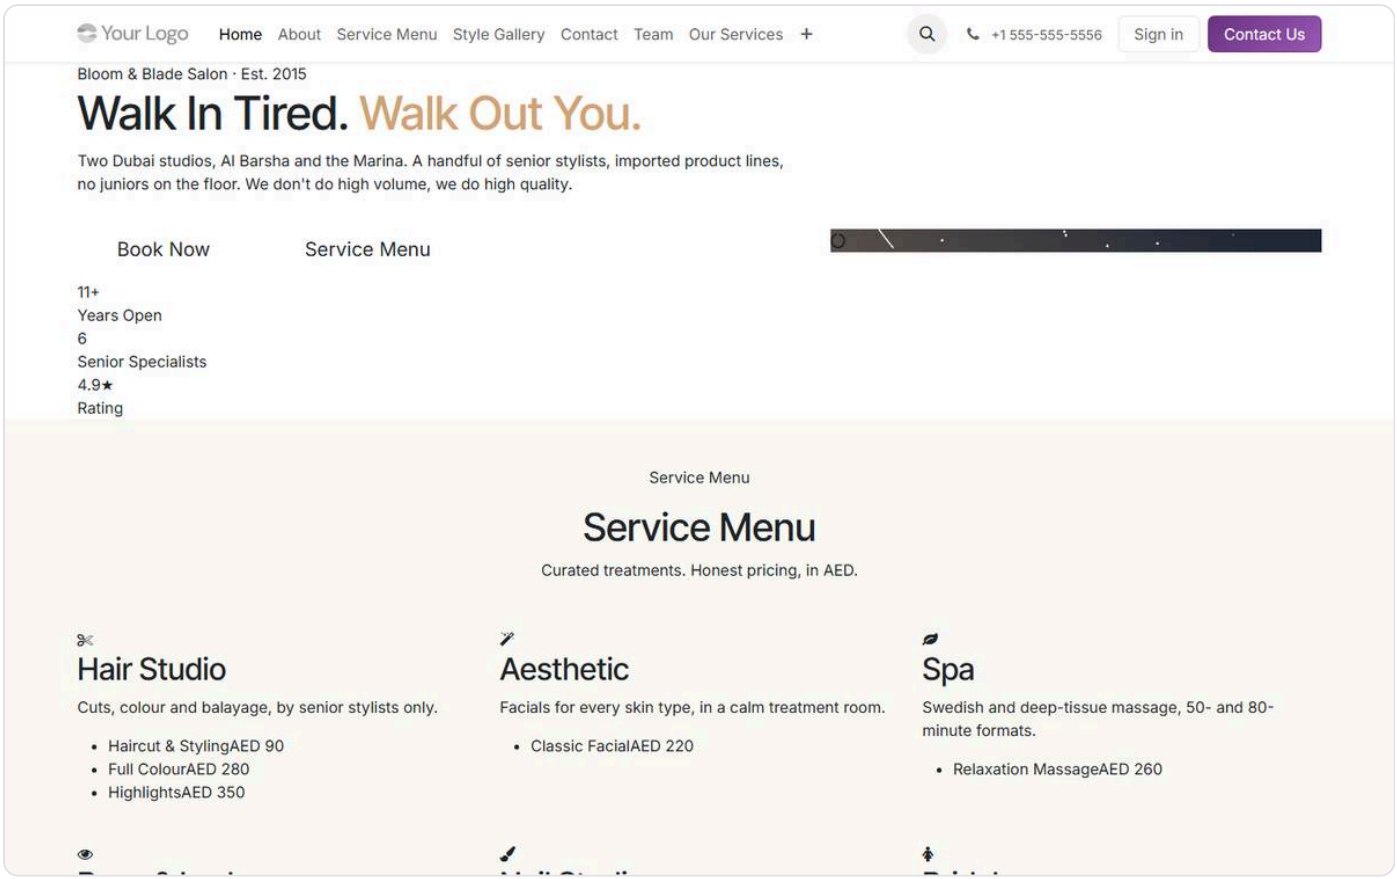

PART 10 Online booking and the salon website BASE

Customers book themselves on your own website, on the salon's clock, with the same double booking guard as the front desk.

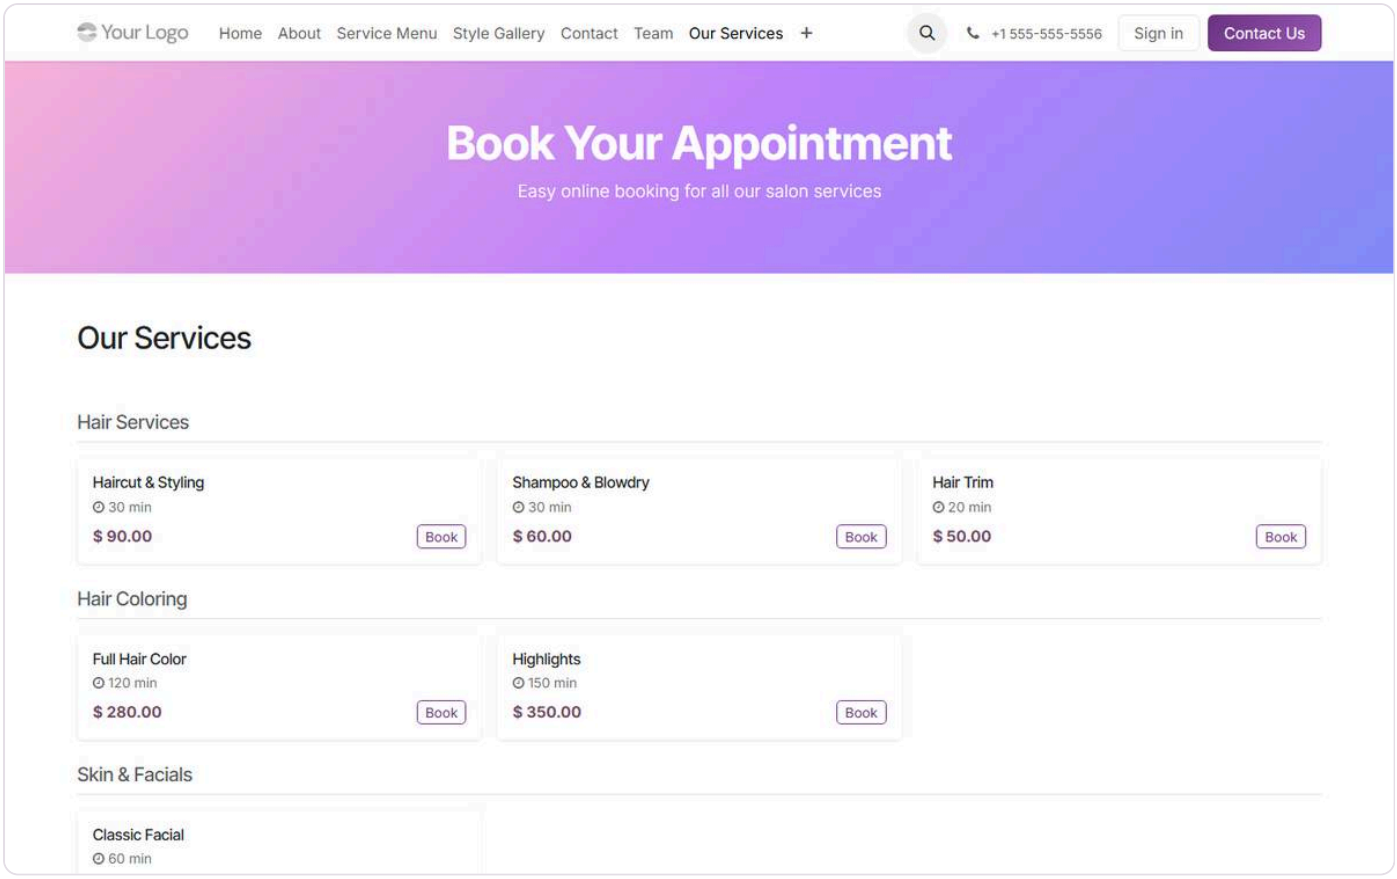

1 The website

The salon theme (WT Theme Salon) gives the site its home page, service menu, team and contact sections. The base module adds **Our Services** and **Book Appointment** to the menu.

2 /salon: the services

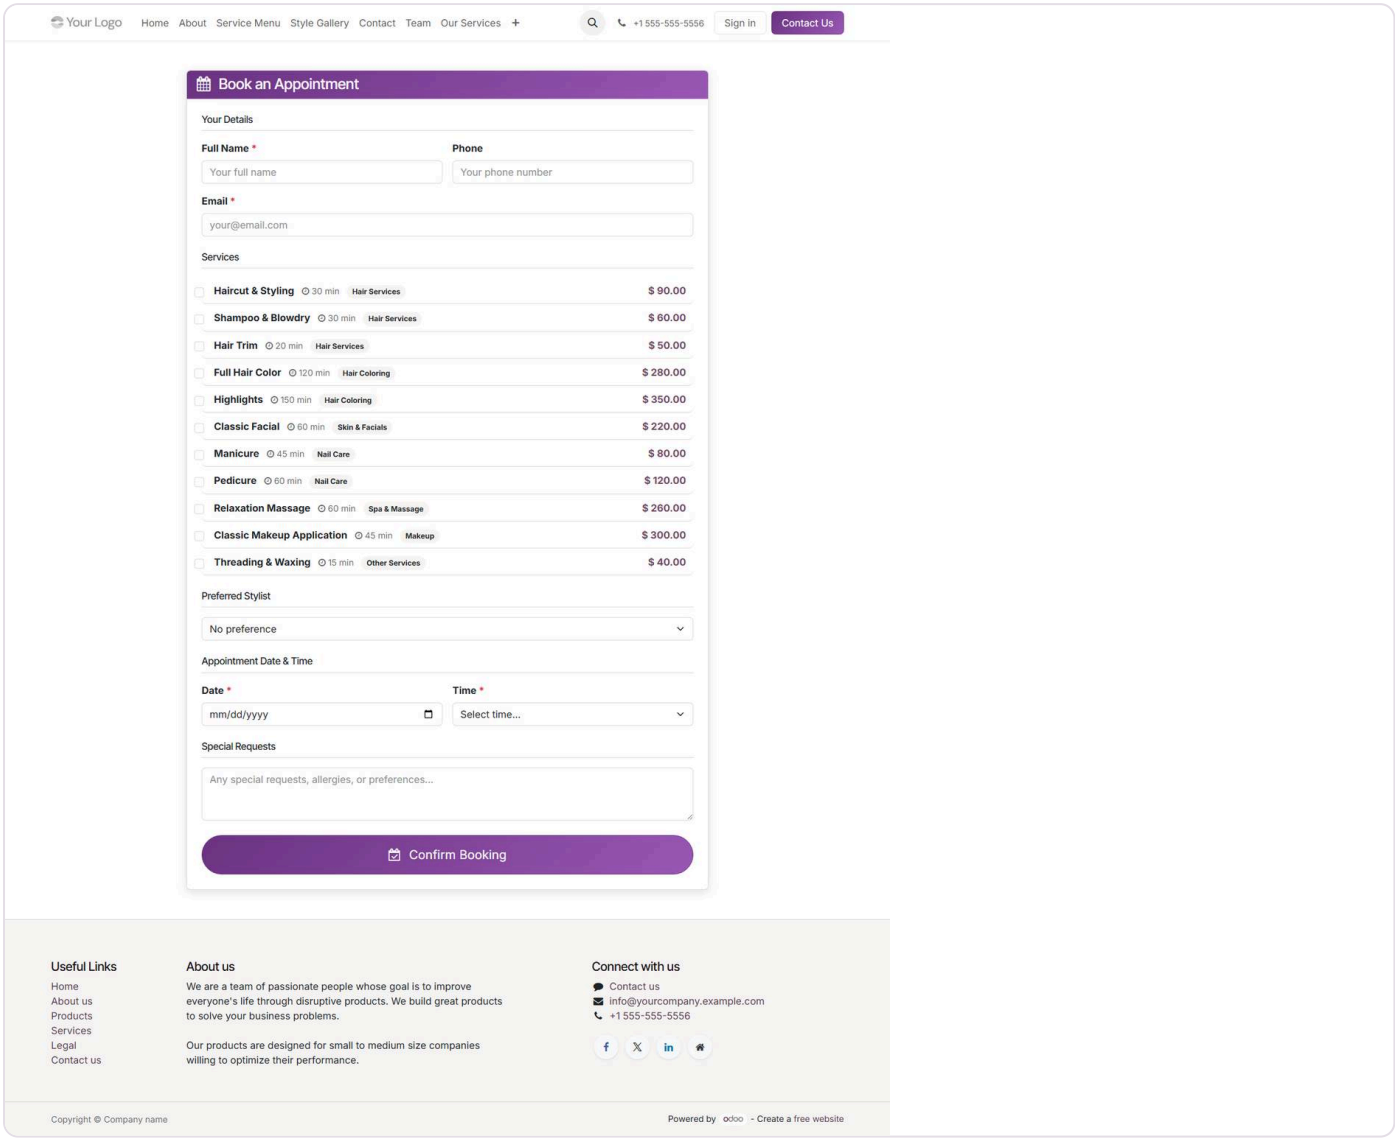

Every published service grouped by category, with its price, duration and a **Book** button.

3 /salon/book: the form

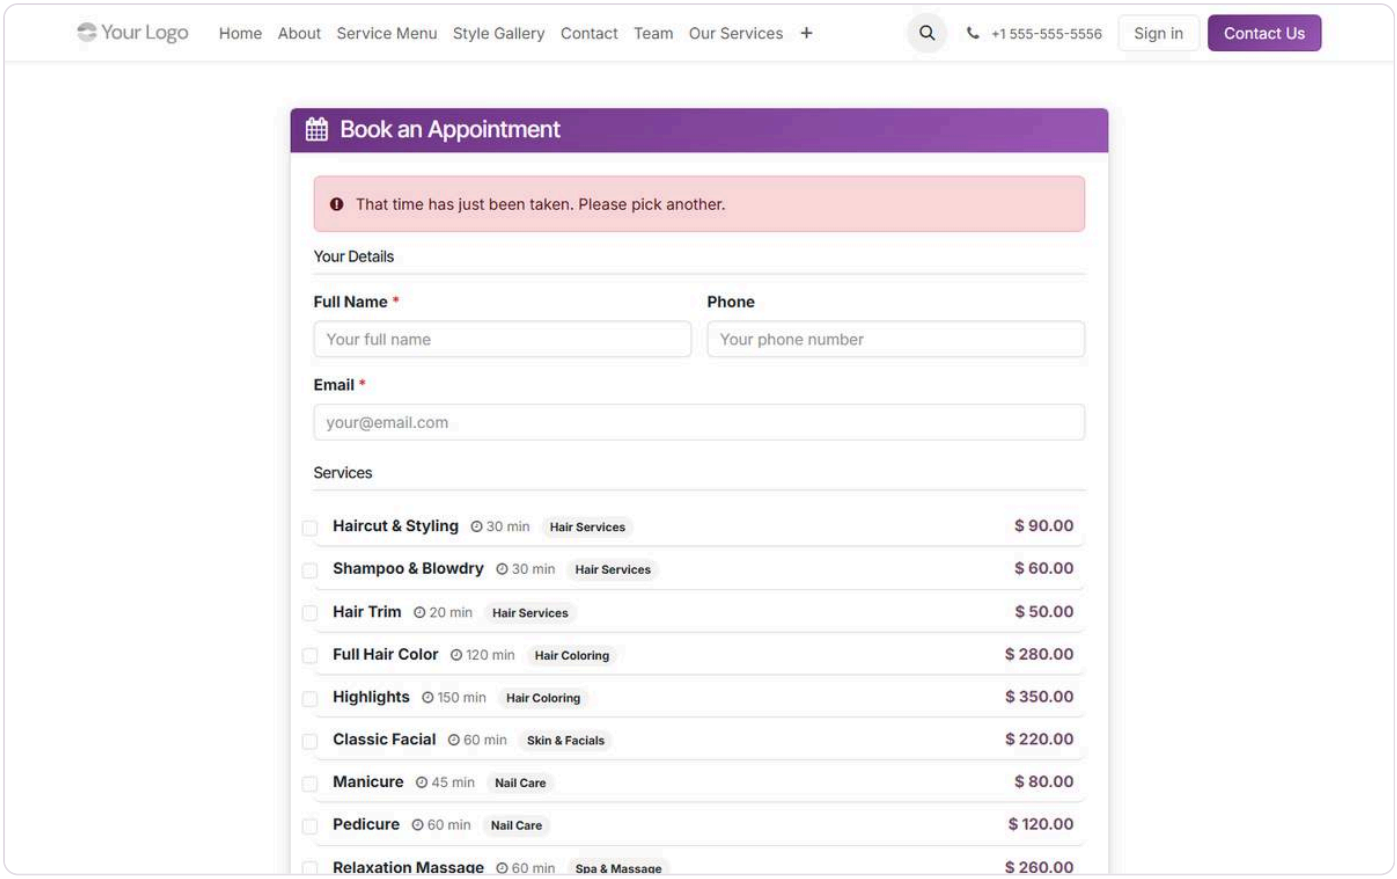

Name, phone and email, one or more services, a preferred stylist (optional), the date and time, and special requests, then **Confirm Booking**. When a ticked service is sold in time slots the time list shows only slots still free for that day and stylist.

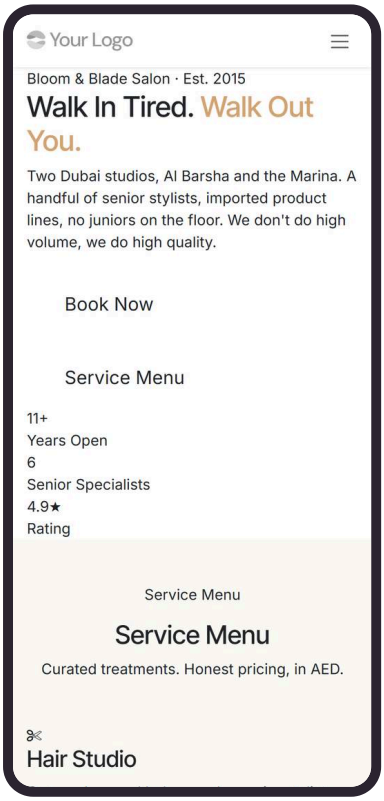

Submitting checks the stylist for an overlapping visit and for blocked time before anything is created. A confirmation email goes out once the booking exists.

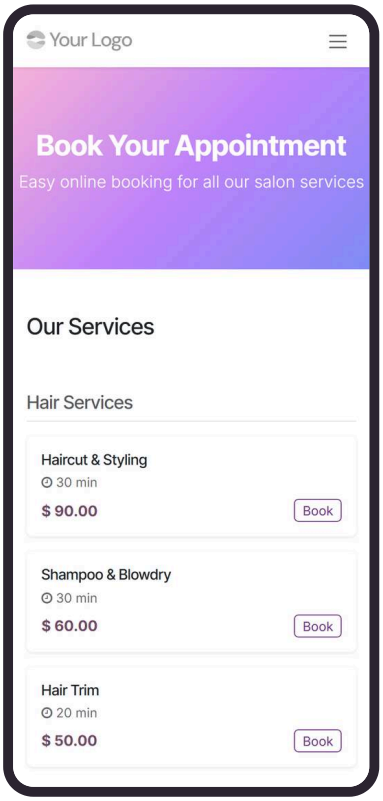

4 When the time is taken

The form comes back with a red message and nothing is booked: the time was taken, the stylist has a break, a required field was empty or no service was picked.

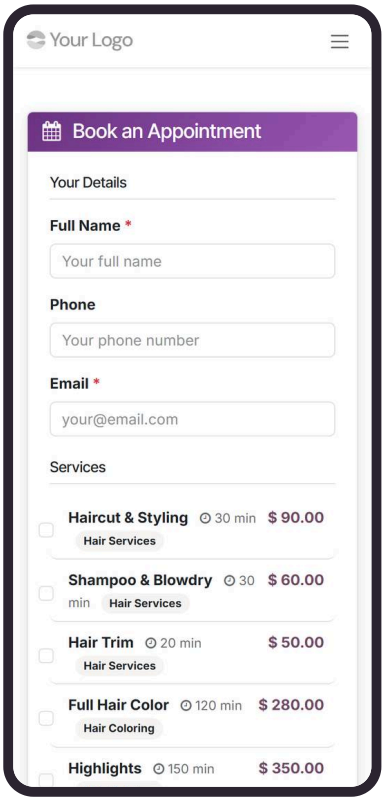

The home page on a phone.

The services on a phone.

The booking form on a phone.

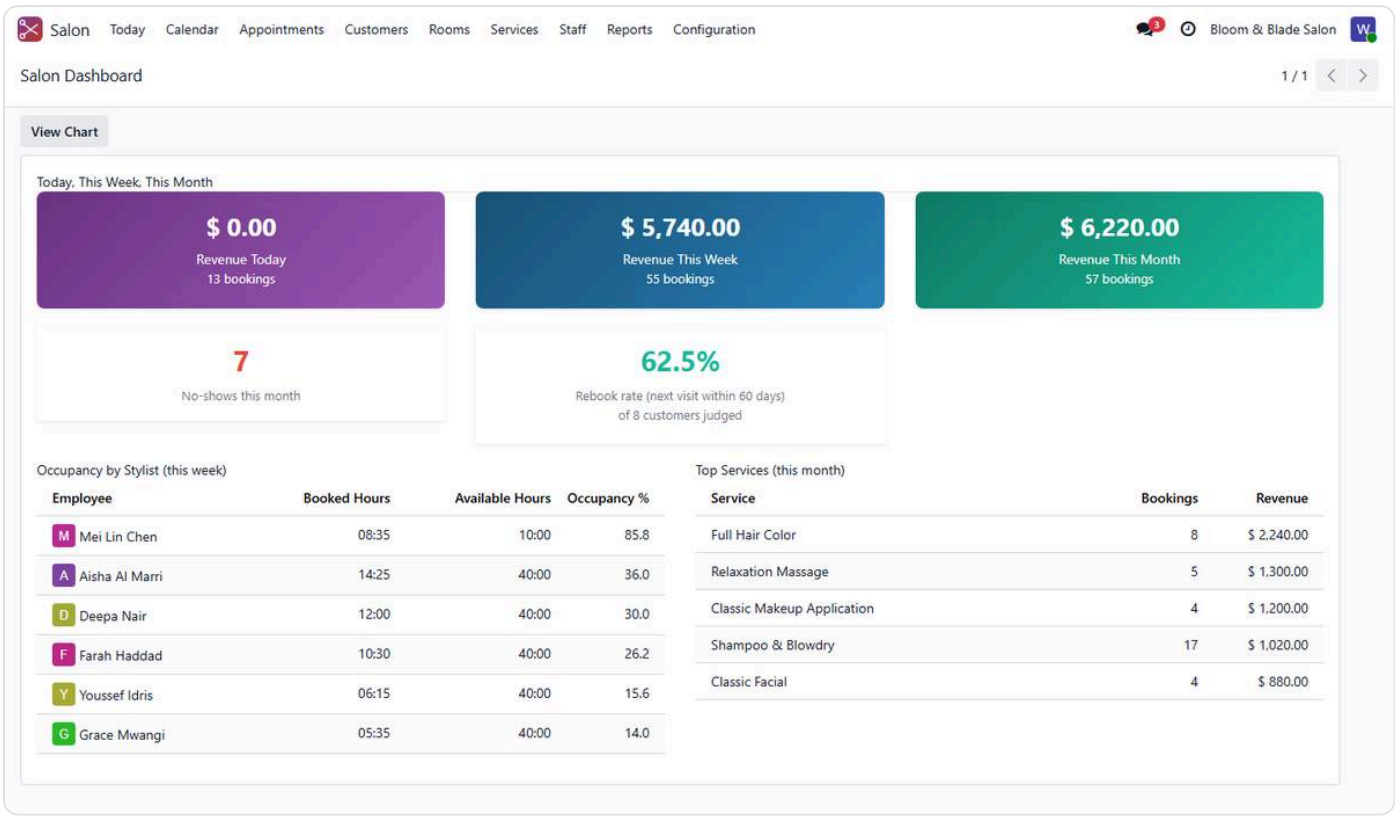

The time a customer picks is the salon's time. A customer who books 15:00 is booked for 15:00, and the confirmation, the email and the receipt all say 15:00.

PART 11 Dashboard and reports BASE

1 The dashboard

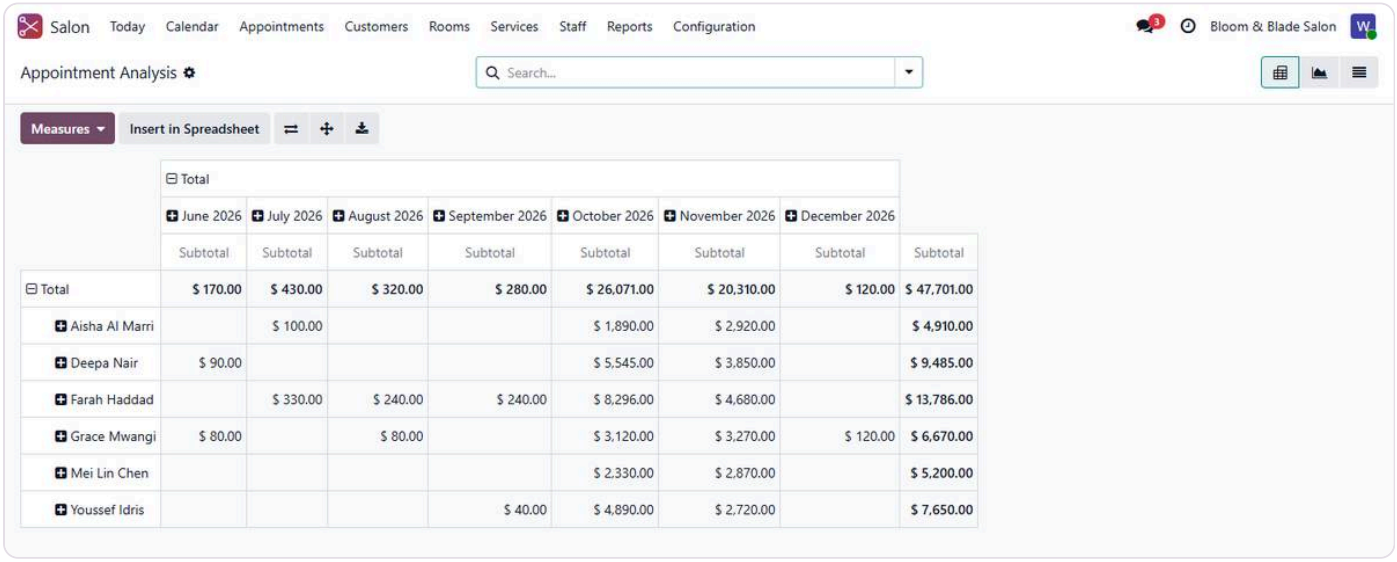

Salon, Reports, **Dashboard**: revenue and bookings today, this week and this month, no-shows this month, the rebook rate (customers with a next visit within 60 days, with how many were judged), occupancy per stylist this week and the top services. **View Chart** opens the pivot.

Worked out when the screen opens, from the same appointments as the lists.

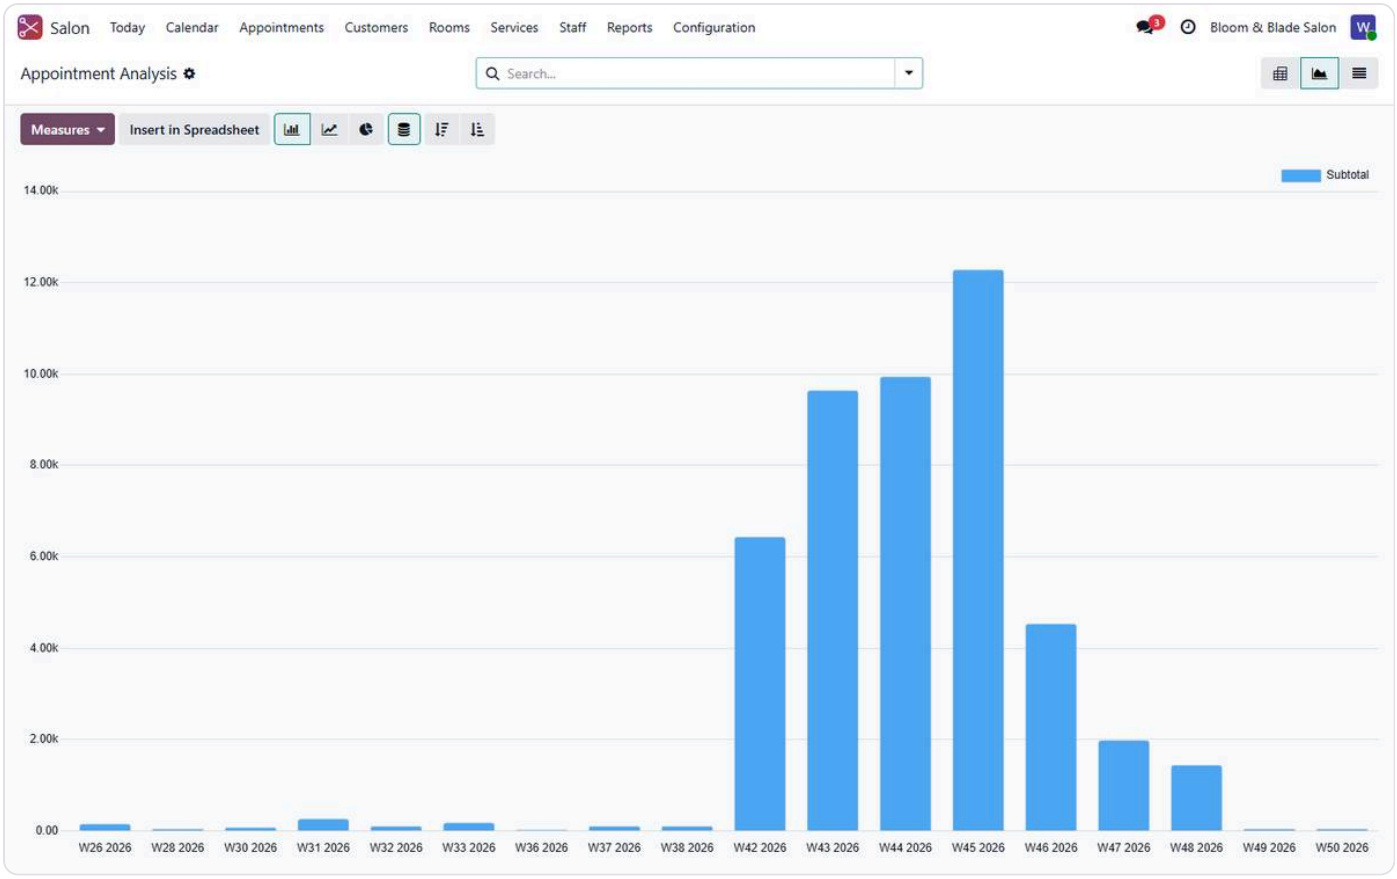

2 Appointment analysis

Salon, Reports, **Appointment Analysis**: revenue by stylist and month as a pivot.

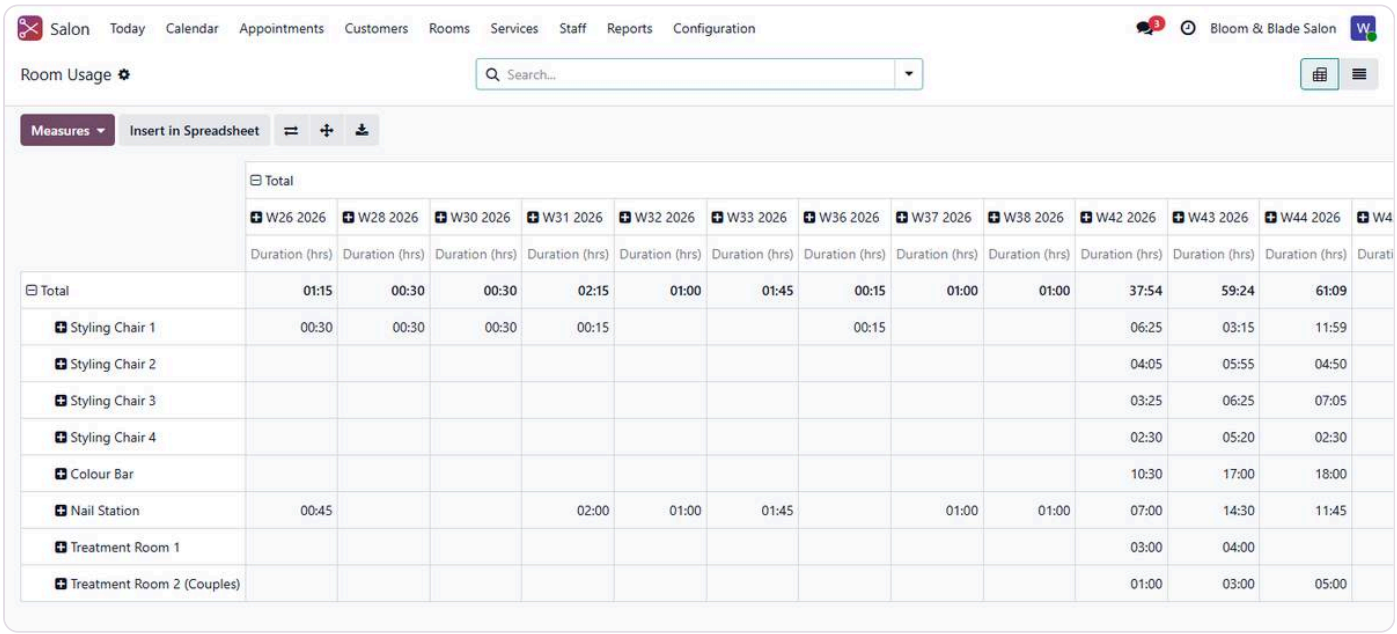

3 As a graph

The same figures as a bar graph.

4 Room usage

Salon, Reports, **Room Usage**: hours booked per room or station by week, to decide whether the salon needs another chair.

	Total	W26 2026	W28 2026	W30 2026	W31 2026	W32 2026	W33 2026	W36 2026	W37 2026	W38 2026	W42 2026	W43 2026	W44 2026	W4

Treatment Room 2 (Couples)										01:00	03:00	05:00		

Commission Earnings and Sales Targets (Part 8) complete the reports. The Reports menu is for Managers only.

PART 12 The till: POS Salon POS SALON

POS Salon puts the day's appointments inside the Odoo Point of Sale till. The front desk books, checks in, takes walk-ins and rings up a finished visit from one screen, and the receipt names the stylist.

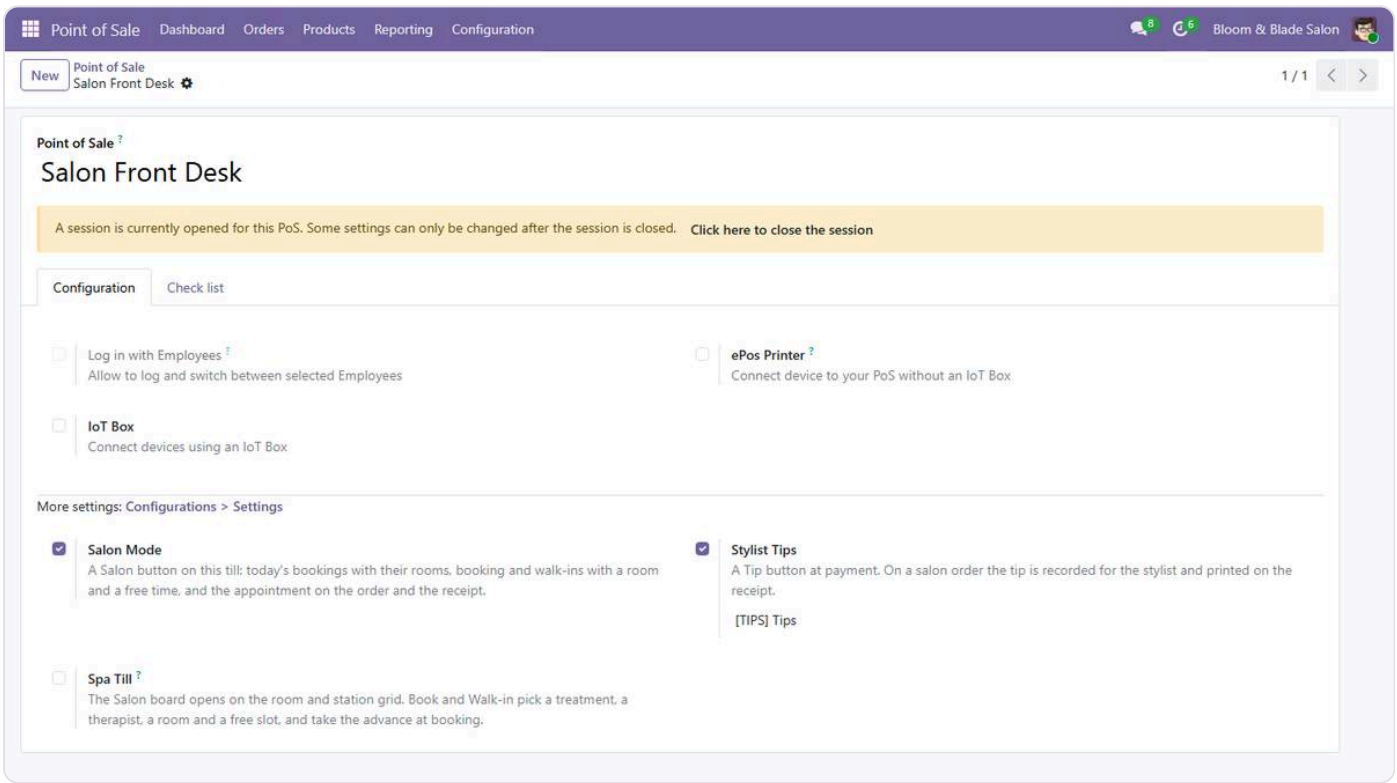

IN THIS PART YOU WILL LEARN

- Turning Salon Mode and Stylist Tips on for a till
- The Salon board, the list, the day view and the room tab
- Booking for later, a walk-in, and loading a visit onto the order
- Tips, the receipt, quick rebook and refunds
- What appears when the Loyalty add-on is installed

1 Salon Mode on a till

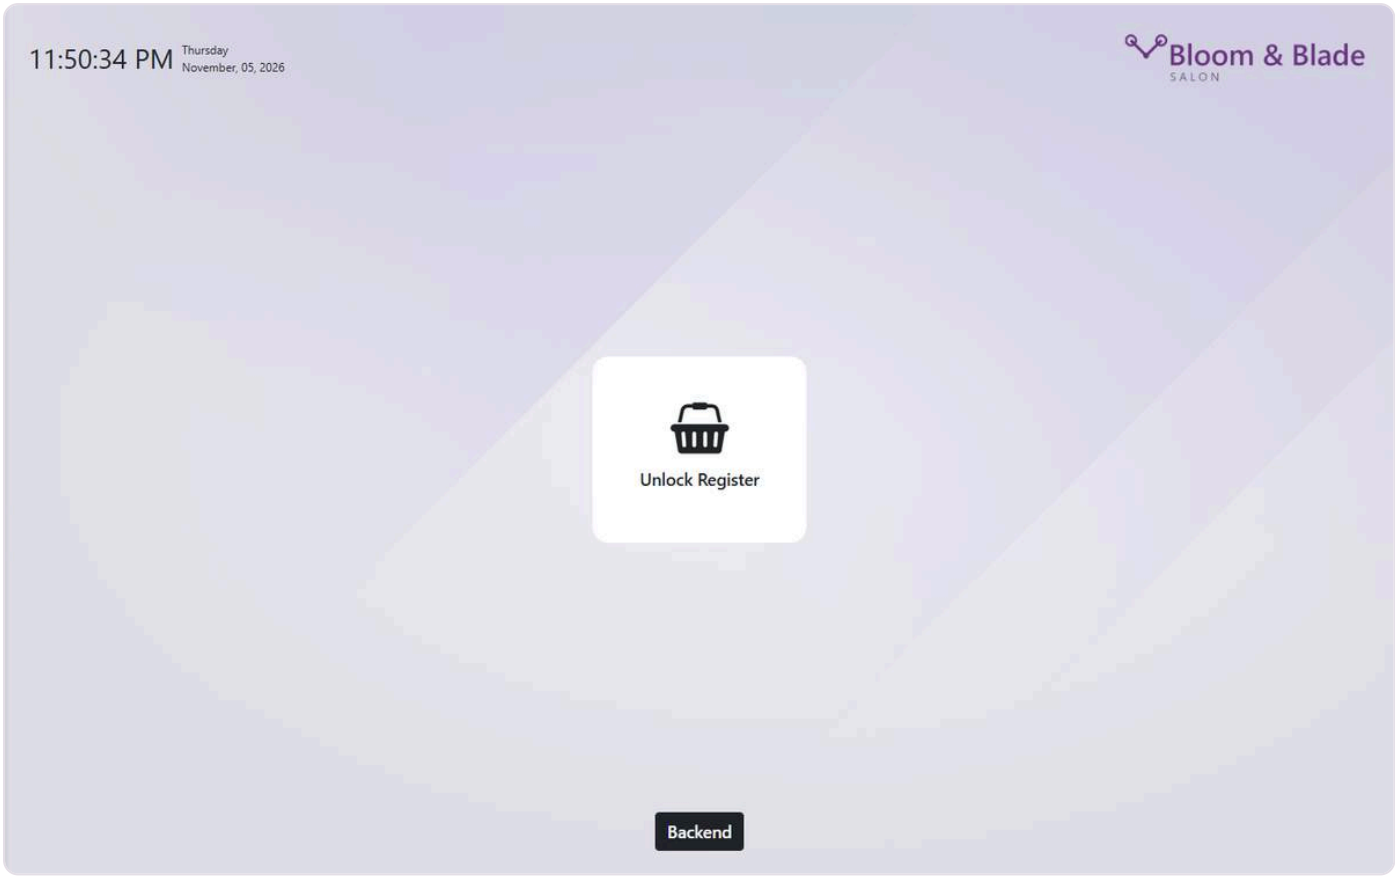

Point of Sale, Configuration, Point of Sale, open the till and tick **Salon Mode**. It shows the Salon button and loads the salon services into this till only, so a retail counter never shows one. **Stylist Tips** appears beside it: Point of Sale's own tip setting, with the tip product.

The setup wizard (Part 3) creates a till in Salon Mode for you. Times at the till follow the salon time zone, whatever the server clock says.

2 Open the register

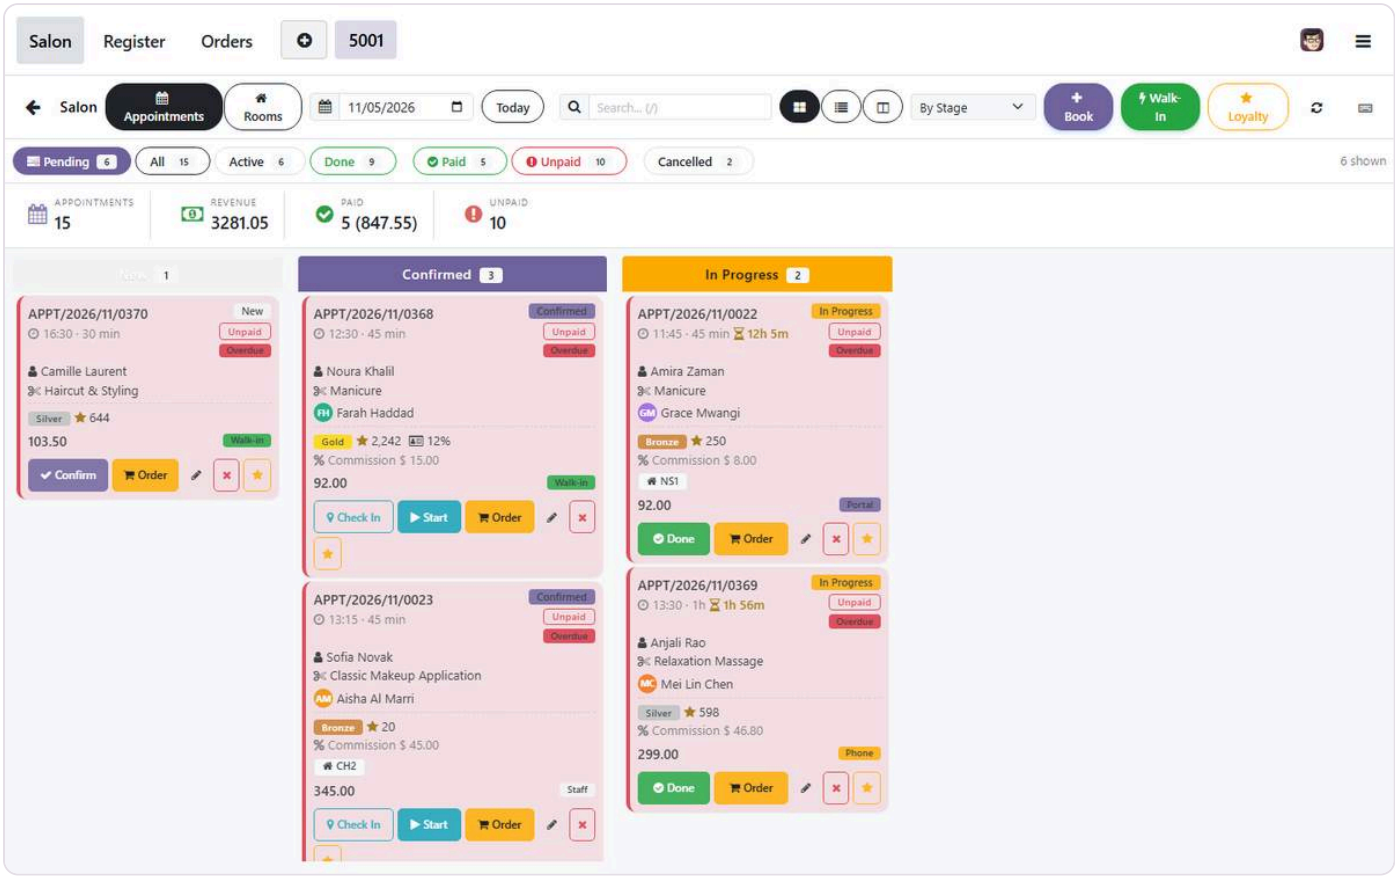

Open the session the usual way from the Point of Sale dashboard, then **Unlock Register**.

3 The Salon board

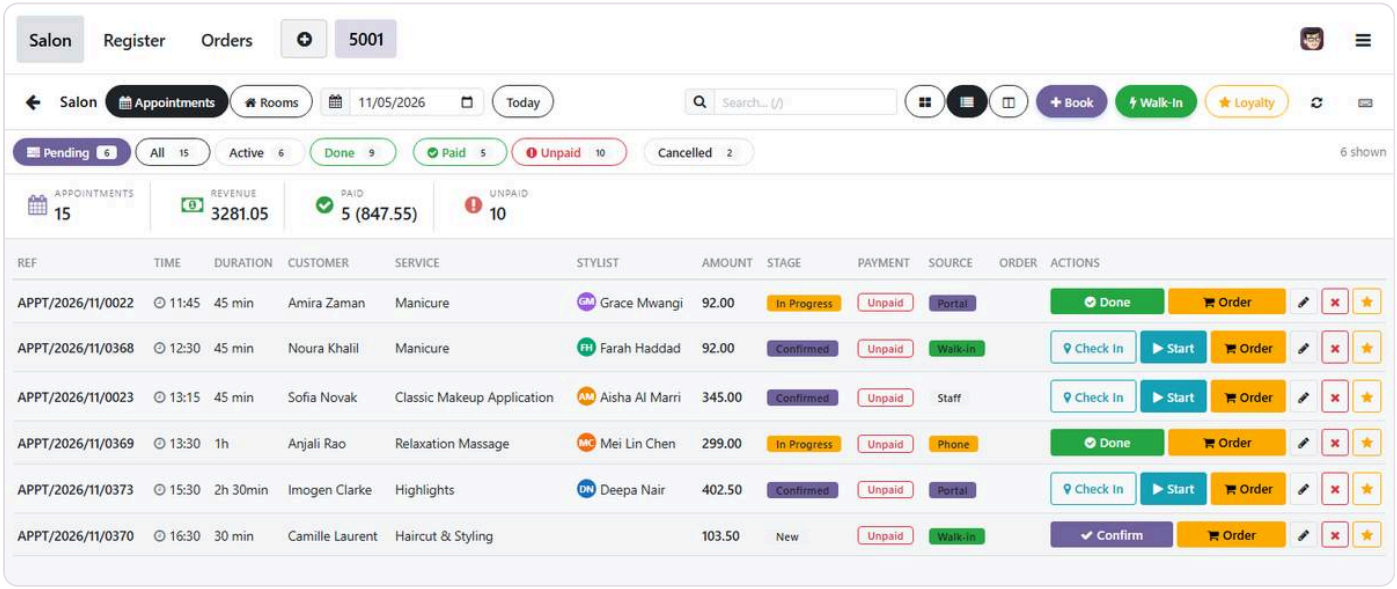

Press **Salon** in the top bar. Each card shows the reference, time and length, customer, service, the stylist as a coloured avatar, the room, the payment state, the source and, on a visit in progress, how long it has been running; a visit past its time is marked Overdue. Filters: Pending, All, Active, Done, Paid, Unpaid, Cancelled, with counts, and a summary of appointments, revenue, paid and unpaid.

Each card shows the commission the visit will earn, worked out by the base module's rules.

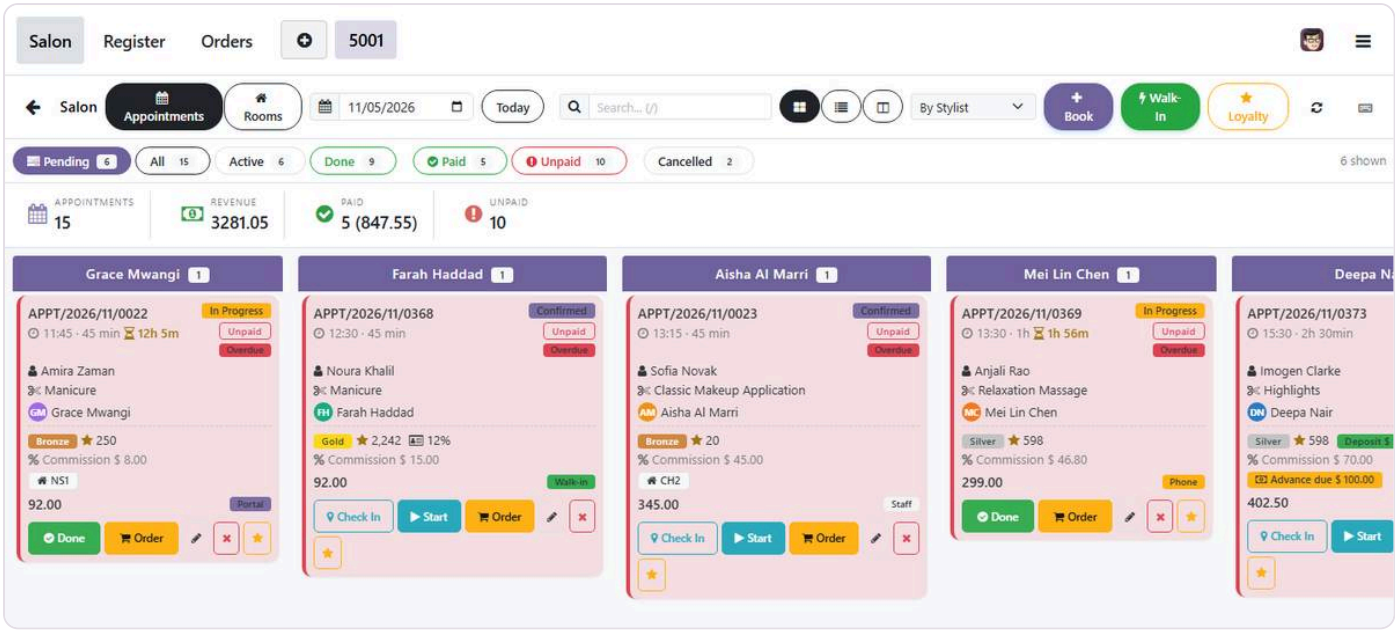

4 The list

The same day as a table, with the actions on each row. Group the board by stage, stylist, service, time, source or payment from the drop-down.

5 Grouped by stylist

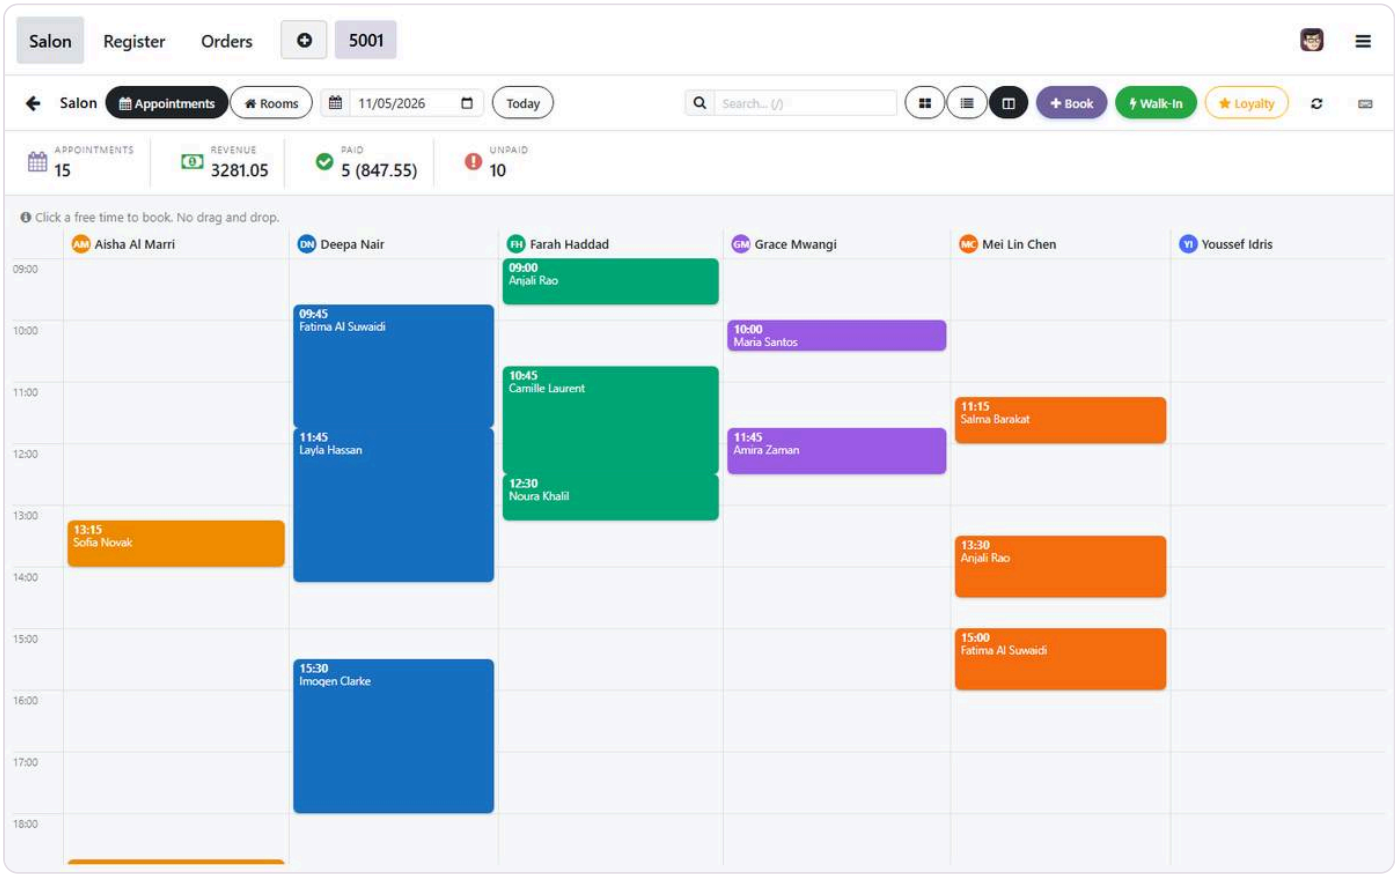

One column per stylist, to spread the load.

6 The day view

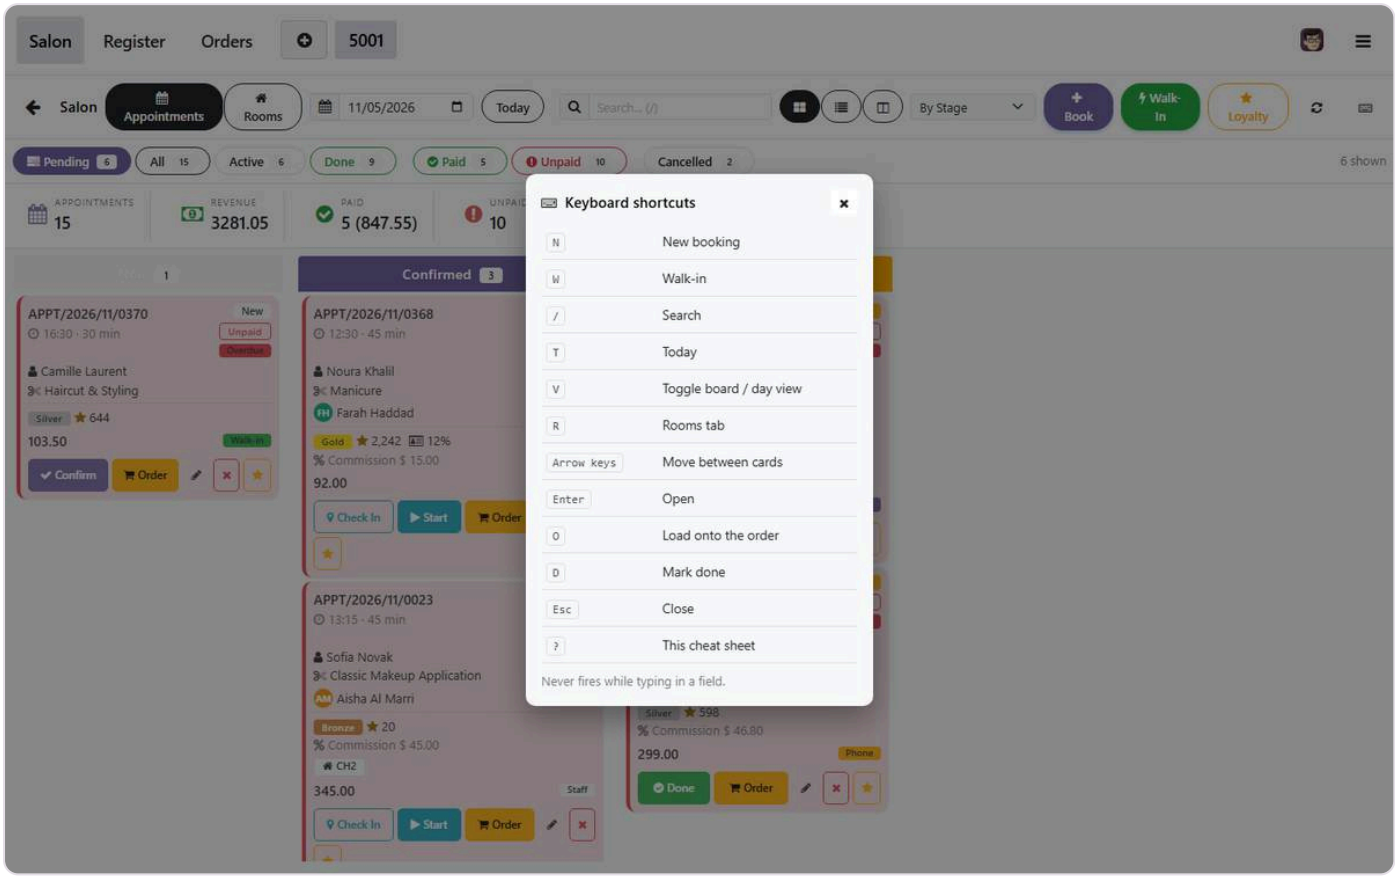

Press **V**, or the third toggle: one column per stylist, time rows from opening to closing, each booking in the stylist's colour and a line for now. Click a free time to open Book already filled in with that stylist and time.

Every employee of the company gets a column. Archive staff who never take bookings.

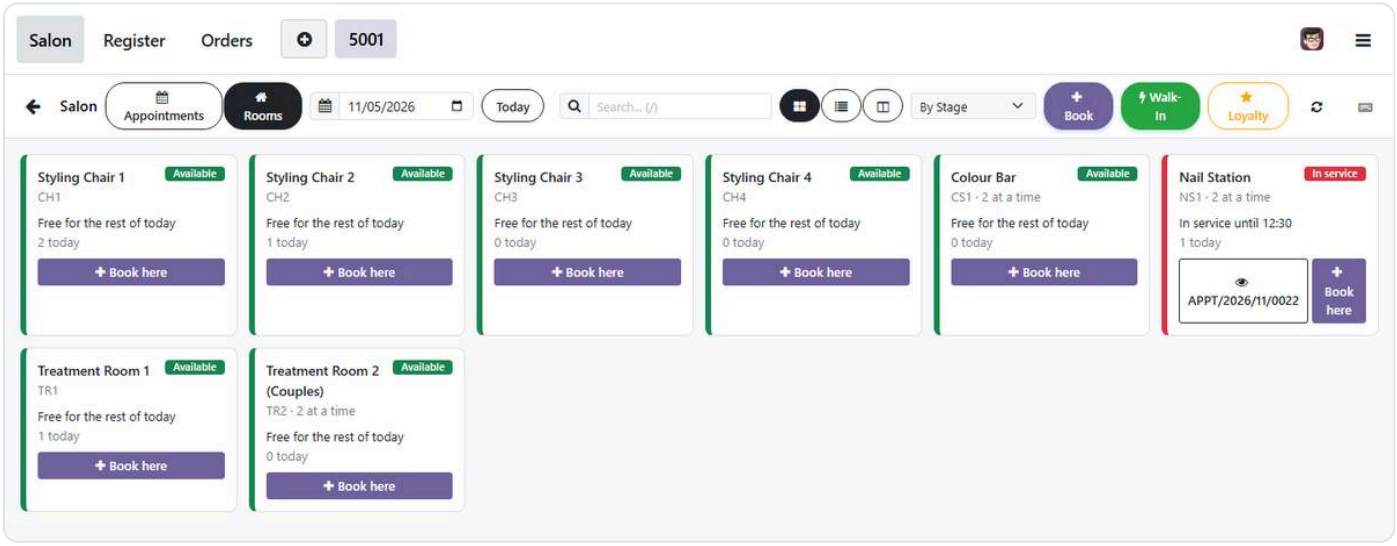

7 Keyboard shortcuts

Press **?**. N new booking, W walk-in, / search, T today, V board or day view, R rooms, arrow keys between cards, Enter open, O load onto the order, D mark done, Esc close. Shortcuts stand down while typing or while a popup is open.

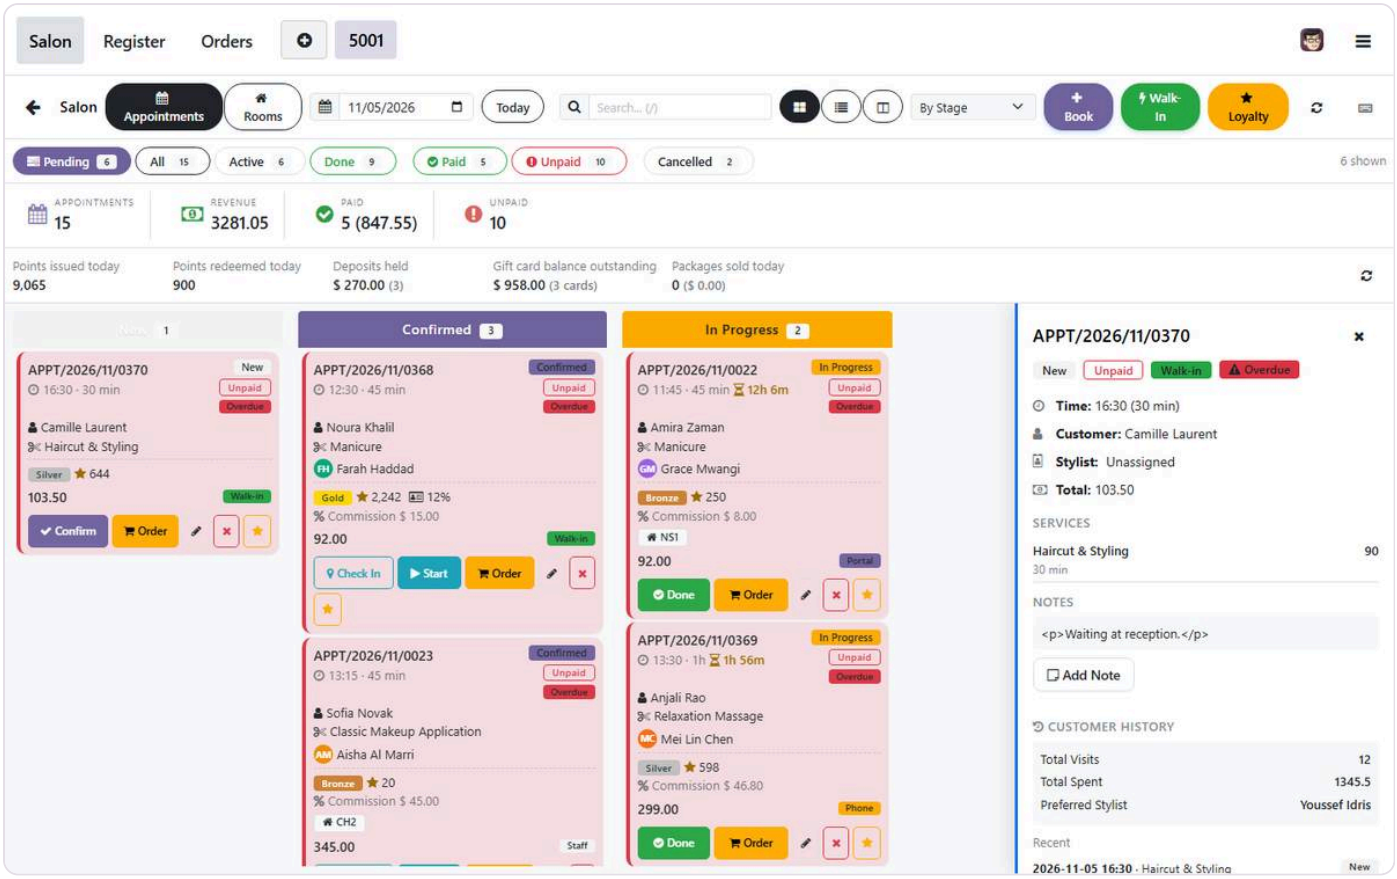

8 The Rooms tab

Every room, chair and station with its state now (available, reserved or in service) and the day's bookings in it. **Book here** books straight into it.

9 The detail panel

Click a card: the visit with its services and notes, the actions valid for its stage, and the customer's history underneath: total visits, total spent, preferred stylist and the last ten visits.

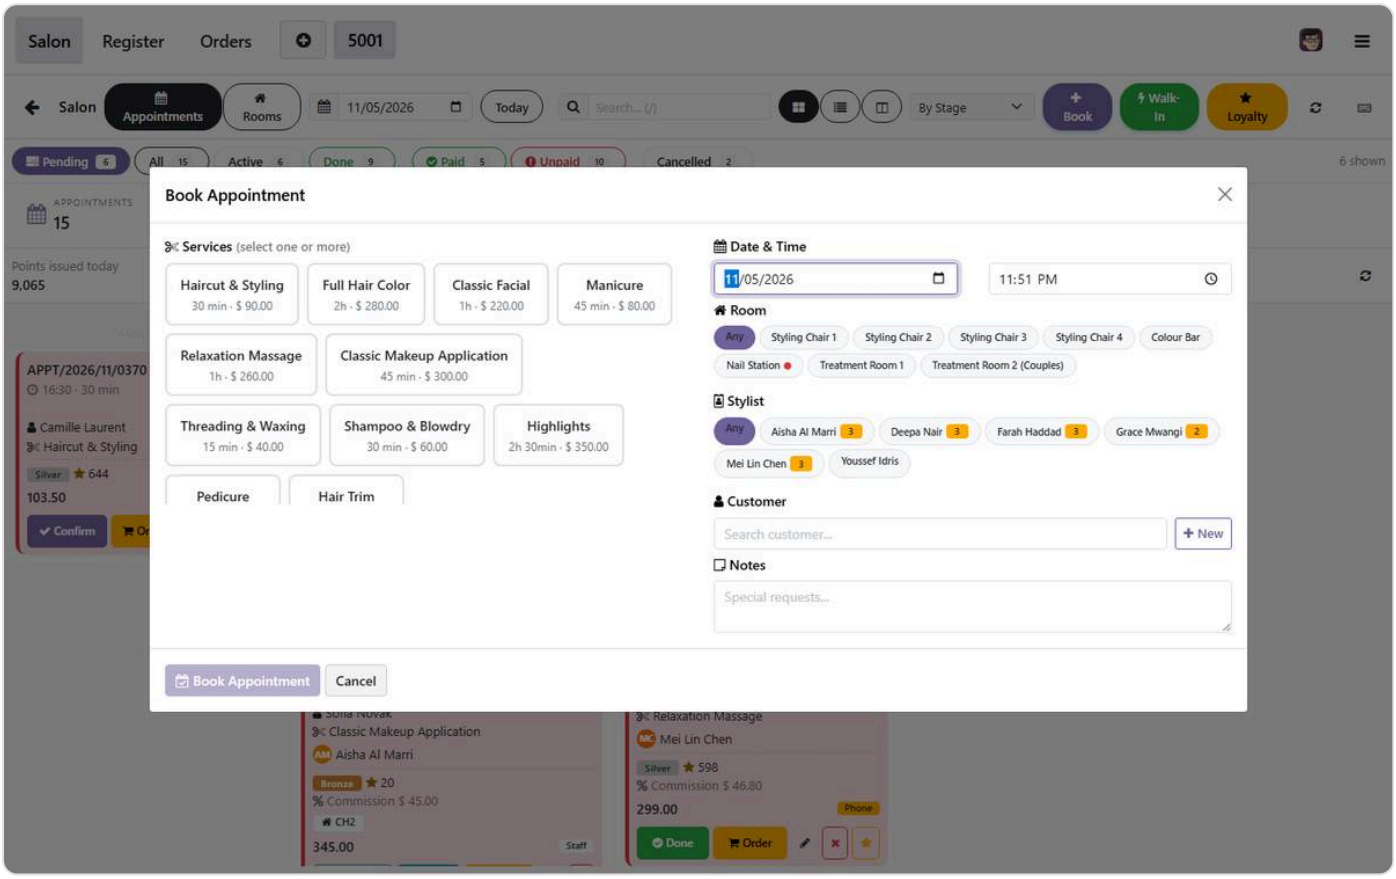

Booking, walk-ins and the order

10 Book for later

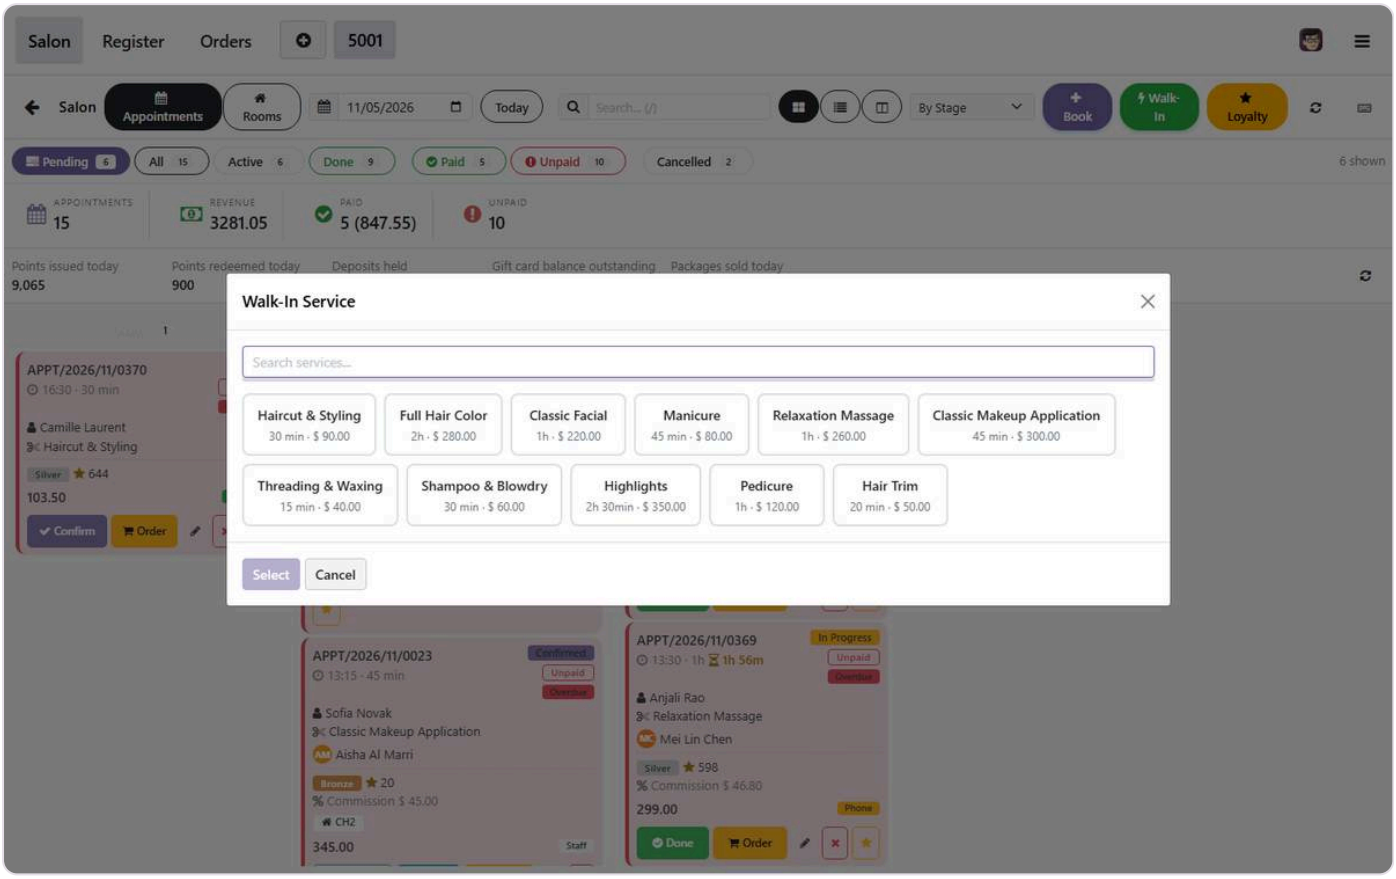

Book: pick one or more services (the total price and length update), the date and time, a room or Any (a red dot on one in service, orange on one reserved), a stylist or Any (each chip shows today's count), the customer by name or phone or **+ New**, and notes. **Book Appointment**.

For a service sold in time slots the time box gives way to the free times the base module works out. A clash is refused with the base module's message.

11 A walk-in

Walk-In: pick the service, and a room if you want one, then **Select**. The visit is booked as arrived, source Walk-in, and lands on the order at once.

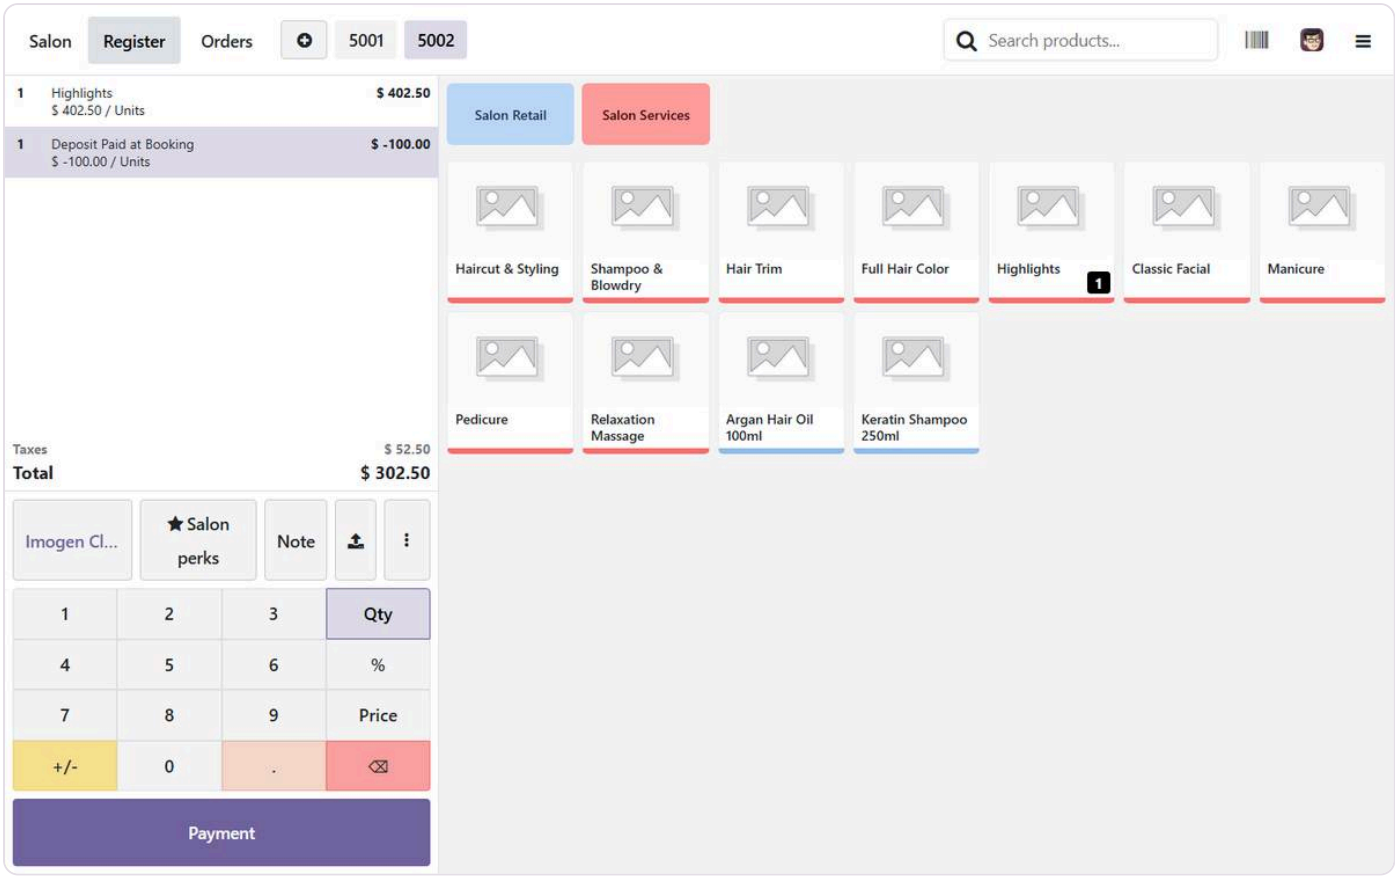

12 Check In and Start

On a confirmed card **Check In** adds an Arrived chip so the stylist sees who is waiting. **Start** is still a separate step; Arrived is a flag, not a stage.

13 Load a visit onto the order

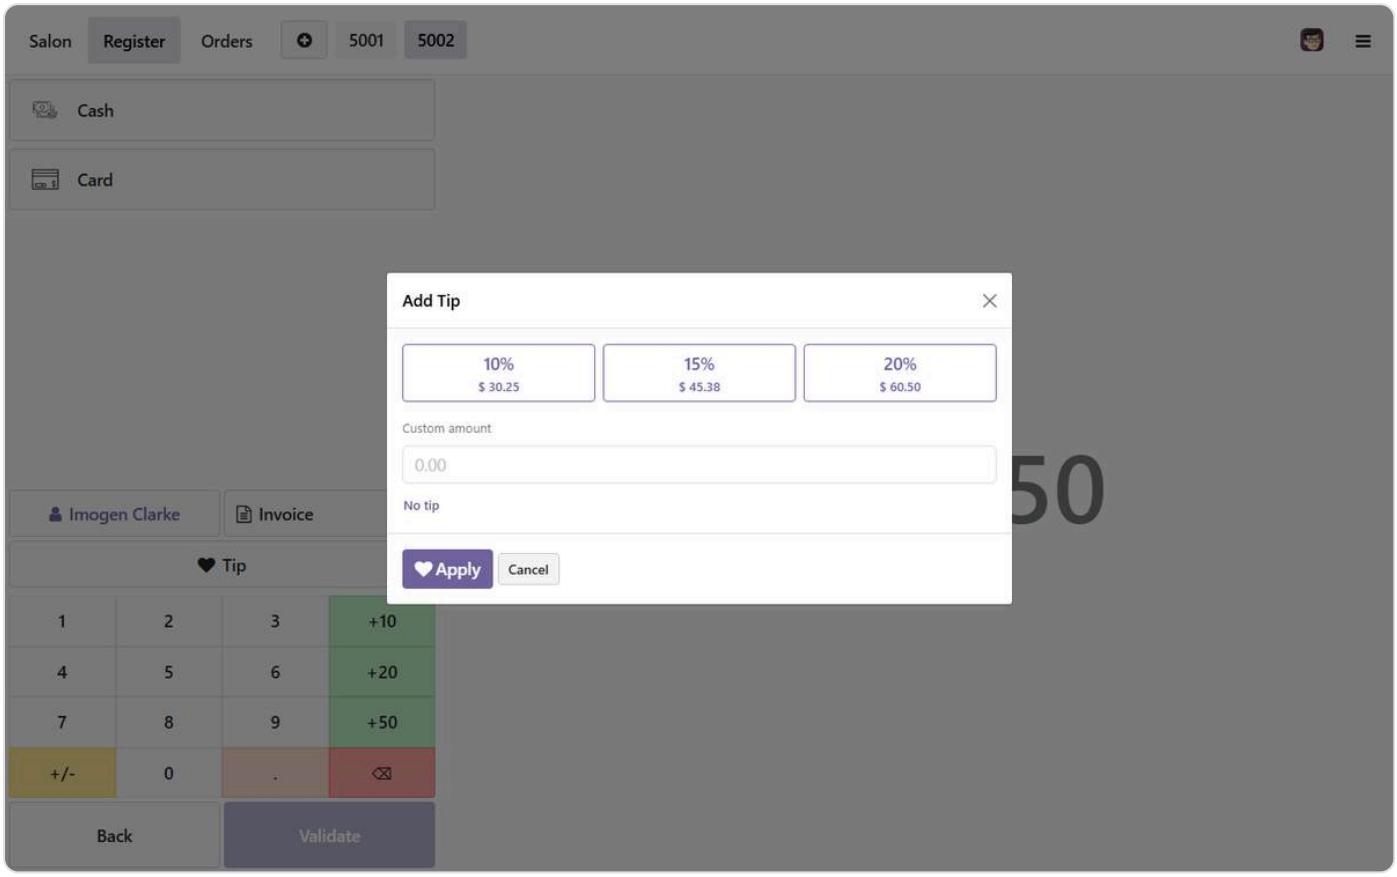

Order on a card puts every service line on the order with its price and the customer. If an order for that visit is already open, the till switches to it. Here a deposit already paid comes off as its own line (Loyalty add-on).

14 Tips

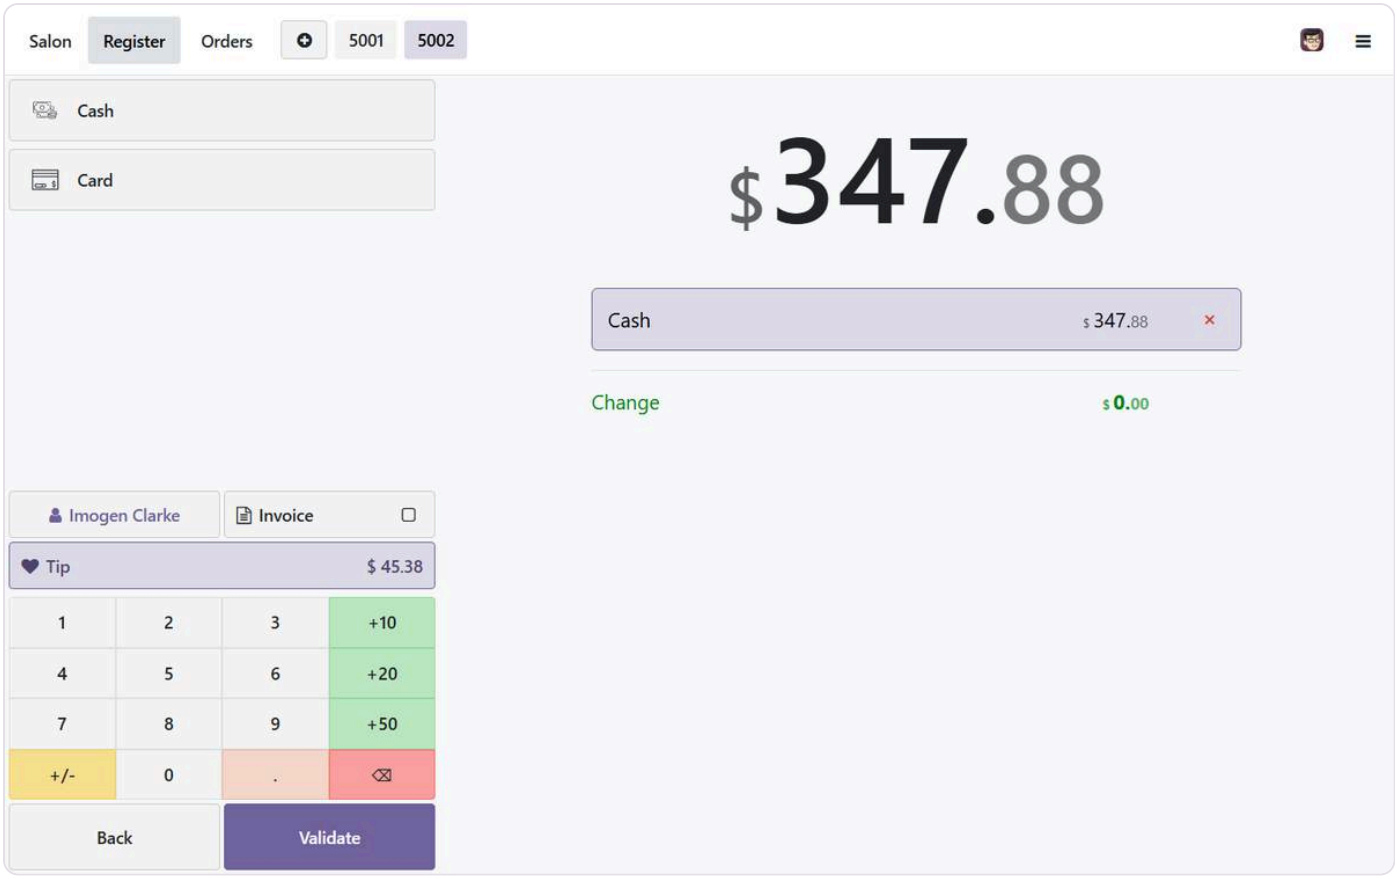

With Stylist Tips on, the payment screen has a **Tip** button: 10, 15 or 20 per cent with the amount on each, a custom amount, or No tip. The tip is recorded for the stylist of the visit.

One visit has one tip. It cannot be split between two stylists.

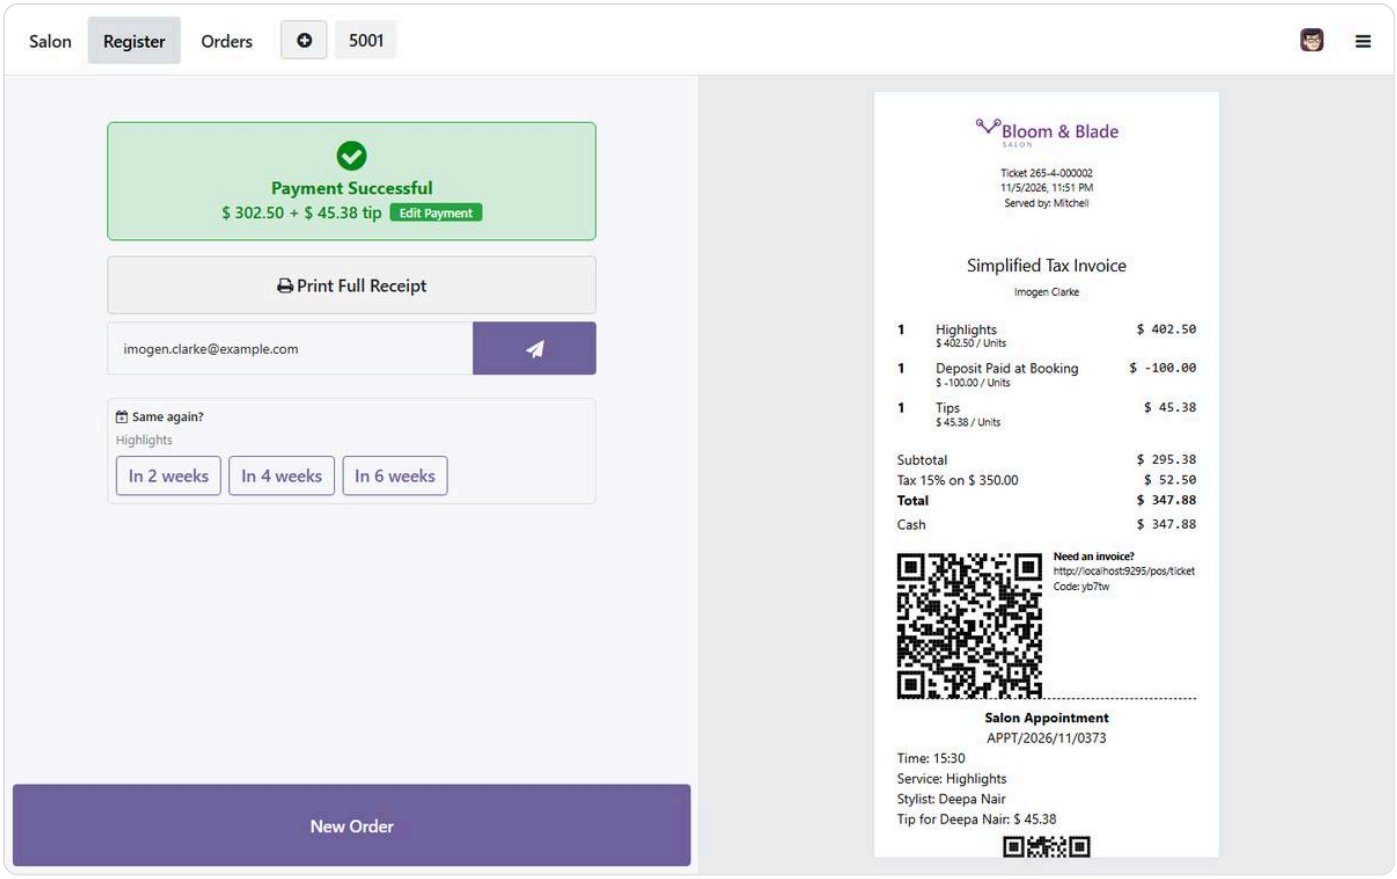

15 Payment

Pick the payment method and **Validate**, as on any Odoo till.

16 The receipt and quick rebook

The receipt carries a salon block: the reference, time, service, stylist, room, the tip for the stylist by name, a next appointment line when there is one, and a QR code to the booking page. **Same again?** books the same service with the same stylist in 2, 4 or 6 weeks at the same time, through the base module's guard, and offers the nearest free time if that one is taken.

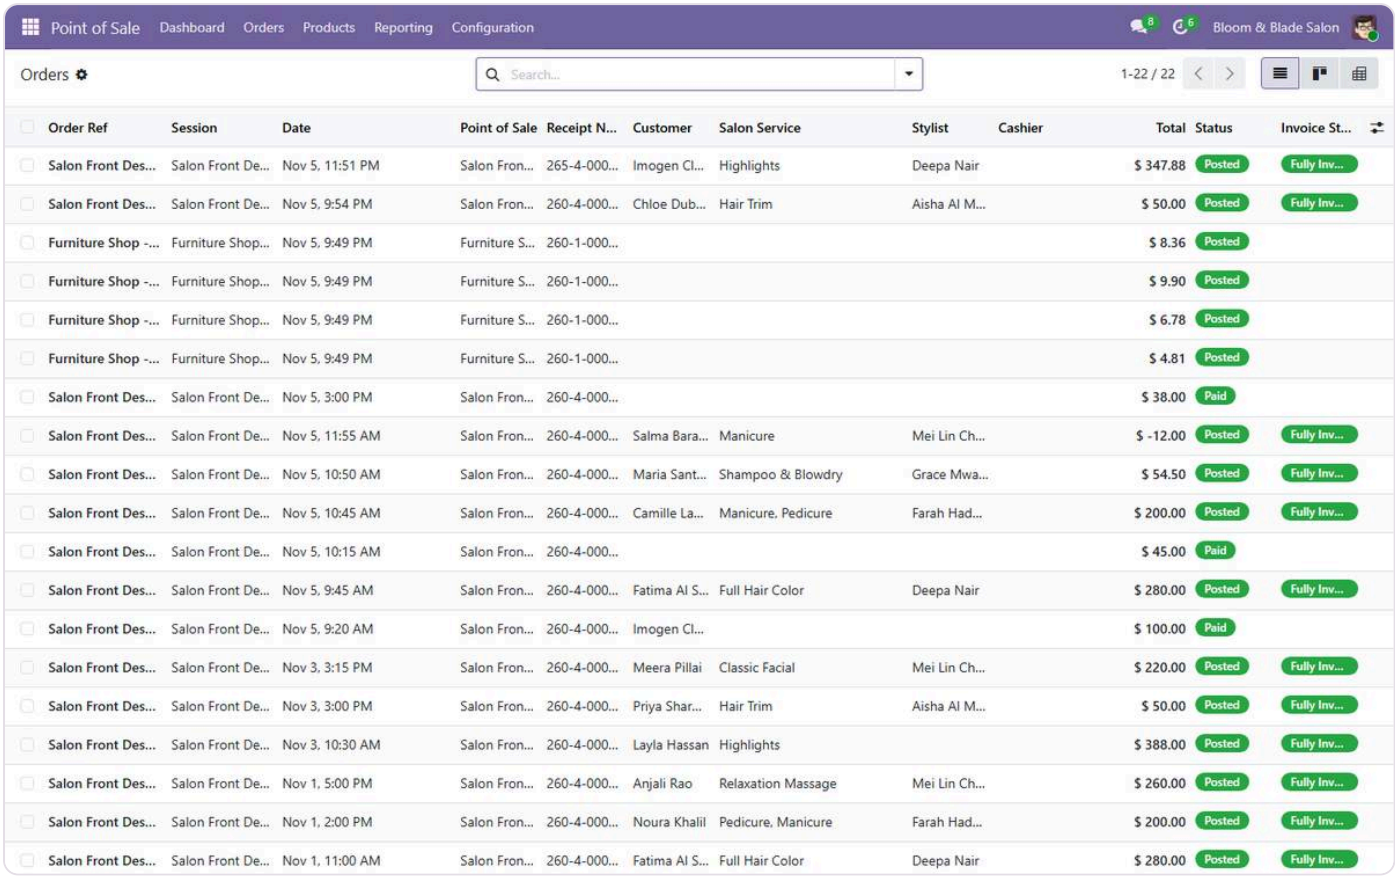

Refunds, old orders and closing

- **Refund** a salon order from the till as usual. When it syncs, the visit goes back to Confirmed. After a full refund the visit reads Unpaid; after a partial one, Partly paid.
- **Orders** in the top bar lists the session's orders; salon orders carry a badge with the service and stylist.
- **Close Register** as usual. Salon orders are normal POS orders in the session totals.
- Paying a salon order invoices the visit through the till and runs the base module's commission rules.

17 Orders in the back office

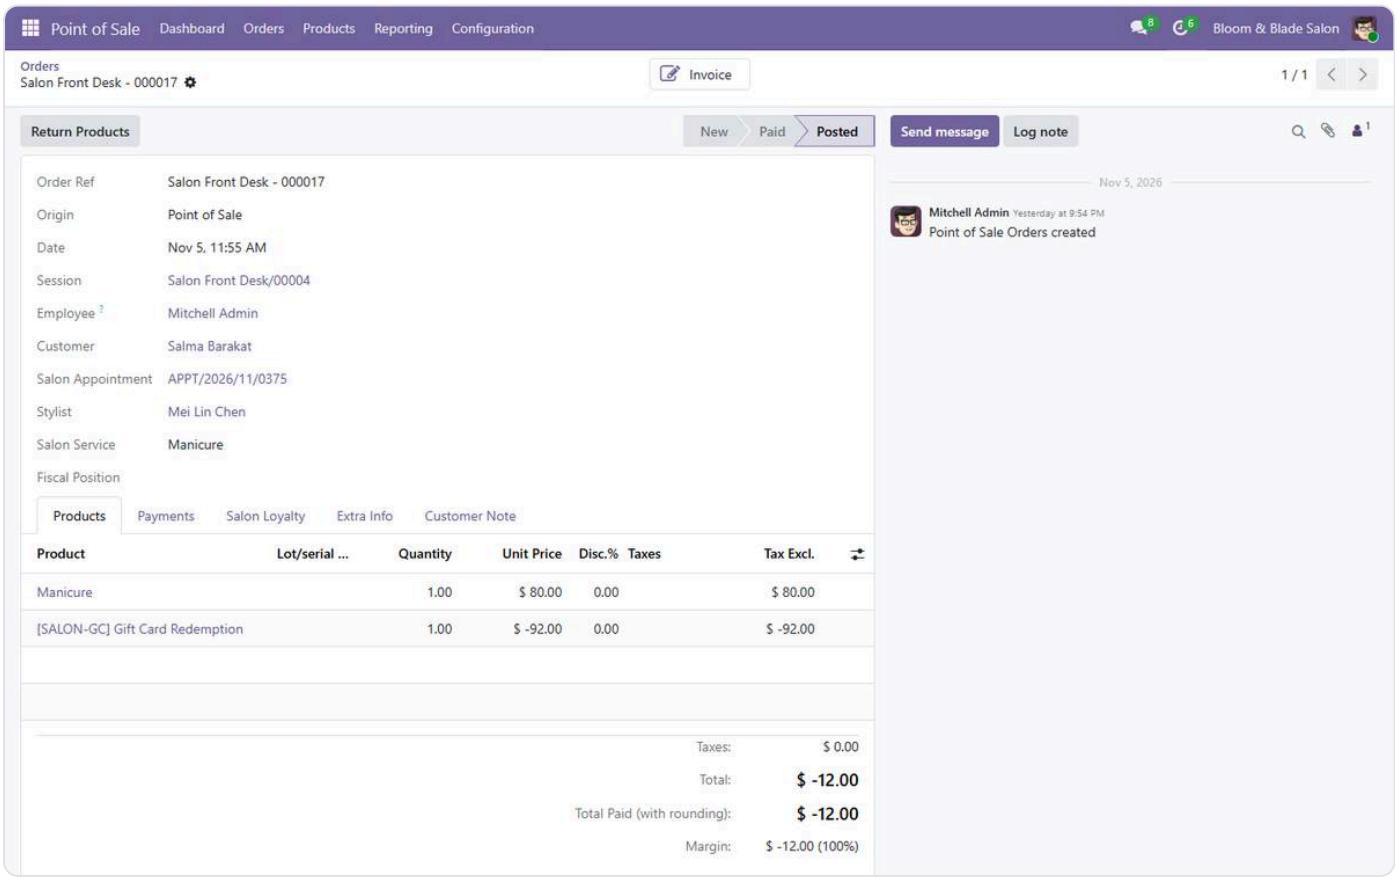

Point of Sale, Orders: **Salon Service** and **Stylist** columns beside the customer and total.

18 A salon order

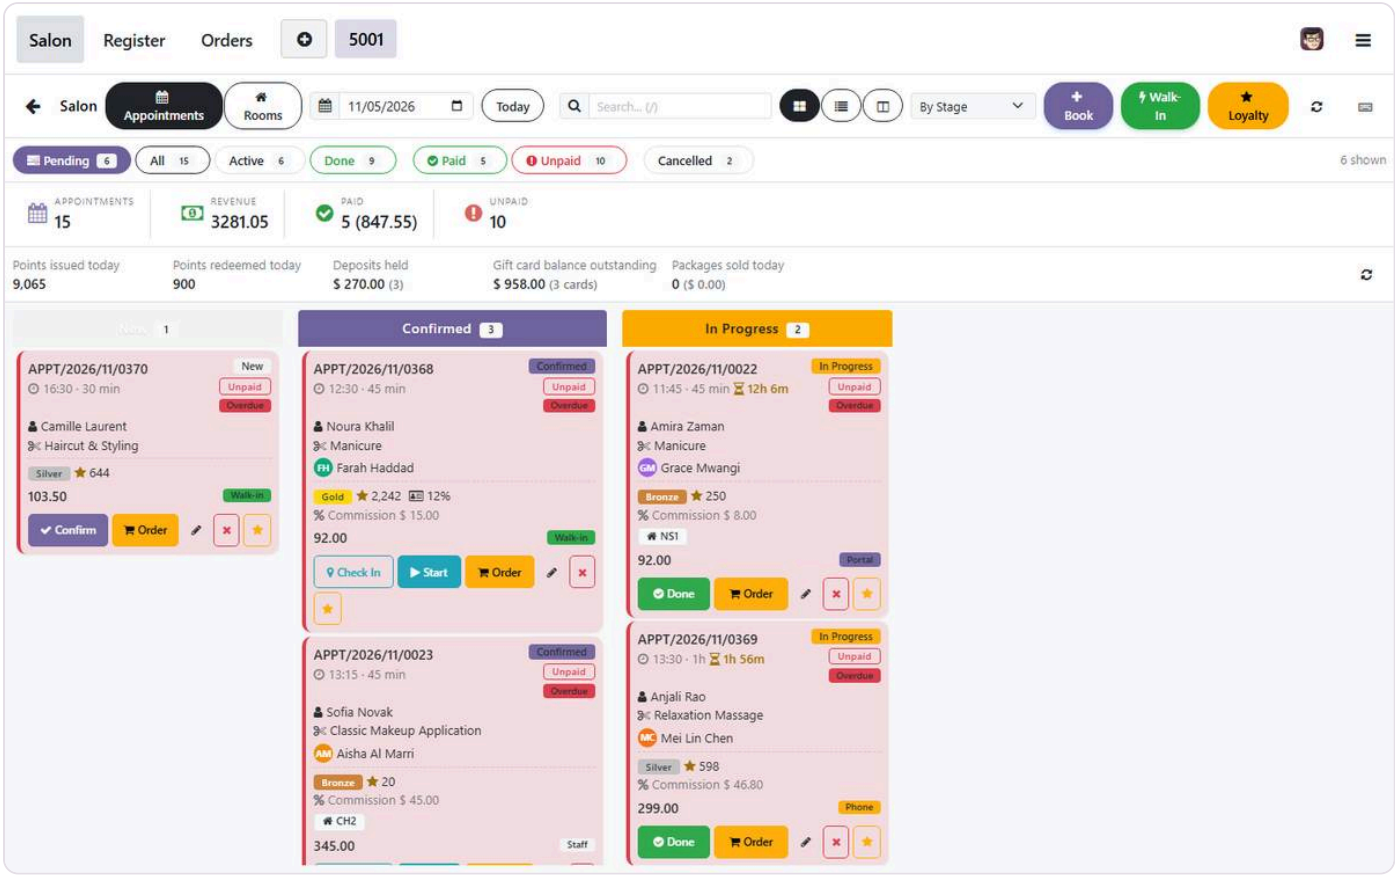

The order shows the linked Salon Appointment, Stylist, Salon Service and the stylist tip.

With the Loyalty add-on LOYALTY

19 Loyalty today

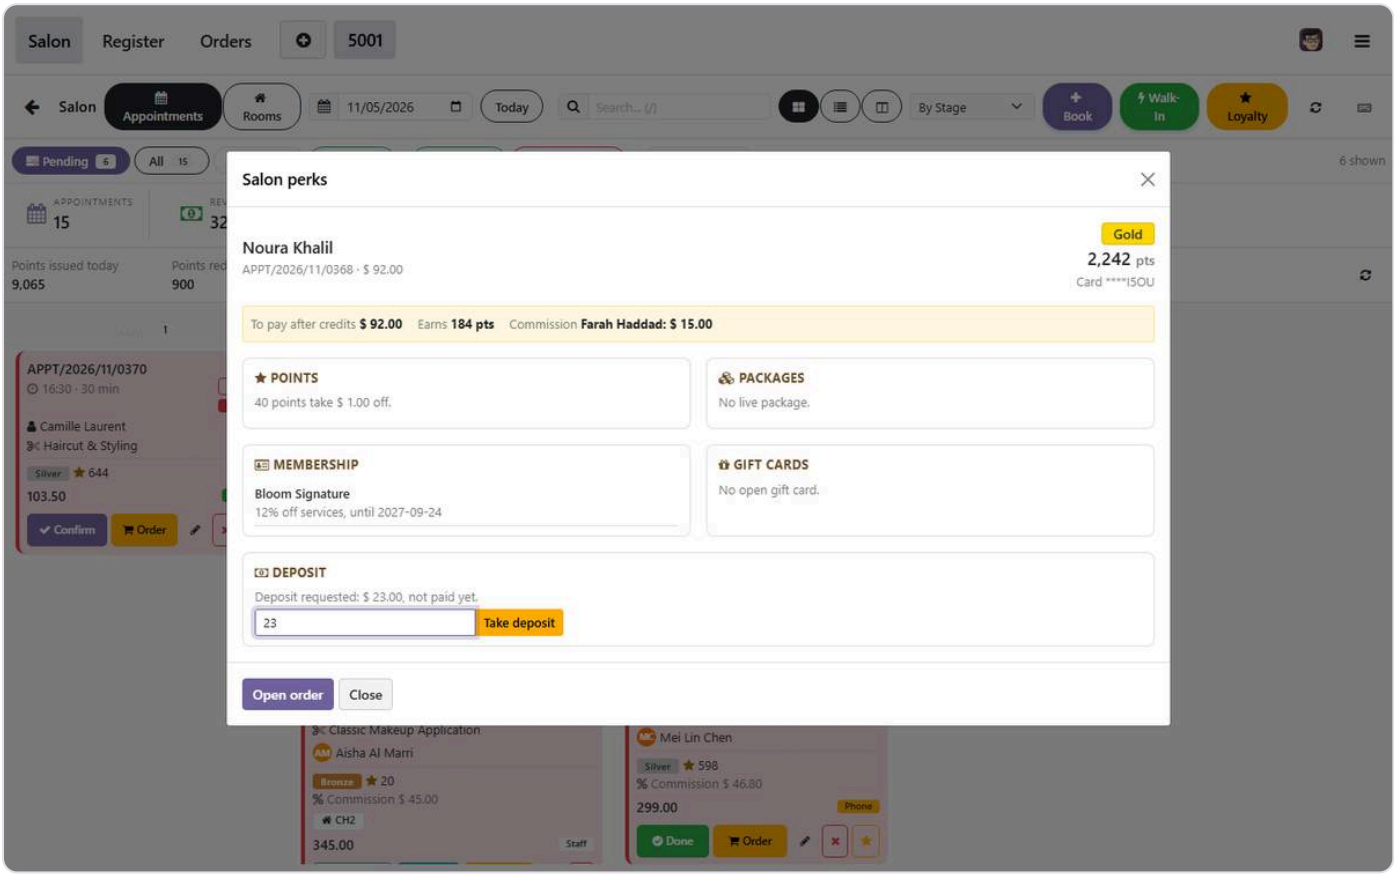

Each card shows the customer's tier and points, live packages, member discount and deposit. **Loyalty** in the header shows points issued and redeemed today, deposits held, gift card balance outstanding and packages sold today.

20 Salon perks

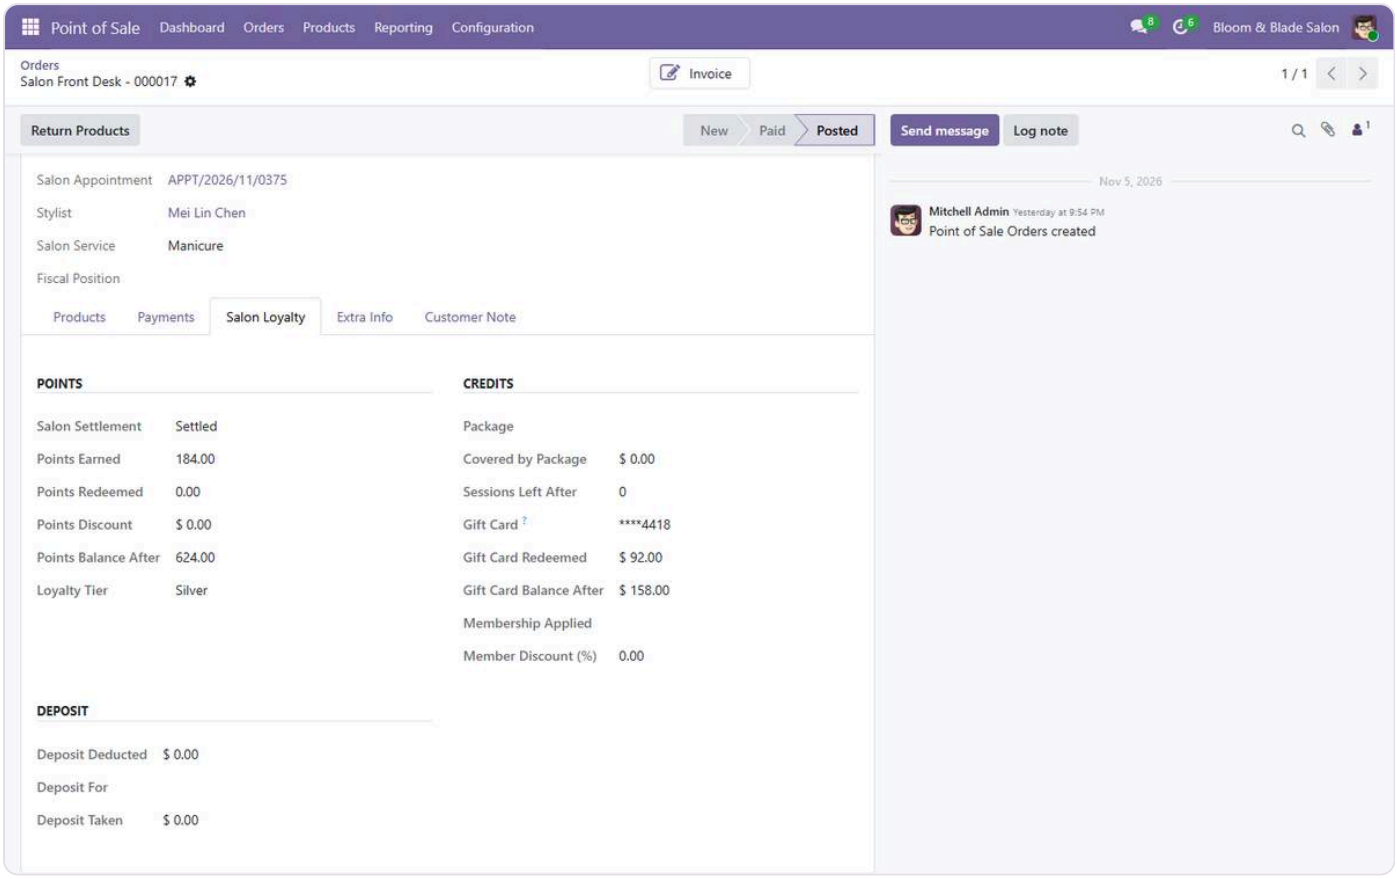

The star on a card, or **Salon perks** on the order, opens the customer's panel: tier and points, packages with sessions left, membership, open gift cards, the deposit, what is left to pay, points this visit earns and the stylist's commission. From it a receptionist redeems points, uses a package session, applies the member discount, redeems a gift card or takes a deposit.

The till never decides what a credit is worth: the server works every amount out again when the order is validated and refuses the whole order if anything does not match. Only Receptionist and Manager can redeem.

21 The Salon Loyalty tab

On the back office order: points earned and redeemed, discount, balance and tier after, gift card and package used, membership applied and deposit settled.

> Who can use the board: it runs on the base module's roles. A cashier with no salon role cannot open it; a Stylist can update visits but cannot book or take walk-ins; Receptionist and Manager can do everything.

PART 13 The spa: Spa POS SPA POS

Spa POS turns a POS Salon till into a spa till. It keeps no records of its own: treatments are salon services, therapists are employees, rooms are the salon's rooms, so every salon report covers the spa too.

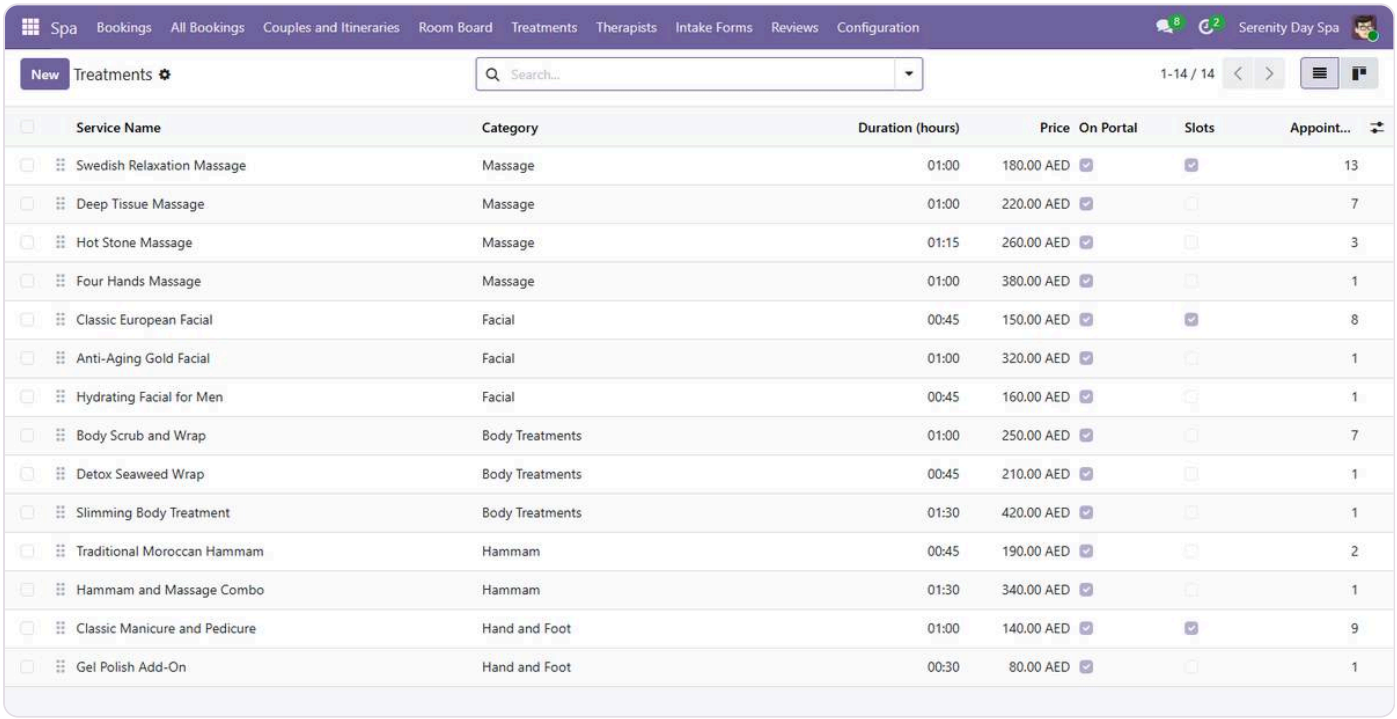

IN THIS PART YOU WILL LEARN

- Treatments, therapists and rooms with cleaning time
- The spa till and its room board
- Booking with an advance, walk-ins, couples and day-spa itineraries
- The intake form, therapist preference and reviews
- The Spa app in the back office

Set up once

1 Treatments

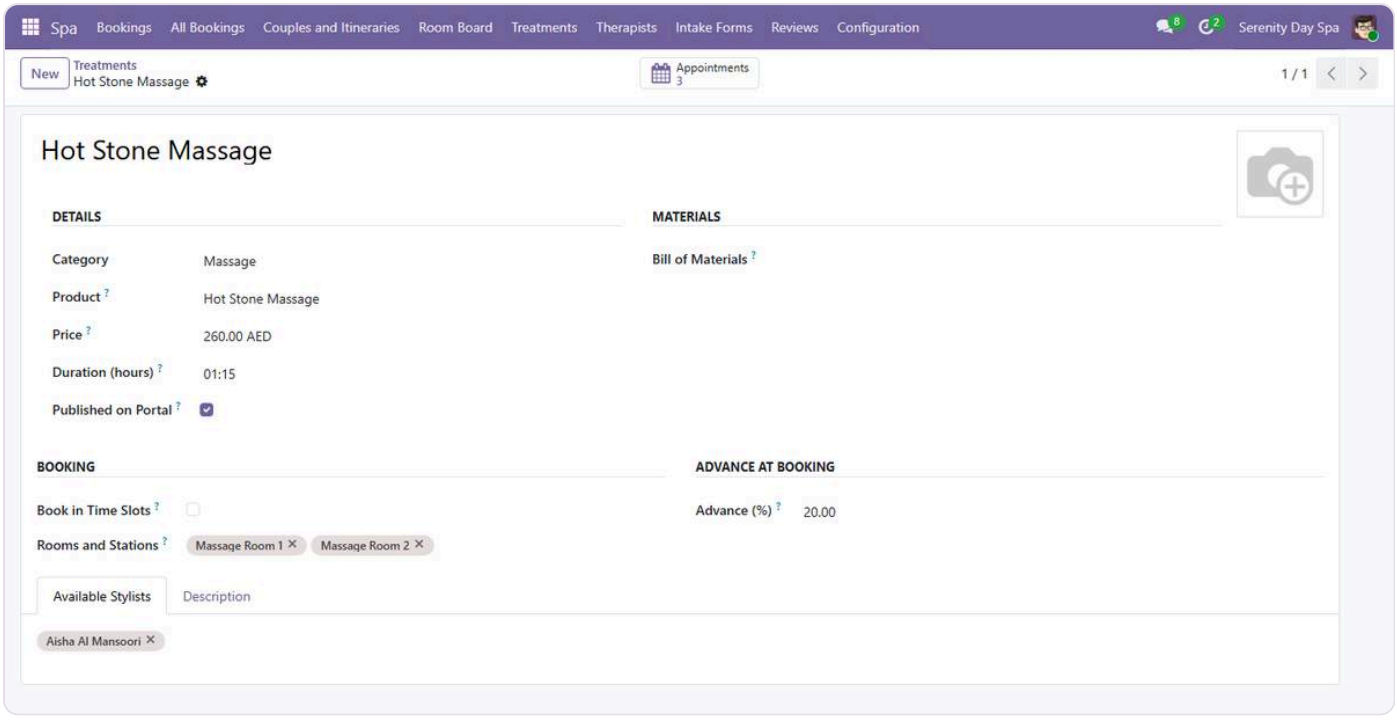

Spa, **Treatments**: the salon services in categories marked **Spa Treatments**, so hair and nail services stay in the Salon app.

Service Name	Category	Duration (hours)	Price	On Portal	Slots	Appoint...
Swedish Relaxation Massage	Massage	01:00	180.00 AED	☑	☑	13
Deep Tissue Massage	Massage	01:00	220.00 AED	☑	☐	7

Classic Manicure and Pedicure	Hand and Foot	01:00	140.00 AED	☑	☑	9
Gel Polish Add-On	Hand and Foot	00:30	80.00 AED	☑	☐	1

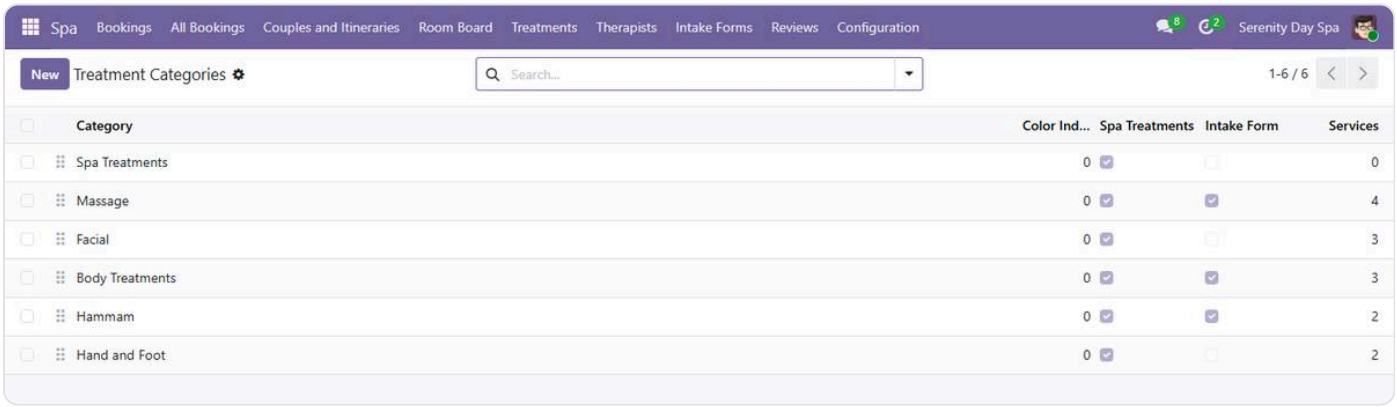

2 A treatment

Price and duration (how long the therapist and the room are held), Rooms and Stations, Available Stylists (the therapists who give it), time slots, and Advance (%) or Advance (fixed), what the guest pays when booking.

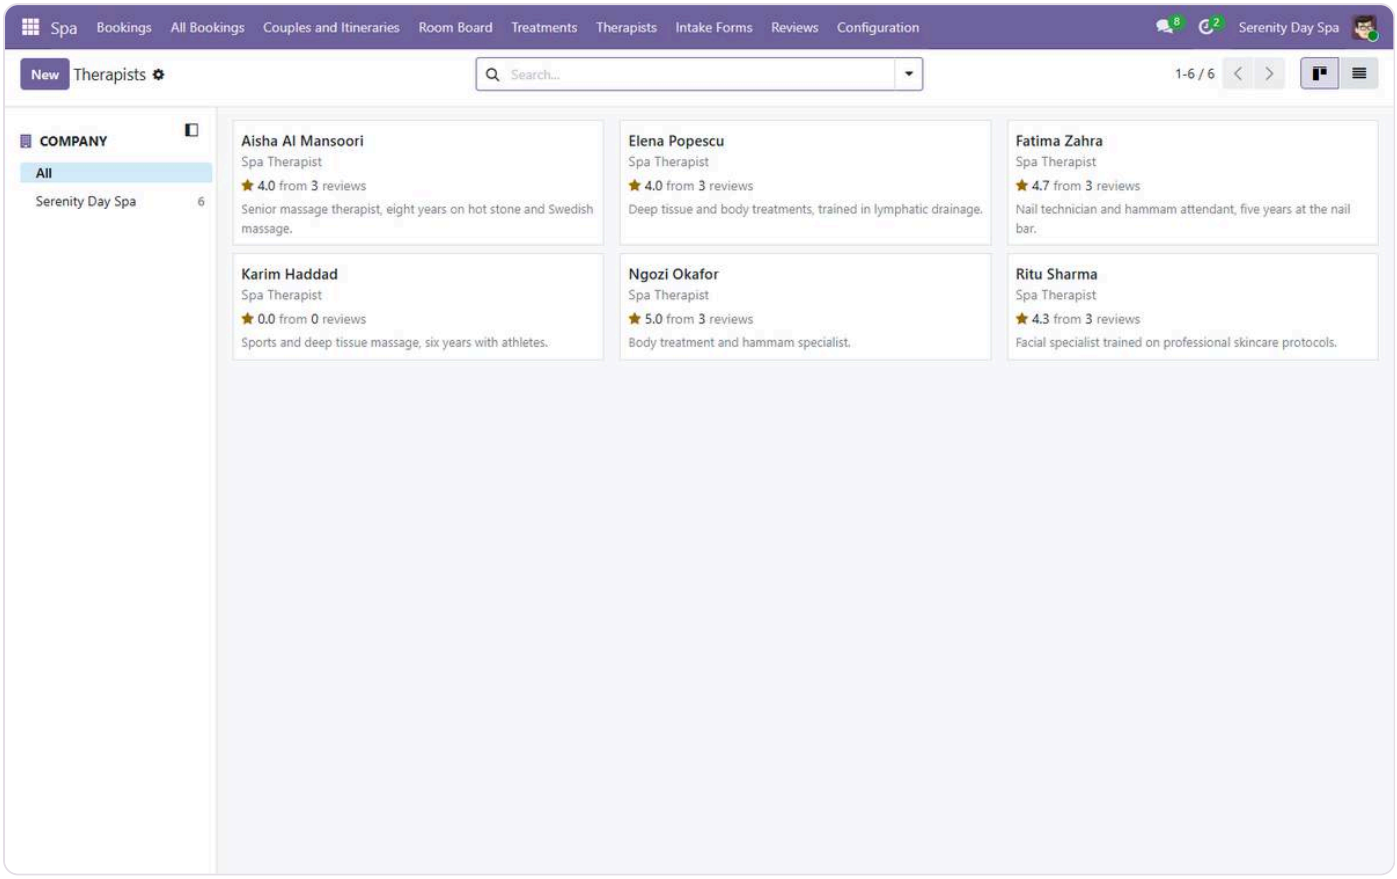

3 Treatment categories

Spa, Configuration, **Treatment Categories**. Tick **Spa Treatments** for the till to offer a category, and **Intake Form Before First Treatment** where a guest must fill one in first.

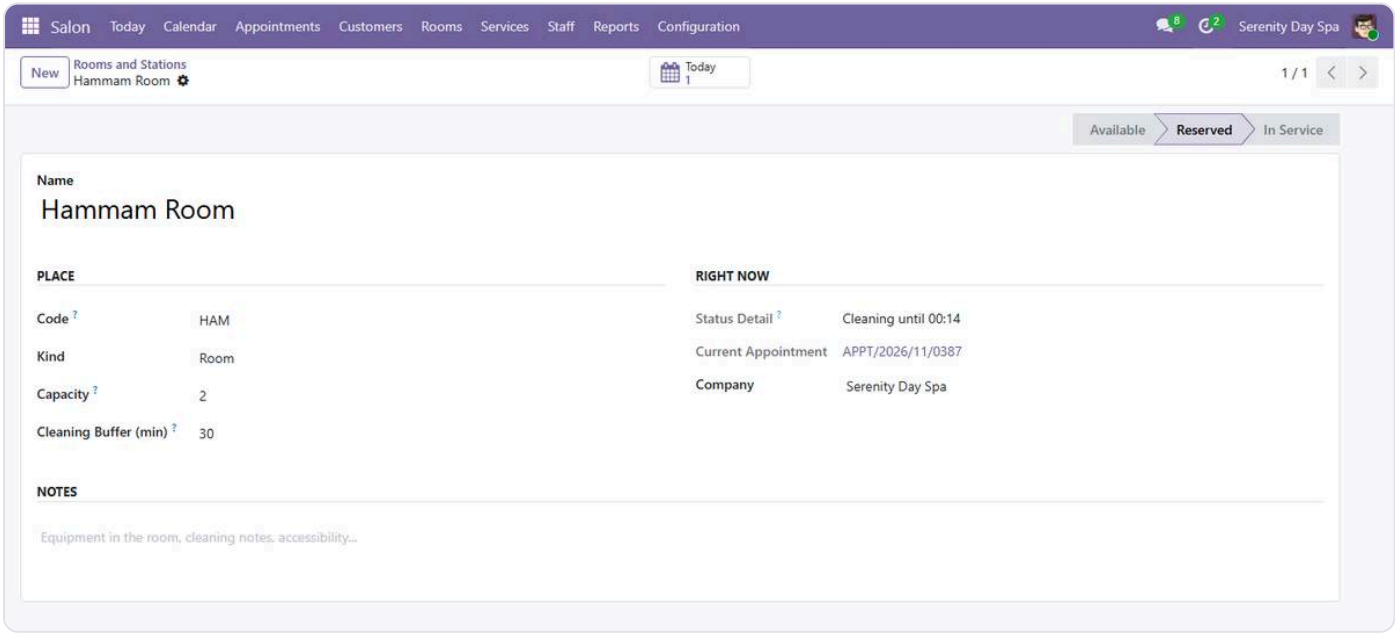

4 Therapists

Spa, **Therapists**: employees with **Spa Therapist** ticked, with a profile, gender, average rating and review count. Commission is the salon's own rules.

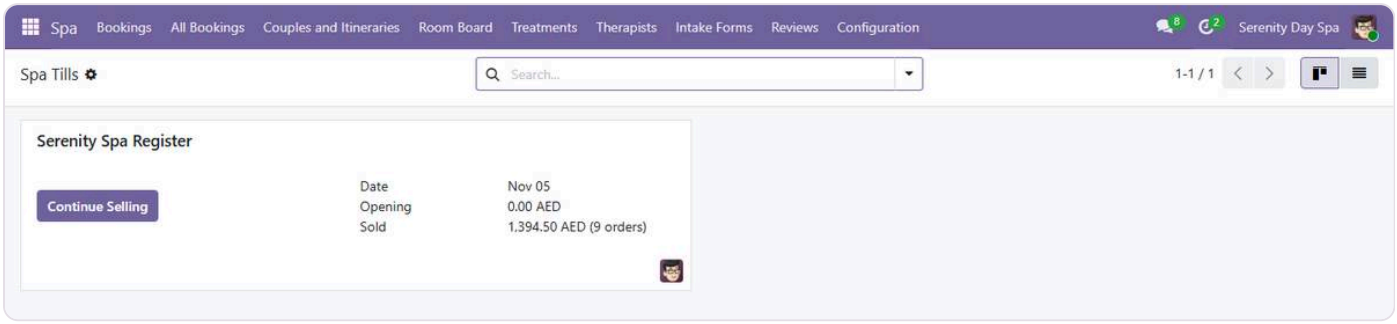

5 Rooms and cleaning time

On a room, **Cleaning Buffer (min)** holds it after every treatment (0 to 240 minutes). The board shows it as Cleaning until a time, and no booking or walk-in can start inside it. A couples suite has a capacity of 2.

6 A spa till

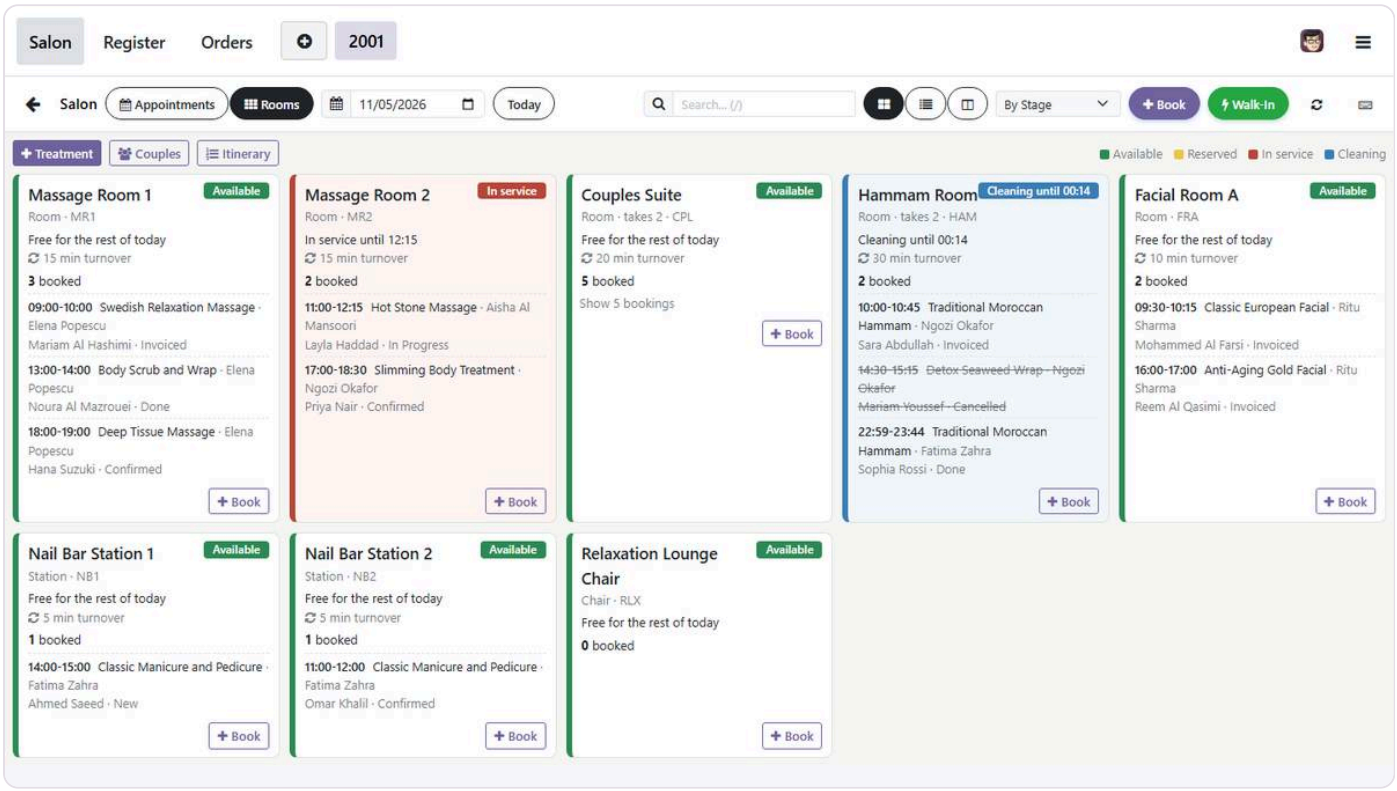

Spa, Configuration, **Spa Tills**. Tick **Spa Till** (it turns Salon Mode on too) and **Ask for a Review on Done** to open the review popup when a treatment is marked done.

At the spa till

7 The room board

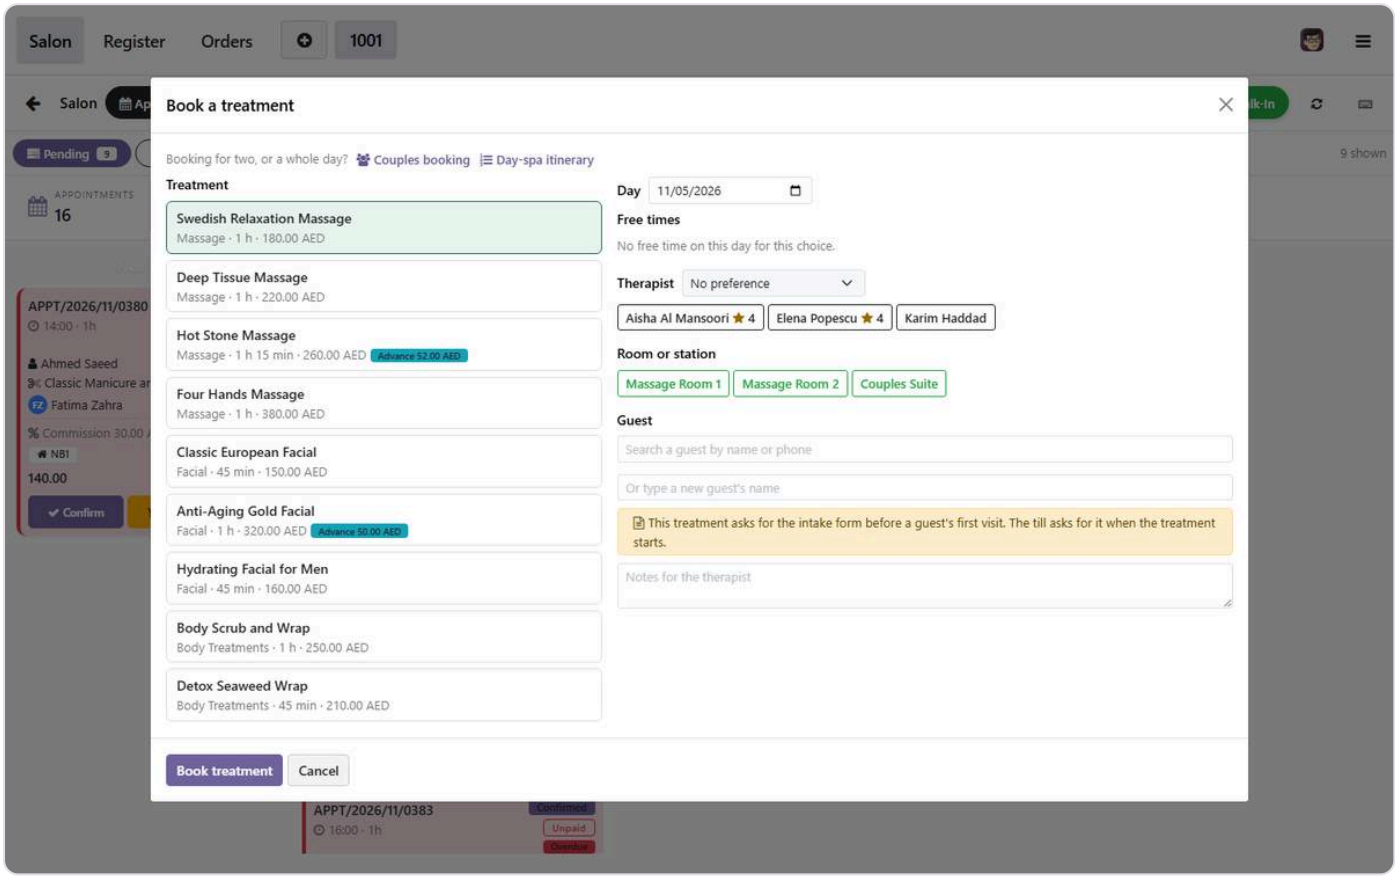

A spa till opens on **Rooms**: green when free, amber when the next booking is still to come today, red while a treatment runs, blue while cleaning, with the day's treatments under each room and a Book button. The toolbar adds **Treatment**, **Couples** and **Itinerary**.

8 Book a treatment

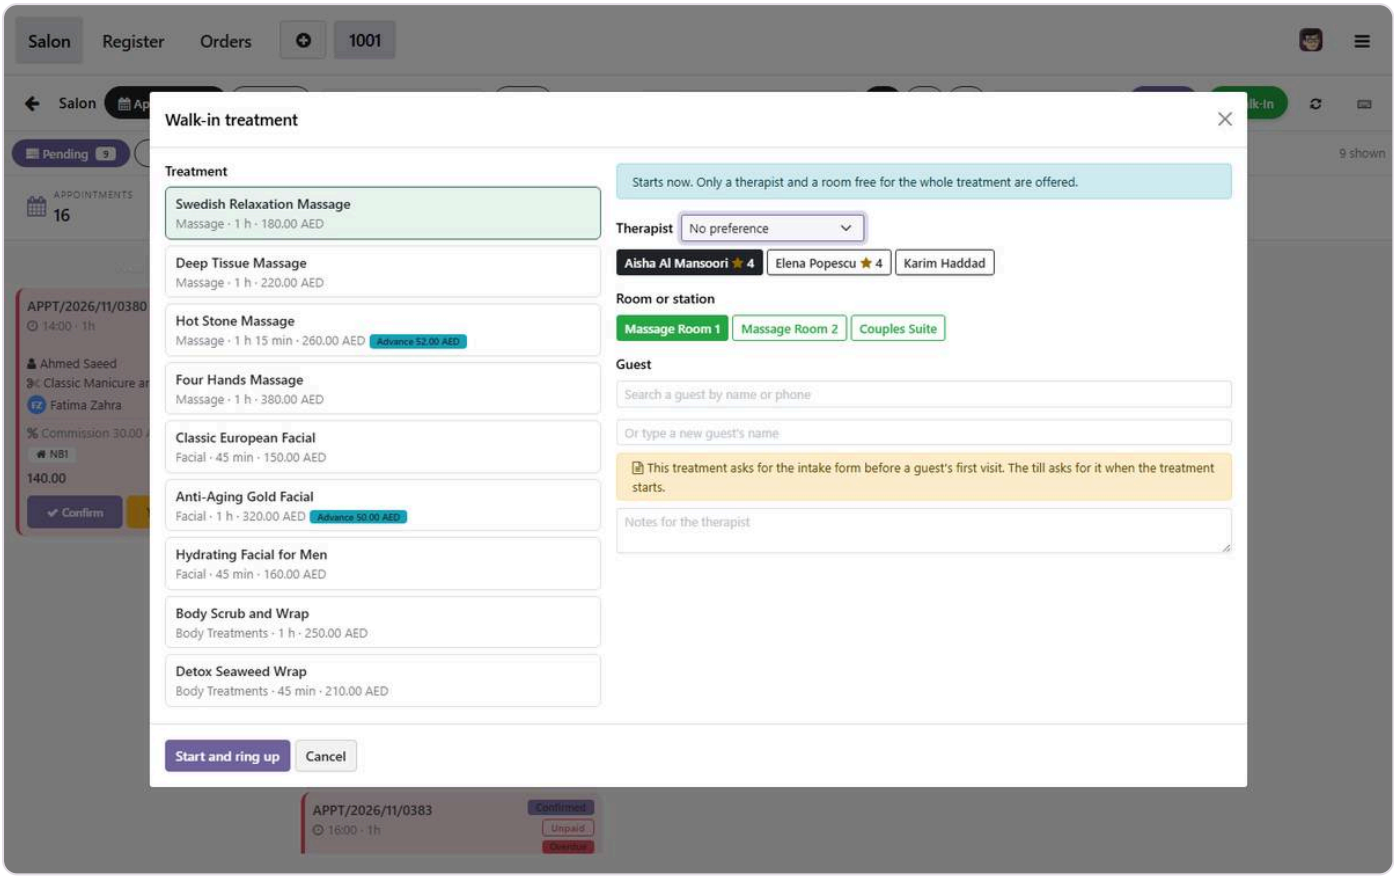

Pick the treatment (its length, price and advance are on the card), the day, then a free time where a therapist who gives it and a room it is given in are both free. Narrow by therapist or room and by the guest's therapist preference. Find or type the guest. Leave **Take the advance now** ticked to collect it at once.

If another till took that therapist or room a moment earlier, the booking is refused and nothing is saved.

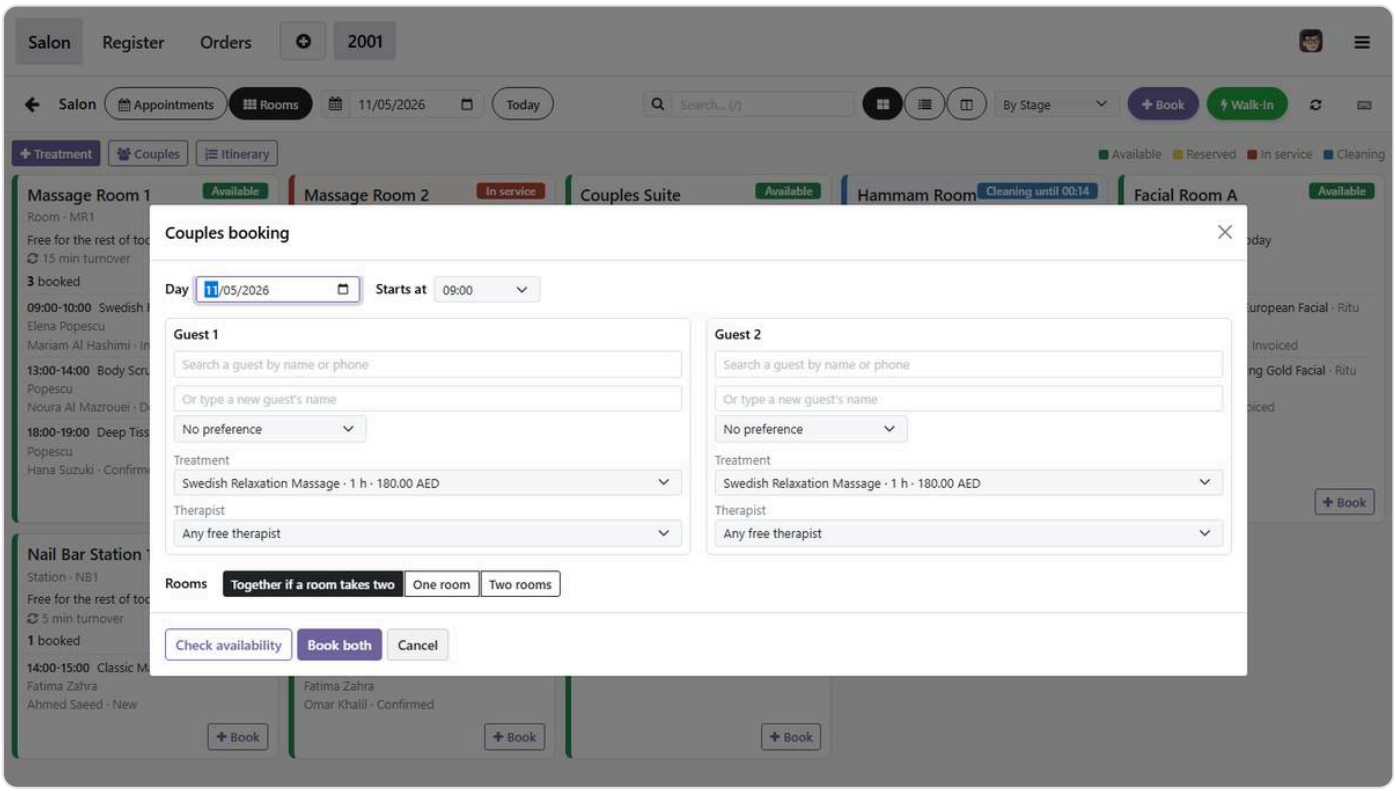

9 A walk-in

Only therapists and rooms free from now for the whole treatment are offered. **Start and ring up** starts the treatment and puts it on the order.

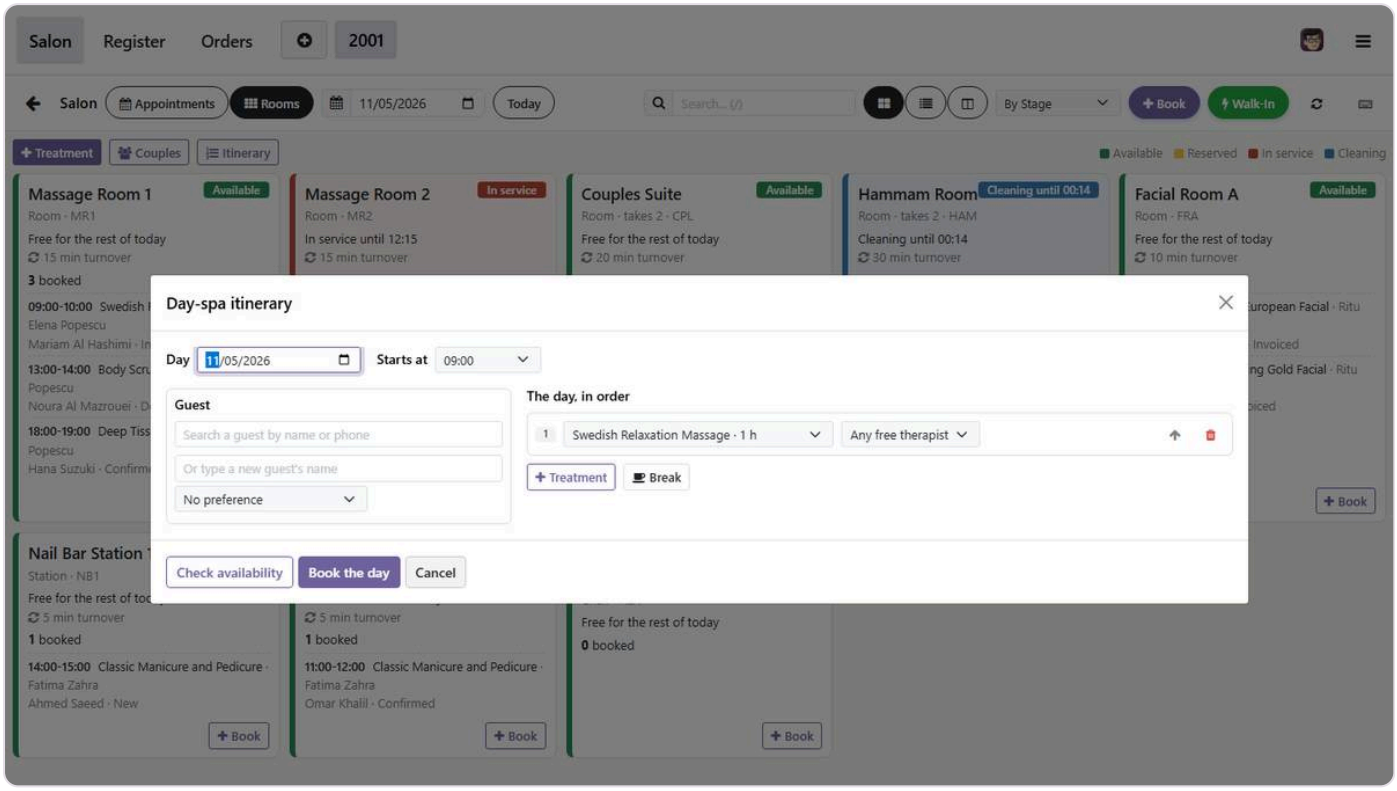

10 A couples booking

The day and start, then Guest 1 and Guest 2 each with a preference, a treatment and a therapist or any free one. Rooms: **Together if a room takes two**, **One room** or **Two rooms**. **Check availability** lays it out or says why it cannot; **Book both** books two treatments under one SPG reference, or none. Either card's Order puts both on one bill.

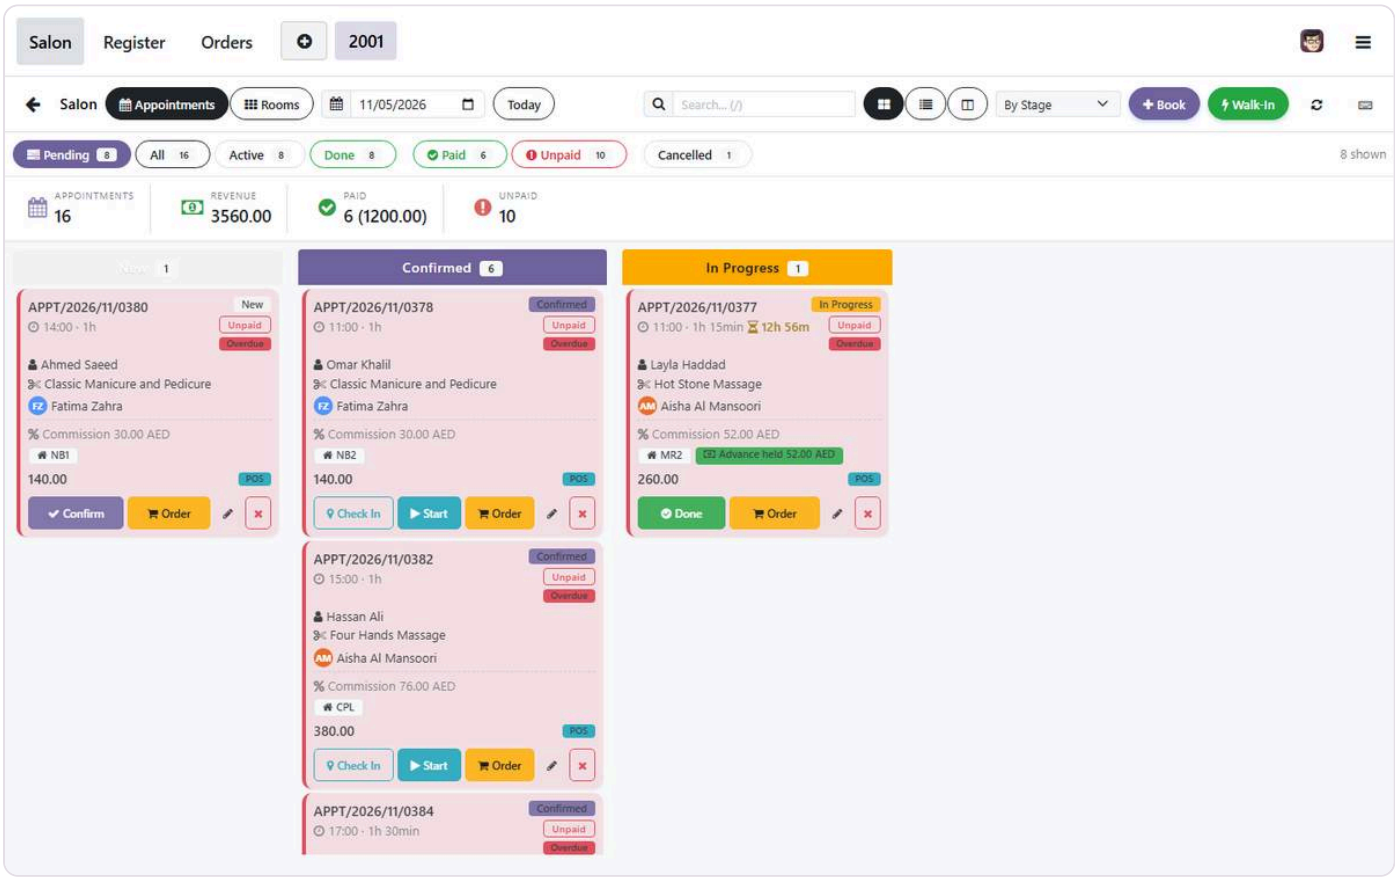

11 A day-spa itinerary

The guest, the day and the first start, then the day in order with **+ Treatment** and **Break**. **Check availability** times every step; **Book the day** books all of them or none.

12 The day's bookings

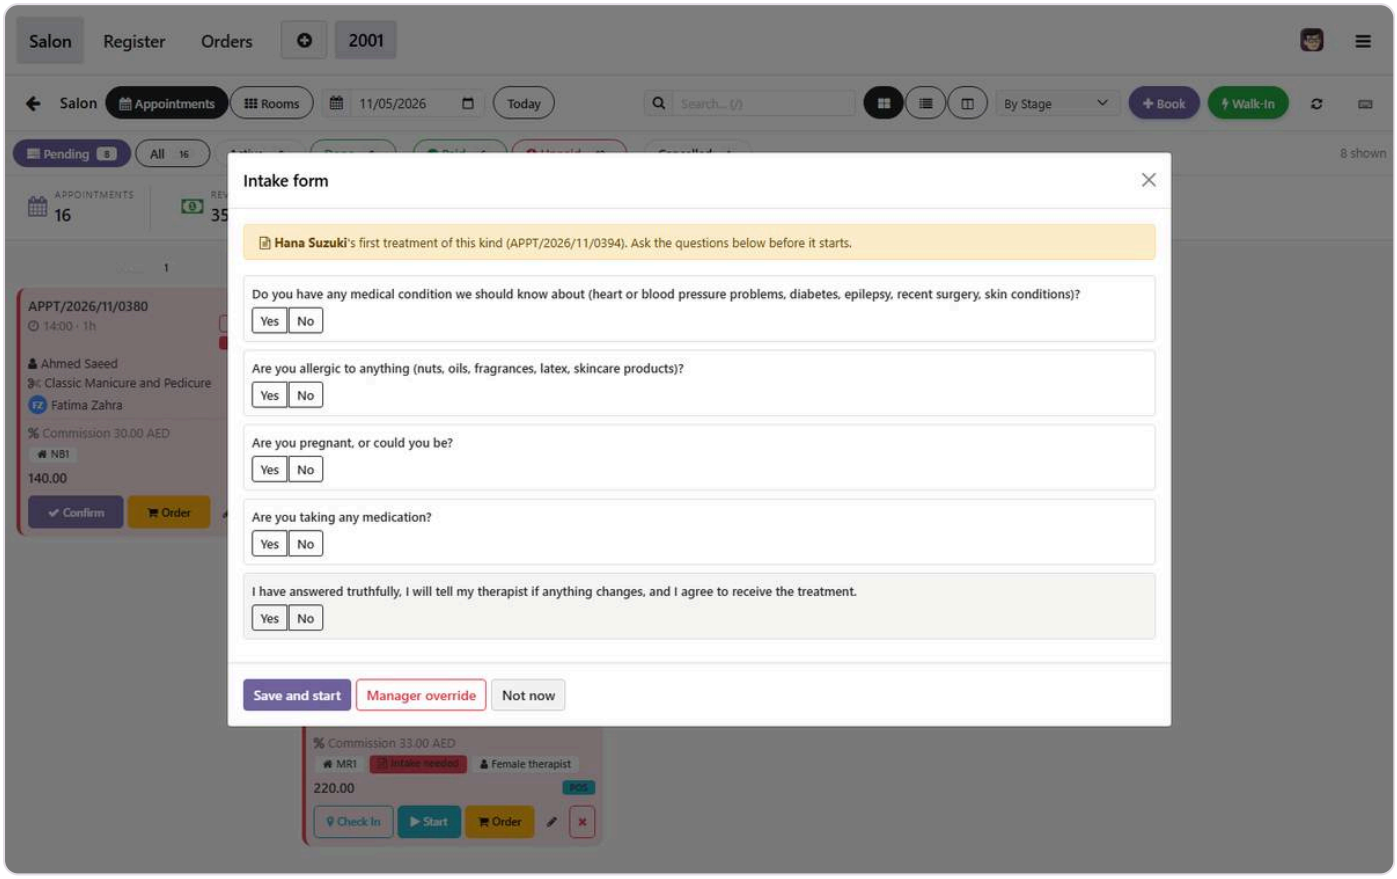

Appointments is POS Salon's board with spa badges: the room, advance held or due, Intake needed, the therapist preference, couples and Reviewed.

13 The intake form

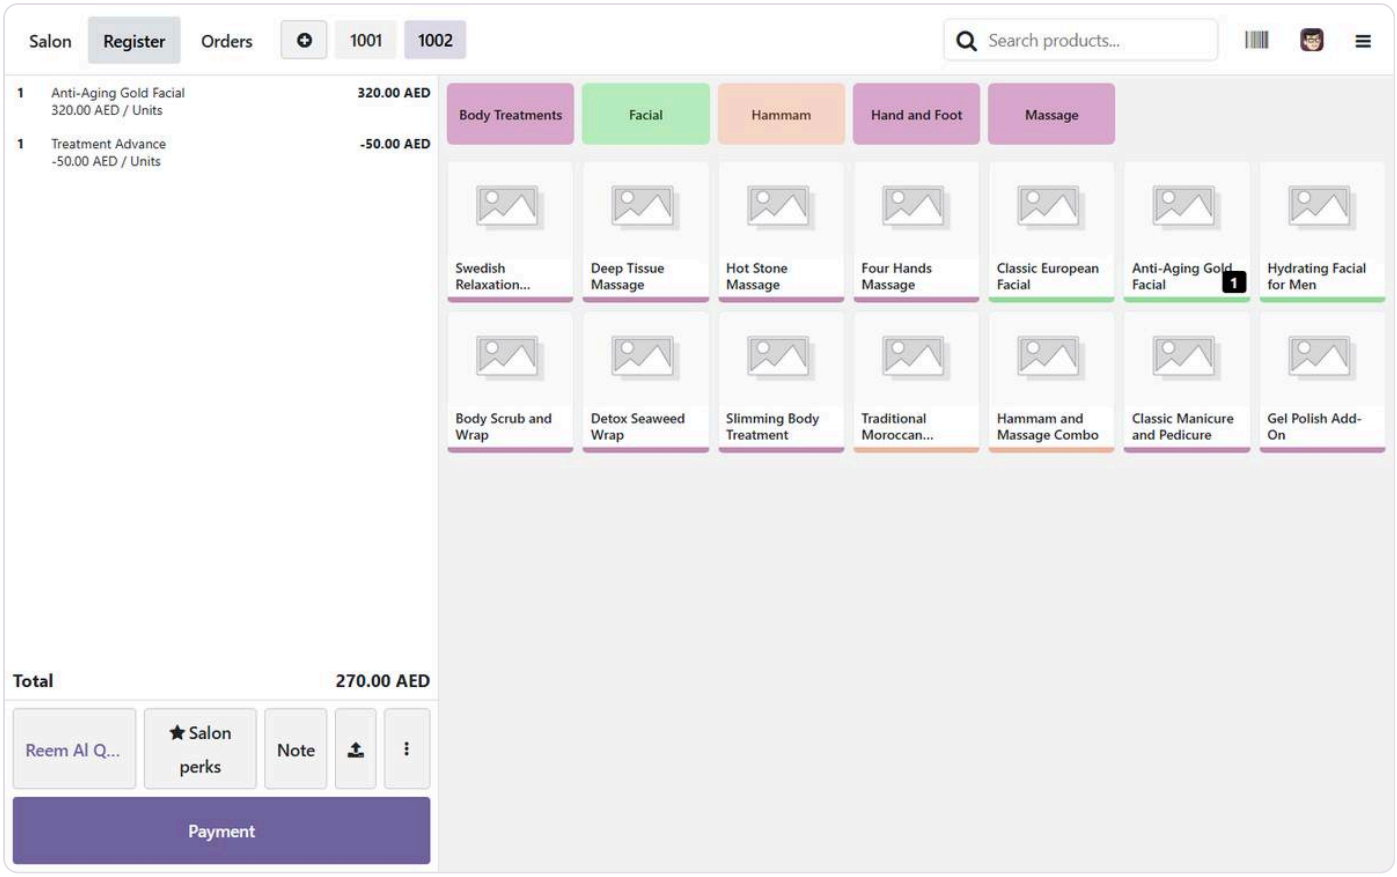

For a guest's first treatment in an intake category, **Start** opens the form: medical conditions, allergies, pregnancy, medication and consent, each Yes or No. **Save and start**. A Yes on a safety question sets an alert on the guest. A manager can press **Manager override** with a reason, kept on the booking.

The form records answers and a consent tick, not a drawn signature.

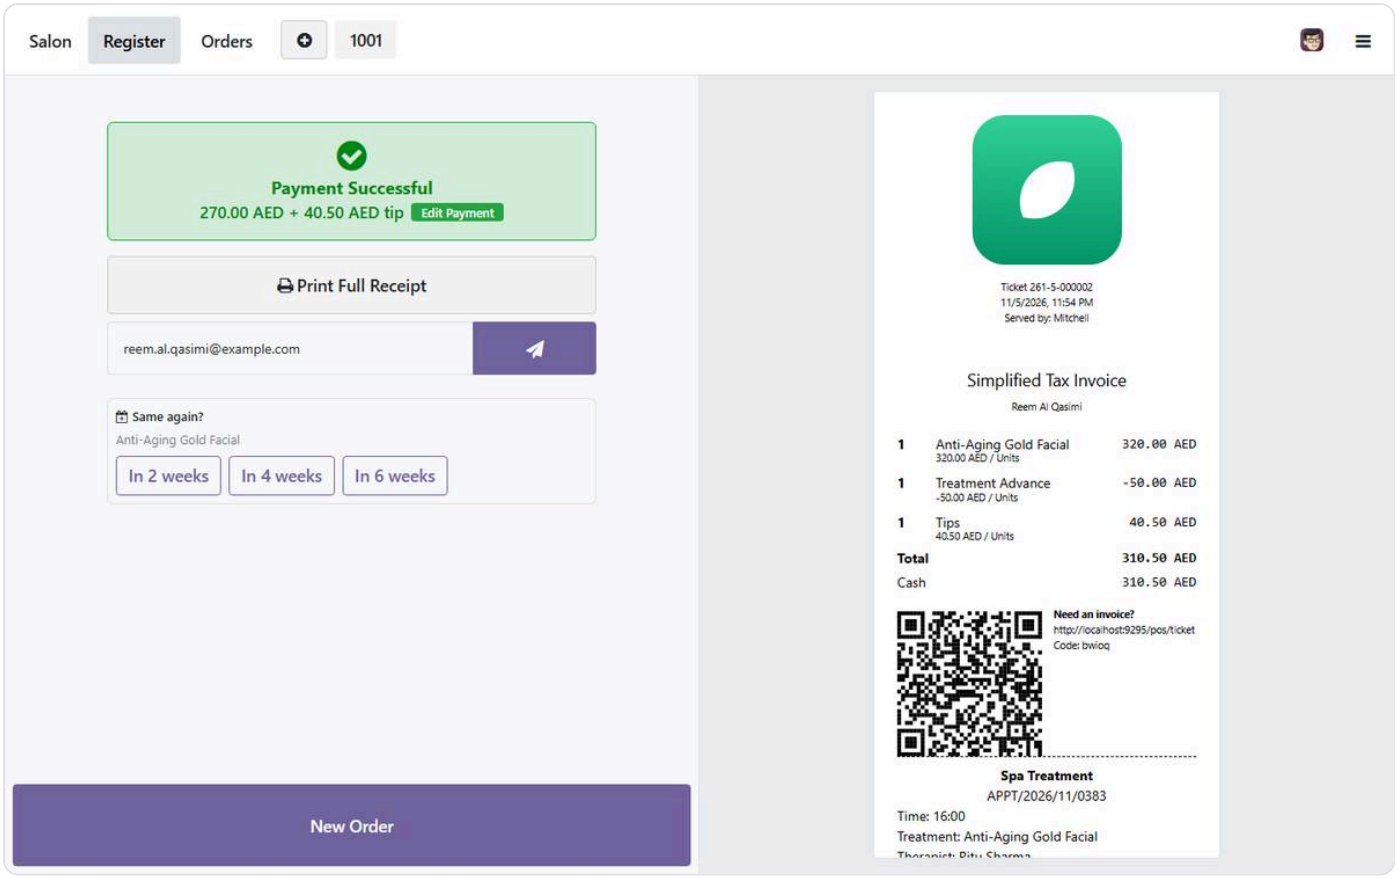

14 The advance comes off the bill

Loading the booking onto its bill adds the advance as a negative **Treatment Advance** line, so the guest pays the rest. The server refuses an order where the advance does not add up: never more than the treatment, only for the guest who booked, taken off exactly once.

15 The spa receipt

The salon block is headed **Spa Treatment**: reference, time, treatment, therapist, room and length, the tip for the therapist, and Same again in 2, 4 or 6 weeks.

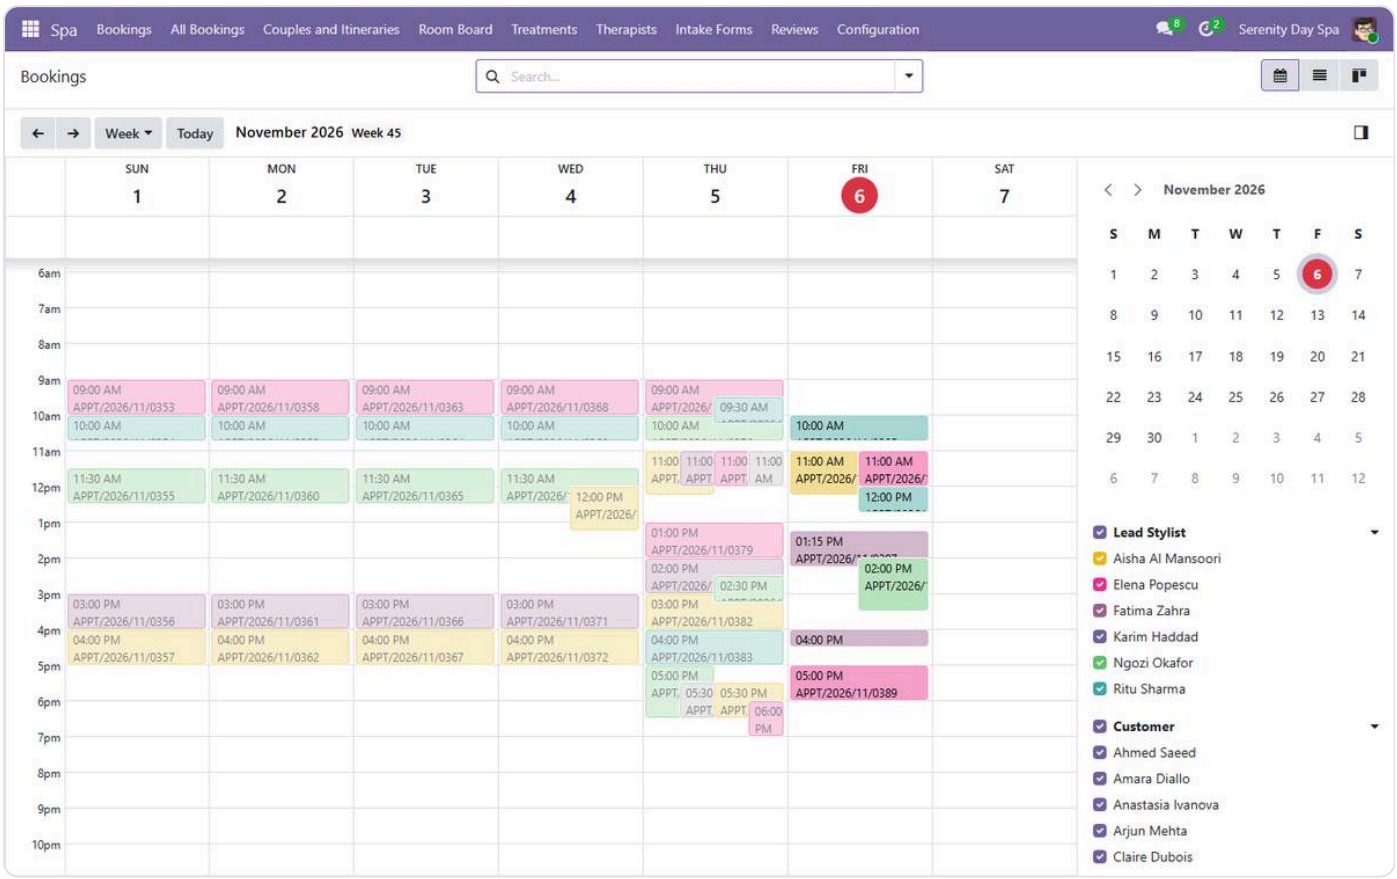

Reviews. A finished treatment shows a star button: one to five stars and a comment, one review per treatment and only once it is done. A therapist reads their own reviews only; only a manager can delete one. **Cancelling** a booking frees the room and therapist at once; if an advance was paid, the card offers **Refund advance**.

The Spa app

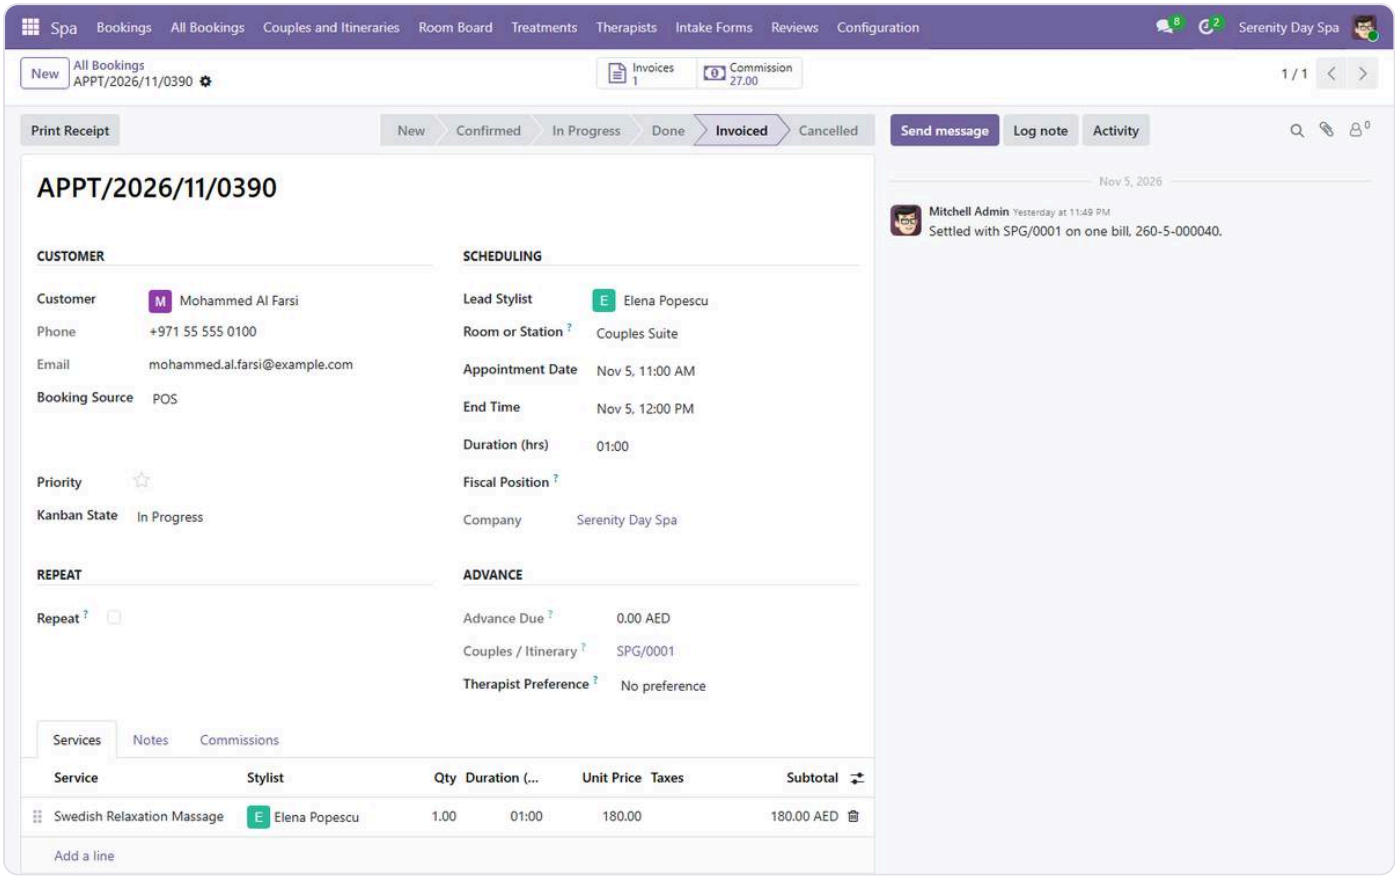

16 Spa, Bookings

The spa's bookings on the calendar; **All Bookings** as a list. They are salon appointments, so invoicing, commission and reports cover them.

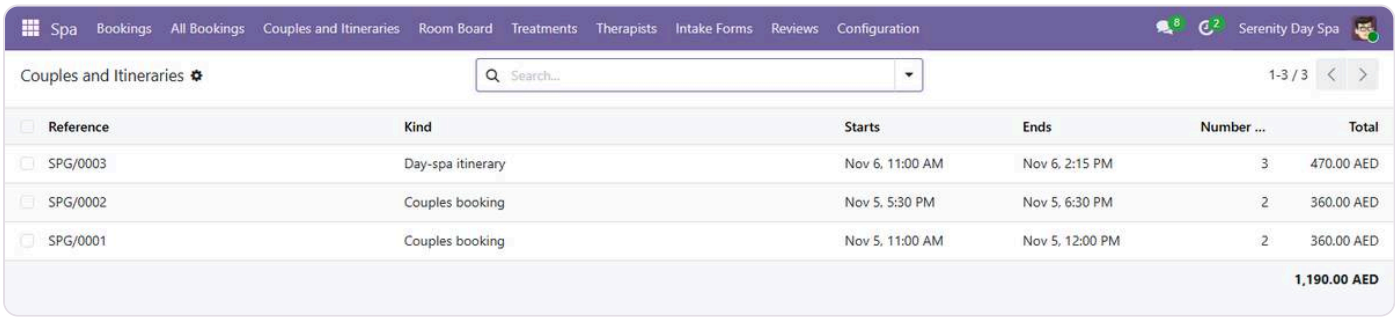

17 A spa booking

The appointment with its spa fields: couples or itinerary group, therapist preference, intake, and the advance kept apart as Advance Due, Advance Collected, Advance Settled By and Advance Held.

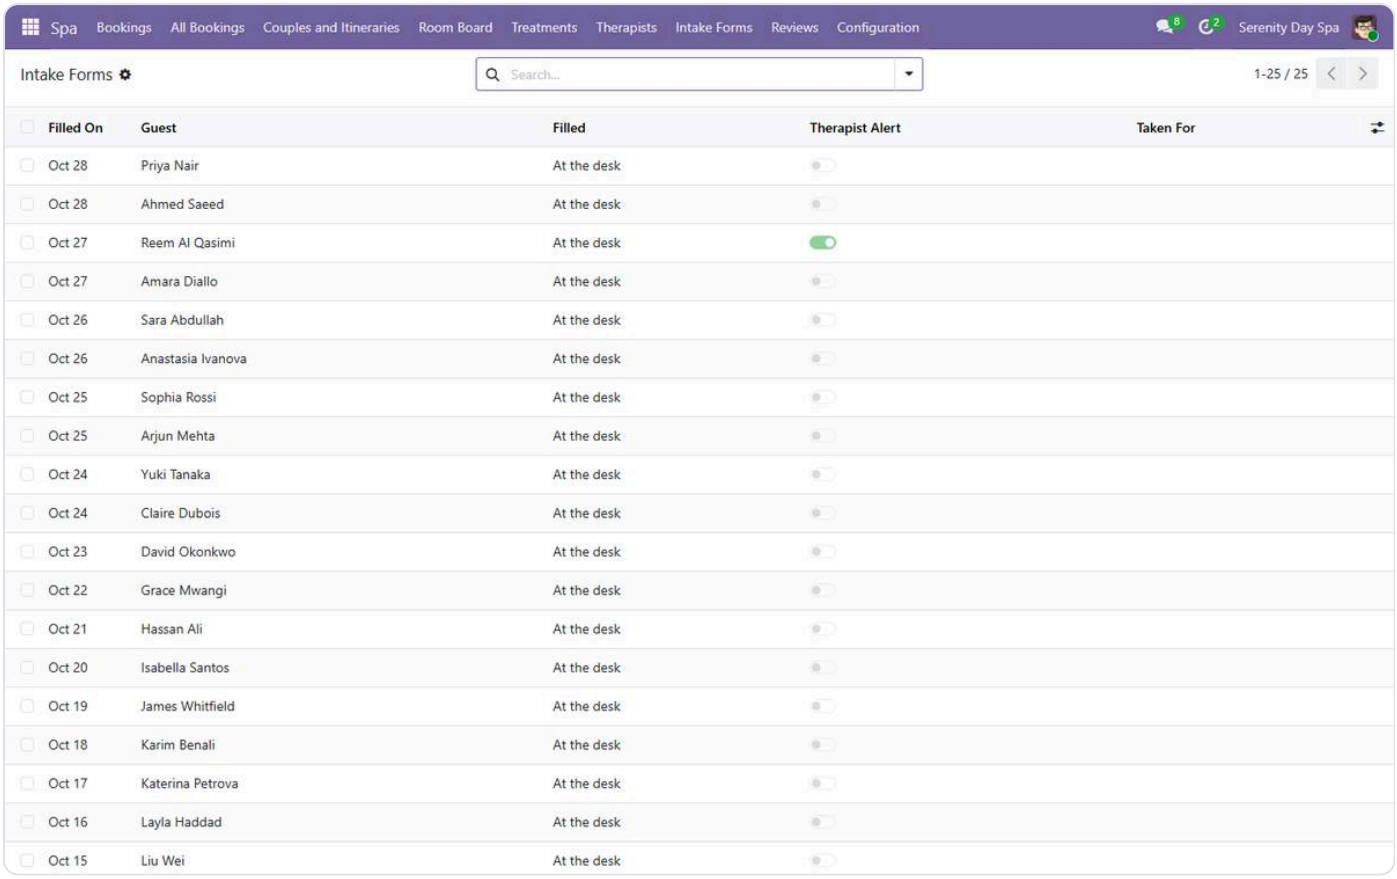

18 Couples and Itineraries

Every group with its kind, treatments, start, end and total.

19 Intake forms

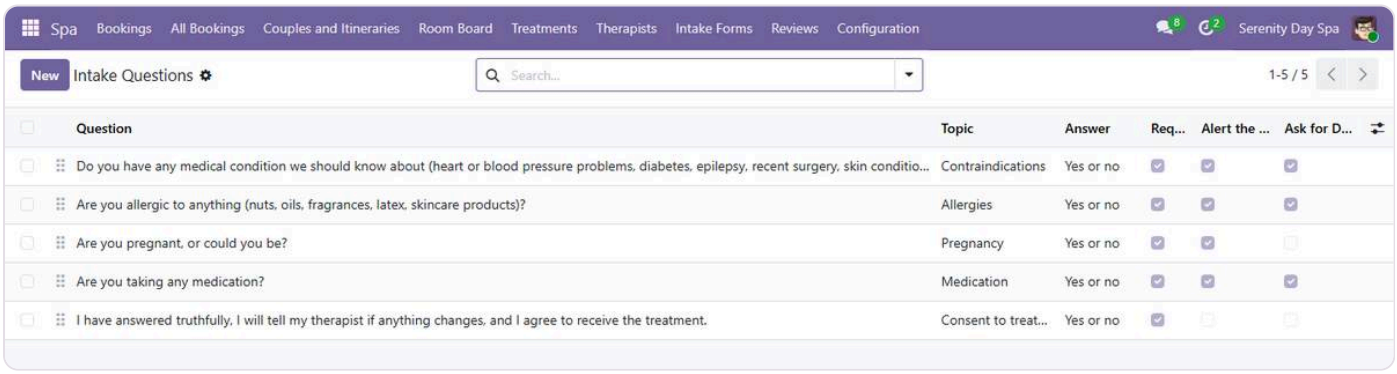

Every form filled in, with the guest, the treatment it was taken for, at the desk or on the portal, consent and alert.

Filled On	Guest	Filled	Therapist Alert	Taken For
Oct 28	Priya Nair	At the desk		
Oct 28	Ahmed Saeed	At the desk		
Oct 27	Reem Al Qasimi	At the desk		
Oct 27	Amara Diallo	At the desk		
Oct 26	Sara Abdullah	At the desk		
Oct 26	Anastasia Ivanova	At the desk		
Oct 25	Sophia Rossi	At the desk		
Oct 25	Arjun Mehta	At the desk

PART 14 Loyalty, packages, memberships and gift cards LOYALTY

The add-on is what brings a customer back, and it handles every way a customer has already paid: points, a pre-paid session, a gift card or a deposit. Each reaches the invoice once, and never more than the bill.

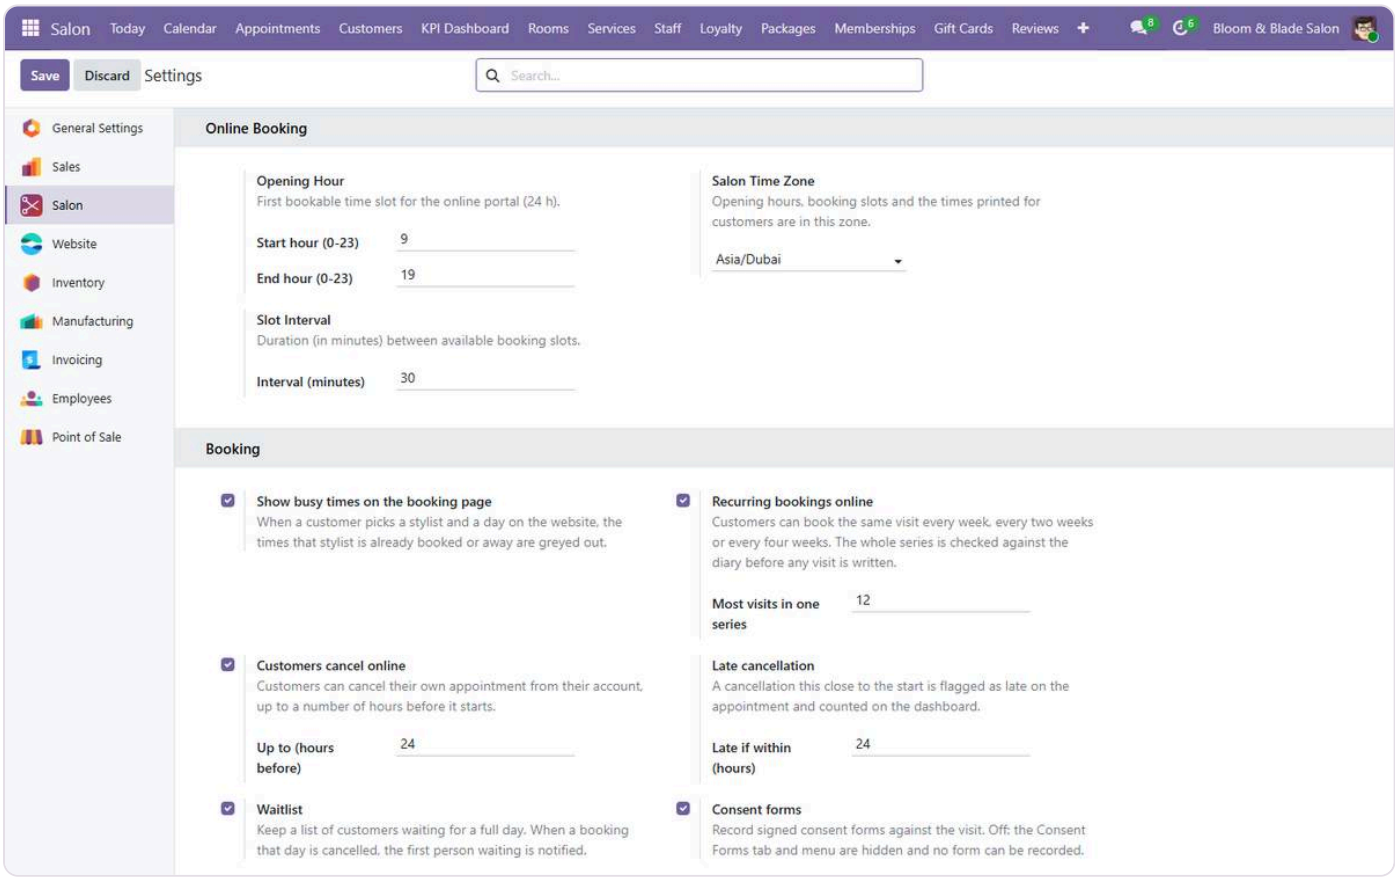

IN THIS PART YOU WILL LEARN

- Switching the features on
- Points, tiers and cards
- Packages, memberships with a minimum term, and gift cards
- Deposits and the Balance Due
- Photos, consent, notes, reviews and the waitlist
- The KPI dashboard and the money held reports

1 Turn the features on

Settings, Salon section, below the base module's: **Booking** (busy times online, recurring bookings online, online cancellation and its hours, late cancellation, waitlist, consent, photos, products used), **Deposits and payments** (deposit percentage, a Stripe key for paying it online), **Loyalty** (and a referral bonus), **Packages and memberships**, **Gift cards**, **Reviews** (and a review request email), **Messaging** (reminder, birthday and win-back emails, SMS, WhatsApp, phone check by WhatsApp) and **Automation** (confirm and pay commission after a set time).

Loyalty, packages, gift cards, reviews and the waitlist start on; the rest start off. A feature switched off takes its menu and tab with it and refuses to create its records.

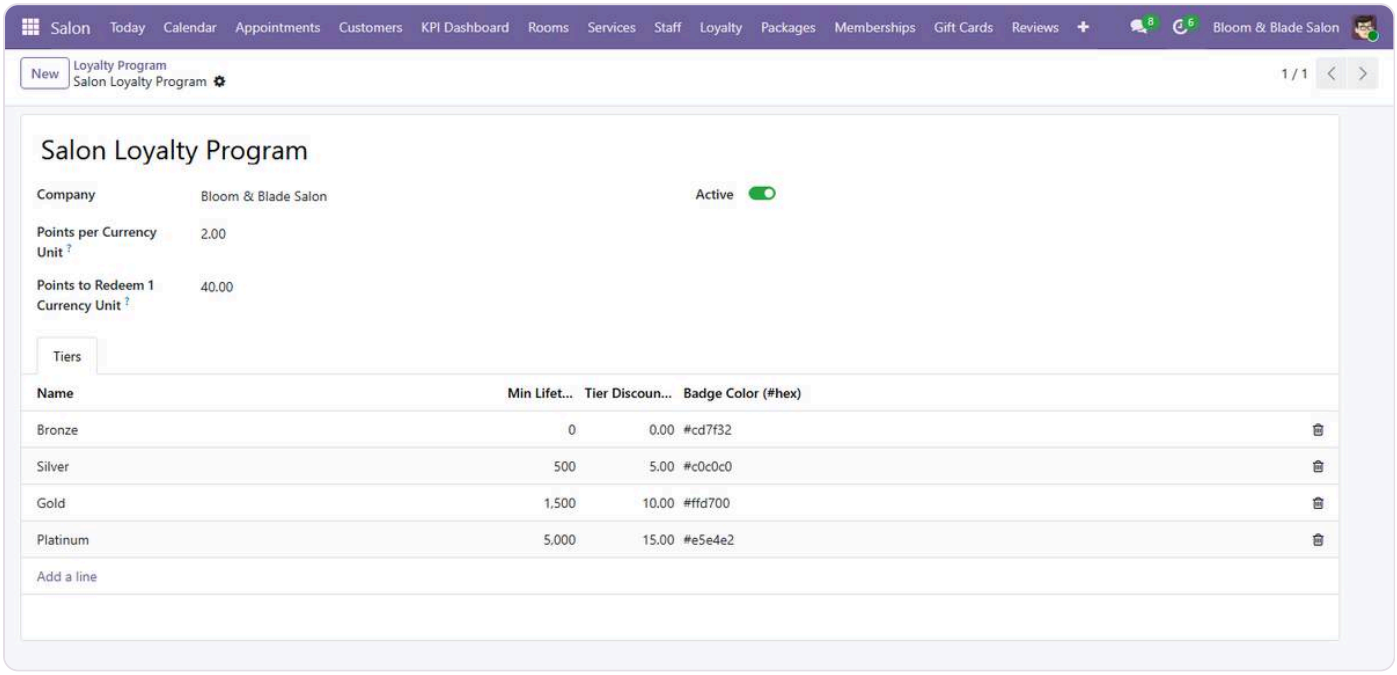

Points and tiers

2 The programme

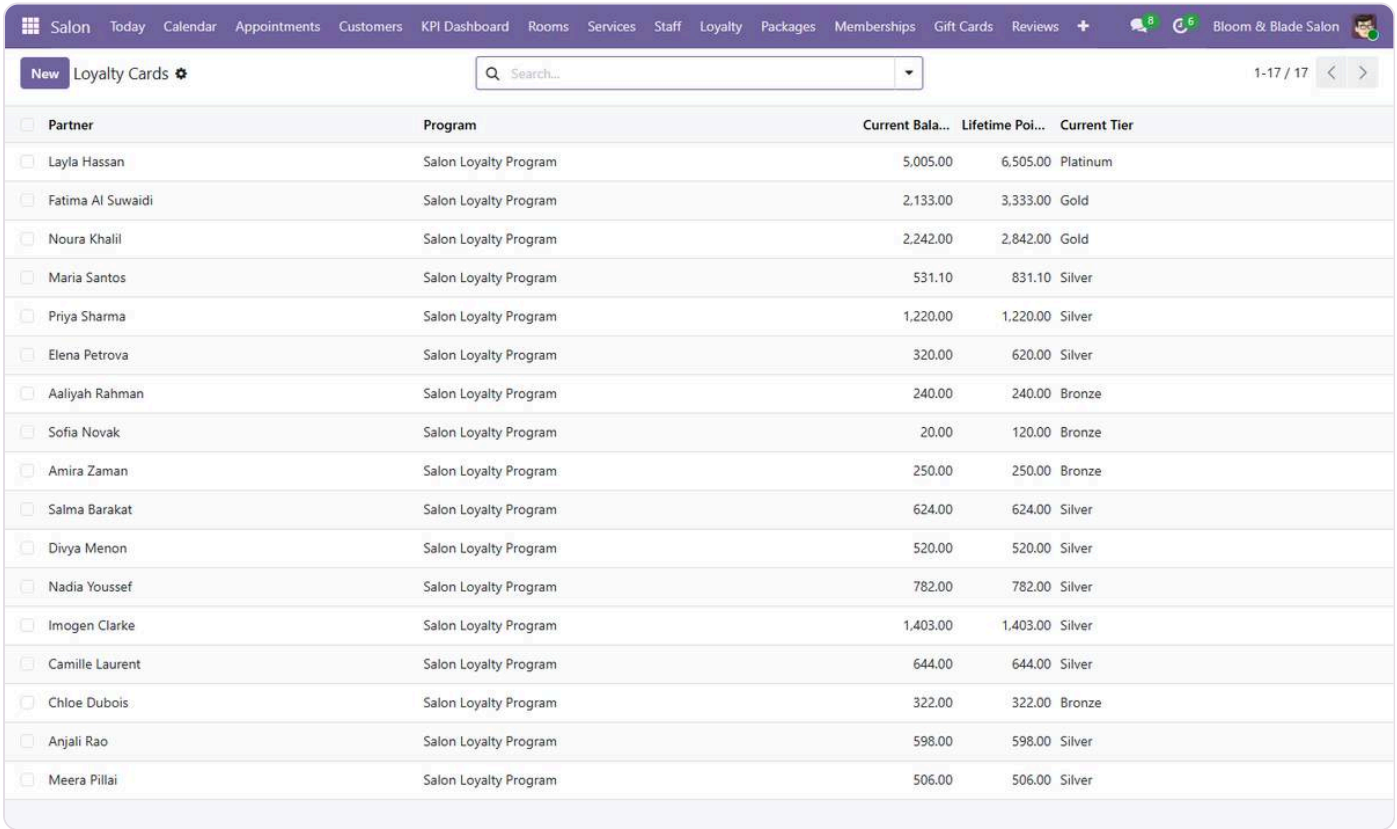

Salon, Loyalty, **Program Setup**. **Points per Currency Unit** (at 2, a 300 bill earns 600) and **Points to Redeem 1 Currency Unit** (at 40, those 600 are worth 15). The **Tiers** tab: each tier's minimum lifetime points, discount and badge colour.

Lifetime points decide the tier, not the balance, so spending points never drops a tier.

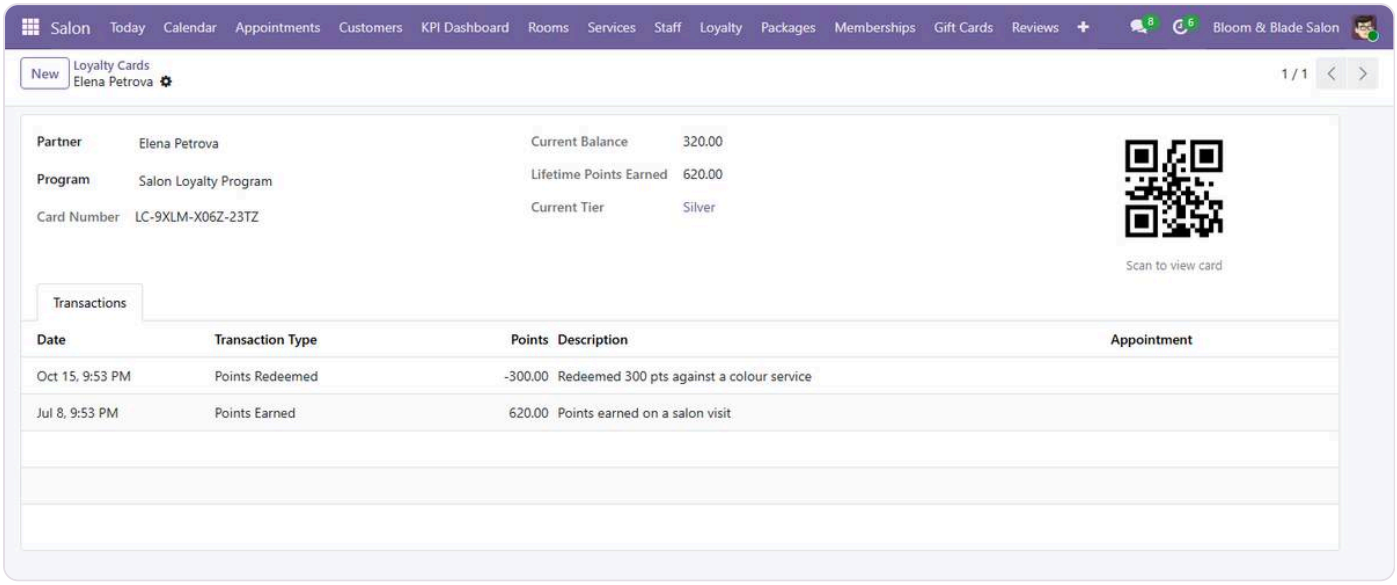

3 Customer cards

Salon, Loyalty, **Customer Cards**: one per customer, opened automatically on their first invoiced visit, with current balance, lifetime points and tier.

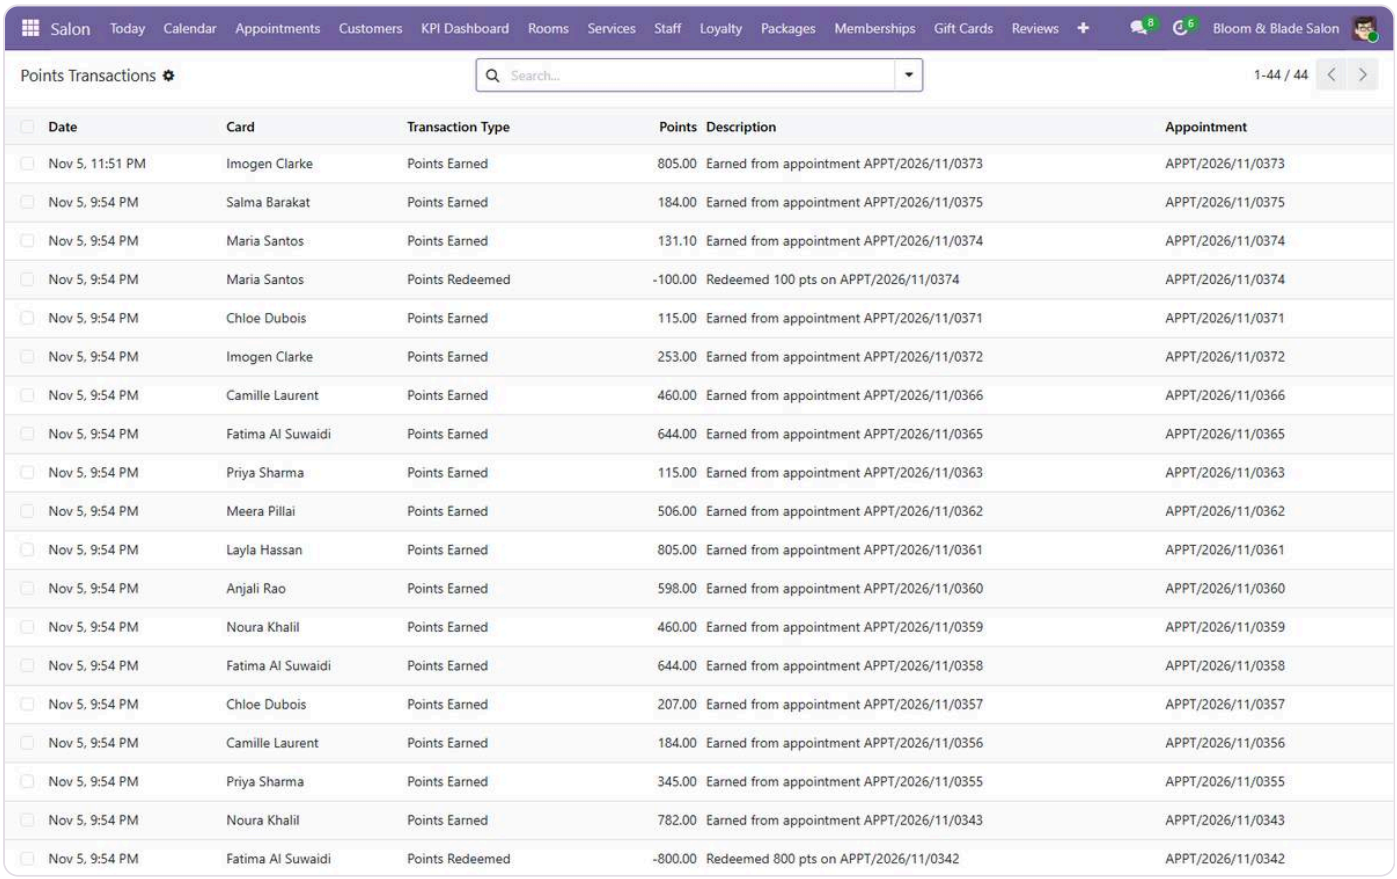

4 A card

The card number, the QR code staff can scan and every transaction behind the balance. A manual adjustment is the only row you create yourself, and it moves the lifetime total too.

5 Points transactions

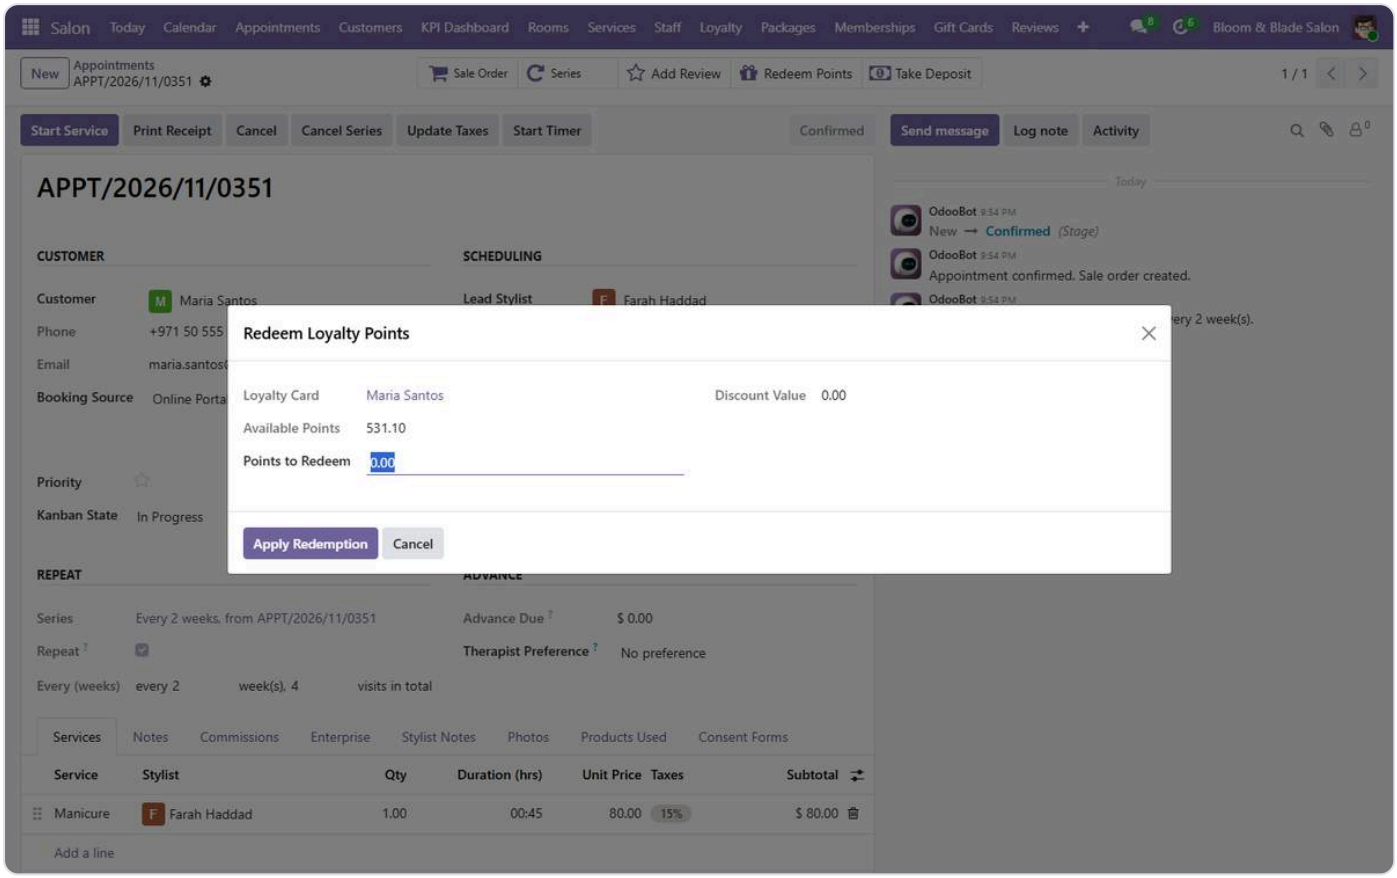

Every movement: Points Earned, Points Redeemed, Redemption Returned, Manual Adjustment and Points Expired.

6 Redeem points on a visit

Redeem Points on the appointment shows the points available; type how many, see the discount, confirm. It lands as **Loyalty Discount**.

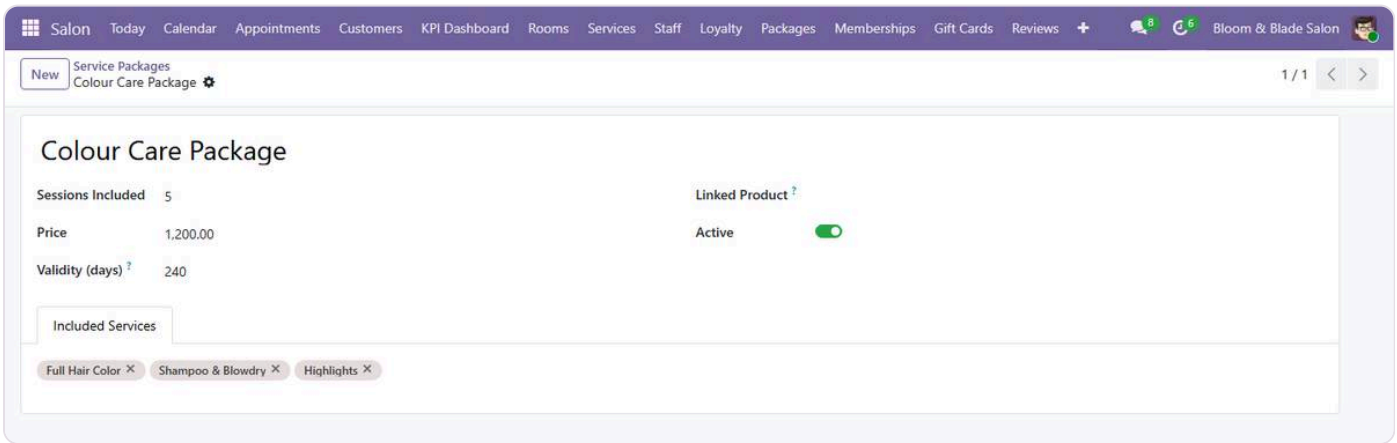

Refused: more points than the card holds, more than the bill, a second redemption on the same visit, or a cancelled or invoiced visit.

Packages

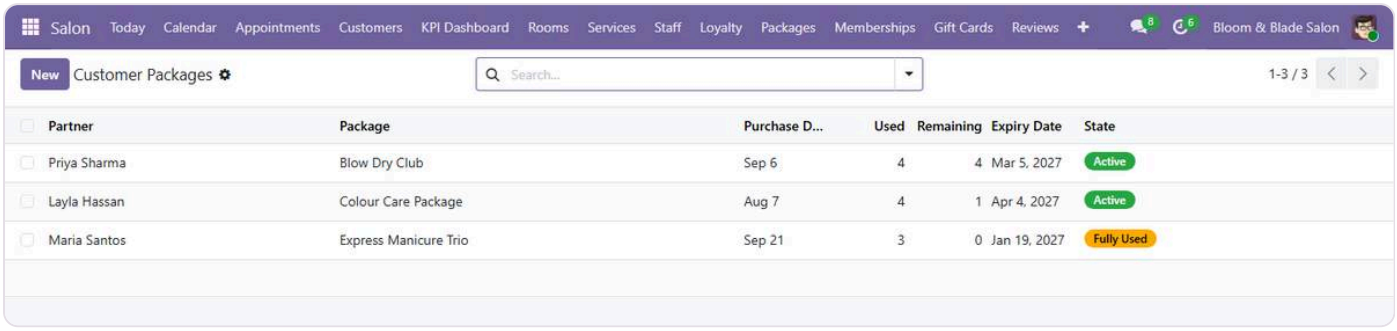

7 A package template

Salon, Packages, **Package Templates**: **Sessions Included**, **Price**, **Validity (days)** (0 for none), the **Linked Product** used to invoice it and the services that count as a session (empty for any).

8 Customer packages

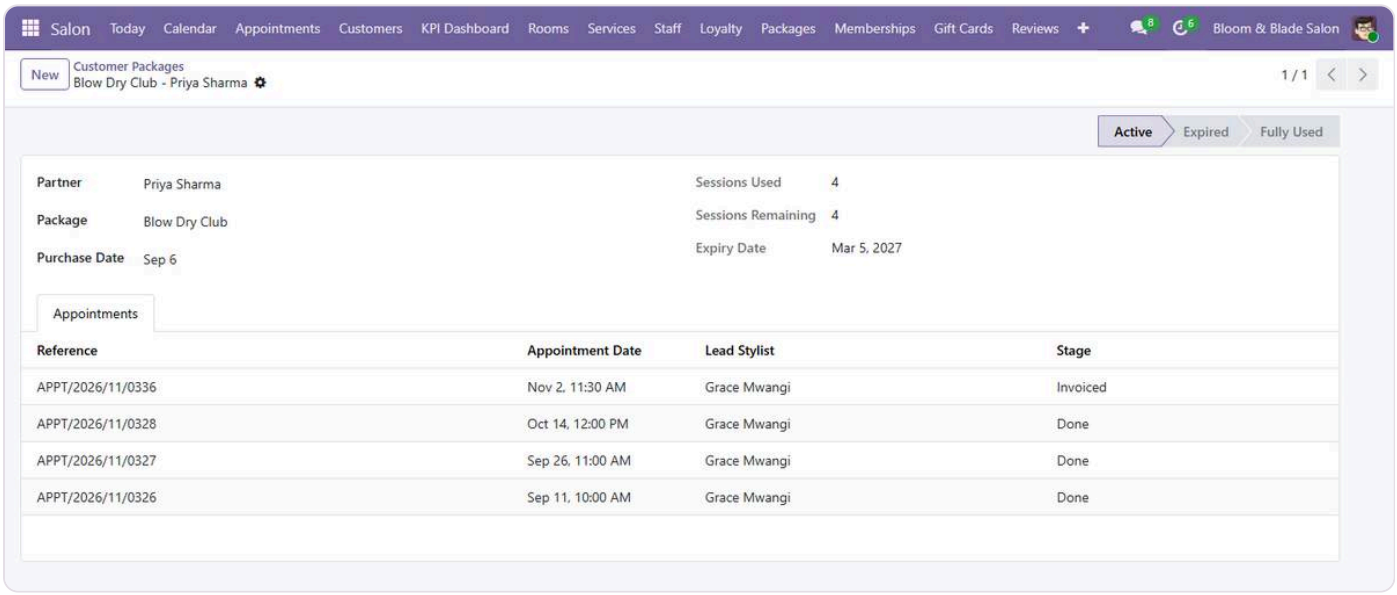

Sell one under **Customer Packages**: customer, package, purchase date; expiry works itself out. Sessions used is a count of real visits. The status turns Fully Used on the last session and Expired on the expiry date.

9 A package in use

The Appointments tab lists the visits that used the sessions. On a visit, pick the package on the **Enterprise** tab: the covered services show as **Covered by Package** and only the rest is billed. Cancel the visit and the session comes back.

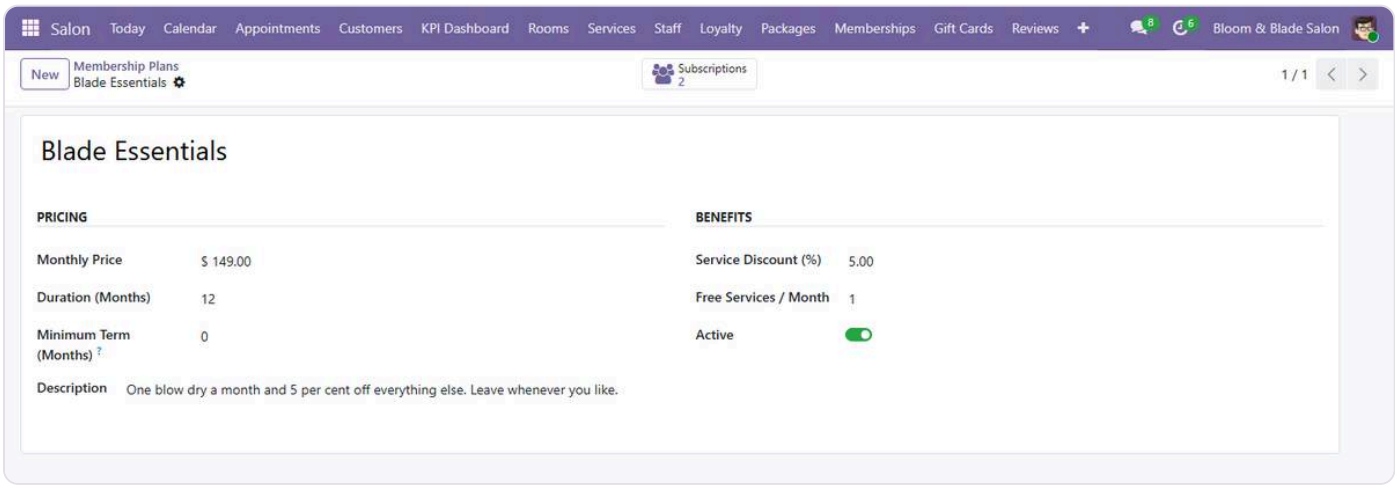

A package with no session left, past its expiry, or belonging to another customer is refused.

Memberships

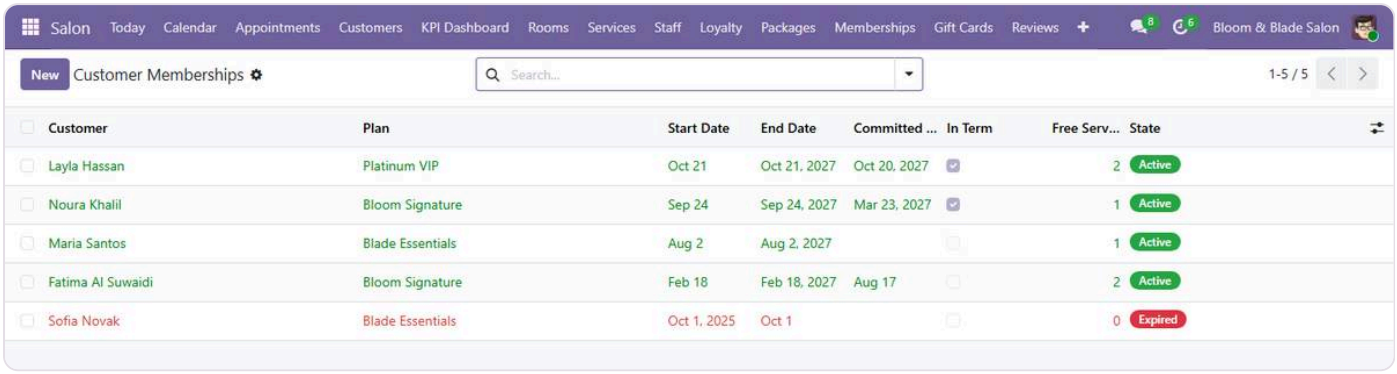

10 A plan

Salon, Memberships, **Membership Plans**: monthly price, duration, **Minimum Term (Months)**, service discount and free services a month.

11 Customer subscriptions

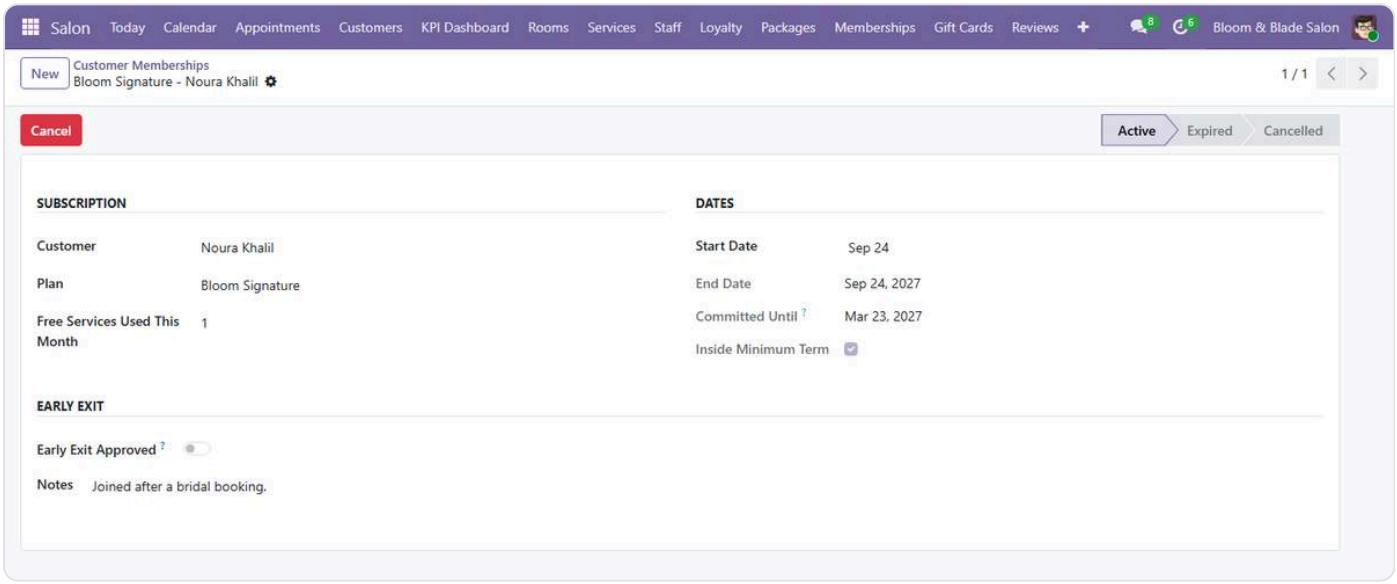

Each subscription shows start and end, **Committed Until** and **Inside Minimum Term**.

12 Cancelling inside the term

Cancel is refused inside the minimum term, naming the date it ends. Only a manager can tick **Early Exit Approved** with a reason, and then it goes through. **Renew** extends it.

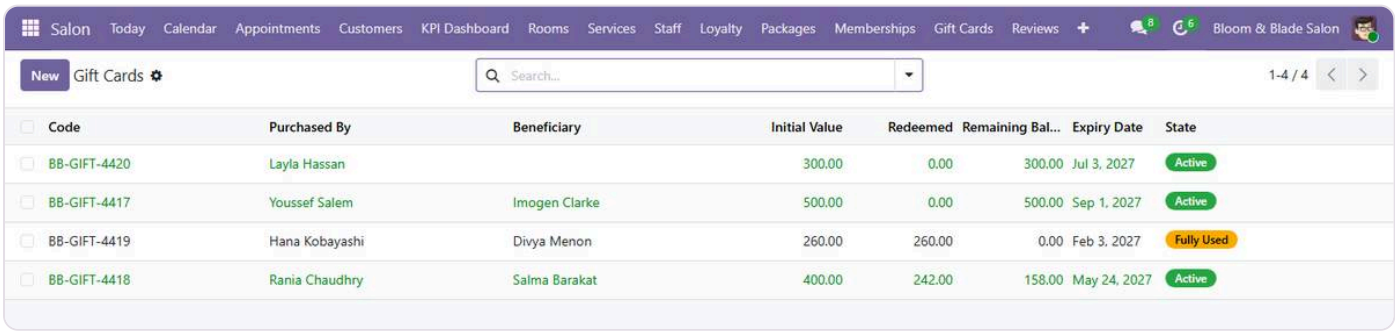

The plan holds the price; collecting the monthly fee is outside the module.

Gift cards

13 Gift cards

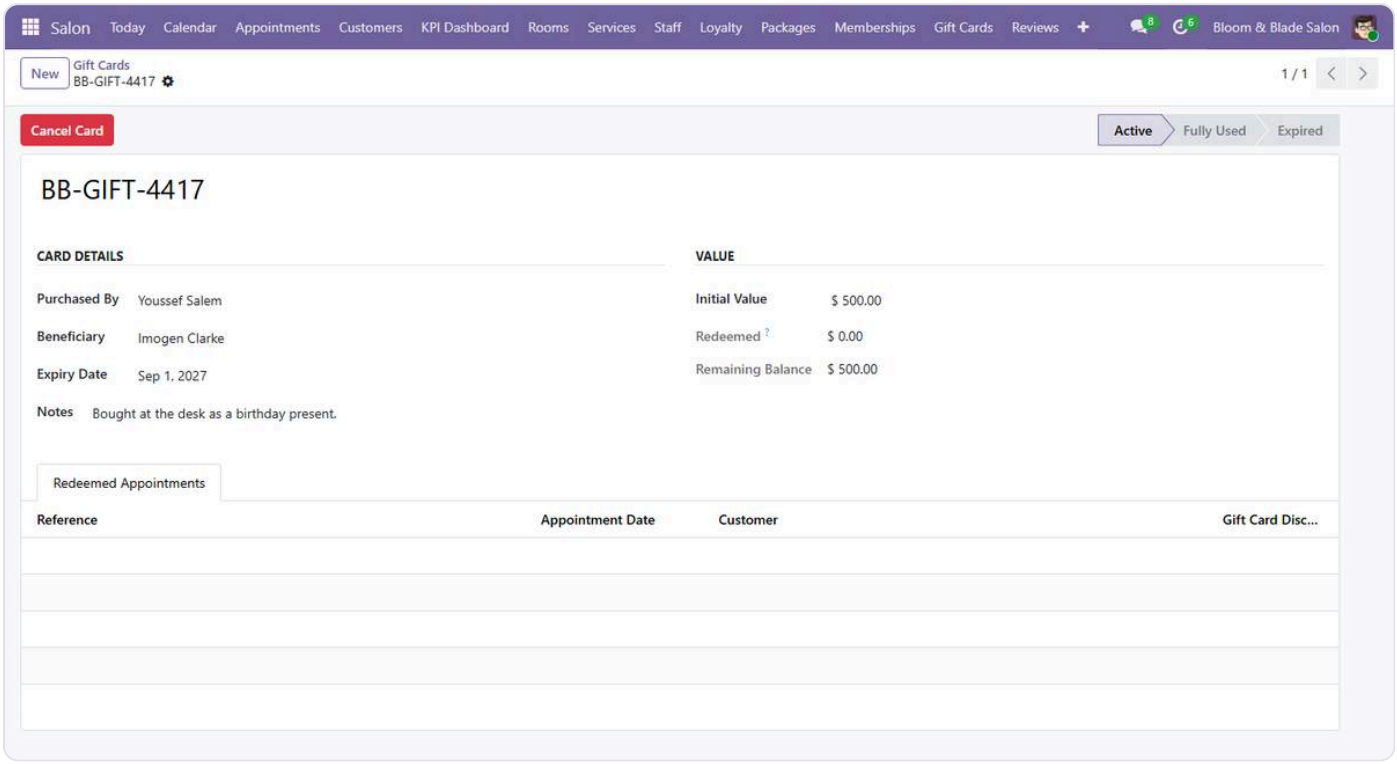

Salon, **Gift Cards**: code, bought by, for, initial value, redeemed, remaining balance, expiry and state.

14 A gift card

A code is generated or typed; two cards cannot share one. Redeem on a visit's Enterprise tab: pick the card, type the amount. Cancelling the visit puts the amount back. Cancel and Reset to Active on the card.

Refused: more than the card has left, past its expiry, a cancelled card, or more than the bill.

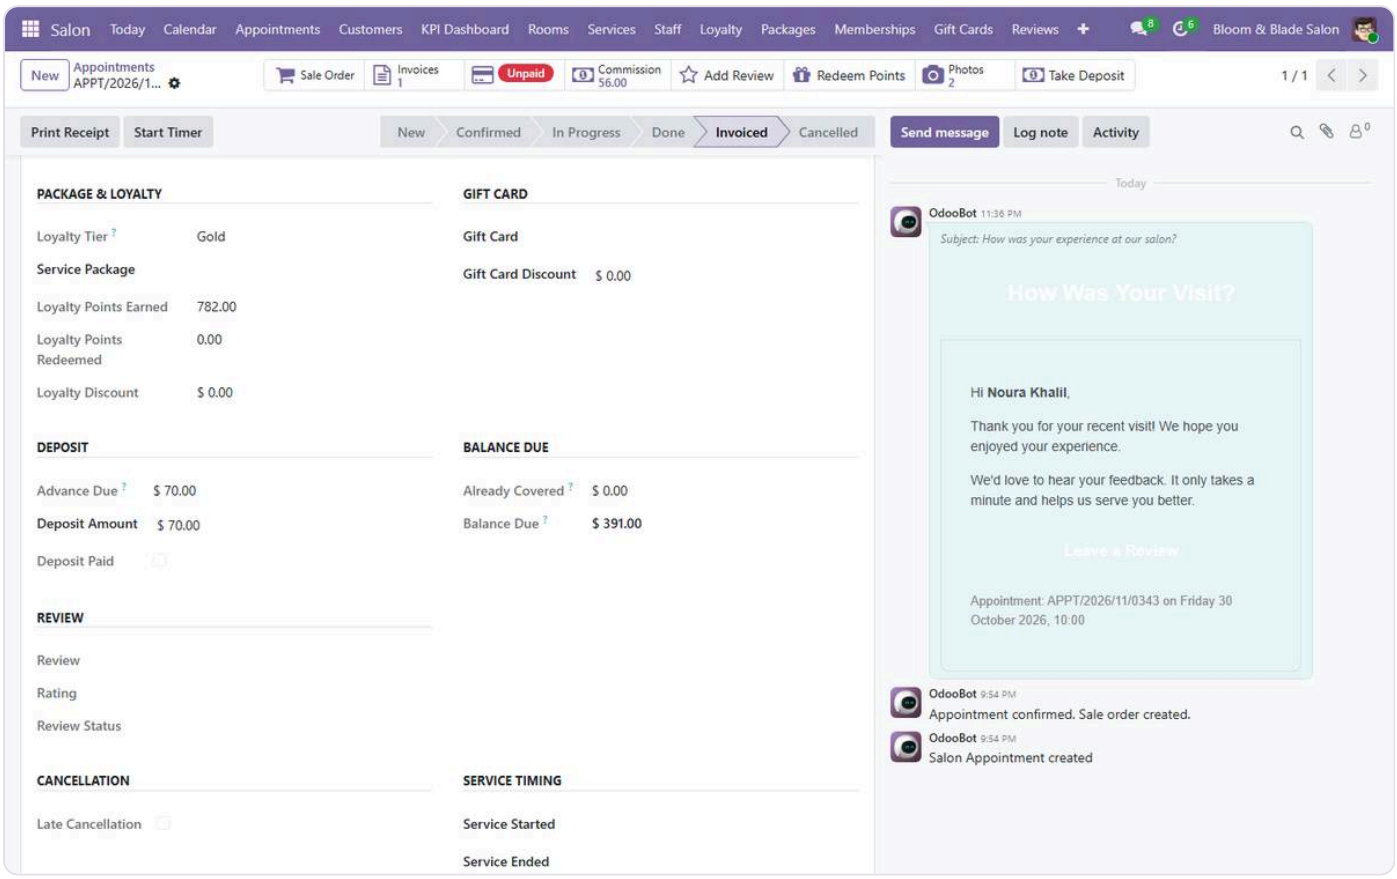

Deposits and what the customer still owes

15 The Enterprise tab

The one screen to learn. Total, **Covered by Package**, **Gift Card Discount**, **Loyalty Discount**, **Deposit Amount** and **Deposit Paid**, **Already Covered** (the four added up), **Balance Due** and **Carried onto Invoice**.

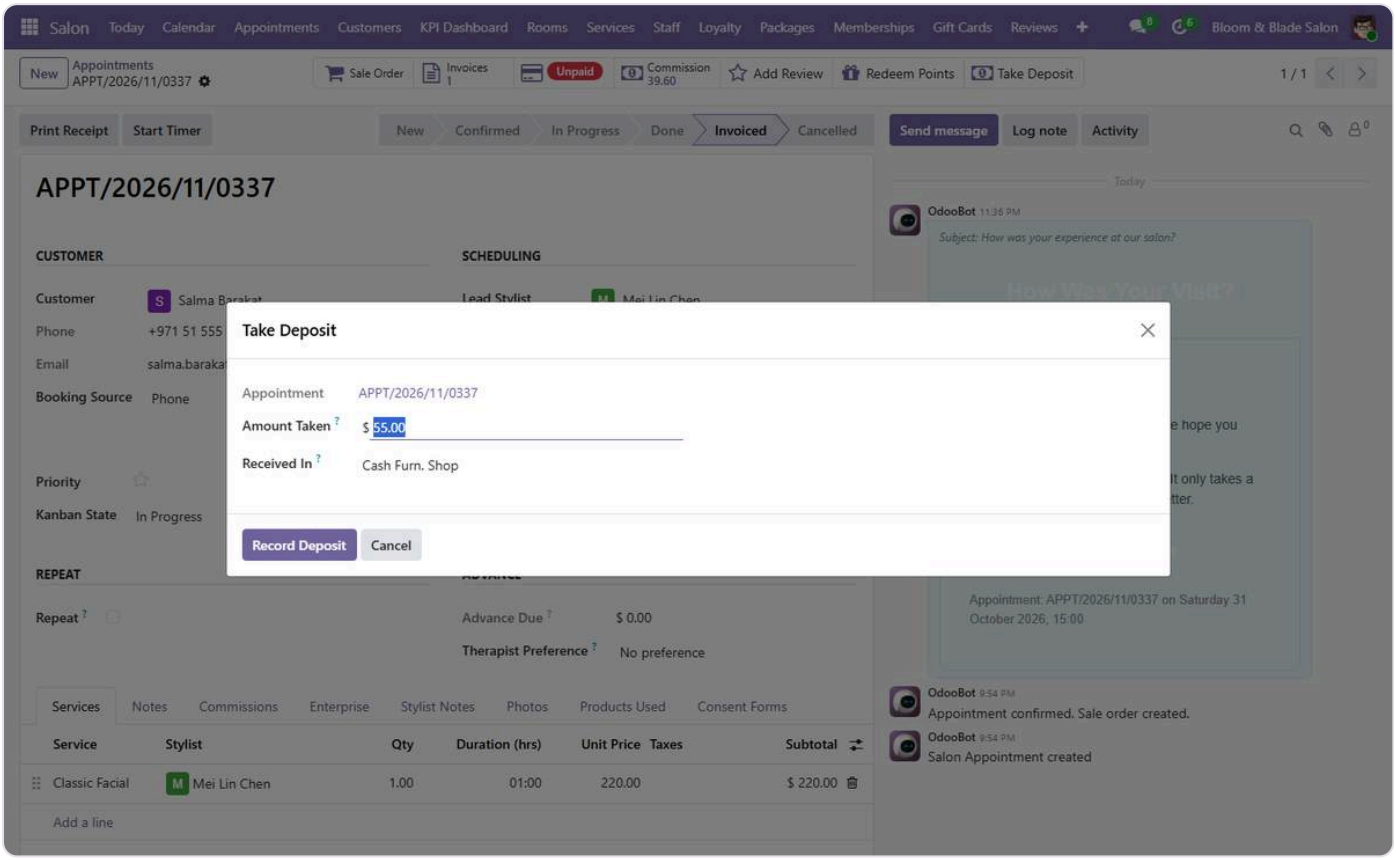

Nothing is credited beyond the total: if the four come to more than the bill, the save is refused and says by how much.

16 Take Deposit

The deposit is the service's advance, or the Settings percentage when the services carry none. **Take Deposit**: check the amount, pick the cash or bank journal. A payment is posted, the Balance Due drops, and on invoicing the deposit goes on as its own line, once.

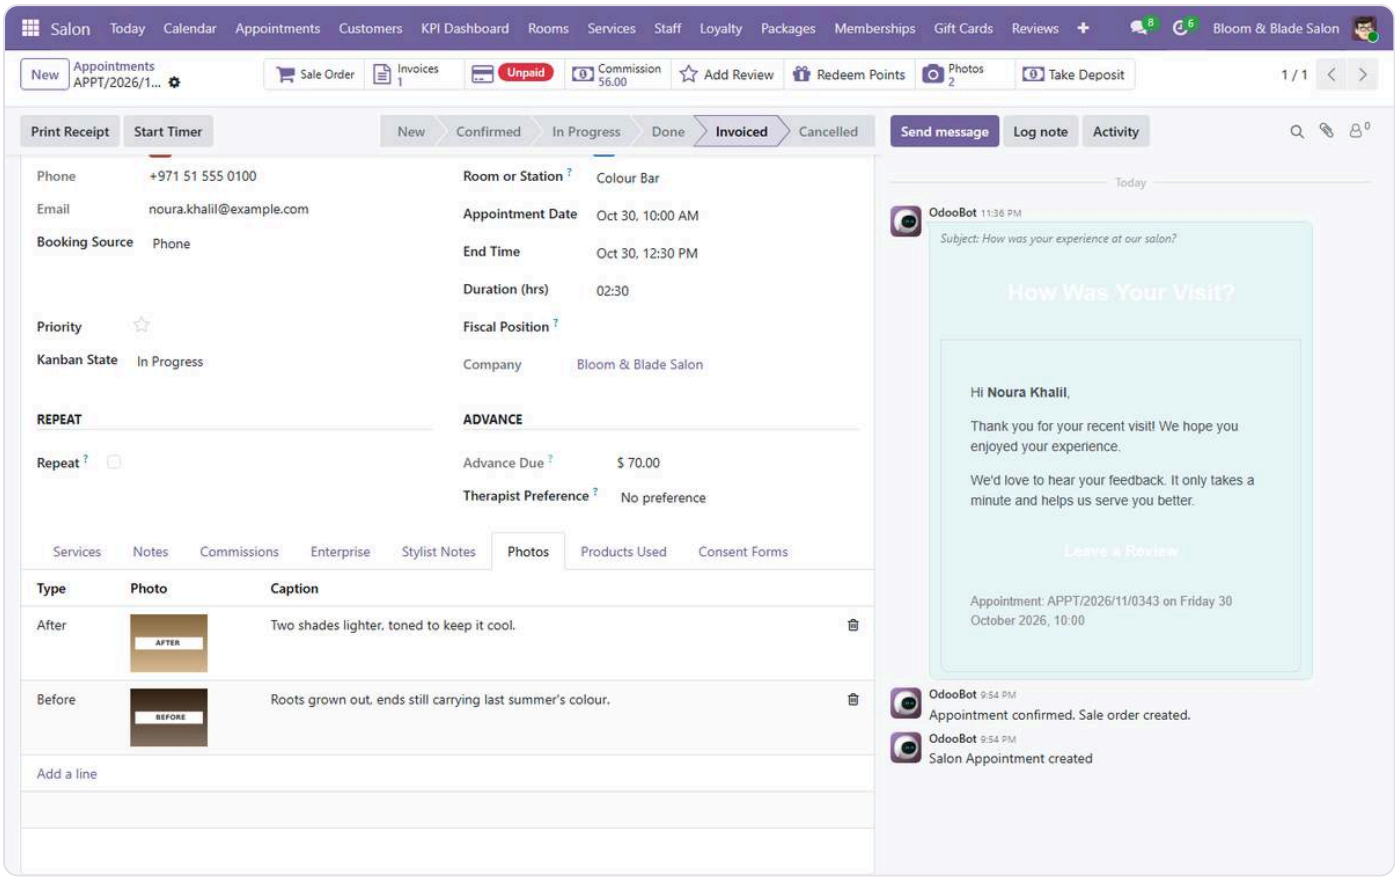

If the invoice is already posted, the module refuses to touch it and asks you to register the deposit as a payment on that invoice.

Photos, consent, notes and products

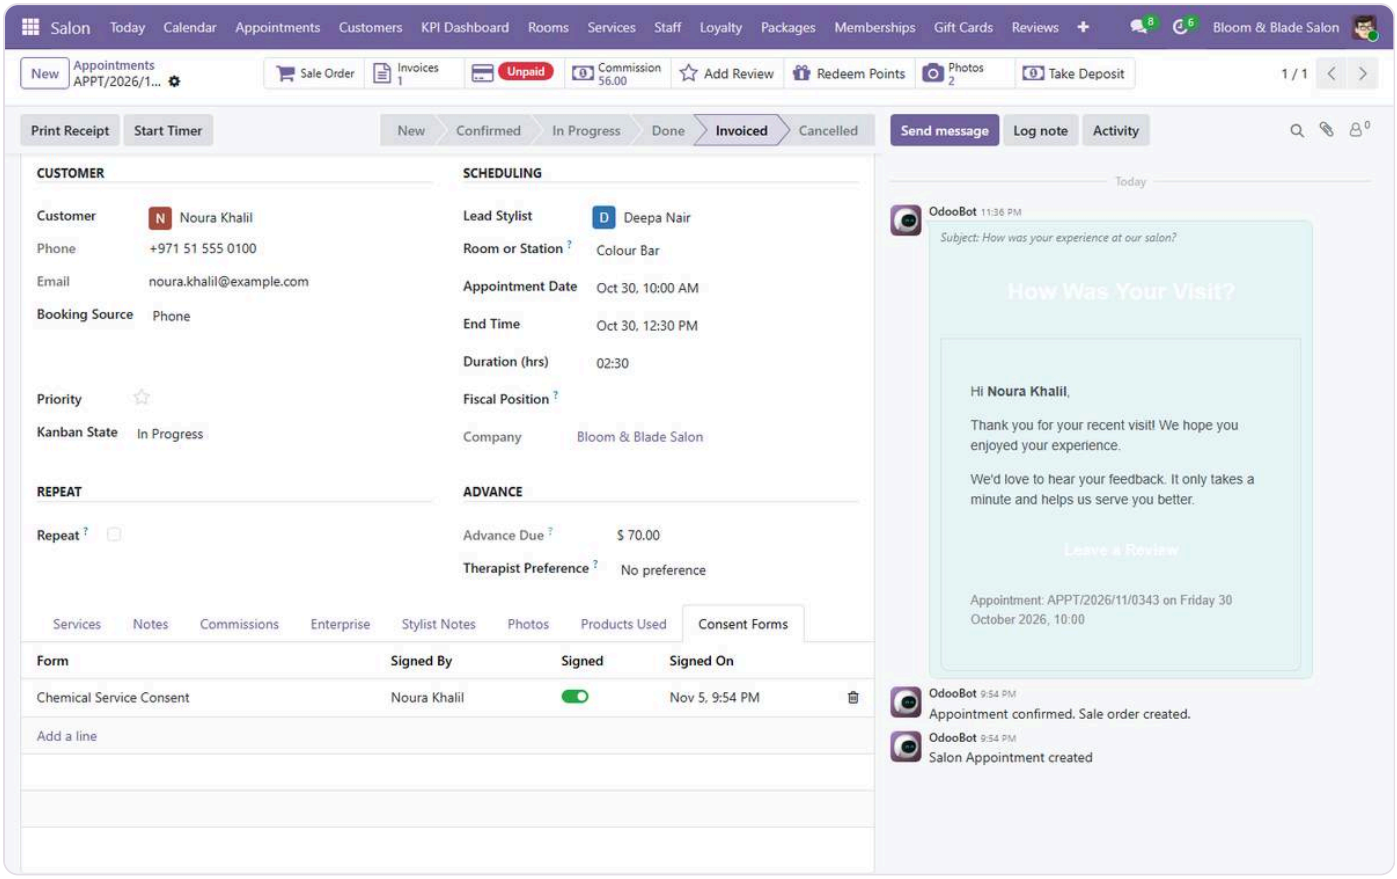

17 Before and after photos

The Photos tab on a visit: Before or After, the photo and a caption. A Photos button counts them.

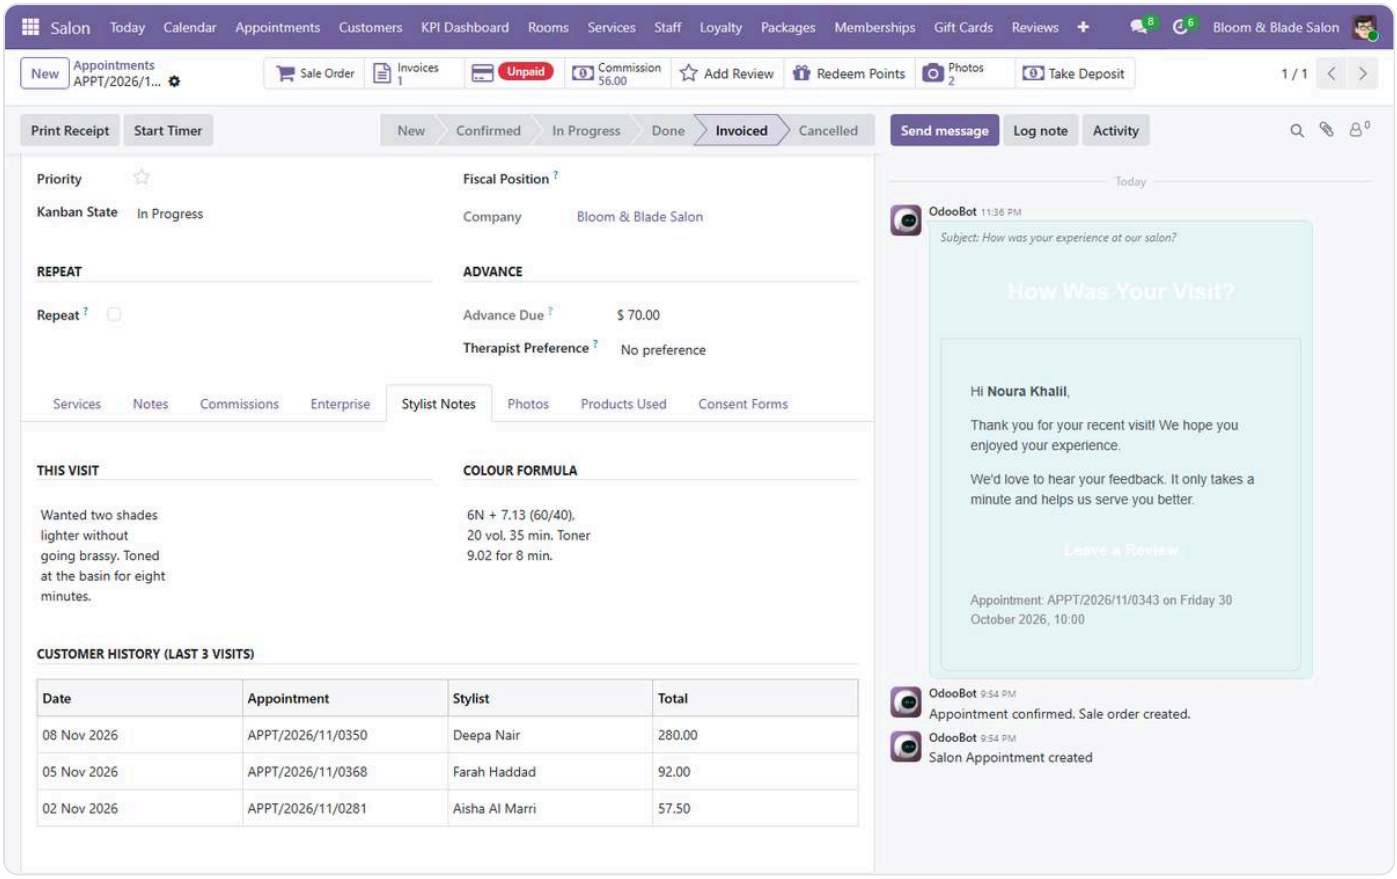

18 Consent forms

Write the wording once under Configuration, **Consent Form Templates** (Require for New Customers marks the ones always needed). On the visit, add the form, type **Signed By** and tick **Signed**; the date is recorded.

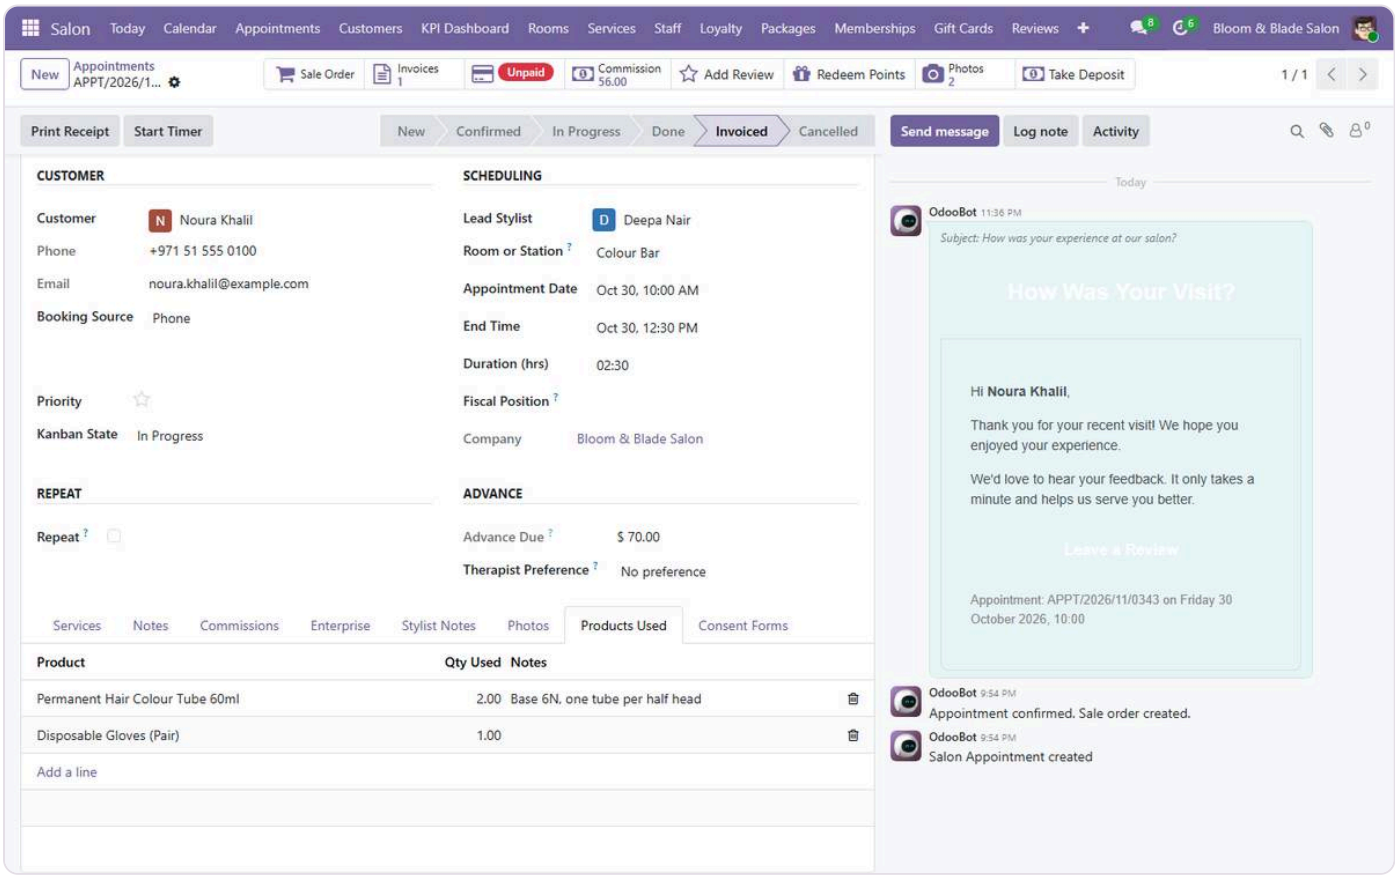

19 Stylist notes and formula

The Stylist Notes tab: what was asked for, the **Colour Formula / Product Notes**, and the last three visits with their notes underneath.

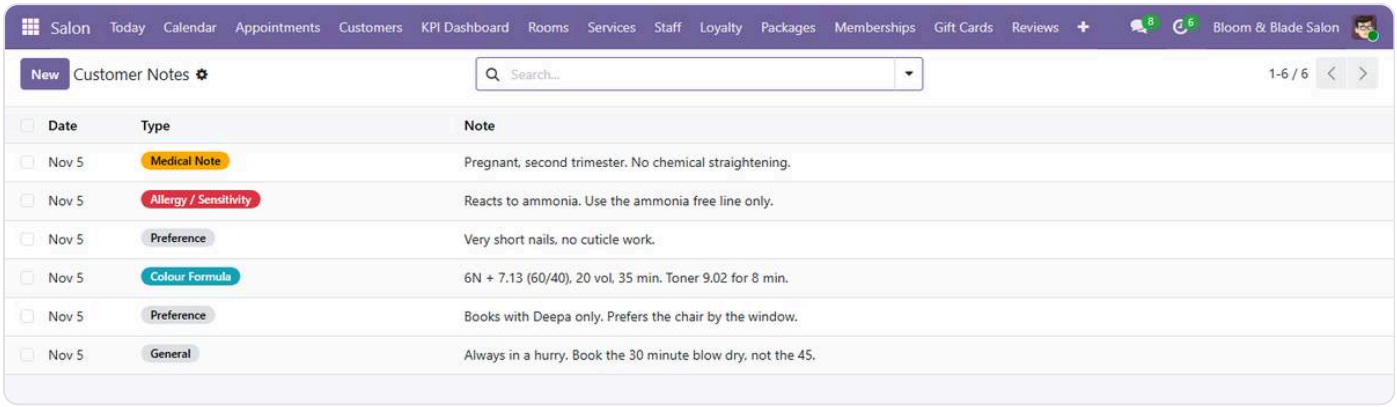

20 Products used

A free list of products and quantities used on the visit, for what a Bill of Materials does not cover.

21 Customer notes

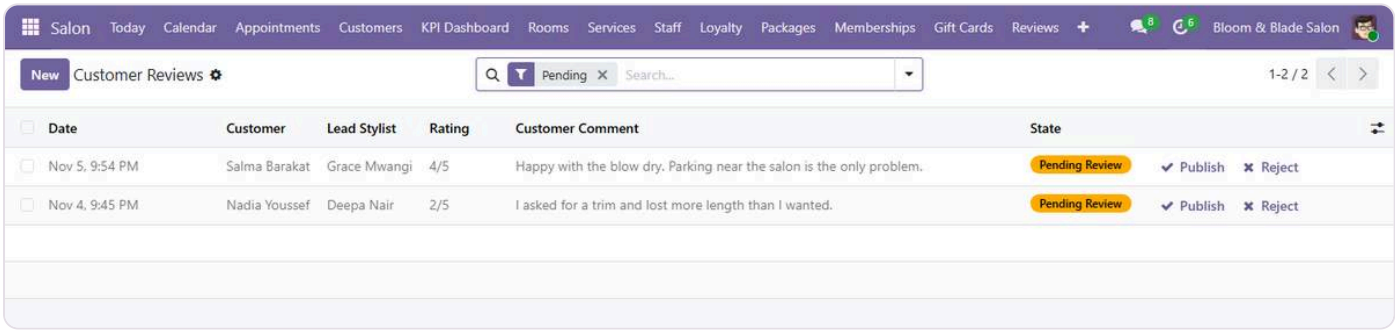

Configuration, **Customer Notes**: allergy, preference, medical, formula or general, dated, kept on the customer for good.

Reviews, waitlist and the stylist's day

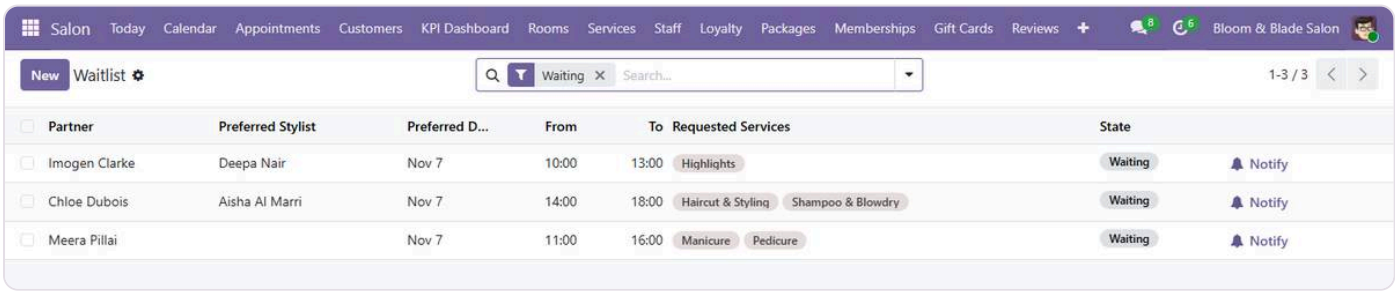

22 Reviews

Salon, **Reviews**: requests go out by email after an invoiced visit when switched on; reviews arrive Pending. **Publish** and **Reject** are on the row. One review per visit; publishing twice is refused.

23 The waitlist

Salon, **Waitlist**: the customer, preferred stylist, services, preferred date and time window. When a booking that day is cancelled the first suitable person is moved to Notified. **Book This Slot** creates the appointment with a free room, linked back, and the entry moves to Booked. Past entries expire overnight.

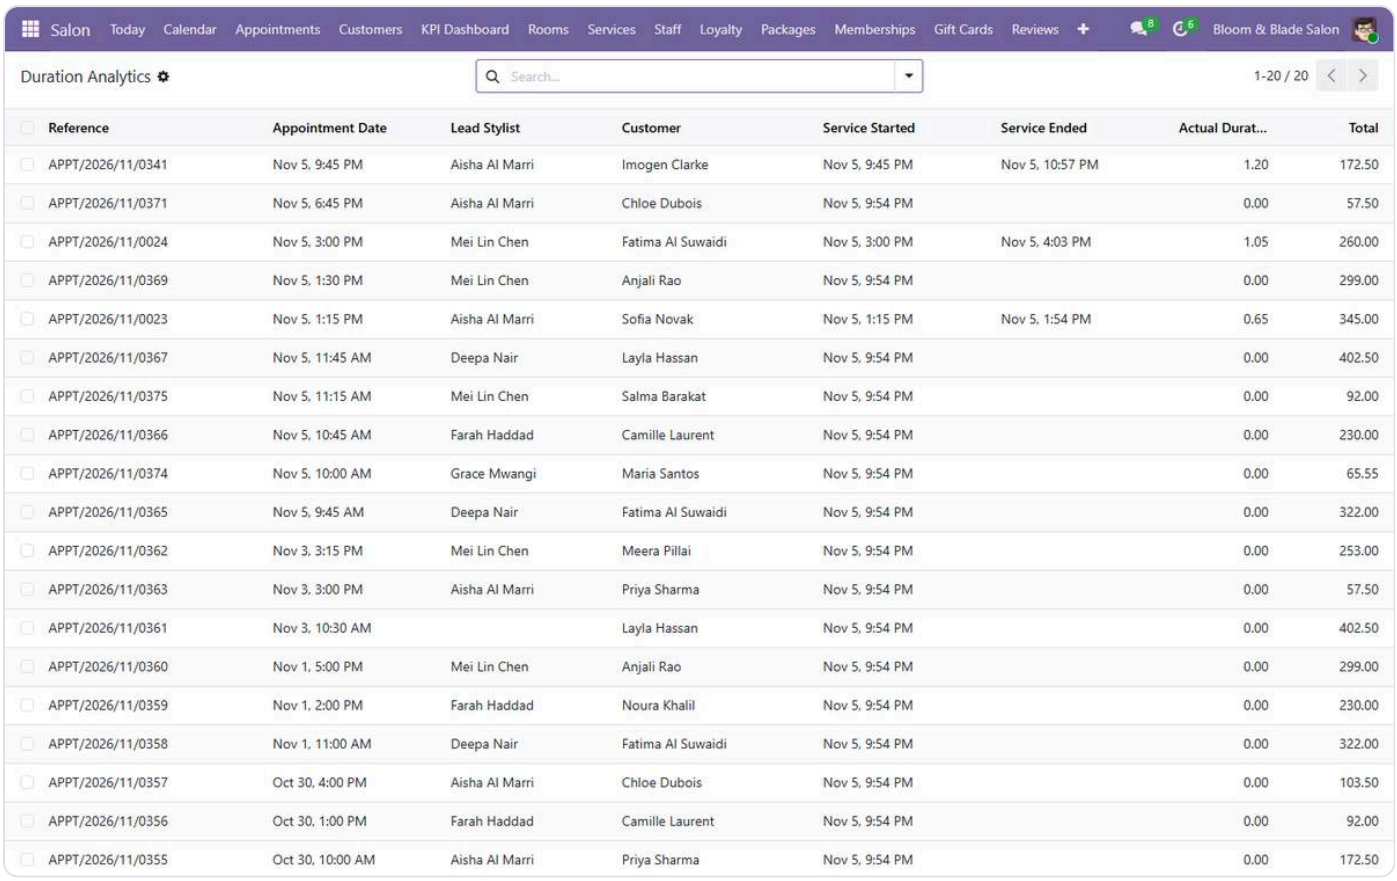

24 My Day

Salon, **My Day**: today's appointments for the stylist signed in. **Start Timer** and **Stop Timer** on a visit record the real length.

25 Service duration

Salon, Analytics, **Service Duration**: actual against booked length, before you change a service's estimate.

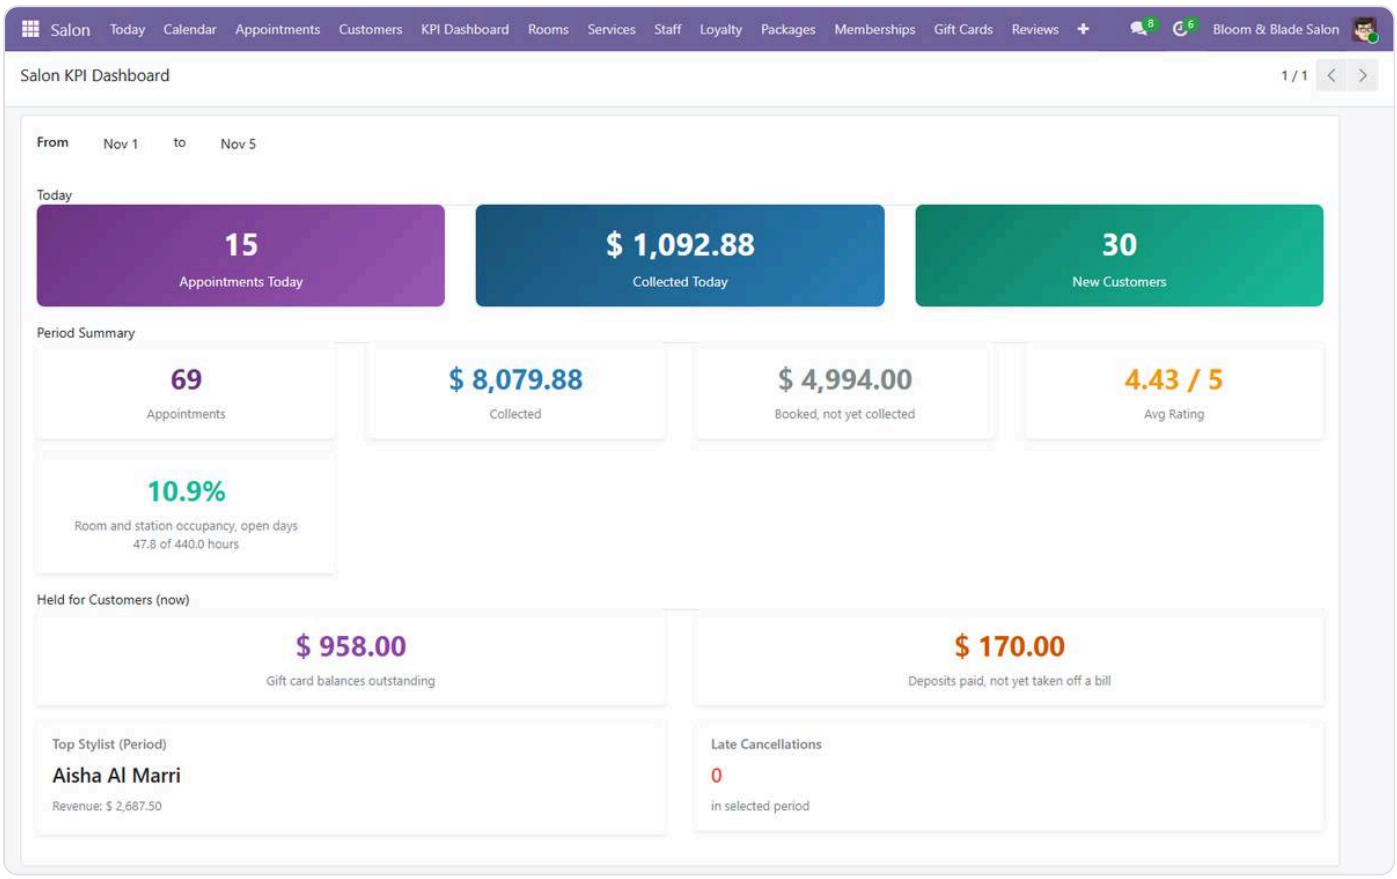

Reference	Appointment Date	Lead Stylist	Customer	Service Started	Service Ended	Actual Durat...	Total
APPT/2026/11/0341	Nov 5, 9:45 PM	Aisha Al Marri	Imogen Clarke	Nov 5, 9:45 PM	Nov 5, 10:57 PM	1.20	172.50

The owner's numbers

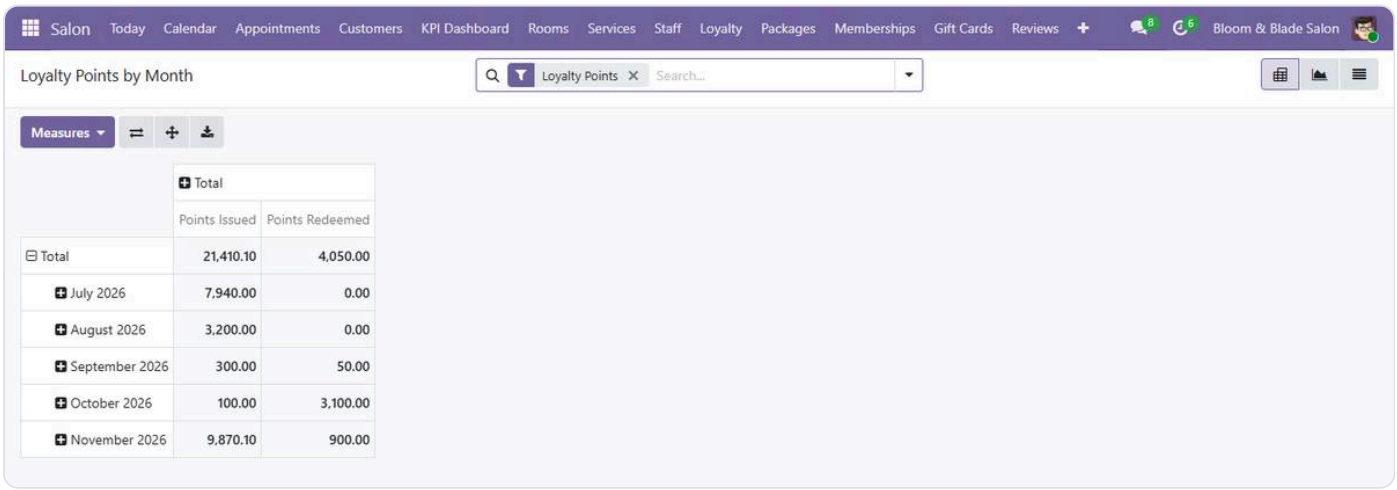

26 KPI Dashboard

A period at the top. **Collected** (money received on posted invoices) and **Booked, Not Yet Collected** are kept apart. Appointments, average rating (published reviews only), top stylist, late cancellations, occupancy from your rooms' capacity and opening hours, and **Held for Customers**: gift card balances and deposits not yet used.

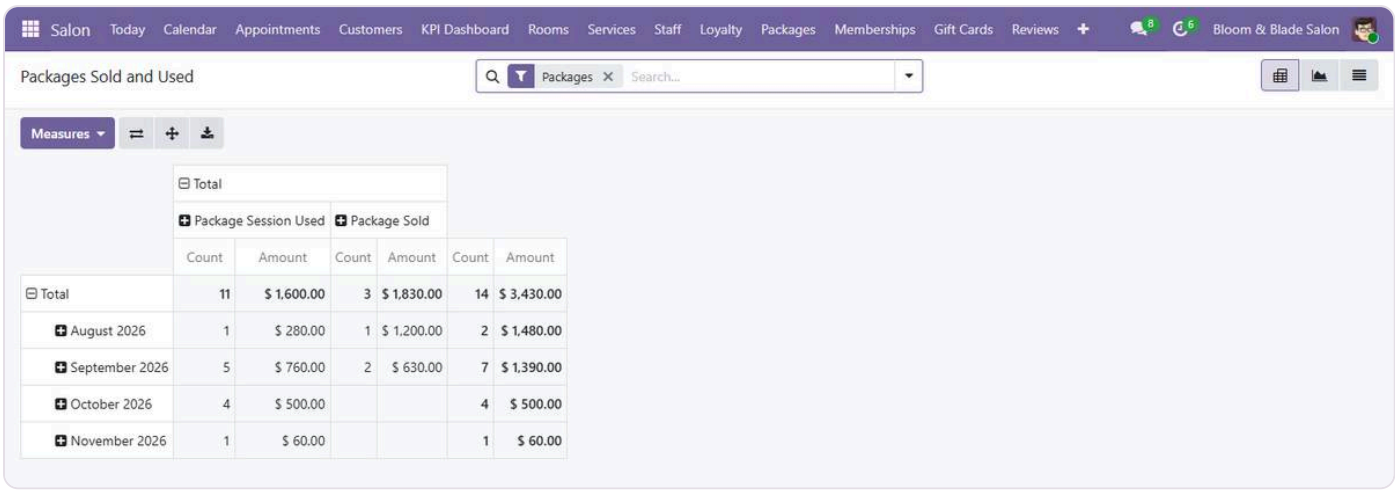

27 Loyalty Points report

Points issued and redeemed each month, never netted.

28 Packages report

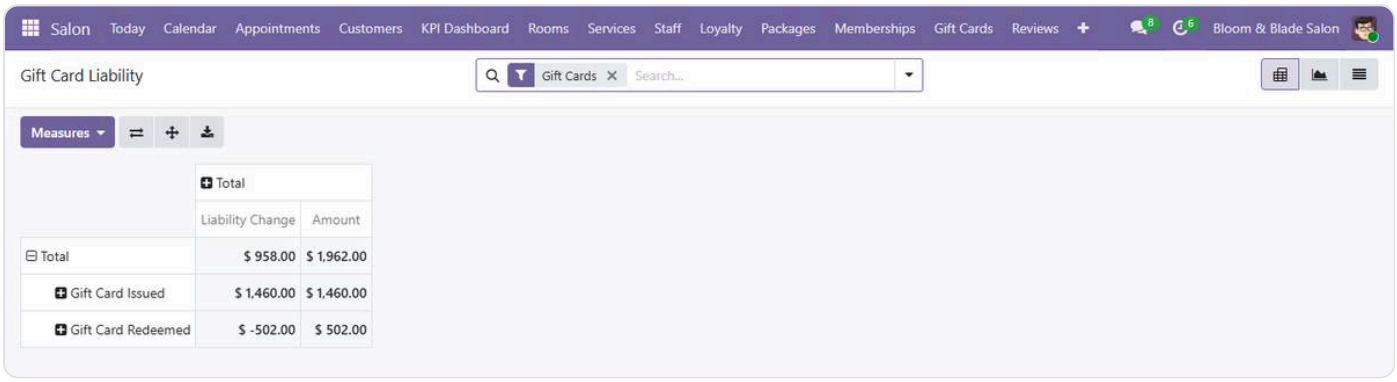

Packages sold and their value against sessions used and the value covered.

	Total					
	Package Session Used		Package Sold			
	Count	Amount	Count	Amount	Count	Amount
Total	11	$ 1,600.00	3	$ 1,830.00	14	$ 3,430.00
August 2026	1	$ 280.00	1	$ 1,200.00	2	$ 1,480.00
September 2026	5	$ 760.00	2	$ 630.00	7	$ 1,390.00
October 2026	4	$ 500.00			4	$ 500.00
November 2026	1	$ 60.00			1	$ 60.00

29 Gift Card Liability

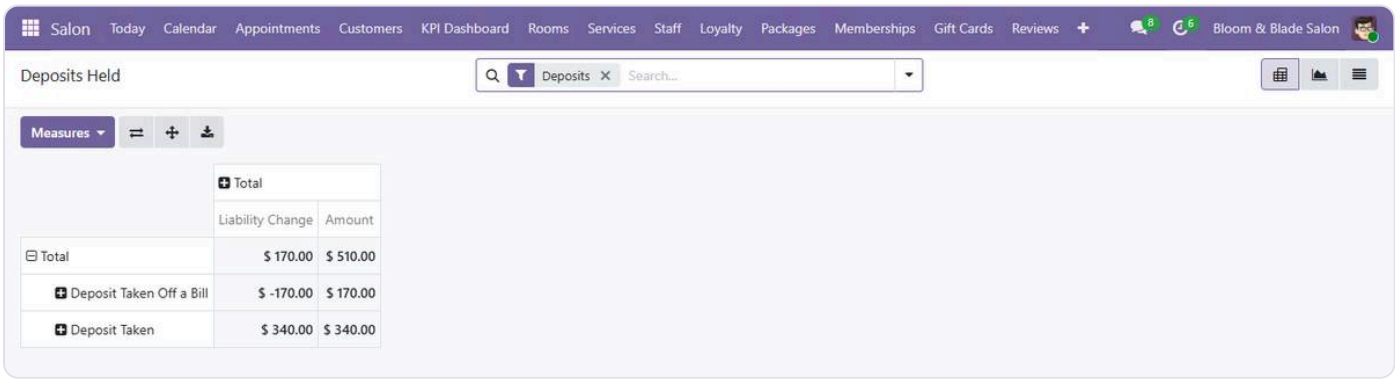

Issued, redeemed, expired or cancelled; the liability total is what active cards can still buy.

	Total	
	Liability Change	Amount
Total	$ 958.00	$ 1,962.00
Gift Card Issued	$ 1,460.00	$ 1,460.00
Gift Card Redeemed	$ -502.00	$ 502.00

30 Deposits Held

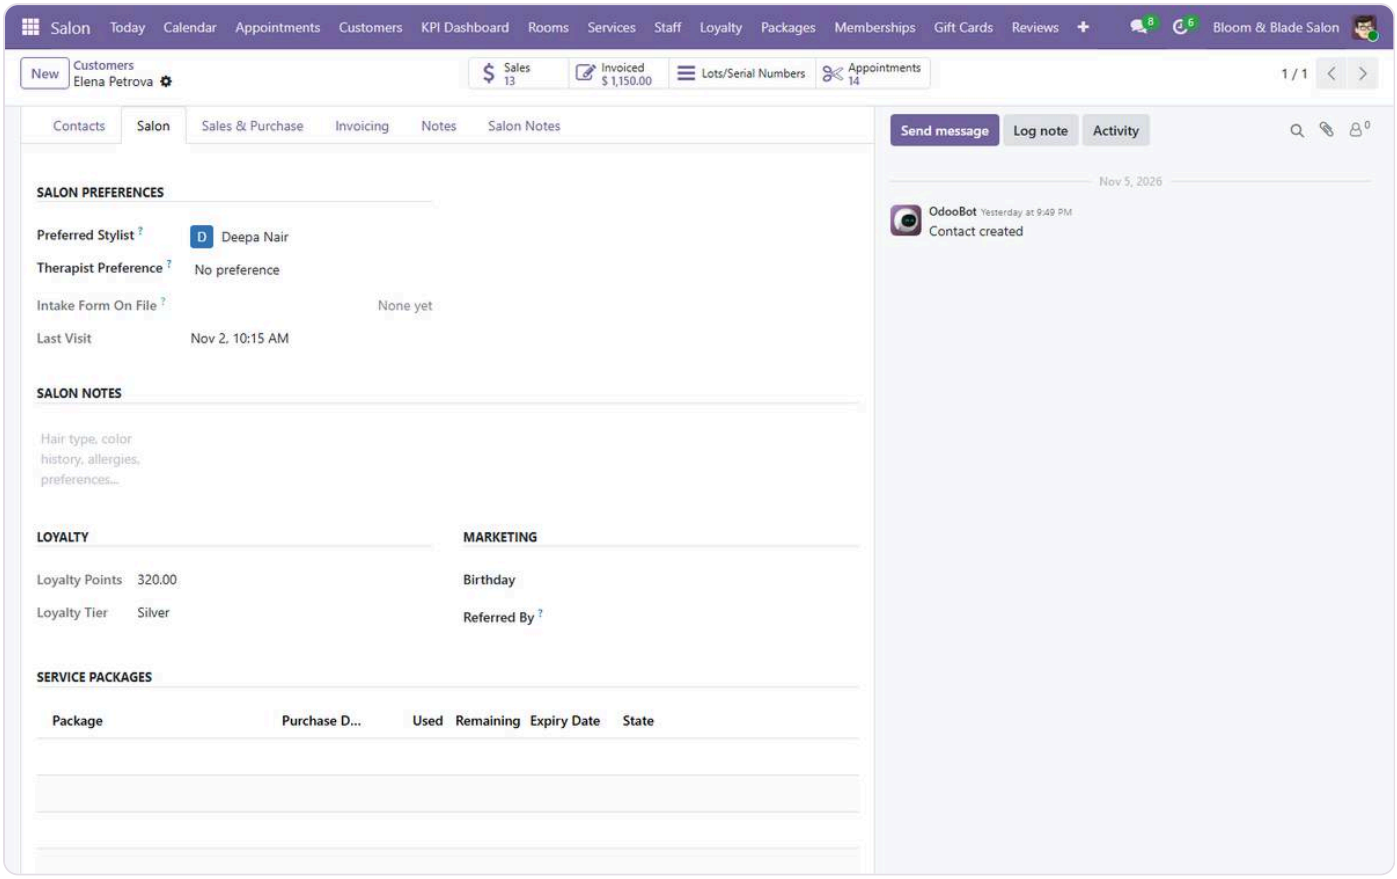

Deposits taken and deposits settled on a bill; the total is customers' money held for visits to come.

	Total	
	Liability Change	Amount
Total	$ 170.00	$ 510.00
Deposit Taken Off a Bill	$ -170.00	$ 170.00
Deposit Taken	$ 340.00	$ 340.00

31 On the customer

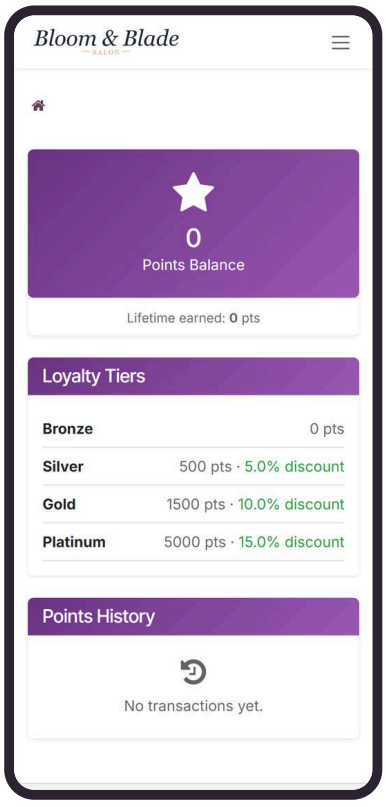

Everything the add-on knows sits on the contact: points, tier, packages, memberships, notes, birthday and who referred them.

What the customer sees online

Their appointments, with Book Again and Reschedule.

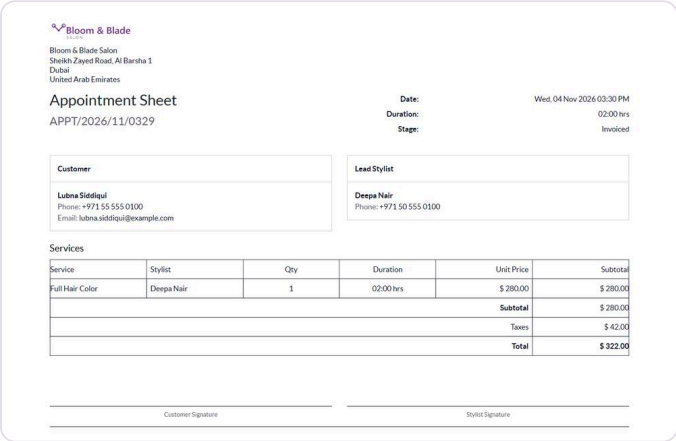

Their points balance and tier.

With a Stripe key in Settings the deposit is paid online as the booking is made. With recurring bookings online on, the form offers every one, two or four weeks, checked against the diary before any visit is written.

PART 15 Printed documents

Two reports from the base module and the till's own receipt.

DOCUMENT	PRINTED FROM	HOLDS
Appointment Sheet	Print menu on an appointment	The visit, customer, stylist, room, every service with price, totals and notes
Thermal Receipt (80mm)	Print Receipt on an appointment	Salon name and address, reference, customer, stylist, services, subtotal, tax, total, invoice and paid state
POS salon receipt	The till after payment	The normal POS receipt plus the salon block, tip, next visit and a QR to the booking page
Spa receipt	The spa till after payment	As above, headed Spa Treatment, with room and length

PART 16 A 15 minute demo script

For showing the suite to a salon owner in a quarter of an hour.

MIN	SHOW	SAY
0	salon.way4tech.com/salon, then Book	*Your customers book on your own website, on your clock.*
2	Sign in, Salon, Today and the calendar	*The day, coloured by stylist.*
3	Open a confirmed appointment	*Services per line, each with its own stylist and price.*
5	Try to book the same stylist at the same time	*Double booking is refused everywhere, with the visit in the way named.*
6	Rooms: the floor board	*Every chair and room, live.*
7	An invoiced visit, then Commission Earnings	*Commission works itself out when you invoice.*
9	Sales Targets and the Dashboard	*Targets, rebook rate and occupancy without a spreadsheet.*
10	The till (Part 12 screens)	*The front desk takes money with the day in front of them; tips go to the stylist.*
12	The spa board (Part 13)	*Rooms with cleaning time, couples on one bill, intake before the first treatment.*
14	Loyalty (Part 14)	*Points, packages, gift cards and deposits, never credited twice.*

PART 17 Questions people ask, and the limits

QUESTION	ANSWER
Community or Enterprise?	Both. The suite is built for Odoo 19 Community and installs on Enterprise.
Does it really stop double booking?	Yes, on every save: back office, till and website.
Which time zone are bookings in?	The salon time zone in Settings.
How do I record a no-show?	Cancel the visit and leave its kanban state on Blocked.
Can any stylist do any service?	Yes. Available Stylists is a suggestion for the booking screens, not a lock.
Does finishing a visit move stock?	Only for a service with a Bill of Materials.
Do I need the till?	No. The base module invoices from the appointment. The till is for taking money at a counter.
Can a stylist book at the till?	Not with the Stylist role alone; give them Receptionist.

What the suite does not do

- **Base:** no collecting the advance (recorded only), no SMS or WhatsApp, no no-show fee or cancellation window, no per stylist day view in the back office (it is in the till).
- **POS Salon:** no online booking of its own, no reminders, no payroll, no stylist working hours check at the till, one tip per visit.
- **Spa POS:** an advance carries no tax, a couples bill cannot be split between two payers, the intake form has no drawn signature, cleaning time is a gap, not a task list.
- **Loyalty:** packages, memberships and gift cards are sold at the desk, not on the website; the monthly membership fee is not collected; a gift card is not posted as a liability; a deposit is not refunded by the module; WhatsApp needs your own Meta account.

PART 18 Menu map

Every menu, with the module it comes from.

Salon: the day BASE

Today	Today's appointments, the app opens here
Calendar	The week, coloured by stylist
Appointments	All Appointments, Kanban Board, Floor, Recurring Series
Customers	Every customer with their salon history
Rooms	The floor board: every room and chair, live

Salon: catalogue and staff BASE

Services	Services, Categories, Retail Products
Staff	Breaks and Blocked Times, Commission Rules and Earnings, Sales Targets

Salon: reports and setup BASE

Reports	Dashboard, Appointment Analysis, Room Usage, Commission Earnings
Configuration	Setup Wizard, Settings, Rooms and Stations, Stages, Categories, Retail Brands

Salon: added by Loyalty LOYALTY

KPI Dashboard	Collected, booked, occupancy, ratings, money held
Loyalty	Program Setup, Customer Cards, Points Transactions
Packages	Package Templates, Customer Packages
Memberships	Membership Plans, Customer Subscriptions
Gift Cards, Reviews, Waitlist, My Day	One menu each
Analytics	Service Duration, actual against booked
Reports	Loyalty Points, Packages, Gift Card Liability, Deposits Held
Configuration	Consent Form Templates, Customer Notes

Point of Sale POS SALON

Till: Salon button	The board of the day inside the till
Point of Sale settings	Salon Mode and Stylist Tips per till
Orders	Salon Service and Stylist columns, Salon Loyalty tab

Spa SPA POS

Bookings, All Bookings	The spa side of the salon diary
Room Board, Treatments, Therapists	Rooms live, the spa catalogue, therapists with ratings
Couples and Itineraries, Intake Forms, Reviews	One menu each
Configuration	Spa Tills, Treatment Categories, Intake Questions, Rooms, Commission, Brands

Website BASE

/salon	Services by category with price and duration
/salon/book	The booking form
/my/salon-appointments	The customer's own bookings (portal)

Want this for your salon or spa?

We run the setup wizard with you, load your services, stylists and rooms, set commission and targets, turn the till on for the front desk, and add the spa or loyalty layer when you need it. Base, till, spa and loyalty are separate modules, so you start with what you use.
